ON DEMAND

7 FIGURE BUSINESS BLUEPRINT

A lot of people out there are teaching how to make a 6-figure business.

And that's good for a lot of people. But I want to equip you with the weapons you need to build and scale a business to 7 figures and beyond.

Now, I don't know your goal.

Maybe your goal is to build a billion-dollar company.

Maybe it is just to build a six-figure business, a seven-figure business, or an eight-figure business.

Whatever your goal is, there are certain steps.

There are certain key elements that you must understand and master if you want to build a successful business.

**And I'm Going To Share With You
The 5 Key Elements That You Must Master
In Order To Build A Business
To 7-Figures and Beyond.**

#1

MINDSET

Now when I say mindset, exactly what do I mean by that?

I am talking about your beliefs... your attitudes... your ideas... your insights... your beliefs about business... your beliefs about entrepreneurship... your beliefs about employees... and your beliefs about team-building.

What most people don't realize is that having the proper mindset, The Millionaire Mindset, is the foundation of a successful business.

You see, most people want to build a successful business, but with an employee mindset. But that does not work. You have to have The Millionaire Mindset, which is what you'll get inside your monthly Dan On Demand™ masterclasses.

MANAGEMENT

Companies only go out of business because of mismanagement. Period.

Because entrepreneurs and C.E.O.s mismanage revenue... they mismanage cash flow... they mismanage their marketing... and they mismanage their employees.

But management is not something that is easily taught. Management has to be learned. And leadership has to be earned.

There are tons of great books out there on leadership and management, but the best way to get good at leadership and management is to practice it.

And it starts with managing yourself.

Do you wake up on time when your alarm goes off? Or do you press snooze and go back to sleep? If you can't even manage your sleep schedule, how could you manage a team? This is just one example.

So, management is very, very key. How will you manage your team?

Start with self-management.

#3

MARKETING

You see, most entrepreneurs want to start a business and they want to build a billion-dollar company, but they don't understand a key lesson.

That business is about innovation and marketing.

Nothing happens until you get a customer. Nothing happens until you make that sale.

And The Purpose Of Marketing Is Very Simple...

It is to attract and keep a customer.

That's it.

How do you attract and keep a customer? There are hundreds of ways you can do it. And in a lot of my YouTube videos, I cover exactly how to do that. If you have not watched those videos, you can watch them on my YouTube channel.

#4

MENTOR

Having a mentor...

Standing on the shoulders of giants... and learning from someone who has been there and done that.

It is extremely critical.

Why reinvent the wheel? Why not borrow someone else's wagon instead? Whatever you want to do, someone else has already done it.

You don't have to start at the very bottom. You can start at where your mentor has gone, and start right at that level and then go from there. Isn't that a much smarter way to learn, instead of going through the school of hard knocks?

So in Dan On Demand™ in our monthly masterclasses, I will mentor you and give you the secrets to success so you DON'T have to start at the very bottom. In fact, you can start very close to the top!

#5

MASTERMIND

Hang around with people that are smarter than you. If you go into a room and you are the smartest person in that room, you've got a problem.

You want to be the poorest person in the circle that you hang out with. That's the only way you'll grow. You want to hang out with people who will pull you up.

NOT drag you down.

Maybe they are your family and friends... But if they drag you down, you don't want to spend time with them. You cannot afford to spend time with them.

That's why we have the Dan On Demand™ Facebook group - so you can mastermind and grow with your fellow Dan On Demand™ members.

So those are the 5 M's you must master if you want to build and scale a business to 7-figures and beyond: **Mindset, Management, Marketing, Mentor, and Mastermind.**

So whatever your goal is, because you're part of Dan On Demand...

You Now Have All The Tools And Mindset You Need To Build And Scale A Business To 7-Figures And Beyond!

Dan On Demand™ will give you the mindset and a mentor with our monthly trainings.

- A mastermind when you interact with the Dan On Demand™ community.
- You get marketing training from the Copywriting Secrets™ and Your First Million™ bonuses.
- And you get the management secrets from watching how I operate my companies and maybe even getting management secrets in some of the upcoming masterclasses.

All that being said, there's a concept I want you to understand: "Business is simple. People are complex."

So it doesn't matter the business skills you have, if you don't have people skills, it will be hard to run a successful and profitable business.

So spend some time working on your communication skills.

I look forward to seeing you in the next masterclass.
