Top Medical Doctor Speaks Out:

www.getwsodo.com

An Open Letter To Anyone Who Wants To Lose Up To 20 Pounds In Two Weeks *The Lazy Way*

LazyTrim™ **has already helped scores of people lose their excess pounds and inches faster and easier than they ever thought possible. Why not find out what *LazyTrim* can do for you by accepting the first two weeks supply at my risk!**

Dear Friend,

I've developed something very powerful for the almost effortless removal of stubborn bulging fatty deposits. In fact it's so powerful that, depending on how much you're overweight, it allows you to lose up to 20 pounds of fat, flab and fluids in two weeks, and amazing as it may seem, you can lose this awesome amount of weight, while you eat six meals a day!

Real meals, mouth watering delicious meals; *meals that give you that wonderful satisfying feeling that you've really eaten when you get up from the table.* But, best of all, it's based on science, factual science, not false claims nor empty promises, and I'll stake my medical reputation on it

- **NO calorie counting.**
- **NO side effects, natural, gentle, safe.**
- **NO caffeine, or harmful stimulants.**
- **NO nervousness or irritability.**

You see, being a medical doctor that has specialized in weight loss and rejuvenation for more than 25 years, I've learned a great deal about how you can successfully destroy your stubborn fat, once and for all! How you can actually shed all your unwanted pounds and inches and reverse years of over eating without the pain and effort you may have thought it once took. How you can definitely lose your embarrassing fat and flab, even if you've failed time and time again!

And my *number one* fat burning secret, the secret that has helped so many overweight people just like you lose weight the *lazy* way can be boiled down to simply this.

No matter what you've been told — trying to lose weight the hard way, the way that requires tons of effort, deprivation, and lots of will power, just doesn't work! It's not counting calories or even starving yourself that really makes the difference between a fat unhealthy-unattractive body, and a lean, healthy, beautifully attractive body.

Why? Because your body will compensate for radically decreased caloric intake and actually slow down the burning of fat. And even worse, when you go off your starvation diet, your body will overcompensate and continue what's called the "starvation response," which in plain words means you can actually gain back more weight than you may have temporarily lost!

Fortunately, there's now a way to lose weight that doesn't require counting calories or starving yourself, that doesn't require the deprivation and suffering associated with conventional dieting! It's what I call the *lazy way to lose weight*, and it's my number one secret for having a beautiful, slim, stunning body, my number one secret for enjoying the rest of your life as a happy, healthy, permanently thin person.

It's really quite extraordinary, even if I do say so myself! For your nutritional health and well being, I've formulated two very special all natural pills; plus a diet system that can literally trick your body into burning excess stored fat, while you happily eat up to six meals a day! It's a process known to medical doctors as *ketosis activation* and I absolutely guarantee that it works. The process is literally so effective that it can cause your body to go into an almost non-stop fat burning frenzy while you continue to eat up to six delicious meals a day.

A fat burning frenzy that virtually destroys stubborn fat from your entire body, even from hard to reach areas like neck and chin fat. A fat burning frenzy so powerful that I can only allow you to use the *ketosis* activating diet system for two weeks at a time!

That's right! It's a fact! Once you try this powerful and effective method for non-stop fat destruction you may be tempted (because it's so incredibly easy) to use it longer than two weeks. But I absolutely forbid it. You must give your body a chance to readjust for a period of at least one week. After this you can go back on what I call the Fat Burning Cycle and lose additional pounds. And even if you have one hundred pounds or more to lose, you can repeat the Fat Burning Cycle as many times as necessary.

I'm very proud to say, I've spent years researching and then carefully developing this diet system that tricks your body into relentlessly burning body fat, while you continue to eat up to six real meals a day. And you should know that the special pills that accompany the Ketosis Activating Diet System have been specifically formulated to give you even more support in your desire to achieve the beautiful, attractive and healthy body of your dreams!

Meet Dr. Donald J. Mantell, creator of LazyTrim the fastest growing weight loss innovation in America.

Dr. Mantell is board certified in general and family practice. He is internationally recognized as a leading expert in Wholistic health and is presently a Medical Director of an extensive wholistic health center.

His specialities are weight loss, preventive and nutritional medicine. Dr. Mantell is a member of more than thirty professional societies of health care including the American Academy of Family Practice, the International Academy of Wholistic Health, and The Linus Pauling Institute of Science and Medicine. Dr. Mantell believes **LazyTrim** is so effective that virtually anyone can now lose weight faster and easier than they ever imagined.

The first pill contains the full spectrum of both vitamins and minerals which you must have in order to safeguard against "vitamin depletion," a condition which can occur during rapid weight loss.

The second pill contains the following key ingredients which I call natural metabolic stimulators. IT'S A TOTALLY UNIQUE FORMULATION AND CONTAINS NO DRUGS WHATSOEVER:

CHROMIUN PICOLINATE (Considered a highly effective natural metabolic stimulator.)

BEE POLLEN/BEE PROPOLIS (Super high nutrition value promotes lasting energy.)

B-1 THIAMIN (Essential for carbohydrate metabolism.)

RADIX GINSENG (Recognized as natural energy booster for the last 5000 yrs!)

GAMMA ORYZINOL (May contribute to increased stamina.)

LECITHIN (Powerful nutritional factor vital to both mind and body.)

SARASAPARILLA Absolutely wonderful herbal extract for increased health and well being.)

INOSINE (A naturally occurring metabolic product which may help reduce fatigue and improve metabolic functioning.)

But, believe it or not, these very special pills are NOT the reason why my two week fat burning program will work so well for you. They're NOT the reason why you can drop pounds and inches in record time. And they're NOT the reason why you may see dramatic results from almost the very first day you try them!

The real reason why you can actually lose up to twenty pounds in two weeks the *lazy* way is due to the powerful *ketosis* activating diet system.

And with the *ketosis* activating diet system you get to do the one thing everybody else has told you not to do! You get to eat without counting calories! And I mean EAT! Six times a day! Eat so much that **one of my patients almost fainted in disbelief when she stepped on the scale after just two weeks and witnessed the incredible amount of pounds and inches that seemingly vanished!**

Just imagine eating six meals a day for two short weeks, enjoying yourself like never before, and then fitting into clothes you once thought impossible to wear. Imagine, two short wonderful weeks and you can kiss up to twenty pounds of fat, flab and excess fluids goodbye. Two short weeks to a leaner, more seductive body. It's truly the *lazy* way to lose weight!

Here is what some of my best clients are saying about their success. Of course, weight loss varies for every person and it depends on how well you follow the instructions, but nevertheless you'll have to agree that these are some pretty impressive results:

"Dr. Mantell you've saved my life. I've been on so many diets and failed that I didn't think I could ever try one again. Thanks to your lazy way to lose weight I've ***finally lost the 35 pounds I've been trying to lose*** *for more than twenty years!" Thanks again!*
—Dianna E. Oklahoma City, OK

"Since I lost 27 pounds the lazy way, *I'm bubbling over with self confidence. I've got a new boyfriend and can finally wear the clothes I always dreamed of wearing!*
—Roberta P. Long Beach, CA

"Dr. Mantell, you have developed what I consider to be one of the most effective weight loss programs available today. And quite unique! Count me in as an ardent supporter!"
—Dr. M.W., Stamford, CT

"When it comes to losing weight I really am Lazy. You must have had me in mind when you developed Lazy Trim. Thank God you did, because it worked! ***I've lost 31 pounds and still going down."***
—Audrey K. Kansas City, KS

"Dr. Mantell you deserve a medal. LazyTrim worked like a charm. ***I lost 45 pounds and never once was hungry!"***
—Loretta Y. Woodland Hills, CA

Can you blame me for believing so strongly in the power of *LazyTrim* that I've put my medical reputation on the line to prove it!

How many diet pills or plans or systems have you tried that were actually developed by a licensed Medical Doctor? Probably very few, if any. Why because most people or companies have nothing to lose if their so called weight loss programs don't work. They just don't care if your hopes and dreams are shattered. Here today, gone tomorrow, along with your hard earned cash!

Well, I've spent too many years going to college and then medical school, and then working as an intern, and then running my own medical practice during the day and doing scientific research almost every night and weekend, just to risk all this on a Fat Burning Program that doesn't do absolutely everything I say it can do. No absolutely not! I repeat, I will stake my hard-earned medical reputation on my *lazy* way to lose weight. And I want to prove it's power and effectiveness to you right now!

Here's how you can lose up to 20 pounds AT MY RISK

A 30-day supply of ***LazyTrim*** which includes the *ketosis* activating diet system plus both special all natural pills can be purchased at my Wholistic Health clinic for $79.95, which is a bargain considering what it can actually accomplish! And what better way than allowing you to try my *LazyTrim Diet System* and the first two-week supply of my 'very special' all natural pills at my risk. Here's the secret of . . .

www.getwsodb.com

"How To Avoid The *Pain & Discomfort* Of Product Development"

. . . yet still be able to earn a good income as an Independent Publisher of information and software.

Dear Friend,

One of the most difficult and time consuming tasks in the information publishing business is having to continually create new products to sell. Coming up with good products is hard work, and unless you have the tools and time to develop them yourself, it's easy to keep putting it off until "someday".

Well, my friend, we all know "someday" usually never comes.

The biggest problem most information publishers face is this: unless you develop the products yourself, you don't own them. And when you don't own the product, you usually end up having to pay someone else a huge chunk of your profits each time you sell their product.

In most businesses, this is the norm. You buy products from someone else at wholesale, and then you sell them at retail, hoping to survive on the margin. Unfortunately, the markup is generally 50% or less. Which means if you buy something at $10 wholesale, you'll generally sell it for $15, and try to survive on the $5 you get to keep . . . which is not easily done.

Of course, all the marketing costs, overhead, and taxes come out of your slice of the pie, not the wholesaler's.

Now this system works fine if you're a big company like Wal-Mart, where you average a billion dollars in sales each week. If you also average a 25% margin, you have up to $250 million a week in potential profit. And that's enough to keep the babies fed.

But most of us don't have sales figures that come anywhere near Wal-Mart's. And most of us in the publishing business don't want to give up 75% of each sale to a wholesaler. That's why you want to work so hard to develop your own products . . .

so you can keep all the profits yourself.

www.getwsodb.com

Consider the advantages of being able to bypass the wholesaler. If you sell $1,000 worth of products purchased from a wholesaler, you might get to keep $250, at best. The rest goes back to the wholesaler. But when you sell $1,000 of products you own outright…

you keep all the profit!!!

Being able to keep all the profit yourself quickly adds up in your favor. When you sell $2,000 of products you own, you get to keep all $2,000. But to be able to keep $2,000 in a wholesale arrangement, you would have to sell $8,000 in products . . . four times as much!

Of course, the actual amount of sales needed to match wholesale versus outright ownership depends on the wholesale pricing arrangements, but you get the general idea. It's much easier to make a good living when you get to keep all the profit yourself!

But to be able to do that, to be able to keep the entire profit . . .

you must own the product!

And that's the problem. In most cases, owning the rights to reproduce a product means you must first develop it. And developing products can be a very time-intensive process. Unfortunately, most would-be entrepreneurs simply don't have the time to develop their own products *(and as a result, they miss out on the huge advantage of selling products they own).*

Even people who do have time to develop a product quickly discover that it usually takes more than one or two products to be successful. Customers love being able to buy packages, combinations of products and premiums, and they love to get FREE gifts. And if that's what they want, then that's what you have to offer them . . . more than one product at a time!

In our own business, you may have noticed that we almost never offer a single product. Instead, we create great packages filled with books, CD-ROMs, and other interesting premiums. We know that by doing so, we greatly increase the "perceived value" of the product, and therefore end up with many more sales.

In addition, by adding premiums to our packages, we create a better **"OBE"** or *Out of Box Experience.* The "OBE" is the reaction your customers have when they open a package from you. And the "OBE" has a tremendous influence on whether your customer will value the product or be disappointed with it *(which leads to product returns and payment refunds).*

For that reason, it is important to be aware of, and continually trying to improve, the "OBE" of the products you sell. This can best be accomplished by making sure the customer is impressed by the box the product is packaged in, as well as its contents.

To achieve the highest "OBE", you'll want to have a professional-looking shipping label on the outside of the box, and on the inside, a warm cover letter thanking the customer for the order, a printed invoice with all the ordered items listed, and, of course, the product and premiums in good condition and packaged well.

www.getwsodb.com

If you get the "OBE" right, you'll have a happy customer, one who will value the product, appreciate your professionalism, and be happy to do business with you again. But if you get the "OBE" wrong, you run the risk of having a disappointed customer who will return the product, demanding a refund. *(Also one likely to tell his friends about the bad experience he had with your company.)*

Our Own Approach To A Great "OBE"

Now that we know the value of doing it, we spend a lot of time and effort trying to achieve a great "Out of Box Experience" for our customers. If you've ordered anything from us lately, you probably have a good idea of how we do this . . .

by creating a professional looking package and including unexpected bonuses!

We get the professional look by using the **"Order Desk Pro"** software package *(which prints invoices, shipping labels, and envelopes)*. And we enhance the value of the products we deliver by including a copy of a remarkable new book titled, **"301 Direct Mail Tips, Techniques & Secrets,"** plus one of our most popular CDs, **"593 Business Letters."**

This seems to create an exceptional "OBE" and has resulted in many, many repeat orders.

Now, You Can Do It Too!

As you may know, we occasionally offer reprint and duplication rights to books, CD-ROMs, and video tapes we produce. People who acquire the rights receive all the benefits of product ownership *(the ability to make and sell as many copies as they like)*, without being burdened by development efforts or ongoing wholesale pricing arrangements.

Owning the reprint rights to one of our books, videos, or software packages allows you to do what you want with the product . . . sell it by itself, package it with other products, add it to your catalog, sell it on your website, even give it away as a premium to attract new customers. The only restriction is that you cannot resell the duplication rights to others.

Anyway, I've decided to make the reprint and duplication rights available to a few of our most popular products in a very special package. This special package includes:

- **Reprint and Duplication Rights to the newly revised "301 Direct Mail Tips, Techniques & Secrets".** This latest version of this highly rated book

duplication. This is a great product to offer as a FREE premium, something everyone likes to have around . . . or sell them for $35 each *(or whatever)* -- it's your choice!

How You Can Create A Hot Selling Information Product On Any Subject *Almost Instantly* ...In Just 2 to 4 Hours!

www.getwsodc.com

- **You don't need to be a writer**
- **You don't need to be a recognized expert**
- **You don't even need to invest much more than pocket change to get started**

. . . and you can be on your way to profits <u>in just one afternoon!</u>

Dear Friend,

If you want to create high-profit, in-demand information products that you can sell by mail, use as retail business builders, or sell back-of-the-room at seminars and speeches, then you need to read every word of this letter very carefully.

Why? Because I'm going to reveal a well-kept secret that will enable you to create hot products in just 2 to 4 hours time… almost INSTANTLY! Products your customers will gladly pay you from $9.95 to $25.00 for.

And here's the best part. Each $10, $15 or $25 product will only cost you a $1.00! Sometimes even less!

That's at least 10 times your cost! That means it's possible to sell these products profitably by direct mail or to use them as business builders. And it means something else, too. It means you can make enormous profits!

So why haven't you been told this secret before?

I'll tell you. Because the secret has been hiding in plain sight! It's been happening right under your nose. But if you're like me, you've been so interested in the contents of these products that you never gave the "how" of the creation process a moment's thought.

And the people selling these products are so busy scooping up their profits that they seldom have the time (or inclination) to talk. Why should they? They're too busy creating more products and depositing more money in their bank accounts.

But now, you can learn the complete process, from beginning to end, so you can create these products quickly, for almost no money! And you'll see how easy it is to do.

In fact, here's everything you need to create your "almost instant" product…

To create your own information product, all you need is:

1. **A telephone**
2. **A tape recorder**

3. **An expert on any subject to interview**
4. **And a blueprint to follow**

www.getwsodo.com

That's it! See, the product I'm speaking of is an audio tape. But not just any audio tape. I'm talking about creating audio recordings of telephone conversations between you and experts in any field you choose.

Tapes in which experts offer solutions to customers' problems, explain little-known information, reveal their private methods and in brief, spill their guts in recorded conversations that your customers get to listen in on and profit from!

But don't make this fatal mistake:

Don't discount the value of these tapes. Just because they're quick and inexpensive… even fun to produce… don't think for one minute they aren't valuable, hot selling products. Nothing is further from the truth.

The information in these taped interviews can be worth a fortune to your customers… *and worth even more to you!*

I know of a dealer who, last year, sold over $50,000.00 worth of a set of five interview tapes. That's a product with an investment of less than two days' time. Would you be willing to spend 15 hours on the phone for a $50,000.00 return? That's like paying yourself almost $4,000.00 per hour!

And you don't even need to be an expert to create tapes that sell!

In fact, you may be better off by not being an expert. See, having all the answers can actually hinder your interview. Why? Because it's your job to get the expert to talk, and you do that by asking the right questions.

But there are a lot of things you do need to know so you can ask the right questions and extract the hidden profits in these interviews.

See, anyone can record a phone conversation. But there's more to the process than just taping a phone call… that is, IF you want to generate products that satisfy customers and keep them coming back for more!

That's what you'll get with this new step-by-step system, **"How To Create Information Products in 2 - 4 Hours That Customers Want To Buy."** This never-before-released material is jam-packed with every detail you'll need to easily produce hot selling tapes that make money for you like crazy!

This new manual holds nothing back!

You get every detail, trick and technique you'll need so you can start immediately. You'll create original products to start your own business, add to your product line, or use as premiums for your existing business or service. In fact, if you have a retail or service business, you can use these tapes as gifts, bonuses or incentives. And that's not all…

Here's just a sample of the inside information you'll discover in this new manual and audio tape program:

- How to stack the deck so virtually any expert will see the advantages of working with you… even if you're just beginning in the business.
- **How to approach well-known industry experts with an "offer they can't refuse" and convince them to allow you to sell their interview for FREE!**

- Five techniques that keep your interviews focused and on track, to get the answers your customers need and the best-selling tape you can have.

www.getwsodo.com

- **How to create valuable printed material to accompany your tape without having to write a single word.**
- Three steps to make your on-tape nervousness evaporate into "thin air".
- **A little-known secret that is guaranteed to increase your listeners' satisfaction and make them want to buy more tapes from you.**
- Simple techniques to make your experts' ideas crystal-clear for your listeners, so they can understand, apply and profit from what they hear.
- **How you can uncover dozens of hot-selling topics for your audio tapes by answering a few simple questions (that are spelled out for you).**
- The three crucial qualifications any expert absolutely must meet if you want to extract maximum profits from your tape.
- **The single most important question (that almost no one ever asks) that could make or break your tape's profitability!**
- How to literally force your expert to dig deeper than "yes" or "no" answers, to get your listeners the specific details they want to hear.
- **How a little flattery absolutely guarantees that you stay in control!**
- How to avoid legal stumbling blocks without spending a dime on an attorney.
- **The five most common problems that sabotage an interview and how you can easily avoid them.**
- The interview techniques used by the Pros to produce dynamic, information-packed interviews.
- **How, with one inexpensive extra step, you can double the perceived value of your tape and increase your selling price… and your profits!**

…and you get much more! You'll learn what equipment you need -- which brands last longer -- how to get the best recording -- deep discount sources for all your tapes and supplies -- how to save on duplicating costs -- and a lot more. Plus I want you to have this, too:

BARELY LEGAL SLOT MACHINES…

Probably Japan's most closely guarded secret until now…

It's hard to believe. The story I am about to tell you is true. If you believe me you will be well rewarded. If you don't believe me, I will make it worth your while to change your mind.

My name is Joseph Russell. I am not a professional ad writer. But what I am about to share with you is so extraordinary and so unbelievable; I decided to write you myself. So bear with me a little.

This all started on my last trip to Japan, during a visit to one of our largest suppliers. While watching a 40-foot cargo container being loaded, I saw something that made me very curious. I noticed what appeared to be Las Vegas style slot machines, over 400 of them!

Illegal Gambling?

Curiosity got the best of me, so I asked Vince, the owner of the company, why they were loading slot machines. Vince explained that traditional gambling games like Black Jack, Poker, Craps, and Roulette, are illegal in Japan. The only legal gambling allowed is playing slot machines. As you might imagine, slot machines became so popular in Japan, they exploded into over 30,000 casinos! Compare that to the US, where there are fewer than 5000 casinos! It has become a huge part of the Japanese culture.

Government Law States Machines Must Be Replaced Every Two-Years!

Although these are commercial machines designed for 10-20 years of service, Japanese government law states the machines must be replaced every two years. This is done to boost the economy, and keep the casino owners honest.

$3,887 Retail Price Tag

Vince told me these machines were being distributed on a limited basis to select companies worldwide. The machines were then sold for home amusement. I asked Vince, what the machines cost. Vince told me when they were new, these machines sold for over $3,800, but we could offer them to our customers for a fraction of that price.

Three Curious Buttons

I noticed there were three curious buttons on the front, one below each reel. Unlike slot machines in Las Vegas, where you just press the spin button and rely on luck, each of the three buttons allows you to control when each reel stops. Since you control each reel, it becomes a game of skill, rather than a game of chance. This style of machine was inspired by the Japanese,

who felt traditional slot machines were unfair, because there is no skill involved. [illegible]

www.getwsodo.com

Las Vegas Action at Home

When I put a coin in the machine I could not believe what happened next, nor will you. The three reels began to spin and I heard the familiar bells and whistles of a slot machine. Pressing the stop buttons was like me against the computer! After a few spins I was lucky enough to line up 3 sevens, and the machine went nuts! The machine erupted into a full five to eight minute show of pure casino excitement! The coins were spilling out into the tray just like in Vegas!

Commercial Size Machines

You will be amazed by the mammoth size of these machines. They are full size commercial slot machines with flashing lights, and stereo quality sound. Each machine stands almost three feet tall and weighs about 90 pounds.

Lowest Cost Entertainment Item

Today a pinball machine costs almost $4000. A decent pool table goes for $3,500. This past weekend I saw an air hockey table in a sporting goods store that was close $900. Even one of those new flat screen TV's is over $700. You will pay far less than any of these examples. The skill stop slot machine is by far the lowest priced entertainment item in your home, game room, or office.

You are the Casino Manager

Imagine your guests surprise when they pop in and see your new slot machine! It is sure to be the big hit of your next party or family gathering. Even at the office, these machines increase productivity! You can entertain employees, hold contests, run promotions, impress customers, guests, or friends, and write off the purchase as a business expense. You will be the casino manager as you show off your new slot machine!

Years of Challenging Play

You will absolutely go crazy over these machines! They are fun for all ages. Just when you think you have mastered the machine, you can adjust the odds for up to six different skill levels! You will enjoy many years of trouble free service and entertainment.

Plug and Play

Each machine is given a rigorous 33-point inspection by a qualified technician. They are thoroughly cleaned, and all electronic components are carefully checked to insure they operate correctly. They plug into any standard household electrical outlet. Setup is simple, you just plug and play. Each machine includes a one year limited warranty, to further insure your investment is well protected.

An Honest Admission Regarding Service

www.getwsodo.com

The skill stop slot machine is a solid-state computer with its electronics condensed on integrated circuits, all hermetically sealed, and pre-tested for a lifetime of service. The machine is also self-diagnostic. Let's say something goes wrong with the machine. You just check the error code displayed on the front panel, and refer to the instruction manual. Simply follow the instructions to reset the machine, refill the hopper, or clear a coin jam, etc. Even your TV or stereo isn't that easy to repair.

Is it Legal?

It is our opinion the skill stop slot machine is legal for home entertainment use in all 48 states, except California. We cannot sell or ship this machine to California. Due to strict gaming laws, these machines are set up to accept authentic international gaming tokens. I will include 100 of these genuine gaming tokens with every machine, a $50 value free! Be sure to read my special bonus offers below for extra gaming tokens and other items valued at over $340 free!

No Shipping Worries

Shipping an item of this size could cause concern, but there is no need to worry. Our shipping method has been tested and approved the International Transit Safety Association (I.S.T.A.) and by FedEx, our shipping carrier. Each machine is fully insured against damage and guaranteed to arrive in perfect condition. However, in the event something does go wrong, just contact our customer service department and we'll take care of the rest.

Vince and I Strike a Deal

Vince and I made special arrangements to deliver one of the containers directly to our warehouse here in the USA. Every machine is registered with a unique serial identification number and given a gold seal of quality approval.

Cheaper than Starbucks

We are offering the skill stop slot machine to our customers for just 3 easy payments of only $99.95, plus shipping & handling. That's just over $3 dollars a day. Heck, that's less than that double mocha latte you get at Starbucks every morning.

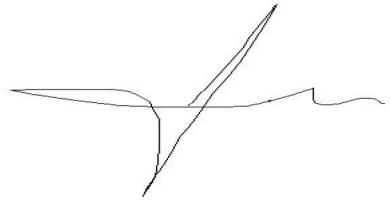

So what you should do right now is order a skill stop slot machine. Have your credit card ready and call our toll free order line at 800-246-6208 or mail the enclosed order card. Operators are standing by.

From: The Desk of Kent Sayre

Date: Wednesday, June 22, 2005

Portland, Oregon

Dear Friend,

My name is Kent Sayre and what you're about to discover will change your life forever. You see, I've stumbled onto a revolutionary breakthrough that lets the ordinary 'joe' *get extraordinary results* in the area of persuasion.

Why Persuasion Is The Hidden Skill Of The Mega Successes…

These skills enable you to sell more, get chosen for the promotion over the next guy, land your dream job, get more hot dates with attractive people, and talk your way out of speeding tickets. You'll get all those results and yet for now we're going to focus on how you can sell more.

I've shamelessly named this one-of-a-kind system "**The Ultimate Persuasion Formula**". Folks, this is what it is. And later on in this letter, I'm going to make you an offer you simply can't refuse. As you continue reading this, you'll find yourself understanding for all the obvious reasons in your own mind now why it makes sense for you to own this unique system based on my hypno-persuasion technology.

How I Applied High-Level Hypnosis Skills In The Business World For An 'Atomic Bomb' Like Effect…

You're probably asking yourself what makes this system different than all the rest, aren't you? To show you this, let me briefly tell you my story of how I painstakingly crafted these techniques. My formal training is as a hypnotist. I'd see people who want to make changes and by using my hypnosis skills, I helped people lose weight, stop smoking, and make other powerful, permanent changes.

www.getwsodp.com

And then one day I got bored. That's it. I just got bored of doing the same thing over and over again. I needed a new challenge. So I decided to apply my skills getting out in the business world where it's 'sell or starve'. I wanted to know how well the hypnosis skills worked 'out there'.

Click Here To Order Now

I Ended Up Buying 2 Million Dollars Of Real Estate…

I got into the real estate investing business. And you know what? Some of the things didn't work at all. So I chucked them. There were other things that worked pretty well and a few things that worked *extremely well*. All the gold nuggets that brought real results (read CASH) I have bottled up and put into this course. How well did the techniques work? Well, they allowed a 25-year-old (me) to purchase over **$2,000,000** (that's two MILLION) bucks of real estate using none of my own money.

Why am I telling you all this? Because to me, ***the proof is in the results***. "Show me the money". Where's the proof? If you're like me, you're skeptical when someone claims to have great techniques. As you read this letter, you'll quickly find that skepticism disappearing until its not even there. Why? Because of the results. So these techniques work.

My Hypnotic Persuasion Skills Sold 29,615 Books In A Year…

Then I wrote a book about how I overcame my shyness using hypnosis techniques. It's called "Unstoppable Confidence". Such notable heavy hitters in the self-development field as Brian Tracy, Jim Rohn, and Robert Allen came out to emphatically endorse it. I knew nothing about marketing when I got started. And back then, I was just a one man band promoting my book.

Using my persuasion techniques and applying them to marketing, I've sold just over **29,615 books in a year**. Friend, that's **$442,744.25 worth of books**. This example ain't here to impress you. It's just to let you know an ordinary guy (me) with some extraordinary techniques (all jammed into the course) is getting superstar results. And most importantly, **YOU CAN TOO**.

What I'm Doing Here Will Probably Get Me Banned…

What I'm doing here is very controversial. In fact, it will probably get me banned from the hypnosis community and branded as an 'outlaw'. The reason why is all these hypnotists understand how powerful these skills are and don't want them released to the general public. They want it so that only highly trained hypnotists and doctors can use hypnosis.

To me, that's a bunch of nonsense. There's no point shackling these techniques to the therapeutic realm because they're just too powerful not to share. I've proven it. My private clients who I've taught these groundbreaking skills have proven it over and over again. So I'm releasing my system to the general public for the **first time ever**.

We Only Offer The Course To A Select Group Of People…

Since these skills found in **The Ultimate Persuasion Formula** are so powerful, I'm not

Everyone who owns **The Ultimate Persuasion Formula** has to agree to use this technology with the best intentions.

In fact, if I catch people abusing the technology, I immediately refund their money and insist they send back the course. Alright, you get the picture here, don't you? I'm only looking for the people truly serious in wanting to make a quantum leap in their persuasion skills because for those people, I'm your guy.

With This Technology, You'll Sell More Than You Ever Have…

The bottom line is that when you ***use this unique system***, you'll flat out sell more than you ever have. Pure and simple. Imagine the look on your co-workers faces when you smash the sales records. Imagine…RIGHT NOW…you as the top dog in the office…*your fat commission checks*…the proud look on your spouse's face…the guilty pleasure of knowing this course was your secret that let you take the quantum leap into **the mega success you were always meant to be**…pretty cool, isn't it?

Hey, along with just selling more, I'm going to sneak in some **bonus** benefits for you too that you get as you become a master persuader. These benefits alone are worth the entire cost of the course.

- ☑ One of my clients used her persuasion skills in interviewing for some jobs she wanted – The results? She got five job offers, all at higher pay than she expected and ultimately chose her favorite one!

- ☑ Another of my clients, a very ordinary looking guy, uses his persuasion skills to meet and date very attractive women!

- ☑ In my former career as a software engineer, I convinced my boss to give me a week off with pay AND pay for an educational seminar I was dying to attend even in a down economy and tight budget!

The application of these skills is endless. Selling more, landing the dream job, getting the dream date, getting the promotion, and talking yourself out of a traffic ticket. Really everything is a persuasion situation when you really think about it. *Everything you ever want now is going to come from someone else*. And how are you going to get it? Through some form of persuasion.

Why Does The Ultimate Persuasion Formula Trump All The Other Courses?

The short answer is because I've designed it based entirely from the ground up using my hypnosis background and taking it out into the trenches of the business world. I've spent four years of my life perfecting this technology, getting knocked down and getting back up so you don't have to. I've learned all the hard lessons and converted all the hypnosis techniques to be alarmingly powerful for savvy, street-smart selling.

To develop this breakthrough technology, I've read hundreds of books on such diverse topics as sales, persuasion, neuro-linguistic programming (NLP), linguistics, and hypnosis. Furthermore, I've spent countless thousands of dollars to attend seminars to learn hypnosis.

Could you recreate this technology yourself? Sure you could. It'd take you years of learning, thousands of hours of research and application, and thousands upon thousands of dollars in education. And you'd have it yourself. What I'm offering you here today is a shortcut. See, all **the best and the brightest piggyback on what has already been done instead of starting from scratch**. That's what I'm inviting you to do here now. This course is the one resource your competition hoped you would never find out about!

The Amazing Money-Making Secret Of A Desperate Nerd From Ohio!

Dear Friend,

If you would like to make a lot of money very quickly, this is going to be the most exciting message you will ever read.

Here is why: my name is Gary Halbert and, some time ago, I was dead broke. My business was almost bankrupt and I couldn't even pay the rent. Actually, I wasn't just broke, I was *desperate*.

Then, one day, I came up with a "crazy idea" about how to write a certain kind of sales letter (it was not a chain letter) that would get people to send me money.

I was living in Ohio at the time and my friends laughed at the idea. They thought it was a big joke. They said I was a dreamer and that I had no "common sense." In fact, one guy said I was just a nerd and that my idea was so silly, he felt sorry for me.

Oh yeah? Well, I didn't care. I still thought I had a good idea and I typed up a few of my letters and started mailing them out. And guess what? People *did* start sending me money. And I used that money to mail more letters which brought in more money. And I used that to mail *even more* letters which brought in *even more* money...

And so on.

What's the bottom line? Simply this: before I was finished, that one simple letter pulled in...

More Than 7,300,000 Replies

Think about it: more than *seven million* people wrote back to me and every one of those people sent a check (made out to my wife) or else cash I could put in my pocket. And what was I selling? Actually, it doesn't matter. You see, the magic was not in the product, *it was in the letter!*

Do you have something to sell? If so, you can use that "crazy idea" I used in my letter to create a letter of your own and sell almost anything you've got.

Who Needs This Secret?

- Are you a salesman who needs more leads?
- Are you a housewife about to get a divorce who needs a simple way to make a lot of money?
- Do you have a furniture store, restaurant, car dealership, hot dog stand or some other kind of establishment you'd like to see swamped with customers?
- Are you a manufacturer who would like to sell so many of your widgets you'll have to run extra shifts to meet the demand?
- Are you a marketing consultant who likes to keep up with new ideas and techniques so you can better serve your clients?
- Are you an M.D., a dentist, a chiropractor, an optometrist, a therapist, or any other kind of health care professional who would like to see your waiting room *bursting* with new patients?
- Do you have a house you'd like to sell? A *thousand* houses? A car? A boat?
- Do you have *anything* you'd like to sell? Consulting services? Products? *Yourself?*

If you answered "yes" to any of the above questions, you should try my "crazy idea." You can read all about it in my new book called...

How To Make Maximum Money In Minimum Time!

Listen: many years ago, I thought I wanted to be a salesman. I got myself a job selling encyclopedias door-to-door and I kept at it until I was darn good. But there was a problem. You see, I could only knock on about 40 doors each evening. And therefore, no matter how hard I worked, there was a definite ceiling on my earning capacity.

And besides that, selling door-to-door is a *horrible* way to make a living!

So, I kept searching and searching until I came up with my "crazy letter idea" which is the first experience I ever had with what I call RCS or "Remote Control Selling."

RCS uses the secrets of something else I developed called "Killer Advertising" which almost *forces* people to buy *whatever* you are selling. And, what RCS lets you do is, sell *almost anything* without ever meeting your customers in person...*or even talking to them on the phone!*

These "remote control" selling secrets of "Killer Advertising" can be used by anyone. Even a housewife, a student, or someone who is unemployed. And, if you have a business (or you *want* to have a business), these secrets can generate so much cash-flow, you may actually have a hard time getting all the money to the bank. I'm not kidding. My "crazy letter idea," for example, brought in...

More Than 20,000 Checks Per Day!

By the way, getting that many checks every day means you have to hire at least 30 full-time employees just to make your bank deposit. But anyway, my "crazy letter idea" isn't the only thing you'll learn when you read my book. No. *That's just Chapter One!* Here is a sample of what you will learn when your read the rest of the book:

- How to get a product to sell if you don't have one already, and how to get it for nothing! (see page 11)

About Gary Halbert

Mr. Halbert teaches at money-making "boot-camps" all over the U.S. and hordes of people gladly pay $5,000 to attend these 3-day sessions. He has helped hundreds of people make millions of dollars. Gary's fees are astronomical and his clients are often famous.

He has been paid as much as $600,000 for just one of his money making ideas, and his clients have included Howard Ruff (the famous financial advisor), Ernest and Tova Borgnine, Robert G. Allen (author of Nothing Down), Geoff Scott of Dynasty, and many others of equal fame.

And best of all, you can learn many of Mr. Halbert's powerful money-making secrets by reading his book which is described in this announcement!

- An amazing secret that can turn your local newspaper into your own personal goldmine. (see page 29)
- How to get the exact name and address of thousands of people who would love to send you money! (see page 37)
- What to write on a cheap little postcard that will make people *flood* you with cash! (see page 41)
- How to mail up to 100,000 letters per week at no cost whatsoever...*not even postage.* (see page 53)
- How to use "976" phone numbers to get people to *pay* to hear your sales pitch! (see page 57)
- How to use the Yellow Pages of your phone book in a secret way that will flush out huge wads of money! (see page 65)
- How to use cheap little classified ads to make as much as $10,000 per day! (see page 71)
- How to get yourself or your product featured on cable TV at no cost whatsoever! (see page 89)

There's more. A *lot* more. Including how, (if you're not married), to use RCS to find your dream lover, how to get the most valuable gift in the world absolutely free (I was once paid $2,500 for one of these), how to avoid legal hassels and lawsuits from "human buzzards" who are jealous of your success, and so on.

OK, that's it for now. I'm running out of space here. But anyway, I hope I have given you enough information about my new book to make you decide to get it and read it right away. But please...

POSTDATE YOUR CHECK OR MONEY ORDER FOR 30-DAYS AHEAD!

Look, the cost of my book is extremely low compared to what you get. However, even so, I don't want to deposit a single penny of your money until you read my book and find out for yourself how good it really is. Does that sound strange to you? I'm sorry if it does but no matter what...***I intend to treat you like I would like to be treated!***

In other words, I think you deserve to be able to read my book *before* you allow me to cash your money order or check.

Here's how to order. All you have to do is write your name and address and the words ***"Maximum Money"*** on a piece of paper and send it with your check or money order (postdated 30-days ahead) in the amount of $19.95 plus $3.00 postage and handling (total $22.95) to:

Everett & Lloyd, Inc.
Dept. 208
5701 Overseas Highway, Suite #4
Marathon, FL 33050

That's all there is to it. As soon as I receive your order, I will send the book to you immediately...

BY FIRST CLASS MAIL!

You'll get the book right away and you'll have plenty of time to read it and check it out. Then, if you are not 100% satisfied, just return it to me and I'll send you back your *uncashed* check or money order with no questions asked.

Do you want *extra fast* service? If so, you can use one of your credit cards and order by phone and...*you still get 30-days to check out my book before I process your credit card charge!* The number is...

(800) 327-0028

By the way, checks and money orders should be made payable to Everett & Lloyd, and it is *not* a good idea to mail cash. Thank you.

Those Four Days Altered My Entire Thought Process!

"I Was Held Hostage For 4 Days By The Sharpest Minds In Direct Mail"

"And when it was over, I didn't want to leave. I had learned the ultimate skill... how to make real money anytime, anywhere. All my fears about not knowing what to do were gone. By day four, I had the formula down; I knew how to do it right, and even before I got home from the seminar, I had started a major direct mail project which may end up earning me $20,000 this month!"

Dan Reynolds
Harrison, Arkansas

Dear Friend,

Everything you may have heard about the legendary **Direct Mail Bootcamp** is true.

Even the stories about what Gary Halbert did in the Al Capone suite at the Arlington Hotel are true. *(Yep, Gary would have made Big Al proud.)*

But the biggest story of all is what happened to me and those who participated in the bootcamp. We all learned the ultimate skill . . .

How To Make A Good Income Anywhere, Anytime,
By Developing And Following Through Direct Mail Projects ! ! !

It's true. No matter who you are or where you live in this country, you can learn how to make a good income doing nothing but coming up with and rolling out direct mail projects. And it's an easy business to get into. You don't need an office or storefront, you don't need retail clerks or salespeople, you don't need a heavy investment in inventory. In fact, all you need to get into the direct mail business is to . . .

Start Mailing Sales Letters ! ! !

Of course, just because you start mailing letters, doesn't automatically mean you're going to make money. That's because success in direct mail is kind of like *baking a cake*. To bake a cake, you use a recipe, put in all the ingredients in the right order, pop it in the oven, and you end up with a cake. But try to make that same cake *without* a recipe, and chances are you're *not* going to end up with a cake at all. In fact, you're probably going to end up with one heck of a mess!

And it's the same way with direct mail projects.

If you try to make money in direct mail, and don't know or don't use the ***"Recipe for Success in Direct Mail"*** *(the recipe revealed by the experts at The Direct Mail Bootcamp)* you're probably going to have the same kind of success rate you'd have if you tried to bake a cake without a recipe. Just about zero. *(And you'd still end up with a big mess on your hands.)*

www.getwsodb.com

But if you know, and use, the amazingly simple, straightforward **"Recipe for Success in Direct Mail"** *(as revealed at the Direct Mail Bootcamp)*, you're going to discover it *is* easy to make money with direct mail ventures. And it's easy to pursue a lifestyle where all you do is come up with, and follow through on, direct mail projects. It's a real adventure, and an adventure that can make you rich, if you know the *"recipe for success"*!

And that was the purpose of the Direct Mail Bootcamp -- to bring together the best minds and top performers in the direct mail business for four solid days, so they could teach the **"Recipe for Success in Direct Mail"** ***to others***. And that's exactly what they did.

Some of the experts who participated in the bootcamp were . . .

- **Ted Nicholas** - *Has personally sold over $200 million worth of products by direct response!*
- **Gary Halbert** - *His clients eagerly pay him $15,000 an day for his marketing advice!*
- **Bill Myers** - *Known for his low budget direct mail projects that net high returns!*
- **John Carlton** - *One of the best copywriters alive today, known for getting results!*
- **Phil Kratzer** - *President of National Response Corporation; places 4,000 ads per week!*
- **David Deutsch** - *Ex-Madison Avenue Copywriter, now highly in-demand freelancer!*
- **Carl Galletti** - *Direct mail catalog expert, author, and direct marketing consultant!*
- **Lisa Morrice** - *President of On Target Communications, specializing in direct response!*
- **John Eger** - *A brilliant marketing strategist involved in two-step marketing & classified ads!*
- **Karen Anderson** - *List Broker specializing in joint ventures and endorsed mailings!*

This amazingly talented group of people*, all of whom make a living in some aspect of the direct mail business*, came together for the first time ever for a single purpose . . .

To teach Direct Mail Bootcamp Participants everything they knew about creating successful direct mail projects ! ! !

And instead of just giving speeches, they spent four days demonstrating how to create successful projects in a logical, step-by-step process. Starting at the beginning with the very basics and sequentially working through each step in the entire process. Everything was covered, but just to be sure everybody got it, the experts actually . . .

Came Up With A Direct Mail Project And Developed It From Beginning To End Right There In The Bootcamp!

A complete project. From start to finish. From coming up with the idea, to defining the market, to creating the product, to developing the offer, to getting it all down on paper, even to mailing and taking orders. They did it all.

And in the process, they revealed the "*recipe*", the "*template*" for success in direct mail. And until you see for yourself, you'll never believe how easy it can be for you to make good money in this business *(as long as you follow the proven formula).*

Here are just some of the things the experts taught us . . .

- ✓ Why it is so important to **Define The Market First**, before you come up with the product. *(Most people come up with a product, and then ask "Who can I sell it to?". That's the wrong way.)*

- ✓ Where to find the **Ultimate Market To Sell Direct Mail Products To**. *(And how to know before-hand if the people you are mailing your letter to are in the position to buy from you.)*

www.getwsodb.com

- ✓ How to find the **Ultimate Direct Mail Product** for your market! *(And how to get manufacturers and distributors to send you free samples of products they want you to sell!)*
- ✓ How to **Avoid The Really Dumb Mistakes** behind almost all direct mail failures! *(This alone can assure you of a 1000% better chance of success.)*
- ✓ How to find **Start-Up Capital And Complete Financing** for any direct mail project!
- ✓ How to find names, addresses and spending habits of the group of **People Most Likely To Want To Spend Money With You**!
- ✓ How to write a "killer" direct mail offer that will **Make People Want To Send You Money!**
- ✓ How to **Master The Mechanics Of Producing A Direct Mail Offer That Really Works!**
- ✓ How to use **Premiums And Free Bonuses To Boost Your Sales Right Through The Roof**! *(And why the best premiums probably won't cost you a dime.)*
- ✓ How to estimate the **Profit Potential** and risk of any direct mail offer, and **How To Know In Advance Which Projects Will Be Big Winners** before you invest a single penny ! ! !
- ✓ **How To Use The Post Office For Maximum Effect!!!** *(Includes techniques to disguise bulk mail, getting the best postal rates, and timing your mail for best responses.)*
- ✓ How to acquire the mail order rights to **Best Selling Books And Videos** for as little as $250!
- ✓ How to get a Print Shop to agree **To Underwrite Most Of The Start-Up Costs Of Your Next Direct Mail Project!** *(And how to use printing services to increase your response rate.)*
- ✓ How to put your Direct Mail Order Entry and Product Fulfillment System on **Full Auto-Pilot!!!** *(Get orders taken, charge cards processed and products shipped without your involvement!)*
- ✓ What you must do to **Protect Yourself Legally** before you start any direct mail project!
- ✓ A strategy to **generate $100,000 in 120 days starting with just a $600 investment ! ! !**

The experts showed us all this and more! And they presented it in a way that made it easy to follow and simple to understand. More importantly, we learned success in direct mail can be almost automatic -- if you follow the **recipe**! The same recipe being taught to us by people who were actually doing what they were showing us how to do, and that was . . .

Raising Huge Sums Of Money With Direct Mail Projects ! ! !

But you know, it's *funny*. All the experts kept talking about was how they weren't in direct mail for the *money*, instead they were in it mostly for . . .

The lifestyle that <u>having</u> money permits them to live.

It's a strange way of thinking about money, but I guess they're right. It's not so much the money that's nice, it's what *having money* allows you to do.

www.getwsodo.com

See, when you have money, you don't *need* a job, you don't *have* to work for anyone else. And not having to show up for work every day frees up a lot of your time. Time you can choose how to use. Time to spend with your *family*. Or on your *hobbies*. Or on an *adventure*. Whatever.

The Choice Is Yours.

But, as the experts pointed out, having the choice to do what you want, and having the free *time* to do it, can become quite *addictive*. Once you taste this freedom, you'll find it hard to go back to your old job. You'll never want to work for anyone but yourself. And you'll know why those who are doing it say a career in direct mail is the **ultimate adventure!**

Being able to come and go as you want, to travel, to spend time with your family, your friends, or to just sleep late, are luxuries far more enjoyable than a big car or a fancy gold watch. *(Or so say the experts.)* According to them, the real reward of success is . . .

True Independence.

(And I always thought it was the money!) Anyway, listening to these successful people talk about their lifestyles was fascinating. And it made us realize that money isn't the goal. Money just provides a means of reaching many different goals, goals as different as the individuals who set them. *(But money is not a bad thing.)*

There is something that money brings, though. Something that none of the speakers actually talked about, but something that could be seen in all of them. There was an *air of confidence*, a feeling of security, maybe even an *inner peace* that made these people stand out in a crowd.

But maybe it wasn't the money, maybe it was the *knowledge* that they had discovered **a way to live well, no matter what happened in their lives**. They knew that anytime they needed money for anything, all they had to do was follow the recipe for success in direct mail. And in a few days, money would start filling their mailboxes.

A surprising thing about these experts is that they weren't at all hesitant to share the techniques they had mastered. They didn't hold back on anything, they told us everything, gave us advice and direction, and even told us about their biggest mistakes. It was amazing . . .

They had discovered a way to escape
from the rat race, and didn't mind sharing the secret!

They were also honest with us. They told us direct mail is not some *Get Rich Quick* scheme. It is a *way* of doing business. A way to reach a huge audience of millions of potential customers without having to knock on a single door. Or without having to make a single sales call. It's all done by mail. *(Which means you can launch projects from the kitchen table.)*

And, because you can reach so many potential customers inexpensively . . .

Even a small success with a direct mail project can reap huge profits!

You don't need a sophisticated operation mailing hundreds of thousands of letters a week. In fact, using the *recipe for success*, you can earn $20,000 or more per month, doing small mailings into the right market. You can keep your business small, yet still be able to make big money.

www.getwsodo.com

Another thing they taught was you don't need much money to get *started (they really pounded this into our heads)*. In fact, they all agreed that having *too much money* is one reason many people fail! The logic behind this statement is surprising, but it turns out to be true.

Anyway, those lucky enough to attend the Direct Mail Bootcamp realized very quickly that they were part of something very *special*. This was one of those amazing, profoundly *life-changing* events you sometimes read about in the biographies of people who have made it big. No doubt sometime in the future, when some successful person is asked what was the turning point in his (*or her*) life, he (*or she*) will point to participation in the Direct Mail Bootcamp.

But not everybody could get in . . .

Unfortunately, not everybody who wanted or needed the kind of experience the Direct Mail Bootcamp provided was able to attend. Some people, still stuck in the rat race, couldn't get away from their jobs. Others had prior commitments they couldn't reschedule. And many just couldn't afford the thousands it would cost to fly to Hot Springs to participate in this event for a week.

Even some of those who had the free time, the funds, and an open schedule, found they couldn't get in. To their disappointment, they discovered that the limited number of open seats at this event filled up just days after it was announced *(but that's no surprise considering what was being taught, and who was teaching it).*

Anyway, if you are one of the ones who missed out on this life-changing experience, and want the **"recipe for success"** in direct mail, along with the private and confidential advice and direction from some of the best minds in the industry, you're in luck!

See, everything at the Direct Mail Bootcamp was professionally recorded onto audio tapes. And a complete library of these tapes, along with **a step-by-step direct mail workbook**, is now available to you.

And along with the tapes and workbook, you'll also receive . . .

A Turn-Key, Ready-To-Use Direct Mail Project,
along with the REPRINT and REPRODUCTION RIGHTS
to the tapes and manual sold in the offer!

We'll talk about that later, but first let's look at . . .

The Components of the Direct Mail Bootcamp Experience

When we began putting this package together we wanted to include everything that made this event so important to those who participated. And we also wanted to include some **Free Extras** that would make the home version of the **Bootcamp Experience** even more worthwhile. And this is what we came up with starting with . . .

- ✓ The **complete minute-by-minute, hour-by-hour, day-by-day audio tape record** of everything that went on at the bootcamp. On these 24 tapes, you'll hear every speaker, every workshop, every presentation, every question asked and every comment made during the bootcamp. And for your convenience, the tapes are indexed by hour and subject matter. And for review purposes, the tape box cover has a brief summary of the information found on each tape.

Plus, along with the tapes you'll also get . . .

- ✓ A copy of **"Insider's Guide To Direct Mail Profits" workbook.** This big 3-ring binder direct mail workbook gives you the complete recipe to success in direct mail. It's full of vital information and has numerous checklists that will help you insure your project is a success. You'll love the way it's laid out. It's easy to follow, and you'll use it every time you start planning a direct mail project.

www.getwsodo.com

And in addition to all this, you get an **Extra Special Bonus**, exclusive to the home version of the Direct Mail Bootcamp Experience. A Bonus so *unique*, so *special* that by itself it is worth over $1,000.00! But it's yours **FREE** with the Direct Mail Bootcamp Experience! Because . . .

One of the first things you're going to want to do after you've listened to the bootcamp tapes is roll out your own direct mail project. So, just to be sure you have one, when you order the Direct Mail Bootcamp experience, you will get . . .

A COMPLETE, READY-TO-USE DIRECT MAIL OFFER ! ! !

That's right, along with the complete set of tapes and the 3-ring binder workbook, you also get a **ready-to-use** direct mail project with the **REPRINT and DUPLICATION RIGHTS** to the tapes and manual being sold in the offer ! ! !

This means that when you're ready to go to market with your first direct mail project, you'll have one you can use. And . . .

You'll have the DUPLICATION and REPRINT RIGHTS to the products you are selling.

Which means when you roll out this project, the money you make from it is yours! No royalties or fees to be paid to anyone ever ! ! ! And even if you decide not to use this project, **You Still Have The Right To Use The Tapes And Manual Any Way You Choose!**

It's Like Having Your Future Delivered To You On A Silver Platter ! ! !

Having the reprint and duplication rights means you can sell the tapes and manual individually, or you can package them up with other products, give them away as premiums, or just keep them until you are ready to use them. You can even turn this ready-to-use project over to your son or daughter and let them use it to build their college fund! It's up to you.

Here's what you get permanent reprint rights to: "How To Find HOT Mailing Lists Using The Little Known Secrets Of The Big-Time List Brokers" *(two audio cassettes)* and "How To Grow Rich With Direct Mail" *(a manual)*. You even get a sales letter that sells these products for you!

Of course, there is no *guarantee* this project will make money for you. We have tested it, and it has (*and still is*) making money for us. But, there is no guarantee *you'll* get rich with it.

One thing's for certain though, you *won't* have to pay any royalties or copyright fees to us or anyone else when you sell this product. You get to keep the profits, and you'll only have to share them with Uncle Sam's favorite nephew, the IRS.

But before you start counting all the money you're going to make with this, **there's something you need to know**. We are not *giving* this material away. In fact, even though this is an amazing offer, we don't expect many people to be in a position to take advantage of it. And that's OK. Because this offer is not intended for everyone.

So . . .

www.getwsodb.com

If you are broke, or down to your last penny,
or don't know where your next meal is going to come from,
or are mentally or emotionally disturbed . . .
. . . then don't bother ordering the Direct Mail Bootcamp Experience. It isn't for you.

Or . . .

If you're looking for a "magic" pill to fix all the problems in your life,
or can't or won't follow instructions, or don't want to listen to advice . . .
. . . then this is not going to work for you either. It's not magic.

Or . . .

If you are the least bit shady, and looking for a quick way to scan
unsuspecting little old ladies out of their life savings . . .
Then look somewhere else. We don't want this kind of information to fall into your hands.

On the Other Hand . . .

If you are looking for a path which can take you to the level of personal success and financial rewards that you desire, a path that has proven to work time and time again for others, the Bootcamp Experience might be exactly what you are looking for. Especially is you can *afford* to invest in your success.

Operating your own direct mail business offers you one of the most direct, hassle-free ways you can generate a substantial cash-flow quickly . . . *if you know the recipe for success*. And the complete **Direct Mail Bootcamp Experience** is the only opportunity of its kind for you to learn that recipe from some of the most successful names in the direct mail business.

But it's not free.

It's going to require an investment in money *(to get the tapes)* and time *(to listen to them)*. If you sincerely feel you can make that investment, then read on. I've got some **good news** for you.

By now you know the **Bootcamp Experience** is more than a set of tapes. More than a library of carefully selected reference and resource material. And more than the reprint and duplication rights to a tested direct mail offer you can use to start making money right away.

It is all these things and more.

And combined with your desire to live your life on your own terms, it can be . . .

The Total Learning Experience That Changes Your Life!

There's nothing quite like the feeling of success. And that feeling can be yours. It is within your grasp. No matter who you are or where you live, you can have a profitable future with direct mail projects. And the Direct Mail Bootcamp Experience can be your *launching* pad.

OK. Let's talk a little more about the investment required. Tapes from other seminars of this caliber are usually priced in the $1,000.00 range. And usually these tape sets are worth every penny of the asking price. But the problem is, not everybody can afford to invest that kind of money, especially right now. Life has its demands, and many of those demands are financial.

www.getwsodo.com

Still, an investment in one's future can sometimes be priceless -- if only one can afford to make that investment. *(It's sad but true -- some people can't afford to be successful).* Anyway, if you *can* afford success, and recognize this as an opportunity to fulfill your dreams, this is your chance to participate in the complete **Direct Mail Bootcamp Experience**, including . . .

- ✓ The **Complete Set Of 24 Audio Tapes** *of the best minds in direct mail showing you how to do it right.*
- ✓ The **Insider's Guide To Direct Mail Profits Workbook** *of resource and reference tools*

And . . .

- ✓ **The Ready-To-Use Direct Mail Offer** complete with reprint and duplication rights, plus everything else we mentioned in this letter . . .

. . . for only $397

Yes, that's right! You get it all for only $397! If you answered 'YES!' to any of these questions, *The 3 Minute Ad Formula: How To Make Any Ad Bring In More $$$, Leads and Customers in 3 Minutes or Less... GUARANTEED* is for you!

Let's Stop and Think About This For a Moment:

According to *Dun and Bradstreet*, the leading provider of global business information, a whopping 85% of businesses within 5 years of commencement.

Can you believe that? 85%!

The make up and reaons for such a high failure rate I'm sure is rather detailed... BUT... I'll bet you dollars to donuts this figure would be slashed dramatically if...

Each Of These Businesses Knew How To Make Any Brings In More $$$, Leads and Customers in 3 Minutes Or Less!

Don't you agree? After all, it's customers that make up the business. Without the, you are DOOMED to failure.

Or look at it differently.

Take any hundred business owners at the start of their professional careers, and follow them for 40 years until they reach retirement, you'll find that only 1% will be truly wealthy, and only another 4% will be financially secure.

5% will continue working in the business, not because they want to, but because they have to; 36% will be dead; and a whopping 54% will be broke... having to live on handouts from relatives and friends. Perhaps even more striking is the fact that only 5% of the population educate themselves past their school education... and only 5% become financially independent!

That's pretty shocking, wouldn't you agree?

Think about this for a minute: Imagine what it would be like to have the confidence of knowing your ads employ the most important and persuasive psychological persuasion triggers known to man.

How would you feel knowing you're one of a very limited few who can on making huge profits from your advertising weeks, months even years to come?

www.getwsodb.com

How would you feel having more cash coming into your business, at time when even your fiercest competition is struggling to make ends meet?

How would you feel if you knew no matter what the economy was doing, you could choose at any time to **write an ad that will bring a flood of $$$ and leads into your business?**

I know you'd feel great!

How would you spend your money? Perhaps you'd take more holidays than you do right now. Maybe you'd spend far more time with your friends, your family, the people you love. Or perhaps you would focus more actively on a hobby you are passionate about. What a life that would be!

Now let's talk about your investment.

If you came to me to write a sales letter for you (when I was consulting on a full time basis) I'd charge you at least **$7,500 plus get 5% of your gross sales.**

To sit down with me for a full day's consulting would set you back a cool $3,300 (which clients happily pay for). So how much would you expect to pay for a formula that had the potential to put thousands of additional dollars in your pocket?

Well, it's less than you think.

It's not $500. It's not $300. In fact, it's not even $200.

As a special introductory price you can get the entire formula for **only $197!**

What a bargain! Think about what that means. Within minutes of reading my book, and applying the formula to the case studies, you will cultivate the ability to make ANY ad… in ANY medium (be it a brochure, a flyer, print ad, radio and TV commercial) into a cash generating machine!

You will be able to instantly spot the most common mistakes people make in their ads, and how to avoid them in your own business. You've got to admit. This is profound knowledge that's gotta be worth a small fortune to you.

And to think all I'm asking is $197.

But it doesn't end there…

What if you could have all the benefits of meditation—but in a fraction of the time, and without spending years learning *how* to meditate?

"You told me I'd meditate like a Zen monk, literally at the touch of a button, and it's true! This is like meditation on steroids!"

—Michelle Simons, Baltimore, MD

What if you could meditate like a Zen monk, literally at the touch of a button?

More than 1,000,000 people in 193 countries already have.

- **Increase your threshold for stress...deal with the ups and down of life much more easily...protect yourself from serious physical and emotional problems caused by stress...**
- Create whole-brain thinking…dramatically increase mental abilities, creativity, learning ability, focus and concentration...
- **End anxiety, fear, anger, depression, sadness, self-sabotage, substance abuse, and overeating...**
- Be happier, more peaceful, more compassionate, more at ease...

Skeptical? Many have been…until they tried it.

Give me a few minutes to tell you about it…then try it for yourself.

The lazy man's way to meditate

Listening to this amazing, scientifically proven brain technology gives you all the benefits of meditation—in a fraction of the time—easily and effortlessly...

Is your life stressful?

Over 1,000 research studies prove:

"Meditation is *the most potent way* to lower stress and create peace of mind in these highly stressful times...

Try this powerful, super-easy way to meditate, FREE!

Did you know that people who meditate everyday are many times happier than those who don't?

They're also healthier, and live longer. And, their sense of well-being is much higher than that of non-meditators. In fact, meditators are so much healthier that some insurance companies charge lower premiums for meditators than for the rest of the general population.

Meditators' minds are also sharper, and their problem-solving abilities are better.
That's one reason why many high-powered executives, and even CEOs of Fortune 500 companies, meditate.

Did you also know that meditators make a LOT more pleasurable brain chemicals—the ones you feel on those days when you feel REALLY good—and, they make these feel-good brain chemicals pretty much ALL THE TIME?

www.getwsodp.com

Did you know that meditators have dramatically better mental health? They have less anxiety, anger, depression, and fear, and they have better human relationships, more friends, and feel much more fulfilled in their lives?

So with all these benefits, why isn't everyone meditating?

You know why. To get these results, you have to meditate four or five hours a day, often for decades, and few people are willing to do this. And, meditation, especially at first, isn't much fun. The initial experience is somewhere between boring and frustrating. Finally, it takes quite a long time to notice any significant results, much less to experience the benefits I just mentioned.

But what if I told you that you could meditate as deeply as a Zen monk, literally at the touch of a button, and do it the very first time, and every time and also make all those happy brain chemicals the first time and every time?

Not only that, within a very short period of time—days or weeks instead of years or decades—you could begin receiving all the benefits I just mentioned—the physical health benefits, the mental health benefits, the clarity-of-mind benefits, the relationship benefits, and the overall sense of well-being benefits.

And, you don't have to learn any complex mental gymnastics, or spend hours a day to get all of this.

Instead, you'll be using a scientifically-proven audio technology called **Holosync®**, that will easily and effortlessly place you in the electrical brain wave patterns of deep meditation, every time.

Over the last 20 years, Nearly a million people in over 193 countries have used **Holosync®** to make dramatic improvements in their lives. **You can, too.**

It's easy, it's inexpensive, it feels VERY good it's 100% guaranteed.

Skeptical? I don't blame you. I was too, until I tried it for myself.

And, that's what I suggest you do—try it. In fact, I'd be happy to send you a **FREE demo CD** and a free Special Report right now, so you can see what I'm talking about. Just **click here**, and I'll send it right out to you.

Stimulating your brain with **Holosync®** audio technology will:

- Safely and effortlessly take you to states of profoundly deep (and extremely pleasurable) meditation…
- Stimulate the creation of new neural pathways between the right and left hemispheres of your brain, balancing your brain and leading you to a high-performance state scientists call "whole brain functioning"…
- Dramatically improve your learning ability, memory, intuition, creativity, and your ability to focus, concentrate and think more clearly…
- Create true quantum leaps in your personal self awareness…
- Significantly lower your stress levels and lower your levels of harmful brain chemicals related to stress…
- Create remarkable improvements in your mental and emotional health—even in areas that have stubbornly resisted change with other approaches…
- Dramatically increase your production of vital (and very pleasurable) brain chemicals related to your longevity, well-being, and quality of life…

"I was a true skeptic from the start but all that has changed...I am convinced that using the program has dramatically changed the way I relate to life's opportunities and challenges. I can't believe how simple it is..."

In 1985 I became aware of, and began experimenting with, a remarkable audio technology I found mentioned in a research paper published in *Scientific American* (October 1973) by Dr. Gerald Oster, a research scientist at Mt. Sinai Medical Center in New York. This audio technology, when placed beneath soothing music and listened to with stereo headphones, produces some absolutely mind-blowing experiences (and benefits) for the listener:

"I've been using Holosync for years now and my meditations have gotten much deeper, I travel with the CD's, I listen to them on a daily basis. And as a result I have more freedom of expression, a greater sense of relaxation and being stress free, and a greater sense of personal power..."

- » Profoundly deep meditation…
- » Dramatic increases in the production of a whole variety of beneficial brain chemicals, including pleasure-causing endorphins—as well as a number of others proven to slow aging and increase longevity and well-being…
- » The release and falling away of dysfunctional mental and emotional patterns (such as anger, fear, anxiety, depression, sadness, substance abuse, self limitations, etc.)—even those that have stubbornly resisted other methods…
- » Increased learning ability, enhanced creativity, greater intuition, improved focus and concentration—and (even more amazing) greatly increased personal self-awareness (scientists call this combination "whole brain functioning")…
- » Dramatically lower stress levels, and an increased ability to deal with whatever comes at you from the world, calmly and clearly. You become more relaxed, less anxious, more centered, more peaceful, and more connected to others…
- » Achievement becomes easier, and without the same feelings of anxiety and stress. Taking the risks necessary for success doesn't seem so scary anymore. Good things begin to just "happen" in such a way they almost seem to fall right into your lap…
- » The need for sleep decreases, yet aliveness, vitality and energy increase!

Impossible? Science Fiction?

Science, yes. Fiction, no. Every one of these results has been experienced and reported to us by participants in the program we've created around **Holosync®**, our proprietary version of this amazing audio technology. We call the program The Holosync Solution™, and we really believe you'll find it to be the end of your search for something that really works.

And, you might be interested to know that these are not the results of just a few people. What I've just outlined is the predominant profile of a long-term participant in our program.

All this from listening to a simple CD?
Absolutely!

Based on Dr. Gerald Oster's original research and our own research and experimentation, we've created a very powerful audio technology called **Holosync®**, which we place inaudibly beneath peaceful music and environmental sounds. Many people call it "instant meditation"—but it's much more than that.

Experiencing these deep meditative states each day provides a super-enriched environment for your nervous system, causing enormous (and very beneficial) changes in the brain.

What we're actually doing is gradually giving the nervous system more input (of a very precise nature) than it can handle... **the way it is currently structured** ...in much the same way exercise gives your body more than it can handle physically, pushing it to grow stronger.

The brain's response? Reorganization at a higher level. Creation of new neural pathways. Increased communication between the left and right hemispheres of the brain, leading to what scientists call "whole-brain functioning"—and all the benefits I've already mentioned!

On a purely mental level, many scientists believe this increased communication between the two hemispheres of the brain is what separates the Einsteins, Edisons and Mozarts from the rest of us (that is, until now!).

Even more impressive are the positive changes in mental and emotional health created by daily use of **Holosync®**. Add to that what you'll gain from ***Master Your Emotions, Your Actions, and Your Life***, my new FREE, 4-lesson online course, with unlimited personal coaching from our highly-trained professional coaching staff, and your ability to be happy, peaceful, and effective will skyrocket!

I'll tell you how this works in a moment, but first, though, I want to explain how and why **Holosync®**creates such amazing personal changes:

"Here are some of the (20) benefits I've received in the first two months of the program:

» Tremendous focus and concentration
» Better sleep
» Increased energy
» Better digestion
» More confidence
» More creativity"

Where dysfunctional feelings and behaviors really come from:

Everyone has a threshold for what they can handle coming at them from the world. When that threshold is exceeded, we attempt to deal with being pushed over it with a variety of coping mechanisms, including anxiety, anger, depression, overwhelm, sadness, substance abuse, and many others. One of the main thing **Holosync®** does is provide a stimulus to the brain that *pushes that threshold higher.*

My view is that all so-called dysfunctional feelings and behaviors (including those I just listed above), are all attempts to cope with being pushed over this threshold.

When a person is traumatized during childhood, this threshold ends up lower than if the trauma had not happened, and the person is more often bothered by things in their environment that might not bother other "normal" people. This means they exhibit, and suffer from, the above feelings and behaviors more often. But even the person with the normal threshold can be pushed past their threshold from time to time, depending on what's going on for them.

The solution to all of this? Raise this threshold higher, and *this is precisely what **Holosync®** does*. As this happens, your dysfunctional feelings and behaviors happen less and less often because it becomes less and less likely that whatever is happening in your environment will push you over it

www.getwsodc.com

...and trigger these feelings and behaviors in the first place. As a result, they fall away-for good.

This is a lot like a runner who begins with a certain physical threshold, but raises it by running everyday until what would have overwhelmed the person in the beginning becomes easy.

Let me give you a real life example—let me tell you my story

Like you, I've been searching for something for most of my life—most of the time, not finding it. Occasionally, I found little pieces of it, but (until I found **Holosync®**) I never could put it all together.

Back in 1985—when I first began playing around with the kind of mind expansion technology that evolved into the **Holosync®** audio technology we use in the Centerpointe program—my life was definitely not working.

It wasn't for lack of desire, though. I tried just about everything to get my act together—seminars, workshops, several kinds of therapy, rebirthing, firewalking, bodywork, subliminal soundtracks, hypnosis, diet, herbs, even colon cleansing (and a few things I'm even a little embarrassed to admit I tried). I must have read—and re read hundreds of self-help books.

I heard meditation would help, so at age 19 I started meditating—an hour, sometimes more, every day—and kept it up for sixteen years!

You name it, I tried it at least once—usually with single-minded devotion and dedication.

It's not that I didn't get results from all these things. In fact, I changed a lot. Sometimes I would even have what seemed to be dramatic breakthroughs. Eventually, though, I realized that the deep underlying cause of my unhappiness wasn't being touched by any of these things. And, whatever progress I was making was unbearably slow.

You probably know just what I'm talking about from your own experience.

Then, totally unexpectedly, something really significant happened. I found **neurotechnology**.

I still remember the first time I listened to a cassette tape using a crude forerunner of the more advanced and refined technology we now use in The Holosync Solution. It was only ten minutes long, and I have to admit I was very skeptical (as you may be right now), but when I finished listening, I felt more peaceful than I usually did (on a really good day) after 45 minutes of meditation—calm, centered, mentally sharper, somehow more in touch with myself.

And this feeling lingered for hours!

Wow! I had really found something!

And, unlike the traditional meditation I'd been doing—which was hard work, often frustrating, and often didn't feel like it was getting me anywhere—this was effortless! As you can imagine, I became very excited about the possibilities.

"I tried the Awakening Prologue CDs and I was floored! This is exactly what I was looking for—not only that, but the sounds on the CDs themselves are so accommodating to what I like to hear when I meditate ...rainfall, temple bells...it was like coming home."

Over the next three or four years I went on an incredible journey as I began to experiment with this new technology. I gathered together tone generators and some other equipment, went into a recording studio, and began making experimental soundtracks for myself.

As I began using them, unresolved emotional material began to surface and be released, followed by periods of incredible clarity.

During my meditations, I began to have all kinds of inner experiences—experiences I'd read about but never really expected to have. Dream-like visions. Unusual physical sensations. Psychic phenomena. Deep insights. Spontaneous solutions to life-long problems. Incredible endorphin rushes. Hours speeding by in what seemed like minutes. It was all very intriguing...and very exciting!

More important, I began to have some personal breakthroughs, which I desperately needed but had never really expected to experience (some of the same breakthroughs you may be looking for in your life) and...

...my life began to change!

I shuttled back and forth between incredible experiences and powerful release of unconscious blocks. Sometimes I would have plateaus where it did not seem like a lot was happening, but every time I thought I 'd changed as much as I was going to, the process would start up again and **more** positive changes would follow.

Sometimes this process was intense as I worked through some of these old issues, but because of the super-clarity and awareness— and peace—that followed each breakthrough, it was **definitely** worth it (as you will see for yourself). After each of these dramatic breakthroughs, the whole world seemed new—each time in a way I never could have imagined or predicted!

And the funny thing was, it all seemed so natural. The breakthroughs, and the new insights that accompanied them, once they were made, seemed so obvious it was hard to understand why I hadn't felt that way before! I could hardly wait for my meditation time each day to find out what was going to happen next.

I also noticed that my mind was getting sharper,
that mentally things seemed to flow better.

As amazing as it sounds, I could see myself becoming more intelligent, more focused, more intuitive, and more creative. My memory got better. I seemed to more easily find solutions to problems and situations that had given me trouble before.

I later learned that a Nobel Prize-winning scientist, Ilya Prigogine, had developed a theoretical model regarding the evolution of complex systems (like the human mind) that described these quantum leaps in awareness and brain-power I was experiencing—to a "T"—and explained why they happened! I read everything I could get my hands on about his work.

This work later became the cornerstone of everything we do at Centerpointe Research Institute—and one of the main reasons why...

This program gives results light years
beyond other approaches you may have tried.

I also read up on the origins of this type of mind altering technology—how studies at the Menninger Clinic back in the 1970s determined the brain wave patterns of deep meditation, and how a researcher at Mt. Sinai Medical Center in New York discovered a property of the brain that allowed these same brain wave patterns to be induced using sound—so these same meditative states (and the incredible results they produce) could be experienced by anyone.

I learned a lot during this time—both from my reading and from my own personal experience—about how growth and evolution happen in the brain...and how to accelerate the whole process, while making it much, much easier.

This cutting-edge information, the fruits of all I went through during my experimentation, is packed into the follow up and support materials you'll receive should you choose to take advantage of the totally risk-free offer I'm going to make you so you can experience this amazing program for yourself.

As I continued to use **Holosync®**, I just couldn't believe how much my life was changing. Over time, anger and fear I'd been carrying all my life melted away. People began to like me. I began to like people...and get along with them! I began to assert myself. My mind became keener. I seemed to develop an incredible clarity, not only about what I saw and experienced, but about myself and how I was the creator of what was happening in my life.

I became more creative. I wrote music. I played jazz. I started business ventures that prospered. I taught trainings. It seemed like I was literally attracting success! I began to live a whole new kind of life, one that was light years from where I had started.

And everyday I would retreat to my meditation room to lose myself for a while in deep, renewing meditation with my Holosync soundtracks.

And although great things were happening in my outer life, the really big change was happening inside (where it really counts).

For the first time in my life I was peaceful, and yes, happy!

And all because of the effects of a simple—but very powerful—technology on a simple soundtrack!

Not that I don't still have problems and challenges—I have plenty. But the way I'm able to handle them now—well, it still amazes me how easy life has become.

Finally I just had to put all I'd learned and experienced into something I could offer to others, at a very affordable price, and in a very modest way Centerpointe Research Institute was born.

I had no idea then how big it would get. As the year 2009 began, we had nearly one million people in 193 countries (on every continent — including Antarctica) using The Holosync Solution, and we're still growing by leaps and bounds.

And, these people report the same kinds of super-deep changes I experienced.

I went through a lot in those early years. In retrospect, I went through more struggle than was necessary, considering what I know now about how the process works.

You, however, can take advantage of all the mistakes, all the wrong turns, all the blunders—and all the discoveries—I made as I perfected what I humbly believe is not only the most powerful personal development tool ever created, but—in the support and follow up materials—the most sophisticated, effective, and easy-to-use method ever developed for dealing with the kind of rapid positive changes you'll experience in this program.

In fact, a lot of what I learned — and what will allow you to create even faster and more dramatic positive changes, is contained in my FREE 4-lesson online course, *Master Your Emotions, Your Actions, and Your Life*.

This multi-media online course is my special gift to you when you decide to join the Holosync Solution program. I'll explain all about it — once I've finished telling you what you need to know about **Holosync®**.

In just a minute I'm going to share with you what some very excited scientists, who've been researching this technology for the last twenty-plus years, have said about this technology. But first, I want to give you a little education about the brain wave patterns created as you use the technology—and the fascinating role they play in your moment by moment existence.

Brain Wave Patterns 101

The first thing you need to know is that twenty-four hours a day, nerve cells in your brain are generating electrical impulses that fluctuate rhythmically in distinct patterns called brain wave patterns—patterns closely correlated with your thoughts, your emotions, your state of being, the functioning of the various systems of your body, and, in essence **the entire quality of your life!**

"I've been using Holosync for years now and my meditations have gotten much deeper, I travel with the CD's, I listen to them on a daily basis. And as a result I have more freedom of expression, a greater sense of relaxation and being stress free, and a greater sense of personal power..."

There are four categories of brain wave patterns. The most rapid is called a beta brain wave pattern, the pattern of normal waking consciousness. Beta is associated with concentration, arousal, alertness, and cognition.

At its highest, most rapid levels, though, beta is associated with anxiety, disharmony, and *unease*. (Perhaps the ability to slow yourself down from those levels might be beneficial??)

As you become more relaxed, your brain wave activity slows into what is called an alpha brain wave pattern. Alpha patterns vary from deep alpha, a state of deep relaxation often referred to as the twilight state between sleep and waking, to the higher end of alpha which is a more focused yet still very relaxed state.

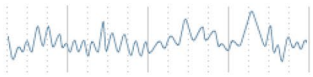

Four Categories of Brain Wave Patterns

Beta (14-30 Hz)

Concentration, arousal, alertness, cognition

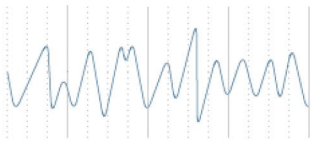

Higher levels associated with anxiety, unease, feelings of separation, fight or flight

Alpha (8-13.9 Hz)

Relaxation, superlearning, relaxed focus, light trance, increased serontonin production

Pre-sleep, pre-waking drowsiness, meditation, beginning of access to unconscious mind

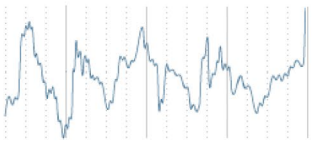

Theta (4-7.9 Hz)

Dreaming sleep (REM sleep)
Increased production of catecholamines (vital for learning and memory), increased creativity

Integrative, emotional experiences, potential change in behavior, increased retention of learned material

Hypnagogic imagery, trance, deep meditation, access to unconscious mind

Delta (.1-3.9 Hz)

Dreamless sleep
Human growth hormone released

Deep, trance-like, non-physical state, loss of body awareness

Access to unconscious and "collective unconscious" mind, greatest "push" to brain when induced with Holosync®

When you are absorbed in a good book (or a television show) you are probably in alpha. And, as I already mentioned, alpha is often associated with what is known as "superlearning"—the ability to learn, process, store and recall large amounts of information quickly and efficiently.

Slower still are theta waves. Theta is best known as the brain wave state of dreaming sleep, but it is also associated with a number of other beneficial states, including increased creativity, some kinds of superlearning, increased memory abilities, and what are called **integrative experiences** (in which we make broadly-based positive changes in the way we see ourselves, others, or a certain life situation).

"Ah-ha!" experiences, where you suddenly "get it," have an insight, or a great idea suddenly comes to you, are accompanied by bursts of theta waves in your brain.

You can probably see why putting yourself in this state might increase your effectiveness!

Here's another exciting characteristic of the theta state: Dr. Thomas Budzynski, a noted researcher in this field, has said that critical and often self-sabotaging filters of the left brain are bypassed in a theta state, and that in terms of making positive changes in beliefs or habit patterns, "a lot of work gets done very quickly."

And best of all, theta is also a state of tremendous stress relief. In the slower theta brain wave pattern, the brain makes lots of relaxing endorphins that really do—as you will see (or rather, feel) when you try it for yourself—melt your stress away.

The slowest brain wave pattern is delta, the brain wave pattern of dreamless sleep. Generally people are asleep in delta, but there is evidence that it is possible to remain alert in this state—a very deep, trance-like, non-physical state you'll have to experience to appreciate.

In certain delta frequencies the brain releases many highly beneficial substances, including human growth hormone, which we ordinarily make in decreasing quantities as we get older, resulting in many aging symptoms including loss of muscle tone, increased weight gain, loss of stamina, and many diseases associated with aging.

Researchers at the University of Wisconsin announced to the media in 1990 that they had injected synthetic growth hormone into a small group of elderly men between the ages of 61 and 81.

The result was a sudden rejuvenation that reversed biological aging by as much a 20 years!

These treatments were, unfortunately, very expensive (about $14,000 a year) and the effects disappeared when the treatments were discontinued.

But you can stimulate the production of this and other beneficial substances, easily and safely, by exposing yourself for a little while each day to our revolutionary **Holosync®** technology!

Here's more exciting news:

Recent research performed by Dr. Vincent Giampapa, M.D., a prominent anti-aging researcher and past-president of the American Board of Anti-Aging Medicine, revealed that **Holosync®** dramatically affects production of three important hormones related to increased longevity, stress, and enhanced well-being: cortisol, DHEA, and melatonin.

Cortisol is a hormone naturally produced by the adrenal glands. According to Dr. Giampapa, cortisol is the **major age-accelerating hormone**. It also interferes with learning and memory and is, in general, bad news for your health and your well-being.

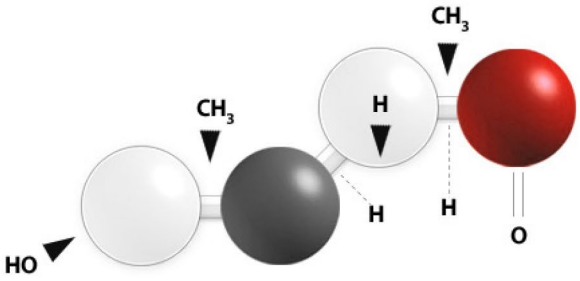

Cortisol is **the** "stress hormone," and the more of it you have, the more stressed you feel...the more susceptible to disease you are and the faster you age!

Another hormone, DHEA, is also produced by your adrenal glands. DHEA is a precursor, or source ingredient, to virtually every hormone your body needs. DHEA level is a **key determinant** of physiological age and resistance to disease. When levels are low, you're more susceptible to aging and disease; when they're high, the body is at its peak—vibrant, healthy, and able to combat disease effectively.

DHEA acts as a buffer against stress-related hormones (such as cortisol), which is why as you get older and make less DHEA you are more susceptible to stress and disease.

www.getwsodo.com

DHEA (Déhydroépiandrostérone)

How important is DHEA?

A study published in the New England Journal of Medicine (December 11, 1986) found that a 100 microgram per deciliter increase in DHEA blood levels corresponded with a 48% reduction in mortality due to cardiovascular disease—and a 36% reduction in mortality for any reason!

DHEA is **very** important!

The third hormone we tested was melatonin. Melatonin, everyone knows, is a hormone that helps to create restful sleep. We make less of it as we age, and since during sleep many important rejuvenating substances are created in the brain, the inability to sleep soundly can dramatically decrease the quality of your life and greatly accelerate the aging process. New research also reveals that it is a powerful antioxidant. In fact, it is even more powerful than Vitamin E.

So how does **Holosync®** affect levels of these three substances having so much affect on the quality (and length) of your life? In a before and after study of 19 people using **Holosync®** the following changes were noted in levels of DHEA, cortisol, and melatonin:

- **In just three days, over 68% had increases in DHEA levels, with an average increase of 43.77%. Several people had increases of 50, 60, even 90%.**
- Cortisol, on the other hand, was down an average of 46.47%, with positive changes in 68% of the people, and with several people having decreases of 70 or 80%.
- **Melatonin levels increased an average of 97.77%, with positive changes happening in over 73% of the people. Many had improvements of 100, 200, even 300%.**

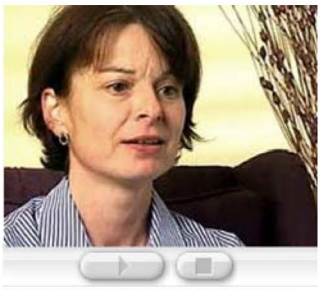

What does this mean? It means that listening to CDs containing **Holosync®** not only dramatically lowers stress by regulating the biochemical **source** of stress, it also means that **Holosync®** slows the aging process and...

...increases both well-being and longevity!

By the way, these research subjects were listening to the exact same soundtracks you'll be listening to in the Centerpointe program.

Pretty exciting, don't you think? Over the many years this program has existed, I've consistently noticed that participants looked (and reported feeling) younger and more alive, but until Dr. Giampapa's research, we didn't know exactly **why**. Now, we're beginning to find out!

Based on the results I've seen over the years in people using these soundtracks, I'd be willing to bet we'll discover listening to **Holosync®** stimulates production of a number of other vital neurochemicals associated with improved emotional health, lower stress, and increased mental functioning. We're now designing the studies to find out.

"Not everybody has two hours a day to sit, nor do many people have the discipline to sit there for two hours and meditate--they just don't have the time or the patience. Holosync really helps you do that...it helps you get the benefits of meditation without making that much effort."

Finally, I've been saving the best for last. It's something called brain synchronization—and I'm going to tell you how achieving it through your use of Holosync CDs can profoundly change the way you experience yourself and your world, increase your happiness and sense of inner peace, and allow you to tap into genius-like abilities.

So what is brain synchronization...and how can it create a **revolution** in your life?

Here's the answer:

As we slow the brain waves from beta to alpha to theta to delta using **Holosync®**, there is a corresponding increase in **balance** between the two hemispheres of the brain. This more balanced brain state is called **brain synchrony, or brain synchronization**.

What this means to you: As the brain waves slow and the brain balances, you more and more tap into what scientists call **whole-brain thinking, or whole-brain functioning.**

So just what is whole-brain thinking?

It's using both sides of the brain to think, instead of using one side at a time, as we usually do. It's like **thinking in stereo**. It gives you a kind of meta-awareness, a new perspective—a view from a higher spot on the mountain.

Whole- brain functioning is associated with increased creativity... insight... learning ability... problem solving ability... memory... and what some people call vision!

This type of brain function has been associated with geniuses—the Einsteins and Mozarts of the world. Quite frankly, I suspect this is the same type of higher brain function of, say, a Lee Iacocca, a Walt Disney, a Stephen Hawking, and other creative, high-performance individuals like them.

As amazing as it may seem, we really do now have a method for tapping into this kind of whole brain, integrative, super-functioning, high-performance, creative thinking—a level of brain functioning that up until now has been reserved to...

...one-tenth of one-percent of humankind!

Click here to see some amazing (real life) EEG (electroencephalographs) showing the balanced brain of a Holosync user compared to the typical, unbalanced brain.

This is a specialized version of the instrument doctors use to check brain function.

Are you beginning to see how exciting this is??

Researcher Dr. Lester Fehmi has said that brain synchronization

...is correlated experientially with a union with experience, and 'into-it-ness.' Instead of feeling separate and narrow-focused you tend to feel more into it...There's a whole-brain sensory integration going on and it's as if you become less self-conscious and function more intuitively.

Sound familiar? This is exactly the state many people call being "in the zone," where you're functioning at the top of your game! And it's now possible to get there—easily!

Synchronizing your brain can quite simply catapult you to much higher levels of effectiveness in your life. Neurologist Jerre Levy of the University of Chicago had this to say about brain synchronization and personal effectiveness:

www.getwsodo.com

Great men and women of history did not merely have superior intellectual capacities within each hemisphere [of the brain]. They had phenomenal levels of emotional commitments, motivation, attentional capacity—all of which reflected the highly *integrated brain in action*. [emphasis added]

How did these great thinkers and leaders achieve this brain integration? I truly don't know. Some people come by it naturally.

But I do know how you can do it!

Another scientist called brain synchronization "extremely beneficial, with each subject feeling as if his or her mind had reached a higher level of integration, with accompanying increases in mental powers and an unmistakable reorientation toward life."

You may not end up a genius, but then again...who knows? I do know this: those who use this technology routinely tap into a whole range of remarkable abilities they didn't know they had!

And don't forget, the super-deep meditation and brain synchronization you'll experience with this technology creates some truly amazing changes in mental and emotional health. Anger, depression, sadness, anxiety, substance abuse, and a whole universe of dysfunctional feelings and behaviors fall away—even in people who have "tried everything" without success!

Here's how you can create these same changes in yourself:

So you can get the maximum benefit from this powerful technology, we've created a comprehensive program called The Holosync Solution. The initial level is called ***Awakening Prologue*** and includes several powerful Holosync soundtracks (available only on CDs), comprehensive support materials and services (which I'll explain in a moment) and a huge package of introductory materials explaining the program and what's likely to happen as you use it.

Plus, as I promised above, you'll also get my new, FREE, 4-lesson online course, *Master Your Emotions, Your Actions, and Your Life*, worth $199.00 — more than the cost of Awakening Prologue itself — including unlimited personal coaching from our highly-trained professional coaching staff. Details (I promise) in just a moment.

Here's what happens as you use ***Awakening Prologue***:

Each time you listen, **Holosync®** will give your nervous system a very specific audio stimulus through each ear, affecting a part of your brain called the olivary nucleus, and taking you into a state of super-deep meditation. In order to process and handle this stimulus, your brain will create new neural pathways between the left and right sides of the brain, until over time it has created a new structure that can easily handle the stimulus we're giving it.

The creation of these new neural pathways has three results:

- **Result #1**: A *very* pleasurable experience during listening, and often for some time afterwards, because listening puts you into a deep meditative state that will, quite frankly, absolutely astound you. The brain produces some very pleasurable neurochemicals, including endorphins (the same endorphins responsible for "runner's high")...and, as we have seen,

www.getwsodb.com

some that have a profound affect on longevity, aging, stress and well-being, such as DHEA and melatonin.

- **Result #2**: The creation of the "whole-brain thinking" I've discussed before, with all the improvements in mental abilities already discussed.
- **Result #3**: Remarkable changes in your mental/emotional health as well as your ability to handle stress. So-called dysfunctional feeling and behaviors gradually fall away, and life becomes much different (and much better)! Your life will come into balance in a way you never could have imagine, and your level of happiness and inner peace will increase dramatically—no matter what your life is like now.

But this is just the beginning

At a certain point, your nervous system will finish creating the new structure it needs in order to handle the Holosync stimulus it's been receiving. What happens then?

Here's what happens: At a certain point (generally after about four months), your brain will have made all the changes it needs to make to handle the stimulus from ***Awakening Prologue***. At that point you're like the runner who's been running two miles a day for several months, and now two miles has become easy, because the body has created the physical structure it needs to handle it.

At this point, if you find yourself saying "Wow! This is great, and I want to continue this process," you can move to the second level of the program, where we take you into the same alpha, theta, delta brain wave patterns, but create these slower brain wave patterns using what's called a lower carrier frequency.

"I noticed effects from the first day. I experienced a greater sense of confidence, well being. I experienced a sense of euphoria and also a sense that finally I found something that is making changes to me and is living up to the promises it made.."

—Imran Hassan

The carrier frequency is what the precise sine wave tones of the Holosync stimulus "ride" on, and one of the things I discovered years ago is that lowering the carrier frequency makes the technology **much** stronger. It increases the stimulus to the brain and creates an even deeper meditation experience...and a new and deeper level of positive change.

This incredible secret of increasingly lower carrier frequencies is the "Master Key" to getting the greatest benefit from this type of technologically enhanced meditation and...

...no one else in the neurotechnology field is doing it!

This second, deeper level is called *Awakening Level 1*, and usually takes about 6 months to complete. At that point, you're ready for *Awakening Level 2*, where we again lower the carrier frequency, again increasing the input to the brain, again taking you to still deeper changes!

And so it goes, until we've taken you down to the lowest carrier frequency possible. There are, in fact, twelve levels after ***Awakening Prologue***, each with progressively lower carrier frequencies, if you choose to experience them all.

Let me be very clear, though, that **each level is complete within itself** and there is **no obligation** to continue to the next level—unless (like most people) you find yourself saying "Wow! This is very amazing and I definitely want to continue this process."

Custom-made soundtracks!

One more thing. Beginning in *Awakening Level 1* (which, remember, is the second level), we add another innovation—the second reason why this program is so powerful: we begin to customize your soundtracks, adding silent affirmations **chosen by you and recorded in your own voice!**

You see, it turns out that in these slower brain wave patterns, your typical left-brain filters are **bypassed**, and the affirmations (personally chosen by you and recorded in your own voice) go *directly to your unconscious mind*, creating change at a very deep level—to *your* specifications.

We stopped using traditional "masked" subliminal affirmations several years ago (I wasn't convinced they really worked) and we now use the new high frequency Autofonix® technology we have developed here at Centerpointe and based on research done for the U.S. Government about silent messaging technologies.

This new technology creates results other methods can't touch!

So, after the initial ***Awakening Prologue*** level, all the soundtracks are custom made, with the addition of personal affirmations, which you choose and record in your own voice. Soon after you start the program, we will send you more information about this new silent communication technology, how it works, and how you can add it to your CDs.

www.getwsodo.com

Finally, here's a third big reason why our program is different from any other personal growth or mind expansion tool on the planet: our extensive follow up, support and education to help you get the most from the program. This support includes:

- » Follow up support letters every two weeks during ***Awakening Prologue***, describing how meditating with **Holosync®** affects the brain, how you're likely to respond on a week-by-week basis, and how to easily handle the accelerated changes you'll experience.
- » Hotline access to our support staff when and if you have questions or need special help.
- » Special Reports on the latest research and breakthroughs in the field.
- » When you move to *Awakening Level 1*, you'll also receive my book *The Management of Evolutionary Change*, delving even more deeply into the subject of smoothly handling deep and rapid change. (Therapists in the program rave about this book!)
- » By the way, I want you to be sure to read my blog, where I discuss many different aspects of personal and spiritual growth, personal success, and emotional healing. Just go to ***The Blog that ate Mind Chatter***.

Finally, to make sure you get even more benefit from ***Holosync*** ®, I also want you to have a FREE multi-media 4-lesson online course, *Master Your Emotions, Your Actions, and Your Life* which also includes free telephone coaching with our professional coaching staff.

Though *Master Your Emotions, Your Actions, and Your Life* is worth $199.00, and the sessions with our coaches are worth at the very least an addition $300.00, this course is included with Awakening Prologue at no additional charge.

Let me explain how it works:

In this letter I've described many of the benefits of ***Holosync*** ®. Some are mental, others are emotional, some are spiritual, and some are related to your physical well-being.

All of them, however, are the result of the dramatic increase in awareness created by ***Holosync*** ®. As you use ***Holosync*** ®, you become more aware of many things (some internal, some external) which you've been doing unconsciously.

In *Master Your Emotions, Your Actions, and Your Life* I'll direct your awareness to four different ways that you create your life unconsciously. These four things *directly create how you feel in each moment, how you behave, and which people and situations you attract or become attracted to.*

Think about it. These three things — how you feel, how you behave, and which people and situations you attract or become attracted to — make up most of your experience of life. As you gain awareness of how you create them you'll stop doing so automatically and, as a result, you'll...

...begin to have choice about them.

This, I promise, will totally change your life, as it has for the thousands of other people who've learning this information. Those negative things that keep happening to you over and over? They'll stop happening. The people you don't want in your life? They'll stop showing up. You'll see exactly how you've (unintentionally) created money problems, relationship problems, career problems, emotional problems, social problems, and nearly every other kind of problem in your life.

This, by the way, is not about *knowing* that certainly things you don't like keep happening in your life. You probably already know that you feel shy in social situations, or keep attracting the wrong partners, or can't stay motivated, or don't eat right, or often don't do what you know you should do — or whatever it is that keeps happening to you.

Knowing that these things keep happening obviously hasn't helped!

www.getwsodo.com

What I'm talking about is seeing exactly how certain things you do, unconsciously and unintentionally, as you do them, generate these outcomes.

As you do this, something quite remarkable happens: you find that *you can't keep doing it*. You can only do what doesn't serve you...

...if you do it unconsciously, outside your awareness.

So, when you join the ***Holosync*** ® Solution program you're getting a powerful, pleasant, and easy-to-use tool — ***Holosync*** ® — that dramatically increases your awareness. Then I'll show you *where to direct that awareness* so you can gain the greatest amount of choice about what happens in your life, internally and externally.

First you'll watch a short video introduction where I set the stage for what you're about to learn.

Then you'll listen to a longer audio lesson (which you can download and listen to on your iPod or burn onto a CD). You'll also receive a printed transcript, to make it easier to review.

Finally, you'll do a little bit of fun and revealing "homework," which will take the information from something you "know about" to where you have a deep awareness of what *you've been doing*, without being aware of it, to create the outcomes and experiences of your life...

Finally, if you like, you can get on the phone with one of our highly trained professional coaches, who will help you "get" the essence of that lesson experientially and help you apply it to your life.

By the end of *Master Your Emotions, Your Actions, and Your Life*, you'll have accomplished several things:

1) **You'll understand a lot more about *Holosync* ®, what to expect, and how it works.**
2) You'll know exactly how you create every feeling you experience. Once you "get" this, feeling bad will become a choice, not something that "just happens." Even when something challenging happens, you'll be able to experience the most resourceful states of mind.
3) **You'll see exactly what you've been doing — unintentionally and unconsciously — to create those negative things in your life that happen over and over.**
4) You'll see why certain people and situations really bug you. As you become aware of how and why you've attracted these people, they'll not only stop bothering you, they'll stop showing up in your life. What a relief!
5) **5) Finally, you'll see why certain areas of life don't seem to work, and you'll know just what to do so that they do work.**

I realize that this might sound almost too good to be true. But as legendary psychotherapist Fritz Perls, creator of gestalt therapy, once said: "Awareness, in and of itself, is transformative."

Holosync ® dramatically increases awareness. I then show you how to direct that awareness, and our profession coaching staff guides you through the process to make sure you succeed.

To make sure you get the most from ***Holosync*** ®, we offer to *develop a relationship with you* so you can take advantage not only of our expertise about this remarkable technology, but also about the process you go through as you make the kind of accelerated positive changes it creates.

Boiled down to the bare essentials, you could say we really provide you with two things:

- The most powerful meditation, mind expansion, and personal growth tool I've ever seen—a tool that really makes incredible positive changes happen, and...
- The cutting-edge expertise, follow up and support to smooth out the process so you can make the really deep changes you want to make, easily and effortlessly.

At this point you might be asking, "Okay, what's the downside? Are there any drawbacks or negatives?"

Yes, there are some, and I want you to know what they are.

First Drawback: I'll warn you, right up front, that this program will create a revolution in your life. **Holosync®** creates super-deep meditation, and that will put you face-to-face with...well, with yourself. If you choose to participate in this program, you'll eventually have to deal with the parts of yourself you've so far avoided dealing with.

I'm sure you know which parts I mean—those that are for the most part out of sight but nonetheless operate under the surface to sabotage you, create turmoil in your life, and make you less than happy. In this program, you will resolve these issues, and I have to admit that sometimes it can be—at least temporarily—uncomfortable.

This program will create a real healing in your life, and because on some level...in some way... to some degree...you will resist that change, you may experience periods of upheaval as you grow and

www.getwsodb.com

change. The program will create a new balance in your life, and the out-of-balance parts will most likely put up a struggle as you bid them farewell. Real growth, real change, is often cathartic. It's just part of the process.

Of course, we will help you.

We provide extensive and effective support services (at no charge, as part of the cost of the program) from an extremely knowledgeable support staff with years of experience in the program, to help you minimize any discomfort (discomfort, in this program, is definitely optional). And, actually, we've found that whatever upheaval you do experience is not only temporary, *it will generally be no greater than whatever you're already creating in your life*.

We've never had anyone—considering the phenomenal results—who didn't think it was well worth it.

Listen. I don't want to overemphasize the possible cathartic nature of your experience. For most people it's minimal—but it is a possibility, and I thought you should know about it.

Second drawback: Participating in this program requires a certain time commitment. Though *you're free to do less* (and progress more slowly), we suggest you start with a half hour of meditation each day with the CDs, progressing to an hour a day. My bet is you'll eagerly look forward to these sessions, though, rather than seeing them as a chore.

Why? Because the experience is wonderful, and you feel so good afterwards. But still, you do have to be willing to set aside the time. If you aren't—if you don't think the incredible mental, emotional, and spiritual benefits of this program are worth the time commitment—this isn't for you.

Finally, you might be asking:
Is the program safe? Are there any long-term dangers?

Not unless you find increased happiness, greater peace of mind, improved mental functioning, greater self-awareness, better emotional health, and a feeling of greater aliveness dangerous. At this point, Nearly a million people in over 193 countries have used **Holosync®** to improve their lives. So far, I'm not aware of *even one person* who has reported any negative results (other than a little bit of discomfort from time to time as part of the healing process).

And, the program has been heartily endorsed by scores of doctors, naturopaths, and mental health practitioners, as well many other leaders in the personal growth field, including even world-famous Zen teachers and Zen masters!

We feel very confident, after over 24 years of investigation and Nearly a million hours of use (not to mention at least 12 years of research in this field by others prior to my own involvement), that the program is 100% safe and will deliver to you an absolutely remarkable, positive, life-changing experience.

So, if you're ready to give the program a try,
here's my risk-free offer (in fact it's better than risk-free):

I know you may be skeptical. I know I was when I first heard about this. Everybody always promises the moon with these personal growth approaches, and I know I've promised you a lot here. All I want is **the chance to prove to you** that everything I've said in this letter is absolutely real and true and that this technology, and the program I've created around it, truly **will** change your life.

Here's how you can try the program for yourself

I'll send you ***Awakening Prologue*** on CDs for the special introductory price of $179 plus $15 for shipping and handling. Shipping outside the US and Canada is $34.

This price includes the three main soundtracks you'll need to participate in this initial level of the program. It also includes a hefty Special Introductory Package of written materials explaining the

scientific basis of meditation, how deep change really happens, the scientific background that makes **Holosync®** work, and how to get the most from the program.

Plus, you'll receive follow up support letters from us every two weeks for the first six months, describing how the program will affect you, what you're likely to experience, and how to deal with whatever happens in a way that allows quantum leaps in brain function and personal change to happen easily and effortlessly.

You'll also receive unlimited access to our Support Telephone Hotline (or by email or fax, if you live outside the US and Canada), so there will always be someone available to answer any question you might have about your experience.

And, You'll also receive *Master Your Emotions, Your Actions, and Your Life* 4-lesson FREE online course where I show you how to direct the expanded awareness you'll experience as you use ***Holosync*** ® so you can create the greatest amount of positive change — and the greatest amount of choice over what happens in your life.

This course alone is worth $199.00 — more than the entire cost of The ***Holosync*** ® Solution itself! What's more, I absolutely guarantee that you will receive ALL the benefits I've described in this letter (see below for the details of our world-famous, iron-clad guarantee).

Payment options

To make it even easier for you to give this program a try, you can even pay in four easy payments: an initial payment of $49 plus shipping followed by five monthly payments of $28 (Visa and Mastercard only).

Okay, here's the "better than risk-free" part. Just for trying ***Awakening Prologue***, we'll also give you five additional FREE Holosync soundtracks:

FREE Bonuses Worth $127.88!

- *Quietude*: this beautiful and very relaxing soundtrack features the Holosync technology at the alpha level. Since alpha is the brain wave pattern of super learning, *Quietude* is also perfect for listening while reading, learning, or studying, or to play in your work space to keep you refreshed and alert for hours.
- *Oasis* will take you deeper, into the theta brain wave state, a state of increased creativity. (I like to listen to *Oasis* when I'm trying to find a creative solution to a seemingly "unsolvable" problem.)

These two beautiful (and powerful) soundtracks normally sell for $37.98, but they're yours FREE just for trying ***Awakening Prologue***. Plus, we'll send you another very powerful free Holosync CD worth $24.95 about two weeks into the program (but I'm going to keep that one a secret for now).

Finally, as an added bonus only with this offer, you'll also receive a very special 2-soundtrack set, Super Longevity™. Created in conjunction with Vincent Giampapa, M.D., noted longevity researcher and past-president of the American Board of Anti-Aging Medicine, these soundtracks are specially engineered to create powerful changes in important brain chemicals related to aging and longevity, including DHEA, cortisol, and melatonin.

Dr. Giampapa and I have specially created this two-soundtrack set to address the issue of aging and longevity—and though it normally sells for $49.95, it's yours FREE just for trying **Awakening Prologue**.

Finally, since I understand you may still be skeptical that this program can do everything I've told you it will do, I'd like to take all the risk out of trying it by giving you...

...a 365-day better than risk-free guarantee!

Please try ***Awakening Prologue*** for up to a full year. Anytime during that year, if you aren't convinced this is the most incredible growth tool you've ever used, and that it does everything I've described here, just return it and we'll cheerfully and quickly refund your payment. And, you can still keep the free bonus soundtracks (worth $112.88), all the materials from my FREE online course, and all the written materials as my gift to you just for trying ***Awakening Prologue***.

Finally, we'll also send you a special Research Report ($15 value) outlining the exciting scientific research behind this groundbreaking new technology. I know you'll find this report fascinating and informative reading.

Please, give me an opportunity to show you how this technology can change your life...and also show you how many other ways we'll give you much more than you bargained for: more information, more follow-up and support, more service, and certainly more results!

Worst Case: You gain a real education about the latest scientific breakthroughs in mind technology and how really deep change happens in the brain—plus you'll experience a whole year of extremely deep meditation and resulting positive core-level changes.

And, you receive for FREE, just for trying **Awakening Prologue**:

1. **$112.88 worth of bonus soundtracks, and the $15 research report, making the free bonuses actually worth $127.88)...**

www.getwsodp.com

2. All my writings in the Special Introductory Package regarding the science behind this amazing technology and the process of deep change it creates…
3. **All the follow up support letters…**
4. Any Special Reports we create, plus…
5. **My 4-lesson *Master Your Emotions, Your Actions, and Your Life* online course, with unlimited FREE coaching from Centerpointe's professional coaches, worth $199.00 (making a total of $326.88 in FREE BONUS EXTRAS), and...**
6. Unlimited access to the Telephone Hotline.

Best Case: You finally find a tool that will help you get that elusive "something" you've been searching for—while you thoroughly enjoy yourself in the process!

Even one of the remarkable quantum leaps in personal growth brought about by **Holosync®** soundtracks—and the tremendous positive emotional changes that will accompany it—could change your life forever. But you'll experience these leaps in awareness over and over in this program. In fact...

...they become more profound the deeper into the program you go!

Many of our program participants have commented that they experienced more deep change in the first four months of our program than in three to five years of intensive therapy costing anywhere from $8,000 to $20,000! ***Awakening Prologue***, on the other hand, taking four to six months to complete, is only $179—between $.88 to $1.33 a day! Less than the coffee you drink each day!

Have You Seen The Secret?

DO YOU HAVE THE COURAGE TO EARN HALF A MILLION DOLLARS A YEAR?

www.getwsodo.com

This is a private advertisement. It is meant for the *tremendously ambitious* man only.

It is meant for the kind of man who has, first of all, *the relentless desire* to earn more money in a single year than most of his friends will earn in their entire lifetime.

It is meant for the kind of man, secondly, who has enough sheer raw faith in himself to *believe*, today, that tomorrow he may actually be able to take home $40,000 or $50,000 *a month* — once he has been shown the techniques of making this kind of money.

And, finally, it is meant only for the man who is willing to make the *sacrifices* that this kind of income demands. Who is willing to take the gambles . . . endure the tensions . . . fight the inevitable battles—where his brain is pitted against some of the sharpest minds in the country, for prizes beyond the imagination of ordinary men.

And, above all, who is willing to accept the responsibility for other men's futures, the loneliness that always surrounds the person in command, the envy and hostility that will plague him for the rest of his life.

Do you have the courage to reach out for this kind of life? To accept its incredible rewards and incredible hazards? If you do, read on. If you don't, consider yourself lucky and turn the page —there is nothing left in this ad that will make an iota of sense to you.

To Make Gigantic Sums Of Money, You Throw Out All The Rules That Small, Safe Men Live By Every Day.

What we are selling on this page is a book about making fabulous sums of money. It is possibly the most unusual how-to book ever written. First, because it distills a lifetime of wisdom from one of America's most distinguished and successful financiers. And, second, because it reveals (to our knowledge, for the first time between the covers of a single book) the almost completely-unknown techniques of the "*Super Money Makers*" — the men who take home five hundred thousand or a million or five million dollars a year.

Let us emphasize right here that you do NOT need "big money" to use these techniques. They will work with ANY AMOUNT of starting capital, even as little as $500 or $1,000.

Here is a brief description of all six of them. See if you want to live out the kind of adventure they open up to you:

1. OPPORTUNITY RADAR!

These big-money manipulators *create opportunities* as their stock in trade! They see money-making potential in situations that ordinary people are fighting to get out of! This lets them pick up tremendous hidden values for pennies . . . make a simple change or two . . . *and then sell out for a fortune—all at capital gains!*

This guide gives you the simple techniques that spotlight these hidden values—that filter them right out of the financial pages like wheat from chaff! Once you learn them, you will never read your daily paper again without an electric sense of opportunity!

2. STOP USING YOUR OWN MONEY!

Know-how—not capital—is the key to real profit-making! These smart-money men never let an opportunity slip by simply because they don't have enough of their *own* cash available to scoop it up!

This guide gives you the techniques they use to add up to $99 of outside money to every $1 of their own! How to create credit, *before* you ask for it! How to take money you borrow at 3% to 4½%, and bring in up to 36% to 50% on it in a few short months!

These techniques give you control of vast profit-making machinery overnight — with other people taking most of the risk! It opens up the door to situation after situation, *where borrowed money can earn you a yearly profit in excess of your own total investment!*

3. TIMING GREATNESS!

Stock-market timing can be learned! Price-rise can be anticipated, time after time, with almost mathematical precision—*if you know the six acid-tests that these men use to spot the fast-risers, BEFORE they take off!*

Several lifetimes of buy-and-sell experience are packed into just twelve pages of this revolutionary new volume! If you're interested in special situations, in short-term profits, in breakthrough companies too young to have been bid up to their proper prices—then these twelve pages will lift you right off your chair!

4. THE POWER OF SAYING NO!

Now come the rules to avoid being made a patsy! To side-step the hundreds of mouth-watering pitfalls, *so well concealed that the amateur investor never even sees them!*

As just a few examples—here are the seven warning signals that insiders look for whenever they enter a new negotiation! Thirteen dangerous traps in so-called "bargain buys," and how to avoid them! The five fatal weaknesses that destory most men who try to expand too quickly! Favorite tricks promoters use to squeeze an extra few thousand dollars from you! Even how so-called "standard" contracts can ruin you—*if you don't know the law to read the LARGE print!*

5. DOUBLING THE PROFIT FROM EACH DEAL!

These men have proved it over and over again: If you have something to sell—including your own time—*you can make more money in five minutes of creative negotiating than you can in five years of hard work!*

Here are negotiation strategies that have made tens of thousands of dollars with a single spoken sentence! How to buy a going business without one penny's cash! How to set yourself up for a life-long annuity, simply by making a phone call! How to turn somebody else's "must-sell" business into royalty checks for you, even if you don't invest a cent in it yourself!

How to make your business ideas pay you a guaranteed profit of a weekly salary, or a personal percentage of the gross—*in many cases starting six months or more before they are on the market!*

6. MILLION-DOLLAR TAX ANGLES!

Plus the four golden rules for taking more after-tax dollars from any deal you make! Twenty-five commonly-overlooked ways to lower the straight income taxes you've been paying for years—*without legal complications!*

Plus one-man, tax-deductible pension plans that you can easily put in! How you can let your children start earning double-money from the day they're born! How to switch both salary and profit into tax-exempt retirement funds that might take financial worry out of your life forever!

Don't Risk Disappointment! Send for Your Copy Today!

All 6 fortune-building steps—including dozens of almost-completely-unknown techniques that we do not have room to detail here—are yours in *How to Increase Your Money-Making Power!* It is now available to you—through this advertisement only—without risking a cent!

The choice is up to you: You can continue to make $5,000—$10,000—even $20,000 a year the old hard way . . . *or you can make $50,000—$100,000—even $250,000 a year by making these seemingly-minor changes in the way you handle your time and money!*

It costs you nothing to prove this to yourself!

Given to you be one of the Country's Leading Financiers

John Alan Appleman was first listed in Who's Who in America at the age of twenty-eight, and has been listed every year since.

In 1965, Mr. Appleman reduced his personal activities. At that time, his corporate connections included the presidency of Disability & Casualty Inter-Insurance Exchange; Standard Annuity & Life Insurance Company, Universal Drug & Research Laboratories, Inc.; Universal Research Products Inc.; Annuity Agency Company, with interests in two dozen other companies.

Mr. Appleman is the author of a total of forty-six technical volumes on insurance, economics, estate planning and financial security. In addition, he has written articles appearing in over a hundred publications.

ONE DAY WITH THIS MAN COULD MAKE YOU RICH!

www.getwsodo.com

He has already shown thousands of men and women how to "bootstrap" themselves into their own spare-time business ...pull in as much as $1,000 to $10,000 net profit in thirty short days, *without even risking their present jobs!*

And he's willing to prove this to you—face to face on April 26th—*without your risking a single penny!*

E. JOSEPH COSSMAN

One of America's most colorful businessmen. Started with a capital of $215, and built it into a multi-million-dollar-a-year business—with branches in almost every country in the civilized world.

Always an innovator—and one of the most effective money-making teachers in business history—Mr. Cossman gives over one hundred speeches a year before Chamber of Commerce groups, business organizations, sales promotion and marketing executive clubs in this country—and such world-renowned institutions of higher learning as the Sorbonne of Paris. All this in addition to his radio and television appearances with Steve Allen, Groucho Marx, Art Linkletter, Johnny Carson, Mike Douglas, John Reed King and dozens more.

Mr. Cossman's interest in little-known business money-makers has yielded him incredible rewards. Just one phone call he made to the government—which he describes in full at his fascinating seminar—resulted in a contract with an overseas firm for one of his products, that netted him $50,000 a year—as a minimum!

His best-selling book, "How I Made $1,000,000 In Mail Order" is used as a text book by many colleges in their marketing classes. His newest book, "How to Get $50,000 Worth of Services Free Each Year from the U.S. Government" is acclaimed by professional businessmen as a major contribution to the business world.

Here's how:

This is your personal invitation to a **"SEMINAR FOR FUTURE MILLIONAIRES"**! It is given by America's most successful "Start-from-Nothing-Millionaire"...E. Joseph Cossman, who started a spare-time business for himself with a kitchen table for his desk, a few hundred dollars and an idea. And who, today, at the age of 49, has retired with over $1,000,000!

And the most important fact of all...Joe Cossman made this $1,000,000 almost completely by mail order, using other people's effort and money, and in less than a few years from the time he was working as a $65-a-week shipping clerk with "no future".

Let me repeat that fact again: Just a few golden secrets—secrets you are going to learn at the **Commodore Hotel in Manhattan on Saturday, April 26th,** netted this man over $1,000,000.

Is this seminar for you?

If you are on salary, working for a living, and want to be your own boss...if you want to make additional income in your spare time...if you have a product, or an idea for a product, and want to know how to market it...if you are in your own business and want to increase your sales...then this one day seminar can be the most profitable...as well as exciting...you have ever spent in your life.

Here are only a few of the money making secrets E. Joseph Cossman gives you in this unique SEMINAR FOR FUTURE MILLIONAIRES:

If you'd like to start a spare-time business with as little as $100 spare cash—

$ How would you like to get a commission on almost every house sold in your neighborhood, *without* registering as a real estate agent, or even leaving your front porch.

$ Or even use this fantastic new way to *form your own race-horse syndicate*—where for only $18.50 a month, YOU own a thoroughbred that may win thousands!

$ How to get perfect strangers to send you as much as $100 a year each, for ten years, *just for reminding them of certain critical dates.* (You never see them; you never leave your home.)

$ How $3, and this simple twist, can put you in the import business—right up to the point where you're selling franchises to others.

$ How to get your cut on the biggest (and completely legal) lottery in the world. You risk $10. *You get an oil or gas lease in return.* (One man has already made a million dollars for exactly the same kind of investment.)

$ How to turn *ordinary rocks* (and an ingenious idea) into instant-money. (This one is so simple, you may kick yourself for not thinking of it.)

$ An introduction to one of the cleverest (and laziest) men in the United States. He works from 4:30 to 7:30 five nights a week—and earns over $12,000 a year. *His gimmick:* a stroll through a shopping center parking lot, a couple of part-time high school kids, *and an irresistible message written on a 5-inch by 8-inch card.*

$ Invent one of these, and make up to a million dollars overnight (a startling complete list).

$ *A new kind of bicycle,* that smart operators are now using to bring in up to $1,000 a day. (Yes, I said up to $1,000 a *day!*)

$ The inside story on why one of the biggest service businesses in the world simply *cannot* advertise. *And why they will therefore pay you up to $1,000 for a single prospect's name.* (If you like to talk to people, this simple inside-knowledge *could* make your spare-time worth as much as $15,000 to $20,000 extra to you every year.)

$ A new *European* trick that nets you big earnings from other people's misfortunes, with almost no work.

$ How to turn *mice* into a steady income, for one day's work a week. (This idea has worked so successfully for one man in Minnesota, that he has customers waiting a full year to buy from him.) You can do the same thing, *for pennies.*

$ How to buy old books for 2¢ each, and sell them for $2 apiece with one simple twist... How to turn deserted old buildings into gold mines... ingenious little ads (given to you word-for-golden-word) that cost only $5 or $10 each, and bring *hundreds* flowing in every month...

If you're already in business for yourself—

$ Cash an Insufficient Funds check, with a single phone call!

$ Hire a $100,000-a-year executive as consultant for your company, *for nothing!*

$ Get the United States Government to display your product in 100 foreign lands, FREE!

$ Run a "Disguised Ad" for your product in one hundred top magazines, for as little as 10¢ each!

$ Get FREE art work from now on for your ads.

$ Draw credit reports on most any firm outside of the U.S.A. for only $1.00 each!

$ Receive a free list of hundreds of brand-new products every month, that you can tie up for a song.

$ Save up to $100 a week on typing costs, by making one simple change in your office procedures.

$ Be wined and dined in top executives' homes all over the world by making a simple phone call.

$ Sell a product by mail order, with positively no risk of your losing any money on the ad.

$ Appear (or have your product appear) on up to 200 TV stations for as little as $50!

$ Get dozens of FREE distributors abroad—*all by writing one double paragraph letter!*

$ A sure-fire way to protect a hot new idea, so you can show it to every big company in the world, *and they haven't got the slightest chance to steal it!*

$ Buy a jeep for a few hundred dollars. Or a cabin cruiser or a helicopter for peanuts.

$ *Five ways to test a new product, before you invest a cent in it!*

$ The *right way* to investigate a franchise—so you can't be taken for your money!

$ Exhibit at a trade show, even if you don't want to pay a penny for the space, the travel or the personnel to get there!

$ Put on a national sales organization *in one evening!*

$ There is one time only during the year when it is possible for you to contact the president of the largest company, when he is not protected by receptionists or secretaries, *and when he will welcome anything you want to say!*

$ The Super Product! It costs 40¢, sells for as much as $10, needs no tools or dies! *Why not put it to work for you—tomorrow!*

$ Sell thousands of dollars of a NEW product, *before you bring it out or even spend one penny to make it!*

COMMENTS ABOUT PREVIOUS SEMINARS

E. Joseph Cossman's Seminars have literally changed the lives of hundreds of people. Here are just a few of the many letters he receives each week, attesting to the benefits people receive from his seminars.

Arnie Rojan writes:
"I was broke, in a dead-end job, and disgusted with myself! I had an idea for artificial animal rugs, but didn't know where to start. Then I discovered the E. Joseph Cossman methods of bootstrapping yourself into business. Following your teachings, I started to manufacture and sell my rugs in my spare time while I held onto my job. Thanks to you, I was able to quit my job and develop my product to a point where I sold out a month ago for $100,000 cash and a royalty on future sales! Not bad for a high school graduate whose parents never had more than $2000 cash at any one time."

Bob Ashton writes:
"Briefly, I am unknown in the composing field. Nonetheless, my album, 'Songs of Living Faith', topped the field of 421 others and won second place in the annual Emmy awards. Thanks to you and your marketing methods, we are now the second leading contender for individual volume on any one album in this category. The European market (especially Sweden) is opening up beyond all imagination."

Jane Ellis writes:
"I feel compelled to write to you because, as a result of your seminar, I became an instant success story! I've been in merchandising for 35 years as a retailer and also as a manufacturer's representative. During the past few months, business in the home furnishings field has been extremely slow. As a result, I guess I fell into the slump along with the loss of sales.

"Then came the Cossman Seminar! Following your methods and only ten working days after your seminar, I put on a national sales organization that has been sending in orders at the rate of several hundred dollars a day. I've just cracked the premium field and my first order was for $10,000! I can't begin to tell you what you've done for me. I feel that I have been wasting years and ideas until I attended your seminar. Thank you so very much."

Thanks to your Seminar, I now know how to find a product, how to conduct business research, how to prepare, produce, promote and push a product to success. Thanks a million! **Ed Rowe, Manufacturer**

I learned more from your Seminar about how to make money than I learned in my four years of college. **John Aaron, Importer**

Your Seminar gave me the finest and most practical insight imaginable in the field of money making opportunities and product merchandising.
Rudy F. Schmid, C.P.A.

I would say that this Seminar is worth several thousand dollars to me in the time I will save in the blunders I won't make. Excellent in all respects.
Al Brown, Salesman

I am really grateful to you. Your Seminar was just what I needed to get me started on my own.
Hal Bond, Sales Rep.

Your course has been so stimulating and challenging that it has provided an impetus for me to take action and establish a business in my spare time. **Patty McCormack, Teacher**

Thanks for giving us our start. Our young company grossed over $15,000,000 in sales in its first full year of business! **W. L. Payne, Chemical Sales**

Thank you for opening a whole new world for me. Never in all my 41 years have I ever had such a feeling of being alive.
Robert A. Turner, Businessman

Your step-by-step directions for successfully marketing a product is being put to use right now with one of our own products...and your formula works! Using your methods we have practically built a national sales organization overnight for just a few dollars.
Charles Carpenter, Adv. Agency

My head is still swimming from the exposure to your Seminar which taught me more ways of marketing than my past 10 years of experience.
Jim Bair, Marketing Agent

I never realized how much I didn't know until I attended your Seminar. Your course should be taught in every college in this country.
Peter Newman, Inventor

A big benefit I received from the Seminar was the lift it gave to my personal courage. I'm now certain I can do something more than stick at one type of job all my life. **Robt. Bridges, Shipping Clerk**

Why Models Stay Young Till Sixty!

www.getwsodo.com

Revealed at last! By the world's most beautiful women — who make their living by being, and staying, young! What they *really* do to:

This is an unretouched photo of 39-year-old Oleda Baker, author of this eye-opening new guide. Would you believe her age? Learn her youth-secrets, and those of other top models, entirely at our risk. Read the details on this page!

—add *not a single pound* to their figures, even though they add five, ten, twenty or thirty candles to their birthday cakes!

—rinse so much shine into their hair that it has to be powdered down so it doesn't glare into the TV cameras!

—smooth out ugly veins from their hands and feet, in exactly the same way that they smooth out ugly lines from their necks and faces!

—leave their double-chin in bed when they get up in the morning, because they know the right way to simply "sleep it away"!

—"pearlize" their skin, so you would never dream that they too suffered from blackheads, enlarged pores or acne!

These Beauty Secrets—And Dozens More Just Like Them—Earn These Women Up To $100 An Hour! Now They Are YOURS For Only A Few Pennies Apiece!

What we are offering you, in fact, is the world's first "inside" manual on how ordinary women (with perhaps a slightly better face and a slightly better figure than yours) *are transformed into stunning beauties! With pounds carved painlessly off their figures! Years smoothed effortlessly off their faces! Every good feature perfected, and every bad feature either corrected or disguised!*

And then—when the absolute exquisite face-figure has been created out of the raw girl who first came into the studio—*this dazzling physical beauty is then "frozen" against time and weight-gain-of-even-an-ounce for ten . . . twenty . . . even forty years!*

For great models are not born; they are made! (On page 10 of this eye-opening volume, you are taken behind-the-scenes in the most glamorous "sorority" in the world, and you are shown that *there is scarcely a model alive who did not need to have ten or twenty pounds whisked off her figure, and a major transformation made on her face, before a top model agency offered her a contract.*)

But these women made themselves slim, and made themselves radiant *far more cleverly and easily than you have ever dreamed.* Let us prove that to you *right now*:

Take Slimming, For Example! How Would You Like To Eat What You Want, When You Want It—And Still Get And Stay Slim Forever!

Let us just quote *one* of the models whose "forever-young, forever-slim" secrets are revealed here! She says, quite frankly, "I positively adore food. And I never, but never, starve myself. *Yet I weigh the same today as when I started modelling more than ten years ago.*" (Italics ours.)

Why? Because she uses the "Self-Maintaining Diet"! The diet that's fun, that's the happiest of adventures! That actually tames, overnight, those sudden wild urges that destroy your figure! That re-educates your taste buds *and* your metabolism, so that you find yourself *able to eat what you want, when you want it, without gaining so much as an ounce—and (at least at the beginning) losing as much as a pound a day!*

Using this diet strategy, *food becomes an ally rather than an enemy! It fills you up, but never out!* Using this strategy, one model went from 140 pounds to 123 pounds in well under a single month—*and she still ate what she pleased on weekends!*

Using this strategy, every other model (with the exception of one or two) who faithfully followed it for ten days *lost ten big pounds—to start!* Another (a perfectionist) went from 133 to 97 pounds! Another, who was bottom-heavy, not only shed ugly pounds all over her body—*but exorcized the flab right off her buttocks so perfectly that she now does bathing suit ads!*

And This "Frozen Slenderness" Is Only The Beginning Of The Stunning New Beauty These Top Models Can Give You! Without Your Risking A Penny!

For example:

Of all women, a successful model must always be a healthy, sexually vibrant, powerhouse of energy! She must be able to "turn on the dazzle" at a moment's notice—*despite the fact* that she has been dashing all over the city, toting pounds of clothes, a make-up kit, and often a wig box! *Here are the "glamour vitamins" that turn on such amazing stores of physical vitality—ready to go to work for you within seconds after you read page 42!*

Nor can an $80-an-hour model afford the slightest trace of dandruff! After trying *all* the expensive treatments and preparations, *here's how they simply rinse the ugly flakes away, at home, in seconds—for pennies!* (Page 63.)

And do you know that weak eyes, aging eyes, dull eyes can cost a model her career! *These top models believe that far too many women take to spectacles simply because of lazy eye muscles, just as most women take to girdles because of lazy body muscles!* And if you want to escape the "eyeglass-prison"—perhaps far faster than you've ever dreamed—check page 68 the moment you get this book!

And now about strong, sexy teeth! Did you ever hear, for example, of the new *sealants* that can be applied to your teeth in seconds, *to shield them from harmful bacteria!* (See page 73.)

SPECIAL BONUS SECTION: Tips from top hand models that may solve your rough, red problem forever! They say bluntly that there is simply no excuse any longer for hands that are anything else but silken smooth—and nails that are as strong as steel! One glance at the "magic" hand exercises on page 81 may convince you, for good!

PLUS, of course, the same "million-dollar know-how" for your *feet* as well! Including a natural-fruit way to keep their skin exquisitely white and fine-pored! And a simple little action that builds a natural-shield against calluses right into them!

These Models Say Old-Fashioned Huff-And-Puff Exercises Are OUT! If You Want A 23-Inch Waist At Age Sixty—Do this Instead . . .

Just MOVE the way you're shown on pages 89 to 103 . . . and watch inches seem to evaporate into thin air—as though you could practically "smile" them away!

Here are special, super-effective slimmers for the stomach, legs, hips, calves, derriere, arms, bosom—and *especially* that embarrassing "below-stomach bulge" that otherwise grows larger and larger! Also two startling "firmer-uppers" for neck lines and for bags under your eyes that you must try *at once* if you suffer from either one!

Incidentally, if you want to smooth out lip wrinkles, also check page 101 at once!

And this is still just the beginning! We just don't have room enough here to mention all the professional beauty secrets revealed at last in this eye-opening book! For example:

How to eliminate muddy, bumpy-looking complexion *with nothing but water . . .*

How to get rid of "early morning wrinkles and bags," *in minutes . . .*

How to build a voice as seductive as your new body—a complete mini-course . . .

How to achieve the illusion of a near-perfect face (for example, if you have a receding chin, how to "add" to it in seconds) . . .

How to blend your own shampoos, skin creams and facials, that cost almost nothing, *but far outperform the expensive kind . . .*

And Much, Much More! But Read Them All—Prove Them All, From Cover To Cover—Without Risking A Penny!

This book is for people who want to get things done! You owe it to yourself to try it! We take all the risk! Why not send in the coupon—TODAY!

FROM 4 PACKS A DAY TO ZERO, IN 4 HOURS!

www.getwsodo.com

And he hasn't touched a cigarette again in 6 years!

This is just *one* case history out of many in a revolutionary new book published by the Reader's Digest Press!

This book does not promise you, of course, that YOU will be able to duplicate this speed.

But it does promise you this:

YOU CAN QUIT SMOKING IN 14 DAYS!

No matter how long or how much you've smoked. No matter how many times you've tried to stop before!

Once again, this book is published by the Reader's Digest Press, because they consider this book so vitally important for your health—especially if you have tried to quit smoking before, and:

- have suffered horrendous withdrawal symptoms!
- started to put on weight, or turn to alcohol!
- found yourself overwhelmed by tension, or your "will power" cracking after one or two weeks of sheer torture!
- still had to "fight off the craving" months and even years after you had "sworn off" the habit . . . until finally it took over your life and your health once more—even more powerful, and more deadly, and more disgusting than before!

And Let Us Repeat This Fact: 14 Days Is The Outside Limit It Will Take You To Stop Smoking With This Book . . . Or It Costs You Nothing!

What is the *minimum* time you can expect? The documented case history summarized in the headline above: *From 4 packs a day to ZERO, in 4 hours . . . without touching a cigarette again, in the past 6 years!*

This is just one case history, reported to you on page 88 of this revolutionary new book. It is by no means unique. The book does not promise you, of course, that YOU will be able to duplicate this speed. But it does promise you this:

14 DAYS IS THE *OUTSIDE* LIMIT IT WILL TAKE YOU TO STOP SMOKING WITH THIS BOOK . . . OR IT COSTS YOU NOTHING!

14 days! 14 short days! 14 incredibly rewarding days! Two tiny weeks to the new freedom, the new health, the new vitality you have been dreaming about for years!

You can quit smoking in 14 days! All you have to do is reach out your hand for this help to do it!

Why? Because This Book Gives You NEW METHODS That May Startle Even The Most Sophisticated Smoker!

We are not going to describe these methods in this ad. You must study them yourself to realize their full power. But we will say this: ONE BRIEF HOUR WITH THIS BOOK—before you start to stop—WILL CONVINCE YOU OF ITS OVERWHELMING POWER!

When you learn—on page 7—that it does not take will power to quit cigarettes!

When you learn—only a few minutes later—that the very difficulty you have had getting off cigarettes before, may be the greatest weapon you have working for you from this moment on!

"Every smoker who wants to quit ought to try the excellent method in this book. It provides a unique and practical step-by-step plan that carries the smoker painlessly to a happy, smoke-free-life."

Donald T. Fredrickson, M.D.
Project Director,
Inter-Society Commission
for Heart Disease Resources

IF YOU READ NOTHING ELSE, READ THIS:

"In this book, the millions of Americans who want to stop smoking have a sound plan, based on medical and scientific experience and research. The re-learning approach, on which this is based, has already proved effective for thousands of ex-smokers. Every cigarette smoker who wants to quit could be helped enormously by following the advice of this excellent book."

American Cancer Society
Luther L. Terry, M.D.
former U.S. Surgeon General

When you realize with joy—on page 15—that now "giving up this stabilized habit (irrespective of how addicted, how defeated, how discouraged you may feel, or how many times you have previously tried to stop) *involves no physical withdrawal symptoms*"!

Read that sentence again:

". . . involves no physical withdrawal symptoms"!

And then read this sentence:

"Acute craving begins to subside after only a few days".

And this:

"You don't have to program yourself for a period of horrible discomfort".

And this:

"Many people actually lose weight when they give up cigarettes".

And this:

"If you suffer a lapse, this book puts you back on the non-smoker's track without pangs of guilt."

And this:

"If you really enjoy smoking and regard it as a reward, it will be easy for you to find a substitute (this way) . . . People like you never seriously miss cigarettes."

And—above all—read this:

". . . no matter how long or how much you've been smoking cigarettes, when you stop, your body immediately begins to repair damaged cells and tissues. The numerous abnormal cells, which are probably precancerous, found in the lungs and throats of smokers, begin to change back to normal cells when the smoking stops"!

This Is What This Book Offers You! YOU CAN PROVE IT ALL—GAIN IT ALL—IN JUST 14 SHORT DAYS!

Our guarantee is simple: you stop smoking in a maximum of 14 days . . . or you get every cent of your money back!

There is nothing else to say. You know what you risk if you keep on smoking. You now know what you can get rid of—for good—in just 14 days if this book works!

Now, a world-famous physician, who treats some of America's leading celebrities, says forget about drugs and realize that

FOOD IS YOUR BEST MEDICINE

This is possibly the most controversial medical book for the general public ever written. We believe it may also be the most beneficial.

For in it, a leading physician (who cured himself of dangerous illnesses *with food alone*) asks you to:

1) stop taking dangerous drugs . . .

2) switch today to an enjoyable NEW way of eating that makes you glow-all-over with great energy—glorious vitality and above all, ROBUST HEALTH . . . *even if you've spent the last forty years feeling "rotten"!*

Look At The Photo Of Young-Looking Dr. Bieler Again. Then Realize That He Has Been A Hard-Working Physician For More Than 50 Years!

Dr. Bieler's message to you is quite simple: He wants you to know that, as a practising physician for the past fifty years, he has seen just about every illness and weakness that the human body can suffer. *And he believes that the vast majority of ALL infirmities DO NOT HAVE TO EXIST AT ALL!*

Let him tell you about this thrilling discovery, right now, in his own words:

". . . I have reached three basic conclusions as to the cause and cure of disease. This book is about those conclusions.

"The first is that the primary cause of disease is not germs. Rather, I believe disease is caused by a toxemia which results in cellular impairment and breakdown, thus paving the way for the multiplication and onslaught of germs.

"My second conclusion is that in almost all cases the use of drugs in treating patients is harmful. Drugs often cause serious side effects, and sometimes even create new diseases. The dubious benefits they afford the patient are at best temporary. Yet the number of drugs on the market increases geometrically every year as each chemical firm develops its own variation of the compounds. The physician is indeed rare who can be completely aware of the potential danger from the side effects of all these drugs.

"My third conclusion is that disease can be cured through the proper use of correct foods. This statement may sound deceptively simple, but I have arrived at it only after intensive study of a highly complex subject: colloid and endocrine chemistry.

"My conclusions are based on experimental and observational results, gathered through years of successfully treating patients. Occasionally I have resorted to the use of drugs in emergency situations, but those times have been rare. Instead, I have sought to prescribe for my patients' illnesses, antidotes which Nature has placed at their disposal.

"This book deals with what I consider to be the best food and the best medicine."

DO YOU KNOW—

Secrets of timing your meals: The amazing balancing formula that may be all you need to insure waking up full of pep every morning—that may give you the healthy *digestion* you've always wished for.

How to have a healthy cholesterol in your arteries. (Yes, you *want* cholesterol in your arteries as a lubricant. Read what most people don't know about arteriosclerosis, and how the right food helps you avoid this death-dealing condition.)

HOW TO LOSE WEIGHT AND STAY AT THE RIGHT WEIGHT with a food regimen that "reduces" you quickly and safely while it helps you get rid of body toxins and KEEPS UP YOUR HEALTH.

How to recognize YOUR OWN GLANDULAR TYPE—and the many ways you can adjust your diet to assist *your* good glandular function, male or female.

How women can get through the menopause with little distress—and no drugs—when their diet is right.

And much more! Only a small sample of the fascinating help this book gives you on almost every page. Read it from cover to cover—entirely at our risk—TODAY!

WHAT CELEBRITIES SAY

Hedda Hopper said:

"If I'd always taken his advice, I'd never have had a sick day . . ."

Greta Garbo said:

"Having known Dr. Bieler for some years, I am sure . . . FOOD IS YOUR BEST MEDICINE . . ."

Mrs. Frank Lloyd said:

"I consider Dr. Bieler is as great as any living doctor . . . because of the many lives I have observed him prolonging after other medical prognosis was nil . . ."

Now See How This Method Has Worked —In Hundreds Of Case Histories From Every Walk Of Life, And With Almost Every Ailment You Can Imagine!

Once gain, Dr. Bieler's entire life has been devoted to the deep belief that *you can often get rid of most miserable illnesses*—health-wreckers like arthritis, asthma, edema, ulcers—even some tumors, kidney and liver ailments, premature aging, loss of glandular function—*all with the diet given you in this book of nothing more than certain easy-to-obtain foods that HELP THE BODY FLUSH AWAY HEALTH-CORRODING TOXINS!*

For example—

The case of the 55-year-old woman who was weak and ill with swollen, painful, arthritic joints; high blood pressure; insomnia and overweight. Now this woman says, "There is not a single twinge of pain any more," and she is in great good health and at her proper weight. (Read the way she did it—with FOOD as her major medicine—beginning on page 19.)

The same priceless principle, and "FOOD medicine," healed a dangerous discharging ulcer that kept a man bedridden. *Don't miss this story (page 200) and the key paragraphs that follow it.*

The same simple nutrition methods cured a man who was too weak to sit up, with a body temperature of only 93°, a highly irregular heart and other symptoms of advanced, deadly hypoadrenia. After 11 days of Dr. Bieler's food treatment, he felt fine. In 32 days he was strong and capable. (page 211).

And above all, on page 17, read Dr. Bieler's own story! Remember, he proved his methods *on himself* when he was ridden with kidney trouble and asthma, and grossly over-weight. In fact, when you get your approval copy of FOOD IS YOUR BEST MEDICINE, we think you'll want to turn to page 17 first and *read his own personal story of his discovery of the "health magic" that waits in proper nutrition.*

SPECIAL NOTE: How To Use This Book To Your Greatest Advantage —

When you receive your no-risk approval copy, check the COMPLETE INDEX. Within a minute you may find some ailment or debility or misery that is bothering you.

Flip to the page indicated and read—in five or ten more minutes—Dr. Bieler's way to treat that ailment. THOSE FIVE OR TEN MINUTES OF FASCINATING READING may be the greatest health break-through of your entire life.

Read It From Cover To Cover Entirely At Our Risk!

But Dr. Bieler wants you to prove to yourself, without risk, that *good food—not drugs—is the best way to new life, new health, new vigor!* Therefore, we allow you to read FOOD IS YOUR BEST MEDICINE for thirty full days—entirely at our risk. If at the end of that time, you are not convinced that Dr. Bieler's road to health is the RIGHT WAY, *simply return the book for every cent of your purchase price back!*

But, if you have thrilled (as we have) to this great break-through in health . . . and if you FEEL BETTER ALREADY because you have spent a few days following Dr. Bieler's nutrition methods—then simply keep the book as a lifetime, life-extending guide for yourself and all your loved ones.

Again, you read it from cover to cover AT OUR RISK! Why not send in the No-Risk Coupon—TODAY!

The author: Henry G. Bieler, M.D.

"I BELIEVE THAT NATURE, IF GIVEN THE RIGHT OPPORTUNITY, IS ALWAYS THE GREATEST HEALER . . . I often have been in disagreement with doctors who stuff the sick, exhausted patient with powerful drugs, and then are forced to 'remedy the remedy.'

"Early in my career, when my own health broke down, I investigated the dangers of drugs and the chemistry of foods. I came to the conclusion that I must give up drugs. It was not long until, after repeated, verifiable results, I discarded nearly all drugs in treating my patients.

You can save a great deal of the money you now spend on pills and doctors' bills, and spend it on good food and fun."

After half a century of practice, Dr. Bieler attempted to retire but found the world beating a path to his door. He still is treating movie stars and miners, professional men and Pasadena dowagers, farmers and government officials. Many and many a person blesses this wise physician for health restored after it had been given up for lost . . . for making life full of joy and well worth living.

Dr. Bieler holds the Tilden-Weger-Bieler chair of Dietetic Medicine, sponsored by Columbia University.

Imagine having every single thing that you want.

And when you wanted something new, all you have to do is snap your fingers and it's yours because you are so powerful.

Now, you might be thinking, "Sure that sounds great, but what's the point of dreaming? Where could someone learn such a power?"

What if it wasn't a dream? What if such power did exist? Even better, what if there were an actual reproducible simple science that would allow you to become so powerful that anything you wanted was right at your fingertips?

Before you answer that question, answer this:

Do you think you could ever see yourself paying someone $2,000 for the "privilege" of talking to them on the phone for an hour?

That's a pretty expensive phone call.

And that's exactly what I charge my consulting clients for one hour of my time. My clients willingly pay this and with good reason - I get them results fast!

I'm not saying this to brag. I'm actually a pretty humble guy and am not very comfortable "talking myself up."

I only give you these two examples in the hope that you will be inspired to pay closer attention.

www.getwsodo.com

My clients pay me $2,000 per hour, but you've got me for free right now, so listen up.

After talking to thousands of people across the globe, it became clear to me that they were all experiencing **the exact same problems.**

I've spoken with people from every continent on the planet ranging from the hardest of the "hard luck cases" to millionaire entrepreneurs, high power executives and super-achievers.

No matter what they were trying to accomplish, the same roadblocks stood in their way.

The funny thing is, just about every single one of these "roadblocks" were very easy to remove.

Well, I should say, they were easy to remove once they were able to see them. That's the problem. Before talking to me they weren't able to see what was preventing them from achieving their success.

That's what I do. I get paid to see the problem that is otherwise difficult to see.

Sometimes it baffled me, though, why others couldn't see the same thing.

Then a profound thought struck me ...

In my mind I had been operating out of a very specific set of rules and using a very specific formula that allowed me to get what I want again and again. Intuitively I could see my clients breaking one of these rules, or missing a single part of the formula. I'd simply point this out to them and then - snap! - everything would fall into place.

I had a hunch that my help wasn't really necessary. In the back of my mind I suspected that what I was paid to do could be distilled down to a few easy-to-understand lessons and my clients would no longer need my help.

More on this in a minute ...

Now, in addition to my clients, there are a lot of people who write in to me looking for help and I do my best to help every single one.

Emails flood in to my inbox every single day and I have a fantastic Personal Assistant (Anna) who answers them for me, but it's just impossible to take care of every single person who writes in.

I was talking with Anna about this and expressed how frustrating it is that I don't have the time to help every single person who writes in. Most people simply can't afford $2,000 for a private consultation, so I often donate my help to people in need, but again I simply can't do that for everyone who writes in.

Finally the realization hit ...

www.getwsodo.com

What if my hunch was correct?

What if my theory that everything I told my clients could be distilled into a number of easy to understand lessons was valid?

If it were, I could then create a systematic way for everyone to learn these principles.

Over time I began to take notes and consciously formalize these rules for success.

Eventually, I decided to put all of this information together into an easily useable form, but I didn't want to do so lightly.

It would have to be so easy that even someone in the most desperate situation could jump into it and understand without much effort.

It would have to be so clear that even the most slow-to-learn individual could "get it."

It would have to be so simple that anyone could easily incorporate it into their daily lives.

That was it ...

I first set out to define the parameters.

Over time I narrowed it down to several key ideas that were fundamental to the success of everyone. The people to whom I've shown this information said it was like finally being able to see the world properly for the first time.

The Law of _____ ion.

The 4th Law of Simpleology

The 5th Law of Simpleology
The Inescapability of _____/_____ ction.

www.getwsodo.com

It became clear that there were 5 irrefutable laws which governed success or failure in any endeavor.

Without exception, those who were succeeding in life were following these laws in one way or another either consciously or unconsciously.

Without exception, those who were failing were breaking at least one of these laws on a regular basis.

Somehow it seemed that some people were born with these laws indelibly programmed into some kind of "success chip" in their head. To them, these laws are obvious and sort of a "given fact."

Telling these laws to the kind of person who has had nothing but great success from birth would be like saying to you, "The sky is blue! Do you hear me? It's been discovered the sky is blue!"

You'd lift your eyebrow at me and respond ...

"Well, sure! We've known that for a long time, Mark ..."

That's how the "naturally successful" would respond if you told them the 5 Laws of Simpleology ...

"Well, sure! Doesn't everyone know that?"

That's the problem - the vast majority of us don't.

In some cases, they may know the laws in their gut, but they don't live by them (and Simpleology has an ingenious solution for that, as well).

People like you and me weren't born with this "success chip" in our brains. Instead, we've got to reprogram ourselves.

That's what I'm going to show you how to do. Over the next 18 days, you'll be taken through a series of short, immediately understandable demonstrations that prove to you the validity of these laws.

And then I'll show you how to start living by these laws as if you too had been born with that little "success chip" in your head.

Little by little you're going to replace your old program and replace it with the new one ...

Don't worry - you'll learn what goes in those blanks in a minute.

I know you're curious, but you're not ready to hear the truth yet. There are some other things that must be revealed to you first before the power of The Scientific Formula for Success can be fully understood.

Further, remember how I told you that Simpleology is presented with cutting-edge speed-learning psychology?

You're already experiencing the start of that.

You may not realize it yet, but as you read this letter I'm preparing your mind for flawless learning and retention.

There is an interesting psychological phenomenon based on the work of a little-known neuroscientist which actually shows you how to put a mind in the optimal state for learning.

Unless you've been trained in this technique you won't notice it, but it's happening to you right now as you read this letter.

And, no - this isn't NLP or any of the other stuff you've heard of before ...

"OK, Can't You Just Show Me This 15 Minute Praxis Thing? What is a Praxis Anyway"

You'll learn that very soon ...

Before I can show you the Praxis, there are some things you need to understand first.

I'm about to give you a really bad analogy, but it will get the point across so bear with me.

Have you ever heard of a weight lifting exercise known as the "squat?"

Well, it's the most important and most muscle-building exercise in all of body-building. Any real expert would tell you that in a second.

Now, this is a bad analogy because the "squat" is mind numbingly hard. It's meant to be.

In fact, anyone who has ever done serious weight-lifting with a properly executed squat will probably have a few stories about how one properly executed "set" of squats made them so exhausted they had to vomit!

www.getwsodb.com

No joke. I've been there.

The "Praxis" you're about to learn is *not* hard. In fact, it's pretty enjoyable and easy, really. There may be a small bit of fun "mental weight lifting" you will have to perform the first couple times, but don't worry.

You'll have me looking over your shoulder as your virtual coach giving you encouragement, and ...

Very quickly you'll have a breakthrough and the Praxis will be effortless.

It's a good analogy, though, because a squat improperly executed has very little benefit at all. If I showed you the Praxis now without first showing how to properly use it, I wouldn't be doing you much good.

You don't have to worry about that, though. I make it easy every step of the way.

Some of these lessons are so short and simple that you'll just laugh at how utterly simple I've made this, and your life, for you.

"Is This Some Kind of Positive Thinking or Wishful Thinking Formula?"

Absolutely not ...

In fact, you'll learn in the very first lesson exactly why many of the things you have been taught about "positive thinking" and other such **unscientific voodoo** is absolutely false.

If you think that "positive thinking" is the key to success, it's absolutely vital that you read on.

I'll prove it to you with a simple exercise on your very first day. (You're just moments away from getting instant free access, but read on first).

In fact, **on the very first *day*** I'll shatter about **20 false beliefs** that have been sold to you at a premium over the years by the corrupt and greedy "self-improvement" industry.

Now look, I'm not one of these guys who is going to stand up and tell you "I'm right and everyone else is wrong! Don't buy *his* book! Buy mine!"

That's a tell-tale sign of a charlatan and you should be wary of any who claims to have all the answers while discounting the teachings of others.

Simpleology doesn't **replace** the work of any of these great men - it **complements**

and enhances it. It will only help you get results from *any* of these teachings that much faster.

www.getwsodo.com

There are over 100 significant teachers alive today from whom you can learn the secrets of business, success, marketing and many other topics that will have a great impact on your life. In fact, I personally know just about every single one of these teachers, and I would wholeheartedly recommend learning as much as you can in your life from each and every one of them.

The problem is this - imagine someone gave you some rocket fuel, but you tried to use it in a poorly tuned car. That's what happens with most people when they learn from these teachers.

They need a good "tune up" and an "engine rebuild" first before that fuel will do them any good.

That's what you're about to experience with Simpleology 101.

I've been a student of much of the great "personal development literature" for many years. (As well as a student of cutting edge learning psychology, the history of science, high-level military tactics and strategy and many other things from the commonplace to the arcane ...)

I would be remiss if I didn't give due credit for my success to some of the great "old school success teachers" who surely turned my life around.

So, please don't think my calling positive thinking "voodoo" discounts any of these teachers.

W. Clement Stone, for example, preached the philosophy of "PMA" or "Positive Mental Attitude." It's an incredibly valuable tool for changing your life. The problem is, many people who learn such teachings, do so in a vacuum.

They immediately throw caution to the wind and rely solely on the power of "happy thoughts."

This "just think happy thoughts and all is well" sentiment is echoed by many who have watered-down his teachings, and the teachings of the other greats, in the hopes of making a buck.

Stone, were he alive today, would be in shock if he knew his teachings were being misunderstood that way. He understood so clearly that PMA was only a part of the secret that he combined his teachings with those of the great Napoleon Hill to give students a more complete picture.

Not once did Stone ever say that PMA alone was the answer.

Now, Stone and Hill didn't have access to the technologies and breakthroughs that we have today, so it would be no surprise to them to discover a system far simpler and far more powerful.

Again, in our first 10 minutes together I'll give you a 30 second exercise that will **unequivocally and irrevocably** shatter about 20 of the common lies you've been sold.

www.getwsodb.com

I don't want you to take my word for this. I will demonstrate it for you in a way that will leave no doubt in your mind.

Nor will you ever be able to fall prey to any of these misconceptions again.

"OK, Why Don't You Prove It to Me?"

I'm about to. That's the easy part.

In fact, a totally free multi-media experience will give you direct proof you can experience for yourself.

Again, I'm going to ask you to approach this as a scientist would. I want you to see these truths with your own eyes.

Simpleology 101: The Simple Science of Getting What You Want is the foundation of Simpleology. You're about to get access to it for free.

Each short and easy-to-understand video lesson make understanding each principle simple. I'll also give you some easy-to-perform exercises that will not only make you laugh, but will allow you to see for yourself that Simpleology works.

I'm making this 18 day multi-media hyper-learning technology course available to you totally free. You'll get instant online access to the entire course in moments.

It's not a "trial."

It's my gift to you.

You get Simpleology membership and full access to the entire Simpleology 101 course for free.

Is this some kind of religion?

Goodness no!

Simpleology is a Science, not a religion. It's based on observable Laws - not on faith.

I would be wary of anyone who comes to you claiming some special spiritual or religious gift - especially if it comes with a price tag.

Simpleology is perfectly compatible with any religious or spiritual belief you may have.

In fact, one of the core truths of Simpleology has been referred to in the sacred texts of many faiths. And that truth is perhaps best expressed in the Book of James ...

"... faith without **action** is meaningless."

www.getwsodo.com

And this sentiment has been echoed in Christianity, Buddhism, Judaism, Hinduism, and many others throughout the history of the world.

Simpleology is all about "the worldly."

If what you want is worldly, you have come to the right place.

If what you want is spiritual, you have come to the right place, too. For if you are to apply your spiritual principles to the world, you must abide by the world's rules - and that is what you are about to learn.

Is this some kind of money-making scheme?

Not at all.

We do not offer any kind of "affiliate" or "network marketing" program or any other incentive to you when you tell others about Simpleology.

We want you to tell others about Simpleology because it's great. That's it.

Now, you may have seen others mention Simpleology ... Some will do so simply because they want to help you and you should thank them for doing so. Also, I do work with a number of carefully selected Strategic Partners who for various reasons have agreed to help spread the word about Simpleology - just like any major corporation would do so.

For you, however, I want you to tell others about Simpleology because of the profoundly positive changes it's about to create in your life - nothing else.

"Why Would You Give This System Away for FREE?"

I'm giving it away for several reasons.

First, I know that everyone alive (except maybe the naturally happy and successful .001% of the population who were born with Simpleology programmed into their brains) can benefit from this. As I get on in my life I am increasingly aware of how important it is that we make a positive impact on the world.

But I won't bore you with any moral preaching ...

I could say easily say that and you'd really have no way of verifying whether or not it's true.

Allow me to give you some more selfish reasons ...

Think about this.

I couldn't ask you to believe every word I say until you experience for yourself the truth of Simpleology. You'll be given a chance to verify and observe for yourself every single one of the 5 Laws of Simpleology.

www.getwsodb.com

Because Simpleology is a science, it about your personal experience.

It's about the results you yourself can observe.

Just like a scientist deals with real observable truths, you will observe first-hand the simple truths of Simpleology.

Some of these exercises are going to cause "loud audible pops" of revelation in your mind.

You'll say to yourself at least 20 times, "My goodness, why haven't I been doing that?!"

Finally, there are advanced courses of Simpleology that are not free. Simpleology 102, for example, is "The Simple Science of Money." I will show you a way of looking at money that will change your life almost instantly. As the myths are stripped away and the "money chip" is installed - you will slowly start moving on to a path to ease and comfort. No more of the stress that has been inflicted on you by the incorrect way of thinking.

I want to give you the chance to see for yourself the simplicity and beauty of Simpleology first before I ask you to purchase any of the advanced courses.

And frankly, you could use only Simpleology 101 and none of the advanced courses and still see dramatic changes in your life. For those who don't have the desire to have outrageous financial success, Simpleology 101 will be all they need.

Either way, Simpleology 101 is the foundation of everything. In it, you will learn the simple 15-minute-a-day Praxis that is the core of Simpleology. Everything builds upon that.

You must first learn to master yourself before you can master your money, and that's what we're about to do together ...

Just by making a few simple, proven changes to your current routine.

It's true. I was able to gain 18 pounds of powerful muscle and drop my body fat to single digit levels in a short time... once I learned a few simple secrets. If you're not doing this, your bi's and tri's are not growing like they could be.

In fact, this one small change in your bodybuilding routine helps you gain more muscle in less time than **ANY** other change you make! (Most people do this completely wrong)

- **Learn exactly how often to train.** Slash your total time in the gym to less than 3 hours a week, and still gain more muscle and shed more fat (It's not *quantity* of time

www.getwsodb.com

And that's just the tip of the iceberg of the proven... but often *overlooked* and *unused* muscle-building strategies you'll find on this page.

Now, I know you're probably skeptical. Honestly, I don't blame you because I would be too. I've been in the fitness field for a while and I've seen a lot of the same hype you've probably seen. Believe me, there's a ton of training programs making outrageous claims.

That's why I'm going to share with you the incredible transformation results from some of my clients who are packing on 15, even 20 pounds of rock-hard muscle using my unique "no-nonsense" system. Ordinary people, like you and me, achieving extraordinary results...

"Changed his weight training forever"

Shawn, I'm in the 6th week of your program and my body is completely transforming. My waist is smaller and tighter and my body weight is up. I have made considerable gains in every area of my body. I am alot stronger already and also alot more muscular! I can't wait for my next workouts now, whereas before I dreaded them!

Update "Your program has changed the way I see weight training forever. Everyone has noticed a drastic change in me. In January I could only squat 135lbs 8 times. Last week I squated 300lbs. 8 times! I just benched pressed 300lbs on tuesday. Its been a goal of mine for a long time and I finally got it thanks to you and your training methods! I'm 5'11" and 190 lbs all muscle right now.

When people from work see me out at the mall or a bar in more revealing clothes they all say 'Oh my God, I didn't know you were built like this'. It's very flattering, I definitely have a physique that stands out in a crowd and all this with no steroids! It is amazing what hard work, devotion and especially "knowledge" can do."

"Amazed At The Results"

I have been using your 12 week fitness program for 6 weeks now. I am amazed at the results. I am 45 years old & tired of watching people my age that simply can't enjoy life due to "letting themselves go".

I've gone from about 115 lb flat bench to a 185 lb flat bench & have no doubt that I will get 200 this next week. I am hyped & expect to continue on as a new way of living. I now have new muscles showing that my wife loves when I flex for her! Your program has changed my life & proof that an old man can get shredded too!!

Matt Bolding

"Gained Muscle While Waist Shrank"

"You probably get alot of these, but I'm sure it must still feel good to hear it. Your 'Huge and Shredded' program rocks! I've gotten more results with it than I have in my previous routines.

I just wanna say that my waist actually shrank by 2 inches, but my weight still remains at 180! Everything went up. **I've gained lean muscle and shed fat, just like you guaranteed.**

Just want to give you props for your info and thank you for helping me work towards my goals. I am so excited and motivated that I actually got my girlfriend and cousin into it and they're getting great results as well!"

Jean-Marc

"5 Pounds Of Muscle In 2 Weeks"

"Shawn, so far, I've been very impressed with your routine. It's easy to follow and I'm getting better results than I did when I was working out for hours in the gym. After two weeks of working out I've already gained 5 lbs of muscle. That doesn't include whatever fat I've lost. Even though I was skeptical at first, I'm totally sold now

Update: Shawn, just wanted to let you know that your program is still working. I've been following it word for word since I downloaded it in early February. I weighed barely 190 lbs then. Just two months later I'm almost 200 and I'm lifting weight I didn't think I'd ever be able to lift."

Jim Inciardi

"Increased Bench By 30 Pounds - In One Day!"

www.getwsodo.com

Shawn, your program works awesome. In only one week of workouts, I went from bench pressing 260 lbs. to 290 lbs. I had been stuck at 260 lbs. for over 2 months and now doing 310. Your techniques have allowed me to jump 30 lb's. My only problem now is I have to buy more weights.

Also, upon receiving your program I did have a few questions. I e-mailed you not expecting to ever hear back. To my surprise, the next day you e-mailed back with the answers. Thanks for the great service."

Jim Steckley, Kimball SD

"Shawn, I want to thank you for all of your knowledge and encouragement in the past month. I can already see alot of muscle gains, even within the last month. My chest is building up, back is developing, biceps are growing, legs especially are developing. I feel like I'm just getting started, so this is really exciting for me."

Kerry Spicer

"I've now begun week six of your "12 Simple Steps" program, and I feel great! I've already gotten several positive responses from others regarding my physique, and I am seeing the difference myself! By the way, my bench press has increased by 45lbs! Your program is definitely working for me.

Who I Am And Why You Can Believe Me

Hi. My name is Shawn LeBrun. I'm not a professional ad writer. But what I have to share with you is so powerful, I decided to write you myself. So please bear with me a little.

I've been a certified personal trainer and online fitness expert for 5 years now. I've written for some of the biggest bodybuilding and fitness sites in the world, including Bodybuilding.com and Hardcore Muscle. Online, I've had the opportunity to help over **11,435 people worldwide** achieve their goals of building muscle and losing fat.

And I put this web page up to make sure you don't waste years in the gym like I did. What I want to do for you is **cut through the B.S.** and give you the real **truth** about what it takes to develop a leaner, tighter physique.

After all, my job as a personal trainer is to help you "laser focus" your time and effort on what *really* works to pack on powerful muscle and eliminate stubborn body fat**...** while steering you **away** from what fails to work.

That way, you don't waste hours of your valuable time and energy in the gym for little **-- or even worse --** no results.

Not only that, I'm also a lifetime natural bodybuilder that's trained for *and* competed in N.A.B.F. drug-free bodybuilding contests. So over the years, I've learned from practical **"hands on"** experience what it takes for real people like you and me to accelerate lean muscle growth and speed up fat loss**...**

Without Drugs, Without Supplements And Without Spending Endless Hours In The Gym

But most importantly, I'm a normal person and regular lifter with **average** genetics. Which means that I'm probably a lot like you**...** someone who has to work *smarter* and harder to build muscle mass.

I wasn't blessed with "muscle-friendly" genes. I'm not a super-star athlete or genetically-gifted "pro" bodybuilder that gains muscle and loses fat easily. I can admit it. I'm a regular, everyday normal person.

Here's my story:

Just a few short years ago I was 240 pounds, quite overweight, and not real muscular. When I looked in the mirror, I didn't like what I saw. In fact, that's my picture at the very top.

And just like you may be doing now, I struggled for a long time to gain muscle and lose fat. Yes, I was one of the "blind following the blind". I fell for a lot of hype and spent hundreds of dollars on the "latest-and-greatest" supplements. I also tried all kinds of different routines because the so-called "experts" suckered me into believing that's what I had to do.

But it was one disappointment after another because my "try everything" approach **didn't work.** I was wasting a ton of money, murdering myself for hours in the gym**...** with little to no muscle gains to show for it.

But at the peak of my frustration a few years ago, when I ran out of patience and money, **I decided it was time to get smart.** And it was then that I learned an important point that changed my training, my body, and my LIFE forever**...**

www.getwsodb.com

If you keep doing the same things, you're going to get the same exact results. When you learn better, you can do better ... when you DO better, you GET better results.

What this means to you is, anything that someone else has achieved, you can learn and achieve *as well* -- and that includes building a lean, rock-hard physique that makes you feel proud, confident and, well, just plain **good about yourself!**

63 Days That Changed My Physique... And My Life

Because I was completely **fed up** with my lack of results, I became determined to "crack the code". I set out to learn why some people were gaining muscle mass easily, while others like myself were trying everything possible**...** but barely getting results.

So I began studying the "best-of-the-best" natural bodybuilders, weight lifters, and athletes I could find. I searched for people who ***already had*** the muscle mass I wanted. I could find out how they were doing it and just do what they were doing.

And since I wanted nothing to do with steroids, I studied those I knew were 100% natural.

I began noticing those with the leanest and most muscular physiques were using a lot of the same strategies in their weight training, cardio, and nutrition. More importantly, I began "copying" their techniques in my own training.

I literally became a "fitness guinea pig" -- putting each and every tip I learned into practice. Soon, I had a handle on what worked and what didn't.

And the results blew my mind because I started noticing *dramatic* improvements in muscle gains and fat loss in the **first two weeks.** More importantly, I was spending a *fraction* of the time I was used to training in the gym. This was important because I had a hectic, busy schedule with little time to work out.

As I went along, I wrote down every technique I learned and every principle I used. And based on these little-known techniques, I was able to develop a fool-proof, step-by-step system for gaining muscle and shedding unwanted fat**...** quickly and effectively.

In fact, in just **a little over 60 days** using my new training approach, I went from an overweight 240 pounds**...**

To stepping onto a bodybuilding stage for the first time in my life -- **at 5% body fat and ripped with new, lean muscle mass!**

9 Weeks Before, I Was Overweight And Completely Out Of Shape

In fact, I placed in the top 5 using the same powerful training tips I'm going to share with you. Those are my actual amateur contest photos above, right below the picture of me starting out 63 days before. I included the photos because I really want to show you what's possible when you set your mind to something.

Now, you may not want to compete in bodybuilding. And that's fine. I just want to open your eyes to the almost *unlimited* potential available once you learn these simple, proven secrets.

So if you want to gain muscle and lose fat in less time, you can use this same "results-

www.getwsodb.com
oriented" method as a shortcut. Because after just 9 weeks of using this powerful, step-by-step formula...

- **I gained 18 pounds of lean muscle and my body fat went from 20% to 5%** So I looked better and felt more attractive. I was more self-confident around others and felt better about myself.

- **I cut my time in the gym from a tiring 6 hours a week to less than 3 total hours a week.** I focused on the things that produced results and dropped the rest, or about 3 hours worth. I had more time to do the other things I wanted, like be with my family, focus on my business, or hang out with friends.

- **I saw "six-pack-abs" for the first time since high school!** Sure, my abs were there the whole time, but were hiding under a layer of fat! Now I was having a blast showing my ripped abs to jealous friends. Not to mention, my girlfriend found it sexy.

- **My muscle measurements went up, even though my body fat went down.** That's because I was losing fat while gaining lean muscle. Because of this, I actually **appeared** bigger and more muscular, even as I lost fat. For once, I had biceps, calves, and shoulders that people noticed!

- **My strength on all lifts skyrocketed.** My bench press went from 265 to 325, alternate dumbbell curls from 60 pounds to 80 pounds, and squats from 365 to 450 pounds, all in 9 weeks. This strength increase is what caused my muscle to increase.

But it didn't stop there.

You see, because no one helped me when I first started lifting... I promised myself I'd do whatever I could to make it easier for others to gain muscle and lose fat.

So I got certified as a personal trainer, eager to share my **"insider" knowledge** with others. I worked my way up to head trainer in a top health club and used the same proven techniques I had learned and used on myself to also ***completely transform*** my personal training clients.

That's why this training system is truly unlike *anything* you've seen before. I'm not aware of anyone else using AND teaching these unique strategies to others. **So in other words... I practice what I preach!**

I've flat-out proven these muscle-building secrets will work for *anyone* who seriously applies them. They have to... or... I don't get hired by clients! If I wasn't good at producing results, I wouldn't still be in business! (going on 5 years now)

And like I mentioned earlier, since I've been offering this same powerful training system online, well over **11,000 people in 68 countries** have used it with absolutely astonishing results! So it's been **proven** to work, time and time again.

In fact, Wes Martin, one of my online students...

Used The Information On This Page
To Gain 24 Pounds Of Pure Muscle Mass!

www.getwsodo.com

"Using your program I was able to transform my body in just 12 weeks. The program is not only designed for adults, but it is successful for teens too! At the age of 17, I gained 24 pounds of muscle thanks to your program" **Wes Martin**

And I'm going to show you how these same exact tips can help you gain more muscle and shed more fat in less time.

But first, I want to let a few more of my clients tell you, in their own words, how much these techniques have helped them.

"Gained 5 lbs. of muscle, lost a ton of fat"

"Just wanted to let you know that I'm very happy with your program. When I started, I was weighing about 196 lbs. I was at around 16 percent body fat.

Now I'm 5 lbs. heavier and at 5 percent body fat. What's really improved for me in such a short time is the amount of weight I can lift. To give you an example of my gains in the following:

Squats Before: 225 lbs. Now: **405 lbs.**
Shoulder Presses Before: 205 lbs. Now: **365 lbs.**

www.getwsodb.com
Bench Presses Before: 225 lbs. Now: **315 lbs.**

Before I was spending 5 and 6 days a week at the gym working out 2 to 4 hrs. a day. I was spending way too much time and over training with no results. From A Believer Now"

Ron Sanchez

"Gained almost full inch on biceps"

"I have been following your schedule and have increased my chest by an inch, dropped my waist by 1.5 inches and gained 3/4 inch on my biceps."

Bruce P. Whipple

"Gained 9 lbs. of muscle, increased strength"

"I've been on the program for 2 and a half weeks and my strengths gains are better than I can ever remember. This is truly a great program. I was 154 when I started and **I am now 163 pounds** and still as lean in fact maybe a little leaner than when I started. Every exercise has gone up at least 15 pounds for the same amount of reps! Today was the first time I incline benched since I started the program and I still did 15 pounds more for 5 and a half reps than I could before for 5 reps"

Seth Grace

"Increased muscularity and lost 3 pant sizes"

"I had trained for years with mixed results and forked out hundreds of dollars for supplements. After following your straightforward techniques and sensible nutrition and supplementation guidelines, **I have lost 3 pant sizes** and dramatically increased my muscularity, even while eating more and spending less time in the gym"

Don Davis

"Has gained 35 lbs. after surgery"

"Shawn, on a personal note, about two years ago my appendix ruptured inside of me and I was given a 40% chance of living through surgery. During my weeks of recovery I was put on a liquid diet and as a result I lost about 20 pounds. When I was fully recovered I weighed in at a dismal 105 pounds. In the two years after that I tried everything I knew to gain back the weight, but as I headed off to college I had only gained 5 pounds back. Since reading your information, **I have gained 35 pounds** (I now weigh 145) and I am well on my way to

www.getwsodo.com

my goal of 170!"

Brandon Douglas

"Shawn, I'm winding down on my second week of your "Get Huge and Shredded" method. So far every thing I have read makes sense because I do see tremendous improvements in the amount of weight I'm able to lift. I do find that I am looking forward to every work out now. It is apparent that you did your research and those of us that benefit owes you a dept of gratitude."

Dan Bedingfield

"Hey Shawn, I purchased your system a few weeks ago,and I love it! In my first few weeks my size gains were amazing... I just took my latest measurements and my arms, and chest haven't increased in over 2 weeks... my body fat is going down, my weight is up a little and I am lifting more than I ever would have imagined I could."

Steve Pelton

And here's the most important thing: If regular people like my clients and I can achieve amazing results like these **...**

There's No Reason You Can't As Well!

I want you thinking **"Yeah, I can do this too!"**

And the truth is, *you can*. **Because I'm going to take you by the hand and show you, step-by-step, exactly what works to build muscle and lose fat. Then you can stop doing what doesn't!**

In fact, you actually have an **UNFAIR** advantage over those not reading this page! That's because I've already spent *years* trying every single bodybuilding routine and workout program to learn what really works**... so that you don't have to!**

You can just skip the same mistakes I made in the past, along with the **aggravation and frustration** that comes with wasting your time and energy with trial and error. That way, you speed up your results and get twice the amount of progress in half the amount of time spent in the gym.

And in just a moment, I'm going to show you how to use those "little-known" training secrets to **completely transform your body** into a rock-hard, muscular physique that demands attention, makes you feel better about yourself, and gets you noticed!

But first, do me a favor.

www.getwsodb.com

Take a few minutes and imagine how you'd feel... It's 9 weeks from today and you no longer have an "average" physique. You now have more lean muscle than you've ever had before.

You can hit the beach with a body you're more **proud** of and more **confident** with! Walking the sand with your shirt off, having members of the opposite sex admire your muscular build and six-pack abs.

Or 60 days from right now, you no longer have those mushy soft "trouble spots" of unwanted fat covering your abs. So you're no longer embarrassed taking your shirt off.

Because now your waistline is thinner, you're **leaner** and more **tightly-defined**. Feeling better and eliminating lower back pain. Looking better so you feel more attractive, sexier, and more outgoing.

Imagine Having A Body That Turns Heads And Stands Out In A Crowd!

Maybe it would ignite the passion in your current relationship, making it more special and more romantic. Would increasing your self-esteem and being more confident help you find the love of your life? Or the job of your dreams?

And what if, in only 60 days, you possessed more *jaw-dropping* power than you've ever had, **skyrocketing** past your jealous friends and gym buddies in muscle size and strength.

Imagine the respect and admiration they'd give you as you start kicking ass in the gym, **crushing** their best lifts! No more getting teased for being the "skinny guy" or the "weak one" in the gym. They'll be in awe of you, ***dying*** to know your *secrets* of "how you did it"!

Now, is all of this impossible? Is it a gimmick or some miracle supplement?

Of course not.

It's From Learning How To Train And Eat *Correctly*!

After all, you *already know* that weight training is how you build muscle. But what you may not know is, you *don't* need to train for hours a day, seven days a week like they lead you to believe in the magazines! The truth is, too much exercise is counter-productive!

If you work out too often, you don't give your muscles enough time to recuperate and grow from the workout. Weight lifting is only needed to stimulate growth. After training, your body needs rest and the right amount of the right types of food to build up that muscle.

And more importantly, you **can** gain muscle mass and lose body fat at the **same** time. I'm positive of it because my clients and I were able to prove it with our results.

But you have to approach it the right way.

The Simple, Proven Science Of Gaining Muscle

I've learned, beyond a shadow of doubt, that there's a "science" for gaining muscle. Building muscle is the result of doing things in a *certain* way. It's called "cause and effect".

www.getwsodb.com

Like I mentioned, **proper weight training, rest, and protein intake** builds the muscle mass. Then your precise calorie intake and cardio burns the fat. Building muscle and losing fat are both different processes, so they can be focused on and achieved at the same time.

The trick, of course**...** is finding the right combination, knowing **exactly** how to set up your weight training, cardio, and nutrition. If you make even the smallest mistakes, you will **NOT** be able to build muscle while shedding fat.

And the thing is, if the correct "laws" are learned and followed by anyone, that person will gain muscle. They have to. And it doesn't matter if you have less-than-average genetics or if you've had trouble gaining muscle and losing fat before. Even if you've already tried everything else and failed, **"I want to show you why it's not your fault.**

Do You Make Any Of These Costly Mistakes When Trying To Build Muscle?

Let me clear up some myths for you.

First, I can tell you from personal experience you're not going to learn the truth about building muscle from some late-night infomercial selling the latest workout gadget. Nor will you learn it from some slick, air-brushed "before-and-after" supplement ad.

You know, it *amazes* me how many people I see throw away hundreds of dollars on supplements each month. But they neglect to learn how to train correctly. Building muscle comes from training, not supplements.

In fact, I **rarely** take supplements. Maybe protein or creatine, on occasion. Instead, I focus more on my training.

Why is that? Because that's how muscle mass gets built! I've learned, through my past mistakes, that you CANNOT make gains without the proper training method.

Supplements Are Just That... They *Supplement* Your Training

They don't take the place of it.

But the thing is, I know *damn well* the supplement companies and magazine ads **don't** want you to know that. The unique diet and training secrets I'm about to reveal to you are closely-guarded because supplement companies can make more money by selling supplements than by showing you how to train.

But that's not all. You definitely will **NOT** get the muscle mass you want by copying some "pro" guy's workout routine if he got big by taking thousand of dollars worth of steroids. Look, you and I both know they don't get that big from just training and taking supplements.

The routines you see in the muscle mags are written by bodybuilders with steroid-built physiques. And since they use drugs, they **DO NOT** train like us. The steroids let them train for hours a day and still see results. You and I cannot do that or we'd overtrain.

Believe me, I fell for all of these in the past and burned a ton of time and money.

As you can see, you need trusted advice from someone who has been where you are. Someone who understands your frustration with not making gains and knows what it honestly takes for us natural guys to pack on muscle.

www.getwsodb.com

And if you're not as lean or as muscular as you really want to be, you need to make a change.

Did you know the definition of insanity is 'doing what you've always done and then expecting different results'. Look, if you keep training the same way you're training now, you'll keep getting the **same exact** results.

Honestly, that's the main reason why most people you see in the gym, despite year after year of hard training, end up keeping the same old body. They don't get leaner or more muscular because they never learn the basic, proven secrets to building muscle and losing fat. They stay ***stuck in a rut*** with the same ineffective program that hasn't been working.

Don't let this happen to you.

Clearly, the fastest way to gain muscle and lose fat is to copy a method that's *already* been proven to work. You need a guide you can use, over and over, to maximize your muscle gains. **That way, there's no guess-work at all.**

And right now, I'm going to show you how you can get **ALL** of my muscle-building tips and techniques**...** for a *tiny fraction* of the price my personal training clients have to pay!

I've taken the same tested and proven secrets I used to gain 18 pounds of lean muscle and get down to 5% body fat in just 63 days**...** and packed them into a killer, step-by-step 139 page ebook. It's *literally* a roadmap... a blueprint... a muscle-building formula you can use as a *shortcut*.

That way, YOU can quickly and easily grasp the essential training and nutrition strategies to duplicating my results**...** and learn in **one day** what took me a **lifetime** to discover!

In fact, you'll experience 3 to 5 years of "gym results" in just a few short months**...**

It includes the proven exercises I did and the effective number of sets and reps I used. What that means to you is, **you can copy my training secrets for your own needs.** Save a ton of time and energy by focusing on what's already proven to work!

And that's just the very beginning of the powerful training and nutrition facts you'll find in this guide! Believe me, this is much more than an e-book. It's a complete, step-by-step system.

www.getwsodb.com

Not only am I confident this bodybuilding routine and training program gives you all the "insider secrets" needed to gain more rock-hard muscle, explode your strength, and lose more fat in 60 days time...

I Guarantee It And Have The Results To Prove It!

That's because it **works**. And here's why this system works: First, I've tested and proven it by trial and error for many years. Second, I've taught this system to thousands of regular people and it has worked for those who have seriously applied these ideas.

Below are a few more of the **hundreds of testimonials** I've received from people having great success from following this same advice.

In fact, 90% of my clients are regular people like high school and college students, doctors, business owners, accountants, lawyers, and financial planners. They're both men and women who want to rapidly improve their strength, performance, or appearance... but are extremely busy people with little time to work out. Yet, they're amazed they can get such fantastic results in such a short time by following this system.

I'm only about a month into the program and I'm about to hit my max bench of 185 pds which took me almost 3 yrs to get to when I first started lifting back in 1998. You have totally got me pumped for every work out.

I'm 6'2, 26 yrs old, and I have **already gained 12 pounds** and I'm at 197! My goal was to weigh 200 but I might be moving that up to 210! ha! Thanks so much for this info!

Matt D.

"Calls it the best program on the market"

"First of all, let me tell that your program is the best program on the market. I went **from 8% bodyfat, down to 6%** in just 12 weeks. My bench went from 295 to about 310, and my squat went from 335 to about 365. My gains may not seem like much, but I weigh 162 pounds so I feel that they were pretty significant."

Zak Walls

"Will jettison to the next level"

"For the past two or three months, I have plateaued and I didn't really know why. As I read your material, I can already tell that I will jettison to the next level. You answer all the questions that I have had particularly about nutrition and cardio. Thank you so much for your expertise and knowledge."

Bryan Crute

"Way more than I expected"

"First I wanted to thank you for the excellent book that you took the time to put together. I've been working out (off and on) since high school and when I read your book it all started to make sense about the gains, nutrition, etc.. Up until now I didn't really take the time to understand the 'hows' and 'whys' of it and your book really answered a lot of questions and finally made sense of a lot of things I doing right and wrong. Way more than I expected."

Dave Rodriguez

"Gained over 2 inches on biceps"

"Shawn, weights are going up, and mass is showing ;-) well, a lot of people are telling me so. When I first began to workout a year and a half ago, my arms were 13 inches. I'm now doing my 6th week of your program and **my arms are 15.5 inches!** Which is a more than reasonable progress."

Patrick Boucher

"I'd like to thank you so much for the information you've given me. i've made more progress in the past 3 months of fun than i have in the past 4 years of torture. i can't believe it!! i've lost 30 lbs, and 10% body fat. it's amazing!"

Cheri

"Shawn: Thanks for offering a truly unique program at a reasonable price. I started the program 8 days ago. So far, everything in your program is true, my time in the gym has been cut down, I know I'm getting a better workout as the muscle group that work is completely exhausted and sore for about 4 days after the workout. To top it all off, my two heavy sets on the bench press went up 20 pounds this week. Once again, thanks for an awesome program."

Jamie D, Charlotte, NC

And these are from ordinary people, just like you and me.

You can get the same results, or *even better*, by following the step-by-step instructions I've

www.getwsodb.com

laid out for you in this program. Solve your problem of not being able to gain muscle or lose fat. Better yet, do it without wasting your time and money with trial and error, hyped-up bodybuilding supplements, or unproven routines.

Just copy the exact same system my clients and I used to gain muscle and lose fat. Think of it - no more struggling to gain another pound of muscle... no more endless months without results... no more guessing at ALL!

Imagine what a month... or six months, or a whole year... of sustained, dramatic muscle growth will do for you?

Are You Wondering How And Why I Can Show You All Of This?

Let me explain.

Building muscle and losing fat is like following a recipe. Add too much of one thing (sets, reps) or not enough of another (rest, protein) the end result is NOT going to be what you want.

So avoid this by following the same training recipe I created and perfected after 5 years of trial and error... a proven formula for building more muscle and losing more fat.

Because ***all people*** shed fat and pack on muscle the same way. We have to. Just like you and I get a tan the same way (light or sun), we have to lose fat and gain muscle the same way!

Sure, other factors come into play, like genetics, workout frequency, or intensity. But for the most part, the **same** bodybuilding routine that worked for me and many others to build muscle and burn fat will *also* work for you!

If you can follow my steps, you can gain more muscle and lose more fat. After all, when you use the "Simple Steps" training program, you're skipping the learning curve and instead, doing exactly what it takes to build muscle and shed fat.

And This Program Works With ANY Equipment

As long as you have access to heavier weights over time, the proven principles in "Simple Steps" *will* help you pack on muscle. You can be at the biggest gym in town or at home with a Bowflex, Total Gym, or dumbbells and barbells -- it doesn't matter. **You can use these techniques anywhere!**

And it doesn't matter if you're a typical "hard gainer" or if you're an experienced lifter that's hit a plateau. Or if you're just starting out and have never lifted a weight before in your life.

None of that matters.

The ONLY thing that matters... is your **desire** to take action. To start doing *something*. And once you start using this program, your motivation becomes stronger. **Workouts become shorter, more intense, and more effective.**

You no longer dread going to the gym. Actually, you'll enjoy your work outs because **you'll be seeing your new physique take shape in the mirror, right before your eyes.** And within the first couple of weeks (which is important, because I know it's not very motivating

www.getwsodo.com

to continue when you don't see results.

So whether you want legs the size of tree trunks or biceps that bust out of the sleeves of your shirt ... the secrets in "Simple Steps" will set yourself apart from the rest of the guys in the gym. You know, the ones who look exactly the same -- year after year.

Warning! Do NOT Use Any Bodybuilding Routine Or Training Program Unless It Covers The Following 5 Things:

I know there's a lot of confusion about what it really takes to gain muscle and shed fat. So I want to give you 5 things you absolutely, positively must have in any muscle-building or fat-loss routine you decide to use:

1: You MUST get a program that's been proven to work!

The quickest way to get results is to copy what's *already* been proven to work. And I've used this exact same method to gain 18 pounds of muscle and get down to 5% body fat. More importantly, I get emails, each and every day, from happy clients who are ***astonished*** with the results they're getting from this program. So you can be sure it will work for you as well.

2: You MUST get a program from a trainer that's qualified to give you advice!

Before trying any program, make sure it's designed by a real fitness professional that's producing real results for others. Please don't fall for imitators or knock-offs that aren't **even in the fitness industry!** I'm certified with a national organization and have been in the personal training business for 5 years now.

3: To save time and frustration, you should exchange money for valuable information that gets you results -- quicker.

You know, I've learned over the years that it pays, many times over, to find out what others already know. This saves you a ton of time because you can skip the learning curve that comes with figuring it out yourself.

"Thrown-together" programs that cost nothing are probably worth nothing because if you invest in something, you're **more likely to use it and see it through to the end!** So by using this program, you actually save more money and time in the long run by learning from a professional trainer like myself.

4: You MUST be able to get your questions answered quickly and in-depth.

The last thing you want to do is get a program that leaves you in the dark. Since I'm a trainer with a real online business, I check my email just about every hour. So I make sure you get all your fitness questions answered. I'm online and accessible so you're never without help.

5: Most importantly, you must be able to trust the person you're learning from.

I've built my reputation on honesty and integrity. In fact, it means everything to me. I left my position as a police officer years ago because I felt I could help more people better their lives with fitness than with police work.

And like I mentioned earlier, I've been a certified trainer and online fitness consultant for 5 years now. So I'm a real person who can be reached online... not a faceless supplement

company looking to sell you a "magic pill". www.getwsodo.com

You know, I wrote "Simple Steps to Get Huge and Shredded" to make sure you had ***all*** the tools needed to change your body *and* your life. I want to give you at least **10 times** your money's worth!

But Please, Don't Take My Word For It. Here's What Other Regular People, Just Like You, Are Saying...

"I've been lifting for over 35 years. Each year I lost more and more interest. I have two shelves of fitness and bodybuilding books and each one is more confusing than the other. **Your info cut through all of the BS.** It was simple and to the point."

Mike Sands

"Excited to have a real method to run with"

"I can't tell you the value of what I've learned from your program, there's no telling how much time and disappointment you have saved me. I've been lifting for a little over 6 months now and the last few have been disappointing, and your program has explained why. It is very exciting to have a real method to run with."

Chris Priddy

"Said his life has changed!"

"Shawn, you have helped me so much and changed my life. Your program is awesome. I have been working out for years and always start out with great results the first week or two and from there just keep spinning my wheels getting nowhere and working harder and harder!

As soon as my eyes laid on your techniques in 'Simple Steps' in regards to sets, reps, and rest between sets, I lit up like a light bulb! You have been very patient with me and answered EVERY question (tons & tons) that I have asked. Thank you so much for sharing your knowledge with me!"

Anthony Inosencio

"Already seeing shoulders and chest get bigger"

"I have been using your program a short time, and I am already starting to see my chest and shoulders especially getting bigger. Your methods are really just common sense, back to basics, but they work. All the trendy programs out there may sound interesting, but they did

www.getwsodp.com

not work for me. Thanks for putting out a program that actually works!"

Todd Victorson

"Saw results after first 2 weeks"

"In just 2 weeks after I started this program I started seeing the results I wanted. I've been on it for about 4 months and still getting results. This is the best program you'll ever find. The best thing about it is your results are going to keep going up."

Benjamin Lawson

"Already seeing diffence in muscle size and tone"

"Just a quick note to say I am only 4 weeks into the training program and already seeing a difference in muscle size and tone. My lifts have increased really quickly, in fact I keep having to double check my last lift I wrote in my journal because I am beating it and more. I am feeling really motivated to complete the 12 weeks and take stock of what I have achieved.

Update: I'd been training for 3 months before I started your program. I just reviewed my weights I had been lifting from week 1 to week 11 this week and I can't believe how much they have jumped, bench press, squats, curls, triceps push downs and best of all is dips using a 15kg weight around my waist on a belt which I haven't been able to do for about 10 years!"

Richard Buchanan

"Things are going great with my training. My lifts jumped when I started your program, and I have continued to make great gains ever since. I credit your work for pushing my bench up from 225x4 in April to 305x6 at the end of June. Suffice to say, I believe in your program and am 100% satisfied. I don't get excited about many things, especially when it comes to "expert workout programs" but this one really, really works awesome. Thank you for writing it."

"Simple Steps to Get Huge and Shredded" is a **139 page ebook,** which is a PDF file that's downloaded from my site and runs on your computer. Read it right on your computer screen or print out your own hard-copy and put in a 3 ring binder. Take it to the gym with you and cut your "learning time" down even faster!

"Simple Steps" is NOT available in book stores and does not come in a printed version. To keep it affordable, it's only sold as an e-book, right here through this site.

- Have instant access, there's no waiting for snail mail!
- Make as many copies as you need, although I ask you not to give it away to others. That's theft and is against the law.
- View with any computer (PC or Mac) and web browser!
- NO shipping and handling costs!

So What's The Bottom Line?
How Much Does This Program Cost?

Well, let me ask: How much is your monthly gym membership? $40 more or less? That's $480 a year that's ***absolutely wasted*** unless you use the correct principles for building

www.getwsodb.com

muscle. What price can you put on cutting out hours of needless sets, reps, and exercises?

If you hired me in-person to teach you these proven techniques, it would take *hours* to cover them all. At my current rate of $100.00 per hour, you'd pay **$500** to have me standing next to you, giving you the same exact body-changing advice you can get right now!

But since I can offer this training system to you as a downloadable ebook, I have no printing or shipping costs. This means you can get the very same training system for even less - AND you can get started IMMEDIATELY!

So I'm not going to charge you the $500 it would normally cost. And I'm not going to charge you $297... or even the original $97 price I intended.

I'm offering a very limited HALF-PRICE DISCOUNT. If you order today, your investment in this muscle-building ebook is now only ~~$97.00~~ $47.00

I decided to offer my program for just a *fraction* of what you'll gain in RESULTS from using it!

For Less Than The Cost Of One Hour Of My Training Time... You Can Have Me As Your Personal Coach For 12 Weeks!

It's like having an expert instructor right at your side, helping you "get" these techniques in the fastest and easiest way possible. But at a deep, deep discount from what you'd normally pay me (or any other good trainer).

Believe me, this bodybuilding routine is worth so much more. I've worked very hard and spent a lot of money to learn what I've learned. In fact, I've spent well over $500 on all the books, courses, and programs I bought over the years. Not to mention, the ***thousands*** of dollars I spent on useless supplements.

And unlike a can of protein, which lasts a couple of weeks, this training information lasts you a **LIFETIME.** And supplements will NOT give you *anywhere* near the muscle gains this program will. So if you want faster results, set aside the money you'd normally spend on a week's worth of supplements and get this complete guide first.

But here's the best part: **You don't have to waste the 5 years *or* shell out the thousands of dollars figuring this stuff out like I did.**

And I know the hardest part of beginning any new program is starting. So that's why I'm going to offer up even more reasons for you to try this program right now.

HEALTH & MEDICINE

New FDA Study On Breast Implants Reveals Shocking Information:

www.getwsodo.com

Considering getting breast implants?

Maybe you should think again… A recent FDA study clearly outlines the risks: In healthy women, 21% required additional surgery to replace or remove their implants… 16% suffered breast pain… 10% lost sensation in their nipples… 9% had tissue around their implant harden, and 5% experienced leakage or deflation!

That was all I needed to hear to help me decide against getting implants - but I still wanted larger breasts without the help of push-up bras… pads… or especially surgery!

A friend of mine first told me about a new natural product called Full & Firm- she'd been taking them for about a month and went up an entire cup size! We both couldn't believe a pill made her breasts bigger- but Full & Firm did!

Full & Firm is a proprietary blend of 8 natural herbs that properly balance your hormones- promoting dramatic breast growth so quick, most women actually "feel" their breasts growing within 48 hours of taking them!

I became interested in Full & Firm because my breasts kept shrinking the more I worked-out. I went down to a 33A. I even found it hard to look in the bathroom mirror naked- no matter how good the rest of my body looked.

Do you know what I hated most? When women much less attractive than myself got more attention from men- just because they had fake breasts!

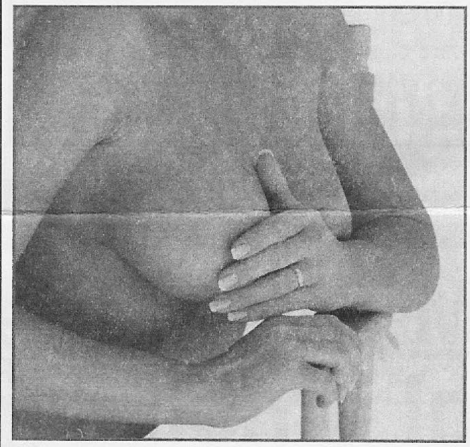

I've spent hundreds on the latest "trick" bras… but as soon as the bra came off… so did my "appearance" of large perky breasts, as well as my self-confidence.

So, after watching my friend EXPLODE out of her old bras, I was ready to give Full & Firm a try for myself.

I got a bottle by calling a toll-free number my friend gave me. As soon as the bottle arrived at my door three days later, I began taking the easy-to-swallow capsules as recommended- 2 capsules twice a day… and all I got were…

SORE BREASTS!

About two days into it, my breasts felt a little sore, so I called my friend and asked her if she felt slight soreness using Full & Firm… She told me "*Yes, that's your breast tissue expanding!*" I quickly thought, They're Working!!! Yes girls, I could actually feel my breasts growing!

Why put yourself through so much pain, risk, and expense when you can have beautiful breasts like these with all-natural, clinically-tested *Full & Firm*?

Well, to make a long story short, 8 weeks later, I went from a 33A to a 36C- the biggest I have even been. Plus, I suffered absolutely no adverse side effects, except for a much less painful period, due to the hormone balancing effect of Full & Firm.

I turned everyone I know onto Full & Firm… from my sister to my hairdresser… and let me tell you, they can't wipe the smiles of their faces if they tried… They're that happy with the results.

Full & Firm is "The Implant in a Bottle"… The longer you take them, the more they'll expand your breast tissue. Making your breasts bigger and bigger until you decide you're happy with your new breasts. When you reach that point, simply stop taking them. It's that simple.

HOW BIG DO YOU WANT TO GET?

It has been said that a woman's bustline is her sexiest accessory. Improve your self-confidence, make clothes fit better, and watch heads turn! You'll love it! A 1-month supply of Full & Firm costs $59.95 plus $6.95 shipping and handling. Discretely billed to your credit card under CP Direct.

Yes, there are a few other breast enlargement capsules on the market costing less... But think about it, when has a cheaper product performed better than a more expensive one? Is it worth it to save a few dollars in trade for less than optimum results? Definitely Not.

Full & Firm capsules are made of all-natural herb EXTRACTS- not powders like others. Powders are known to be less effective with less active ingredients. This is why Full & Firm costs a few dollars extra- it actually works.

One Cup Size In One Month Or You Don't Pay!

Take Full & Firm as recommended and if you do not see your breasts growing a full cup size in the first 30 days, simply call us toll-free and we'll refund every dime of your purchase price- no questions asked.

But if you do feel the "tingle" in your breasts, and notice your shirts and bras getting tighter by the day, simply finish off your first bottle and we'll send you 30 day supplies every month and bill you just $39.95 plus shipping and handling every 30-days. That's a $20 savings on every bottle!

Optimum results do take about 12 weeks- slightly longer if you want to grow more than 2-cup sizes (you can go up to 3 full cup sizes). You're free to cancel shipments at any time and there is no minimum amount of bottles to buy. Just think about it… you're just a few weeks away from having the perfect bust. Claim your risk-free bottle right now by calling 1-800-518-3492 -24 hours a day. And remember, Full & Firm is discretely billed and shipped for privacy.

World famous nutritionist makes startling claims . . . backed up by miraculous case histories of men and women who grew new hair, healthier, more beautiful hair, even new luxurious eyebrows and lashes!

"NOW YOU CAN ACTUALLY CURE BALDNESS! (EVEN IF IT RUNS IN YOUR FAMILY!)"

Claims Fay Levan, Famous nutritionist and medical researcher.

If you have any worries at all about your hair (Balding? Thinning? Breaking easily? Greying? Dandruff? Even problems with your eyebrows? or Lashes?), this is the book you absolutely have to read!!!

BEFORE YOU LOSE YOUR SHIRT (ALONG WITH YOUR HAIR) TO THE "BILLION-DOLLAR BALDNESS INDUSTRY."

Fay Levan's research found that much of the commercially available ointments, lotions, potions, sprays and other gimmicks on the market today are actually the worst enemy a healthy head of hair has!! They contain varnish, shellac, lacquer emulsified with water, alcohol and other ingredients that dry out, clog up and in general stunt the growth of healthy beautiful hair.

Before you get scalped with treatments and products that could cost you both your hair **and** your bankroll . . . you'd better find out what Fay Levan means by **The Natural Way To Healthy Hair. It's not only the best way! It's also the cheapest by far!** It can actually save you a fortune compared with any of the alternatives: Such as hair transplants, hairweaving, wigs, toupees, scalp clinics, and even those special premium priced "hair vitamins" you've seen advertised.

THE ANTI-BALDNESS DIET.

Because your hair must be nourished from **inside** and **outside.** This miraculous book tells you exactly which foods to eat, and which to avoid (with many delicious recipes that are so simple and easy to prepare). As well as the specific vitamin supplements you can buy in any drug store and not have to pay a premium price for!! The anti-baldness diet plus the **natural conditioning treatments** spelled out in this book have brought new hope—as well as new hair—to many people who'd given up and blamed the whole thing on heredity. But it's really not your father's fault, or your uncle's. What you've probably inherited are their eating habits, plus their lack of knowledge about just what-to-do and what-not-to-do with hair!!

YOUR CASE IS PROBABLY NO MORE HOPELESS THAN THIS MAN'S

"I have been bald since my mid-thirties. I have spent thousands of dollars looking for an answer to the problem, without success. A case of scalp exzema developed and I wore a toupee to cover this condition. I discussed my problem with Fay Levan, and she told me of the many cases which had been helped by topical applications which she was planning to include in her new book. She offered me some suggestions as outlined in her book. I started the new program in April, 1973 — after two months there was hair about one-half inch long sprouting on my head. The exzema was cleared. Now, after seven months, slowly but surely, more and more hair is appearing on my once-bald head."

WHEN NATURE WORKS WITH NATURE, MIRACLES CAN HAPPEN!!

Once you've read Fay Levan's book, you'll never again pour money down the drain on synthetic commercial shampoos, and all the other expensive hair preparations that tend to work **against** rather than **with** nature! You'll know everything you need to know to care for your hair the natural way: Completely in harmony with the renewing, revitalizing processes of your body. So that nature works with nature to make miracles happen!!

- You'll learn about the natural food supplements that turn back the clock on greying hair.
- You'll learn the simple method of giving your hair The Acid Test, to check the alkalin balance. And if it's out of balance, just how to correct it.
- You'll learn how to stop dandruff the natural way.
- You'll learn how to wash your hair so it won't get hurt . . . with natural shampoos you can easily make yourself.
- You'll learn how to make natural hair treatments that work.
- You'll learn how to literally breathe new life into your hair with breathing exercises that strengthen your hair.
- You'll learn about a simple natural hair rinse you can easily make to combat the effects of pollution.
- You'll learn how to increase the blood circulation to nourish your hair.
- You'll learn which vitamins to choose for your hair; which foods to eat, and which to avoid.
- You'll learn how to make a natural solution that can work miracles for your eyebrows and lashes. (Hopeless cases report new eyebrows and lashes grow in after this treatment!)
- You'll learn about the startling information the U.S. Atomic Energy Commission has discovered about hair and skin renewal.

YOU'LL LEARN ALL THIS AND A WHOLE LOT MORE! ALL FOR THE PRICE OF A HAIRCUT OR TWO (JUST $5.95).

AND YOU CAN'T LOSE A SINGLE CENT WITH THIS FABULOUS 6 MONTH MONEY-BACK GUARANTEE:

No matter what your hair problem is (Balding? Thinning? Breaking easily? Greying? Dandruff? Anything!) . . . if you don't feel Fay Levan's book has done anything truly spectacular for you, just return it within 6 months for a full refund. No questions asked. You can't be any fairer than that!

WE MAY PAY YOU $100 FOR YOUR TRUE CASE HISTORY

Fay Levan already has an impressive file of case histories (like the one you just read) of people who'd given up on their hair until they tried her natural methods. To keep this file up to date (and aid in this valuable health research), we're looking for new case histories all the time. So, after you've read her book, if you experience fantastic results (as so many others have), we'd like to hear from you. If we publish your experience, we'll send you a $100.—just for your sworn affidavit.

DEADLY DIABETES LIE #2:

"First, we'll have to force down your blood sugar…"

The outrageous truth about what *really* causes diabetic heart disease

Yes, I realize that lowering blood sugar is the cornerstone of mainstream diabetes treatment. But 40 years of scientific studies show beyond a reasonable doubt that…

TRUTH: Lowering blood sugar *with drugs* can kill you faster than doing nothing

I repeat, **you're better off doing nothing at all than taking these drugs**. The latest proof came in February of 2008, from a great big study funded by our own government. Researchers were testing to

www.getwsodo.com

see if aggressive blood-sugar lowering would protect people with diabetes from heart disease. Seems like a no-brainer, right?

WRONG! *They stopped the study 18 months early because it was* KILLING TOO MANY PEOPLE

You read right. Aggressive treatment with blood-sugar drugs resulted in a *much higher* cardiovascular death rate.

How did mainstream experts react to this devastating news?

They ignored it! Even the researchers themselves went into a truly surreal state of denial, saying **"patients with type 2 diabetes should not be alarmed by these findings..."**

OH YES, YOU SHOULD! Because the same thing was originally proven nearly 40 years ago...

Back in 1969, another big study called the University Group Diabetes Program also had to be stopped two years early.

www.getwsodo.com

DROP YOUR BLOOD SUGAR 350 POINTS in 21 drug-free days!

When Billy Cox walked into our clinic, his blood sugar clocked in at 439. Yet in just 3 weeks, he dropped it to a nearly ideal 89 — all without a drop of drugs or insulin injections.

Billy's secret trump card. In your free report, **Dr. Whitaker's 3-Week Diabetes Miracle**, I'll give you full details about the world's most lifesaving blood sugar supplement.

My mystery mineral. *Vanadium!* Never heard of it? Neither had Billy! It's hiding out at your health food store, but leading a lonely existence, unused by the folks who need it most. My colleagues and I have used it with stunning success for thousands of patients. And in animal studies, this supplement has…

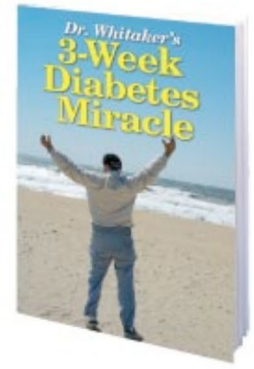

Eliminated type 2 diabetes, all by itself

PLEASE NOTE, HOWEVER: Vanadium supplements are readily available, but please don't take them before checking the details and dosage guidelines in your free report. Your glucose may drop *too* steeply. Yes, it's that potent, so don't fool around. Hurry!

RESULT: Patients with diabetes aggressively lowering their blood sugar *died 250% more often…*

And the drugs used in both studies are the very same types that you may be taking right now. In your FREE REPORT, **Dr. Whitaker's 3-Week Diabetes Miracle**, I'll give you full details about these deadly diabetes "cures." The 2008 study that killed so many innocent people used *metformin* and *Avandia*®. The 1969 trial used a close cousin of metformin called

Reverse Diabetic Liver Disease with natural "triple therapy"

ALERT! Half of all diabetics secretly suffer from a life-threatening condition called nonalcoholic fatty liver disease (NAFLD). It's killing far more people than alcoholic cirrhosis or hepatitis. So send for your free report immediately! **Find out how to detect it, how to prevent it and how to reverse this** or nearly any other liver dysfunction, even if it's far advanced.

www.getwsodo.com

phenformin, and a *sulfonylurea* drug called Orinase®. Dozens of other popular diabetes meds work in essentially the same way...

So let's cut to the chase. Here at the Whitaker Wellness Institute, we **stop *all* oral diabetes drugs** on sight. Because...

Just stopping these drugs makes you up to 250% less likely to die of a heart attack!

Lifesaving secret. Here at the Whitaker Wellness Institute, we've had tremendous success with a therapy that combines three different nutrients, including the mineral selenium, an extract of milk thistle, and a liver-protective antioxidant. They're all available at any health food store. We've seen it work for even severe cases of liver disease — and if you have diabetes, I urge you to start them right now, as a preventive. **Respond today for details!**

Can YOU name another therapy that strengthens your heart and arteries so powerfully, for free? "But Dr. Whitaker," I can hear you asking, "what about all the other complications of diabetes? Don't blood sugar drugs protect me from those?" NOPE. And don't just take my word for it...

> No oral diabetes drug has ever been shown to do anything really good for any patient. No leg, eye, kidney, heart or brain has been spared. ”
>
> **—Norton Hadler, MD, of the University of North Carolina, quoted in *Business Week***

So what now? If the drugs won't save you, are you DOOMED?

Hardly! In your free report, **Dr. Whitaker's Unabridged Dictionary of Drug Alternatives**, I'll also give you details about how thousands of my diabetes patients have reversed everything from **hardened arteries** and **high blood pressure** to complete congestive heart failure — without drugs, in just 21 days.

And that's just for starters. Keep reading, and you'll see how amazingly fast you can do *everything else*. For example, if you've been struggling with your weight, stop blaming yourself! Don't let them tell you...

DEADLY DIABETES LIE #3:

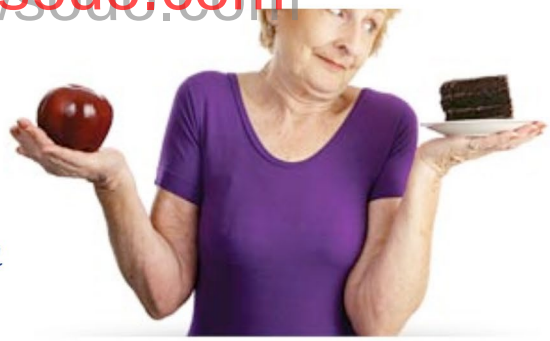

"YOU'RE EATING TOO MUCH! *You need more self-control..."*

I'll bet they read you the riot act when they diagnosed you with diabetes. You swore you'd lose

www.getwsodo.com

weight, and you did for a while. Your blood sugar probably came down, too. But then...

Even though you were eating less, you gained all your weight back *and then some...*

...making your blood sugar inch up again. So they upped your medication dose and urged you to "stop eating so much"...

But you weren't to blame! It's your *doctor* who probably packed those extra pounds under your belt, because...

THE TRUTH: Mainstream diabetes treatments nearly always make you FATTER

This is exactly what happened to Walter before he came to my clinic. His conventional docs gave him a scrip for oral diabetes drugs and told him to go home and diet. For a while, he did okay. But eventually, the drugs made him *gain* weight — which in turn increased his blood sugar. So his doctor upped his drug dose and...

Walter was trapped on this make-you-fat merry-go-round for 10 long years...

Until his doctor put him on *insulin*, which made him balloon up even more. *Solution?* More insulin! More weight gain! Until...

When I first saw Walter, he was taking 100 units of insulin daily and 100 pounds heavier...

NOW WHAT? Simple. **I stopped Walter's insulin completely.** Then I put him on the **drug-free program detailed in your free report** — and sure enough, Walter lost all 100 extra pounds. His blood sugar "magically" normalized *without* any medication...

And *you can* lose 30, 50, 100 pounds or more FOR THE VERY SAME REASON...

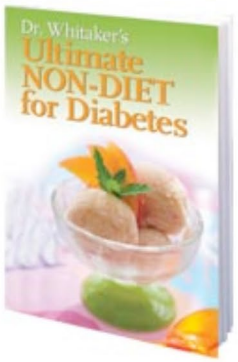

Because insulin just happens to be your body's primary **fat storage hormone**. High insulin levels make you gain weight, sure as night follows day. You'll *never* lose significant weight until your insulin levels come down...

Yet most doctors urge treatments that do exactly the opposite! Oral diabetes drugs frequently work by squeezing more insulin out of your pancreas. Insulin injections, of course, raise your levels even higher. Until you stop these make-you-fat treatments, dieting is merely a futile exercise in

www.getwsodo.com

masochism...

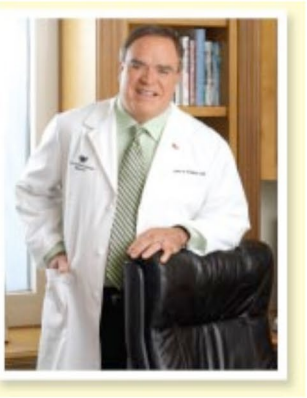

But your FREE REPORT will show you how to normalize your blood sugar while *lowering* your insulin levels...

making weight loss not only possible, but almost inevitable! So **get your free report**, and stop starving yourself for nothing. Soon you too could be relishing great food — a healthy weight — and a life without diabetes.

Do I look like someone who's going to starve you?

Boo on bird food! You're going to beat diabetes by going OFF your doctor's diet...

I am a big guy. I played football in my Dartmouth days and I'll never be skinny. It's just not in the cards...

But you *don't* have to be movie-star-skinny to be in great health and diabetes-free. Yes, you'll probably have to lose some weight, but I'm going to make it fun! I promise you won't need steely self-control to peel off more pounds than you dreamed.

See for yourself! Just **claim your FREE copy** of my brand-new, break-the-rules book, **Dr. Whitaker's Ultimate NON-DIET for Diabetes** — including recipes from my proven-to-please Back to Health Menu Plan that my own patients savor at the Whitaker Wellness Institute... plus dozens of quick-and-easy *dishes* that'll thrill your taste buds and fill you up!

You'll be stunned (and your friends will gape with envy) at what happens when you *stop* doing what everyone's nagging you to do. **Respond** and see how satisfying it can be to lose weight!

DEADLY DIABETES LIE #4:

www.getwsodo.com

"Lyrica® is the latest and greatest for diabetic nerve pain..."

Numbness, burning, electric-like shocks... these are all signs of the nerve damage known as *diabetic neuropathy*. Drugs like Lyrica® or gabapentin may bring you temporary relief, but...

TRUTH: They merely mask the problem, *while your nerves keep dying off...*

And when the pain resurfaces, it's going to be much grimmer. The faulty nerves hinder your blood flow — the lack of blood starves your nerves, hurting them more — and this vicious cycle keeps whirling around your body like a buzz saw. Soon you find it tough to walk without falling, you're wide open for wounds, and you have a 40-fold higher risk of limb loss...

But wait! What if you could reverse *the whole infernal process...*

...re-grow the nerves, and restore your circulation, so your neuropathy beats a retreat and never comes back?

You can and you will. In your **free report**, **Dr. Whitaker's 3-Week Diabetes Miracle**, I'll show you exactly how we do it at the Whitaker Wellness Institute. I've seen it happen with breathtaking speed...

After just 2 weeks, William THREW AWAY HIS CANE

Yet just 14 days into my program, William could walk and even climb stairs without his cane — and soon after he was completely pain free. HOW? RE-GROW "DEAD" NERVES

Bill Bellomy was numb from his knees all the way to the tips of his toes...

But thanks to a secret you'll find in your free report, Bill's neuropathy is gone. "Both of my hands had no response to vibration, heat or cold, or pinprick," writes Bill. "From just above my knees to the soles of my feet, there was hardly any response…

"I was told four times I would never improve. The neurologist said there was no treatment..."

WRONG. In the pages of my publication, ***Health & Healing***, I told Bill about a supplement called alpha lipoic acid. It's been shown in numerous studies to help your nerves regenerate.

Too easy? Bill thought so, too. But he found the nutrient at his health food store, and was stunned by how fast it worked. "When I went to see my neurologist again," Bill recalls, "he was astonished! He said he had never had a neuropathy patient turn around like I did." Bill's regular doctor is so impressed, he's giving his other diabetes patients alpha lipoic acid. They're all doing well! You'll find full details of Bill's treatment in **your free report,** **Dr. Whitaker's 3-Week Diabetes Miracle**.

IMPORTANT: There are many forms of alpha lipoic acid on the market, **but what *you* want is a special controlled-release formula.** It does biological tricks the others can't match. See your **free report** for full details about where to get it and how use it. **Respond today!**

DEADLY DIABETES LIE #5:

"I'm sorry, but we've done all we can and WE HAVE TO AMPUTATE..."

WAIT! Before you lose your leg, take a tip from my patient Jerome. His diabetic ulcer was huge, infected, and oozing…

www.getwsodo.com

Deadly gangrene was advancing....

And his doctor understandably told him he'd die unless he let them amputate. But Jerome wasn't quitting without a fight. To his doctor's horror, he checked himself out of the hospital and rushed to my clinic. I'll let him describe what happened next...

"At first the leg was almost black, then it started to get pinkish..."

"It was amazing how it continued to feel so much better!"

In a matter of days, **Jerome's ulcer healed and his gangrene was gone.** He happily returned to his job as a teacher, and coach of the school's softball team...

"I've often thought of sending a card to the doctor who wanted to amputate, with a picture of my leg — I STILL HAVE IT!"

— Jerome B.

Now I realize this is unheard-of in mainstream medicine. Not even the most heroic high-tech measures could have restored Jerome's rotting leg. So please don't burst out laughing when I tell you what actually worked...

Lifesaving secret: WHITE SUGAR?!

Yes, the kind in your sugar bowl! Believe it or not, my team simply poured sugar into Jerome's open wound, wrapped it up **as detailed in your free report**, and it healed like a dream.

Too weird to be real? But the truly outrageous fact is — this used to be standard treatment for open wounds! First documented in ancient Egyptian papyruses, this "sugar cure" continued to be employed well into the 20th century. Then antibiotics came along and doctors forgot their ancient wisdom...

Until we brought it back. And it's not a moment too soon! Every year, 86,000 Americans lose their legs or feet to diabetic ulcers that won't heal. Plus...

Even if you *don't* have diabetes, this secret could save your life...

www.getwsodo.com

Because hospital-bred, antibiotic-resistant superbugs like MRSA are killing 90,000 of our loved ones every year! Yet the absurdly simple solution is as close as your sugar bowl.

So won't you let me send the details of this lifesaving therapy? **It's all in your free report, Dr. Whitaker's 3-Week Diabetes Miracle**. I'll explain how to use sugar to heal everything from serious diabetic wounds, to burns, cuts and scrapes. **IMPORTANT: Don't try this without reading my careful directions.** Sugar must not be used for certain wounds, and you must follow my instructions to the letter for best results.

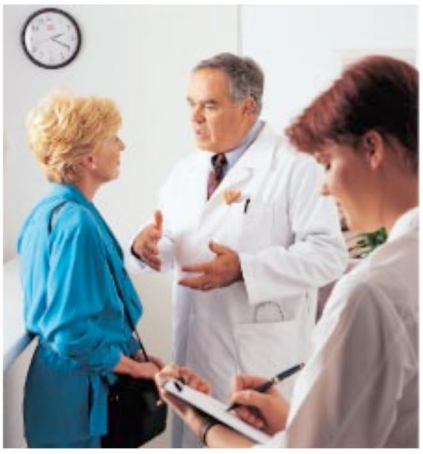

Are you starting to see how SIMPLE it can be to escape diabetes and *all* its attendant horrors? And this especially includes the nightmare of *kidney failure…*

He's *WAY MORE* than just "DOCTOR DIABETES"…

Why nearly 40,000 patients have traveled from all over the globe to the legendary clinic of Julian Whitaker, MD

If you suffer from Trichotillomania AND are sick & tired of pulling, then read this letter immediately to save yourself years of wasted time, money and pain...

"Who Else Wants To Discover How Simple Five-Minute Daily Exercises Can Banish Your Hair-Pulling "Urges" Forever, No Matter How Hopeless Your Situation?"

Whatever your age or how long you've been pulling your hair, here's a radically different approach for eliminating your hair pulling "urges"—even if you're too embarrassed to ask for help ...

Dear Friend,

Now you can join *other satisfied men & women* just like you who have totally *eliminated* their "hair pulling urges," built self-esteem, and enjoy fulfilling relationships in *less than 30 days!*

Friend before I show you the secret to eliminating compulsive hair pulling habits and banishing your "inner urges" to pull, allow me to share an interesting story...

It was a beautiful late spring afternoon, five years ago, when two young women entered my office. They were very much alike, these two young women...

...Both had been compulsively pulling their hair, eye lids, and eye brows for quite some time, both had noticable bald spots, and both -- as most hair pullers are -- were filled with feelings of guilt, self-hate, and shame.

They were both there for a free consultation to see if I could help them deal with and control their obsessive hair pulling "urges."

Recently, both of these women unexpectantly re-entered into my life.

They were still very much alike. Both had full time jobs. Both were married. Both drove honda accords. And both as it turned out had gone to have three children.

But there was a difference. One of them had a new energy, a vibrance if you will -- that was absolutely *magnetic*. She hadn't pulled her hair in years and you could tell she was grateful for each day, each second, each moment she lived shame, guilt and stress free.

The other was relatively miserable, suffering with her hair pulling compulsion and living in the daily shame of embarrassing bald spots that had since completely replaced her once beautiful head of hair.

Have you ever wondered, as I have, what makes this kind of difference in people's lives?

It isn't always a high-priced doctor or overpaid therapist or even pure will power.

It isn't that one compulsive hair puller wants to stop and one doesn't.

It isn't that some puller have bad genetics.

www.getwsodo.com

The truth of the matter is this: All you need to totally eliminate your compulsion to pull is the right information AND the sincere desire to do whatever it takes to...

Change BAD Habits into GOOD Habits...

The Good News is if you're currently an obsessive hair puller, it means you're capable of forming new habits and taking consistent action...

The Bad News is you're currently taking the incorrect action and therefore the habit you have formed is a Negative one.

The key is to learn how to change NEGATIVE habits into POSITIVE habits!

So What Was The Key Difference Between The Two Women?

You may have guessed already, but if you're still wondering what the difference between the two women from the story above is, let me share the answer with you...

The first lady I mentioned (the happy one with magnetic energy) came to me for a consultation, learned my techniques for changing negative habits, and went home and did the techniques and exercises CONSISTENTLY.

The second lady who was still suffering years later also came to me for a consultation, learned my techniques for changing negative habits, BUT she went home and tried my techniques once or twice, gave up and that was the end of it.

She never changed, she still pulls, and she is still miserable.

Worse yet is her bald spots and scalp are many times worse... and as would be expected she is even more embarrassed on a daily basis than she was before.

So the moral of this story is Knowledge is absolutely necessary to change, BUT it alone is just not enough...

To succeed you need to take that knowledge and take Consistent Action.

Does this make sense ?

Don't Feel Like Your Situation Is Hopeless, Because It Isn't!

Right now you may feel alone, maybe you feel worthless, or maybe you are just too embarrassed to talk to anyone in your life about hair pulling because you're afraid they will not understand, or they will not care, or the worst, they will judge you.

Just Imagine what it will be like when:

- You never have to look in the mirror and hate what you see
- Never have to worry about people watching or starring at you with judgement
- Never have to feel the **painful** self-hatred and shame you're likely experiencing.
- You can be calm and relaxed and enjoy being around your family
- You are moe playful and intimate with that special someone.
- **You can** go out in public *without* embarrassing bald spots
- You can smile again and relax
- You can LIVE life to the FULLest!
- You're Stress-FREE, carefree, feeling GREAT.
- The opposite sex finds you attractive.
- You know you always look great, having total confidence.

www.getwsodo.com

Did you do what I asked?

Did you imagine the feelings you will experience when you beat these urges and take back control of your own life?

Did you smile?

Were you happy?

I'm guessing you're thinking those feelings can't happen for you and that you might as well give up now, becuase you will never be able to stop pulling.

I'm here to tell you: YOU CAN EXPERIENCE THOSE FEELINGS AGAIN!

But, you have to do your part too, I can't make you do anything, I can only give you the information—you ultimately have to make use of that information.

So continue reading for details on how you can eliminate negative hair pulling habits forever—no matter how hopeless your situation may feel, but first...

Here Are Four Methods That Rarely Work – Yet People Always Try:

Which these strategies are you trying right now?

1. The first is to rely on your own "will power." "I can just stop cold turkey. I won't allow it to control me anymore. I won't lie to you anymore. I won't hideaway in shame any longer," and so forth. This is probably the worst way in existence to change. Seriously, this way almost

never works.

www.getwsodo.com

2. The second strategy is to tell yourself over and over again, “Don't pull, don't pull. Stop it. ” That never works either.

3. The third strategy is just trying to keep your mind busy so you won't have time to even think about pulling. Basically this strategy boils down to being very active and constantly involved in work, hobbies, friends—never allowing yourself to be alone or lonely.

This method, by itself, never works.

But, you should know that using this method in addition to the simple strategies and mental exercises revealed in *Hair Pulling Secrets* is the ideal way to...forever beat the compulsive hair pulling "urge."

4. Pessimism. We become addicted to our pessimism.

I once had a man say to me, “I know I can't quit. You don't know what the trance-like state I feel are like. I pull for hours and hours and I feel like time doesn't exist."

I say, “Really? What have you tried that hasn't worked?”

“Well, nothing really other than will power, I just know how how hard it is.”

I said, “Well, I think you *can* quit. I have many clients who have quite hair pulling using my easy-to-do exercises that only take a few minutes a day. Would you like to buy a copy of my *Hair Pulling Secrets* course? It's reasonably priced."

He quickly said "oh I don't think that will work for me, maybe some other time."

I quickly came back with "Okay let me make you a deal, how about I give you a copy and you pay me when you quit pulling, deal?"

"Oh well I don't really have a lot of time to go through a big course, maybe some other time, thanks anyway." he replied.

I just smiled and said "well I wish you the best, have a good one" and I walked away. The FACT is, my course *could* have helped him, but he doesn't want to be helped, he wants to be a VICTIM.

He's a in a comfort zone of sorts, afraid of change. Like so many unfortunately.

But as you see, people fall in love with pessimism. That's one of the strategies that never will never work...but people always try anyway! Now, here are...

As you can guess... the demand is there but everyone is to ashamed and embarrassed to ask for the book out of fear of what people will think.

Have any of these thoughts ever gone through your head?

"Gee, I wonder what the will think of me if I tell them?"

China's secret message to their investors:

"dump your dollars as fast possible because there's a...

"Hyperinflation Nightmare Dead Ahead!"

In this Urgent, Eye-Opening Report you'll learn:

- **Why China is jumping ship...**
- **Why world confidence in the U.S. dollar is evaporating...**
- **PLUS, how the Fat Cats in Washington are lying through their teeth about the Federal Deficit...**

All while international investors watch mountains of toxic debt pile up faster than at any point in American history!

Read below to find out why you are now faced with the single most menacing economic crisis of your lifetime...

Dear Fellow American,

Ignore this sober warning and you may as well take your savings... your retirement—and your very financial security—and KISS THEM GOODBYE.

On the other hand, if you HEED the warning on this page—and ACT on the advice I send you in my newest FREE guide—not only will you have plenty of time to insulate your wealth...

...you'll have the opportunity to ensure your family's welfare and prosperity for life!

Look, it's no secret that our government is bleeding the single greatest gushing of red ink in history.

And no institution on earth—not the White House, not Congress... and certainly not the abomination we so politely refer to as the 'Federal Reserve'—has the faintest hope of slowing it—let alone STOPPING it.

www.getwsodo.com

Despite what the Fat Cats and Bureaucrats try to tell you, the undeniable truth is that Washington has completely LOST CONTROL of the federal budget.

And far worse than that, they're oblivious to what this means for you and me—namely, that a nightmarish wave of hyperinflation is set to demolish everything we've EVER worked for.

Hyperinflation is Coming—And There's Absolutely No Time to Waste!

The definition of **hyperinflation** is *"inflation that is very high or 'out of control', a condition in which prices increase rapidly as a currency loses its value."*

This happened in Germany after World War I... when hyperinflation caused the inflation rate to swell from 300 to 800 billion percent, or 300,000,000,000% to 800,000,000,000% over a six-month period.

The value of German mortgages in 1913 was roughly $10 billion US dollars. At the height of hyperinflation in late 1923, these mortgages were only worth one US penny!

Trust me, this was NOT a pretty picture...

In fact, hyperinflation was so bad that workers demanded to be paid daily, or even multiple times per day, so that their wages would not be worthless at the end of the day.

When they received their pay, workers literally RAN from their jobs to the store in the hopes that their paychecks would still be enough to purchase a meal or some goods.

Prices often changed hourly.

There are stories of people using wheelbarrows to haul enough money to buy a loaf of bread. Money was sold or traded by weight and creative minds found other uses for the money, including making clothing with it, using it for wallpaper, and stuffing it in clothing and walls for insulation.

Some citizens actually BURNED their money just to keep warm!

This period of hyperinflation literally destroyed most of the middle and upper classes in Germany.

Why Hyperinflation Is Now Dangerously Looming

Before I tell you why China's elite and middle classes are preparing for a hyperinflation collapse—*let's look at the "other side of the story" that no one is talking about...*

First off, we know that the dollar IS falling.

For example, according to shadowstats.com—a leading producer of real and UNBIASED government statistics—the dollar has lost almost 20% of its international value just in the last 30 months or so.

In other words... it's falling steeply in terms of how much corn, wheat, soybeans, beef, copper, silver and gold it can buy. And it's also falling against the euro, the yen, the pound and the Swiss franc.

It's even going down against many third-world currencies!

Think about that: For generations now, the United States has been the primary source of capital throughout the world. It was the U.S. that owned big stakes in foreign economies. So we certainly didn't need their capital to sustain us.

Yet today, like a third-world country, we depend far too heavily on foreign capital.

Every time we run a deficit in our federal budget, our government officials must go, hat in hand, asking for money from central banks and investors in Europe... Asia... and even Latin America.

Now, after thousands of such trips, and trillions of such transactions, a significant chunk of America's wealth has literally been sold off or thrown away.

And Up Until Now—Because America Was the Only Game in Town—He Had No Choice!

This could NOT be said for smaller economic powers, like Brazil for instance.

With a country like Brazil, the foreign investor DID have a choice. Whenever he lost faith in Brazil, for whatever reason, he pulled out in a big hurry, along with countless others, sending Brazil's financial market into periodic crashes.

This was the biggest difference that separated the U.S. from a country like Brazil—whenever Brazil slacked off or did the wrong thing, it got slapped down, *hard!*

But when the U.S. made similar mistakes, it usually got away with it.

And so it was that we merrily ran huge deficits and borrowed to the hilt, as if nothing was wrong. And despite it all, foreign investors continued to pour more and more money into America.

www.getwsodo.com

In the 1980s it was primarily the cash-rich Japanese who led the way, investing billions into U.S. stocks and bonds, helping to lift the Dow and the Treasury bond market out of their worst slumps of the postwar era.

In the 1990s it was mostly Germans who played that role, helping to drive the big tech boom.

And for much of this decade it has been India and China, with their exploding industries which thrived on U.S. consumption.

But now, after nearly three decades of massive, virtually non-stop capital flows into the U.S. from abroad... some countries are beginning to realize it was NOT such a good idea after all.

And in case you hadn't guessed...

China Is One of Those Countries!

When Treasury Secretary Tim Geithner recently visited China in a rah-rah session for the dollar—their reaction was almost appalling.

In fact, while speaking to Chinese university students... he promised them that the dollars owned by their government were "very safe."

And their reaction?

Simple: *They nearly laughed him off the stage!*

Think about that for a second... in an Asian country—where politeness, inscrutability and "saving face" are paramount—this is shocking, indeed.

Then there's the experience of Richard Fisher, president of the Dallas Federal Reserve Bank. He recently visited China and met with government officials.

In an interview afterward, he said he was grilled about the Fed's purchases of Treasury debt. "I must have been asked about that a hundred times in China. I was asked at every single meeting about our purchases of Treasury Notes. That seemed to be the principal preoccupation of those that were invested with their surpluses mostly in the United States."

As the *British Telegraph* noted, this is *"a stark reminder that Asia's 'Confucius' culture of right action does not look kindly on the insouciant policy of printing money by Anglo-Saxons."*

It's clear that the Chinese, along with other foreign dollar holders, are scared about what the U.S. might do to the dollar.

Unfortunately, U.S. officials don't seem to be concerned.

After all, as the *Financial Times* explained, China is *"caught in a 'dollar trap' and has little choice but to keep pouring the bulk of its growing reserves into the U.S. Treasury, which remains the only market big enough and liquid enough to support its huge purchases."*

Well...

www.getwsodo.com

That *USED* to Be True.
But NOT NOW—*Not Any More!*

The People's Bank of China just issued a report that should have sent shock waves through our financial markets. Part of it said: "To avoid the shortcomings of sovereign credit currencies acting as reserve currencies, we need to create an... international reserve currency that can maintain the long-term stability of its value."

Which "sovereign credit currencies" was the Bank talking about? The primary one in the world today is the U.S. dollar.

In other words, China does NOT want to own dollars anymore!

Instead, it wants a new international currency—*it's OWN.*

In fact, the Chinese are proposing that the International Monetary Fund's unit of accounting (the Special Drawing Right, or SDR) replace the dollar as the dominant global reserve currency.

And as if to demonstrate its commitment to the idea, China just bought $50 billion of bonds denominated in SDRs.

Not only that, China is proposing that the SDR itself be changed. Currently, SDRs are made up of dollars (44%), euros (34%), yen (11%), and sterling (11%).

The Chinese want the SDR to be 20% each of dollars, euros, yen, sterling... and yuan.

This is the real shocker: China wants the yuan to be a global reserve currency.

And that would put it in *direct competition* with the dollar!

On the surface, China is only proposing the yuan as a component of the SDR. Yet the truth is, everybody knows that few SDRs are used as international reserves.

The scary part is... if the yuan becomes part of the SDR, it gets instant legitimacy as a global reserve currency... and then it goes head-to-head with the dollar on international markets.

Obviously, why all the effort? With so much invested in the U.S. dollar—why go through all this?

Question: What Do THEY See that We Don't?
Answer: *Runaway Out-of-Control Deficits With No End In Sight!*

I honestly wish I could do something to stop hyperinflation, but at this point in time, I can't, nor can you. The forces aligned against us are simply too massive, too powerful and coming on too soon:

Against what had been the recently publicized, cash-based "official" fiscal 2008 (year-ended Sept. 30) federal deficit of $454.8 billion, and parallel $161.8 billion deficit in 2007...

...The U.S. Treasury reported that the 2008 deficit [change in net position] was $1,009.1 billion, versus $275.5 billion in 2007, using GAAP.

However, since 2002 the Treasury has been reporting the government's finances using annual

DAN LOK MY PERSONAL, $250 MILLION DOLLAR SWIPE FILE 180

www.getwsodo.com

statements prepared using accounting standards *similar to those used in corporate America.*

Those numbers, however, did NOT account for the annual change in the net present value of unfunded Social Security and Medicare liabilities, except in discussions and footnotes. *Not once in the "official" reporting!*

Counting those changes, as a corporation would for its pension and healthcare liabilities for retirees, the 2008 annual deficit was $5.1 trillion, versus $1.2 trillion in 2007.

Which means that total U.S. obligations—gross federal debt outstanding plus the net present value of unfunded liabilities—is at $66 TRILLION: Roughly 4.6 times the level of reported U.S. gross domestic product (GDP), and GREATER THAN THE TOTAL ESTIMATED GDP!

These numbers are truly beyond our conception... spinning out of control... and show that the government is clearly lying about what's really happening. Not to mention that they have been deteriorating severely for fiscal 2009.

Still, perhaps you're wondering, *"Okay but how do they doom the U.S. dollar to hyperinflation?"*

Simple: With this level of liability... if *anything* occurs to reduce demand for U.S. debt (which we see happening with China's actions), it's doomsday for the dollar.

Because their solution is always the same: If Washington can't borrow the money it 'needs', it will just print it instead.

That's the classic recipe for massive hyperinflation, plunging currency values and a crisis of epic proportions.

Any 'market share' the yuan receives will come mostly from the dollar—which will reduce demand for the greenback, and the house of cards will begin its collapse.

As China begins to pull away and its currency competes with ours... other foreign investors will also jump as well.

And That Means We are Literally a "Sneeze" Away from a Hyperinflation Crisis Beyond What Anyone Has Ever Seen!

As the saying goes, "The bigger they are... the harder they fall." Such is the case with the U.S. economy.

In other words, our hyperinflation crisis has taken longer to come about—but when it happens, it's almost certain to be many times uglier.

No, I can't tell you the exact day it will happen... no one can.

But it's obvious that the Bureaucrats and Fat Cats in Washington care too little about the repercussions of their actions—and how their spending spree is risking our savings... our retirement... everything you and I hold dear.

Now, when things really get bad—do you think the Bureaucrats in Washington are going to be there for you? Do you think they will make personal sacrifices so that we can live happily ever after?

www.getwsodo.com

Unfortunately, the answer is no. They WON'T!

You see, because this hyperinflation crisis is so menacing... and literally could be triggered at any time... I've been burning the midnight oil, putting together a solution.

The result is a handbook that I'm incredibly proud of—including step-by-step information you can use to recognize when the collapse is about to hit... and protect your family all along the way.

The first point is key—because there are actually 7 deadly triggers that set hyperinflation in motion beyond all reversal. More than I've been able to discuss in this letter... and many of which are in motion right now!

Which is why I spend the first section of the manual detailing and explaining them—so that you can recognize when they are happening, and then take steps to protect yourself.

For example, you'll discover:

- The seven deadly triggers that have—and always will—indicate that hyperinflation is dangerously close...
- How to look at the real estate market and almost immediately tell how much time you have...
- The sneaky ways in which the government lies and distorts their statistics—and how to properly "decipher" what their phony numbers really mean!
- Which signs will help you get a jump on others who are unprepared —essential if you want to beat the panic that's guaranteed to happen as the crisis reaches full force...
- And so much more!

This first section of the handbook is the ultimate crash course in hyperinflation... HOWEVER, it's not entertainment by any means!

Rather, it's designed to SHOW YOU—in the clearest possible detail—which factors are present when hyperinflation approaches emergency levels.

Which brings us to the second section:

The Two Best Ways to Protect Your Assets
And Family from the Ravages of Hyperinflation

www.getwsodo.com

Even though hyperinflation is—in many ways—a complex economic problem... the process of protecting yourself is simpler than you might think.

In fact, there are two primary things you must do: 1) Get your assets to safety... and 2) make sure your basic needs (and those of your family's) will be taken care of.

In these final chapters, you'll discover:

- The single biggest mistake most people make when using gold or silver as a way to hedge against hyperinflation (and the RIGHT way to do it!)
- A simple way to grow your money by as much as 100% annually—while keeping it safer than it's ever been before!
- Items—which cost very little now—that will be worth many times more than gold or silver... should the crisis get bad...
- How to prepare two to three times faster (and earlier) than anyone else... which is an absolute MUST to escape the panic and most significant dangers other countries have faced...
- And LOTS more!

As you can see, this is potentially lifesaving information that you do NOT want to be without should things get bad. And I think you see from the evidence I've presented... it will be almost impossible for it NOT to get ugly... And it will happen faster than most people realize.

That's when I realized, as a loyal American, that I needed to help others—those like you who have become innocent victims in the cruel con game Washington is playing with us all.

And That's When I Immediately Got Busy Working on This Manual...

Even though I've seen lesser reports selling on the Internet for as much as $175... I'm not going to do that.

I consider this information too urgent, and far too crucial to your survival in the months and days ahead to hold back like that.

I want you to have every possible chance of making it through this hyperinflation disaster with everything you value 100% intact.

However, because I also only want this in the hands of serious individuals who will take full advantage of all the hard work my team and I have put into it...

...I've decided to send the manual as a gift to the first individuals who read this letter and subscribe to* The Bob Livingston Letter™ *(while supplies last).

Do-it-yourself Tax Shelter $14.95

Tax experts are calling a small, privately-owned corporation "the ultimate tax shelter."

Because government has recognized the important role of small business in our country, there are numerous laws favoring corporation owners. With the help of my book, anyone—from any income bracket can take advantage of this readily available tax shelter.

Anyone Can Incorporate

Small unincorporated businesses, enjoyable hobbies, part-time businesses, even existing jobs can be set up as full-fledged corporations. I've written this book to show you the simplest, fastest and least expensive way to incorporate.

If you're intrigued with the thought of running your own corporation, even on a part-time basis, but don't have a specific idea in mind, I believe my book can stimulate you to action. It's important to remember that you don't need to have a big operation or business to benefit. Ninety-eight percent of new businesses formed every month in the U.S. are small businesses—often just one person working out of his home.

How You Benefit

Your initial investment can vary from zero to a few hundred or a few thousand dollars. I know it can be done because at age 22, with no capital, credit or experience, I incorporated my first company—a candy manufacturing concern and raised $96,000. From that starting point grew a chain of 30 stores. You too can go as far as your determination and imagination will take you.

When you incorporate, this limited personal liability is your investment in the business. Your home, furniture and car are not at risk. You can raise capital by borrowing or selling stock and still keep control of your business. You can put aside up to 25 percent of your income tax free into lucrative retirement, pension and profit sharing plans. Your own corporation enables you to maintain continuity and facilitate transfer of ownership. Many tax free fringe benefits can be arranged, such as the deductible health and life insurance programs. Medical and dental expenses for both you and every member of your family, can become tax deductible to your corporation. If you wish you may set up a non-profit corporation or foundation. You can even draw a salary while helping your favorite charity. If you prefer maximum privacy you may operate anonymously under a pen name you can record for one dollar.

Startling Facts Revealed

Lawyers charge substantial fees for incorporation when often they prefer not to and I'll explain why. You'll discover why 2/3's of the New York and American Stock exchange companies incorporate in Delaware—the state most friendly to corporations. You'll learn how you can have the same benefits as the largest corporations.

You'll be able to hold all corporate offices, President, Vice-President, and Secretary, if you wish.

Save $300 to $1500

You'll save from $300 to $1,500 simply by using the convenient tear-out forms included in my book. Everything you need is there: certificates of incorporation, minutes, by-laws and complete instructions.

My Personal Guarantee

If you are not completely satisfied with my book, return it undamaged within a full year and your money will be promptly refunded. And even if you do return it, *The Income Portfolio* is yours to keep.

Reader Comment

"Whether or not to establish a corporation is a business decision. At the present time your lawyer will charge from $300 to $1500. In reality, in most cases he will spend less than an hour working for you. In order to protect yourself from your lawyer, read Ted Nicholas' book. You will be amazed at how simple it is and how little time it takes. Even more important, you will discover you can form your own corporation without a lawyer and save a lot of money."

Samuel A. Weems, Former Judge and District Attorney, Author of "How To Protect Yourself From Your Lawyer"

Free Bonus

As a bonus for ordering my book *How To Form Your Own Corporation Without a Lawyer for Under $50*, I'll send you absolutely free *The Income Plan*. This portfolio of valuable information which normally sells for $9.95 shows you how to convert almost any job into your own corporation. You could increase your take-home pay by up to 25 percent without an increase in salary. Employers could also save time and money on payroll records and withholding taxes.

6 basic principles that have helped build the fortunes of self-made millionaires

It has often been said that anything is easy once you know how to do it. And this is especially true of making money, because successful investing is really knowing how to spot certain patterns, and knowing how to take advantage of them. Once you understand the patterns, you will be able to find profit opportunities no matter what the economic climate. Once you possess this understanding, opportunity won't knock only once or twice—it will knock over and over. This is the real reason why the rich always seem to get richer and the average person, who doesn't fully understand the financial world, is always treading water.

This report outlines just a few of the financial tactics and strategies that the average person can use not just "once-in-a-lifetime" or under very rare circumstances—but constantly, on an almost daily basis. These same techniques have been used for years by Morton Shulman, self-made multi-millionaire investor and Andrew Sarlos, who parlayed a few hundred dollars into a multi-million dollar empire. They have been used by many others who built their fortunes from nothing. If these tactics sound simple, it's because they are...once you know about them and how to apply them.

Here, at last, then, are some of the so-called "secrets" the working principles, of the millionaires and multi-millionaires who have made their own fortunes. If you're serious about becoming wealthy yourself, read on.

Principle #1: *If you're starting from nothing...You always have more than you think you have.*

The excuse that most people use for not making more of their salary or income is that they don't have enough to invest. In almost all cases, this really is nothing more than an excuse. And if this [illegible]'s like a harsh judgment decide for yourself [illegible]ading the following.

[illegible]RES A MONEY MANAGEMENT TECHNIQUE THAT'S LIKE A RISK-FREE INVESTMENT AND CAN RETURN AS MUCH AS 18% ON YOUR MONEY.

During a period of falling interest rates, you should be taking a hard look at your existing debts. If you had contracted for debt that was at 18% only a short time ago, you should rid yourself of that burden immediately. Because it is really costing you 36% if you are, say, in a 50% tax bracket, and you're not itemizing your deductions. You are paying that 18% a year with after-tax dollars. You must make twice the amount of your interest to pay it. If you currently owe $10,000 at 18%, it is costing you, in fact, $3,600 directly out of your salary. If you renegotiate debts to 9% it would cost $1,800 a year. And in some cases it's possible to get your rate as low as 5% by borrowing against life insurance. So now you could have at least an additional $900 a year to invest.

And there are a multitude of such money-management techniques that prove the truth of Principle #1. You almost certainly have a lot more to invest than you think you do.

Principle #2: *High yield investments are not necessarily high risk investments.*

The idea that high risk and high yield go hand in hand is one of the "sacred cows" of people with a superficial knowledge of the financial world. The fact is, there are situations where you can make large profits with little risk. For example:

If you knew what signs to watch, you would have realized that the devaluation of the Mexican peso recently was virtually inevitable.

Anyone who took a short position in the Mexican peso could have realized up to an annualized 500% return on their money. And this was not a once-in-a-lifetime opportunity. Sharp fluctuations in currency values go on constantly.

Of course, the big question is, what were the signs that would have enabled you to spot the devaluation of the peso? And how do you go about taking a "short position" in a currency? If you had known, all you'd have had to do was read the newspapers and watch TV to have made a 500% return on your investment. So much for the "sacred cow" of risk/return ratios.

[illegible]ciple #3: *There are times [illegible]en very conservative investments can yield very large profits.*

There is a very simple fact about the financial world which, had you known it, and realized its value, could have brought you a 63% annualized return on your money in a matter of months with very little risk. The simple fact is this: as interest rates rise, bond prices drop and as interest rates drop, bond prices go up.

Bonds are generally thought of as a very low-risk income investment. But during the sharp shifts in interest rates that occurred not long ago, you could have bought and sold bonds for short-term capital gains and made as much as a 63% return. Of course, maximum profits would result from being able to pick the best times to buy and sell. We'll talk more about how to pick those times further on.

Principle #4: *You can make big returns on the market with a small amount of capital.*

Buying calls is a beautiful example of leveraging—using a small amount of money in such a way that it can reap really big rewards. For example, if you paid $200 for a call on 100 shares of stock selling at $20 a share, and the stock rose to $30 a share, you would have gained $1,000. Since the call cost only $200, you would have a profit of $800 (before commissions). If the stock had dropped, you would have lost only $200.

Developing "The Midas Touch."

Of course, the real trick is picking calls on stocks that will go up. You should be using the same techniques that professional analysts do when evaluating any kind of stock deal. And as you may have noticed, principles #1, #2, #3 & #4 require further knowledge to take full advantage of them. And in every case that further knowledge can be yours. You can LEARN how to evaluate stocks that will perform well under varying situations. You can LEARN what signs to watch for when investing in currency. You can LEARN which bonds to buy and how to chart the most likely course of interest rates. And you can obviously LEARN the simple but effective money-management techniques that will provide you with investment capital, without changing your standard of living. In fact, sound money-management techniques will probably enable you to start living better almost immediately.

This is the kind of nuts and bolts knowledge that goes into "developing the Midas touch." There's no mythology or magic about it, though for some reason a lot of people want to think that financial success is some kind of sorcery.

For nearly a decade now, we have been proving that the average person can LEARN to build their fortune without taking big risks and without changing their lifestyle. And we are perfectly prepared to prove, at no risk to you, that becoming a millionaire is a perfectly realistic goal for you—providing you are willing to spend about two hours a week learning the skills you need to become wealthy.

Successful Investing & Money Management.

Is the name of the proven self-study course that covers all the tactics and strategies outlined above, plus a whole lot more. For example, in Lesson 3 you will be shown exactly how to buy calls—when to buy them—and which ones to buy under which conditions. In Lesson 11 you'll learn how and when to buy bonds—the various kinds of bonds—everything you need to know on the subject. Lesson 15 will also teach you all the key indicators to watch for when investing in currencies. You will see the exact method for taking a "short position." And you'll find money-management techniques throughout the course's 29 lessons.

Successful Investing & Money Management has been developed and refined by some of the best financial minds in North America. In addition, the members of the Hume Advisory Board know the financial world inside out. So you'll find nothing vague or theoretical in *Successful Investing & Money Management.*

Essentially, the course is a step-by-step education in the techniques of making a fortune. We'll show you how to use borrowed money to build your own fortune. How and when to borrow at the lowest possible rates, for the longest period of time. How to cut your taxes to the bone. How professional analysts pick stocks. How to find some profit opportunities that will enable you to get at least a 15% return on your money. You will learn about every kind of investment from rare coins to the stock market—from commodity trading to bonds. All the ins and outs clearly, simply explained. Everything you need to know to be completely in command of your financial destiny.

Principle #5: *You don't have to start with a big income.*

If you make $25,000 or over, you already earn enough to profit from *Successful Investing & Money Management.* Because as we've already said, "you always have more than you think you do." If the course can't show you how to find up to $2,500 extra a year to invest, we would not advise you to continue. When you fill out and mail the risk-free enrollment form, you can receive a total of 29 marvelously readable lessons loaded with information—the most complete education in how to make a fortune that's available anywhere.

And to make certain that you derive the greatest possible benefit from that education, Hume Financial Education Services will provide you with PERSONAL COUNSEL AS YOU LEARN TO BUILD YOUR FORTUNE. When you enroll in the course, you will be assigned an experienced counselor. This counselor will be available at no extra charge to answer any questions you may have about course-related material.

Principle #6: *Every economic situation can be profitable.*

No matter what is going on in the economy there are always profits to be made. Most people, of course, don't see the opportunities and so talk about "bad times." A classic example of this was the high interest rates that could have brought you bond market profits. Most people just felt crushed by the sky-rocketing rates. And, "bad times" for Mexico meant windfall profits for currency investors. But these are only a few examples of the kinds of opportunities that CONSTANTLY exist for the really knowledgeable investor. *Successful Investing & Money Management* will teach you how to spot these opportunities. You won't just be reacting blindly. You will know what to do and when to do it as economic changes occur.

Another example of an investment that runs contrary to the average man's perception of the economy: The real estate market seems terrible in the recession-plagued economy. So who would invest in mortgages? You might if you had taken *Successful Investing & Money Management.* Some mortgages now carry high interest rates, are often secured by excellent real estate and are in plentiful supply. Often you can achieve a return of 16% or better for five years—GUARANTEED IN MANY CASES BY THE FEDERAL GOVERNMENT

The hidden barrier that stands between most people and real wealth.

As you can see, *Successful Investing & Money Management* is not for people who are looking for "hot tips" or "get-rich-quick" schemes. But it will show you how to profit from virtually any economic situation—it will teach what you need to know about your money and how to make the most of it.

But there is a catch—for most people, MOST PEOPLE SIMPLY CANNOT BELIEVE THAT THEY COULD EVER BE WEALTHY. Wealth remains for them a fantasy—a vague dream. These people are, themselves, the hidden barrier that prevents them from ever becoming wealthy. They don't believe in their own potential and so they simply never try. Don't make that mistake yourself.

The offer that could make you wealthy without risking a penny.

We want you to discover for yourself that you do have a potential for wealth, that you can use the same techniques other self-made millionaires have used to build their fortunes. But, obviously, the fact that we say so doesn't make it true.

So, for the offer that could make you wealthy, fill out and mail the enclosed enrollment form with your $5 Registration Fee for charge it to your VISA, MasterCard, American Express or Diners Club Card). We will enroll you in the course and send you the first two lessons absolutely FREE. Then, we'll send you Lessons 3 and 4. If you're not satisfied, merely return Lessons 3 and 4 within 15 days after you receive them and we'll refund your $5 Registration Fee immediately. Lessons 1 and 2 are yours to keep at NO CHARGE whatever you decide.

If you're as intrigued as most enrollees are, go ahead with the lessons. Then we'll send you two new lessons approximately every three weeks until the course is completed and bill you just $10 (plus a small charge for shipping & handling) for each lesson after you receive it.

There is never any obligation to continue. You reserve the right to drop out at any time—and that's guaranteed.

We are an independent educational service offering a unique, practical, successful method for learning the art of acquiring wealth. We are not a brokerage or insurance company nor do we make any financial offerings.

I'll have 15 days to look these over and *then* decide. If I do not wish to continue, I'll simply return Lessons 3 & 4, and pay nothing, owe nothing. And you will immediately refund my $5 Registration Fee.

If I wish to continue with the course, you will send me the remaining 25 lessons at the rate of two lessons approx. every 3 weeks. You will bill me only $10 (plus a small charge for shipping & handling) for each of the 27 lessons accepted. Of course, I need pay for the lessons only after I have had the opportunity to examine them for a full 15 days, and I may cancel my enrollment at any time. In any case, the first two lessons will be mine to keep free.

Announcing an "apprenticeship program" for aspiring millionaires

Now you can learn from self-made millionaires and leading financial experts the techniques of money manipulation and successful investing that may enable you to acquire great wealth

"You can become a millionaire." When nine out of ten people read that statement, their minds clamp shut like a steel trap. They refuse to believe it. That's understandable—they are leery of being burned by a "get-rich-quick" scheme or other worthless come-on.

In one sense, at least, they're absolutely correct. They never *will* be millionaires, because they refuse even to consider the possibility. So they'll never take the steps needed to turn a $1,000,000 goal into a living reality.

But we're looking for that one person in ten open-minded enough to say, "Show me."

If you're that one person, what we have to show you could change your life, not by magic but by *knowledge*. And, because it's perfectly understandable for you to have doubts at this stage, we will send you the first two parts of the program *absolutely free and without risk or obligation to continue*, to prove to you the worth of our program for attaining $1,000,000. (Why $1,000,000? For most of us, $1,000,000 represents substantial wealth. It is a symbol of comfort and financial security. For some, $500,000 would be enough; others might look at $1,000,000 as just a first step toward their money goal.)

Only two ways to get rich

The program we've designed to put you on a systematic path to wealth is *Successful Investing & Money Management*. It's based on one simple premise: *you can learn how to get rich.*

You see, the knack for making money is not "luck" or an inborn gift. It is a *skill*. And, like any skill, it can be learned.

In fact, there really are two ways you can master the skill of becoming rich. The first way, and until now the only way, has been to learn the techniques of successful investing and money management by trial and error in the "school of hard knocks". This is how many self-made millionaires have done it—making expensive mistakes, learning from them, and eventually discovering how to survive and prosper in the financial jungle.

But most people don't have the time or bankroll to get a financial education in this way. And that's why *Successful Investing & Money Management* represents such a breakthrough.

Now you don't have to risk everything you've ever worked for to learn how to acquire wealth. Now you don't have to take the "trial and error" approach to investing. Now, for the first time, you have the opportunity to participate in a unique *"apprenticeship program" for aspiring millionaires.*

Through this program, you can learn the actual techniques of self-made millionaires and leading financial experts...men like Dr. Morton Shulman, multimillionaire investor and author of one of the best-selling investment books of all time, "Anyone Can Make a Million," and Andrew Sarlos, who started with $500 and built a multimillion dollar investment group.

From people who've actually done it, you can learn how to get rich. Not overnight, but through steady, systematic multiplication of your wealth through the techniques taught to you in *Successful Investing & Money Management.*

Proof that you can make a million

Still somewhat skeptical? Then consider this... By investing just $88 a month at 15% interest, anyone 30 years of age can retire with *over a million dollars.*

And now, consider *this*...

If you can invest more than $88 a month...and if you can get a better return than 15% (opportunities for gains of up to 25% are possible)...and if you learn how to make some of your investment dollars have the "leverage" of $5 or $10 (which we'll also teach you)...you can see immediately that you have the potential to join the exclusive "millionaire's club" *well before* your retirement years.

The secret lies in being able to put aside a regular portion of your income every month and then managing that money so that it multiplies at higher rates than you've probably ever gotten before.

How to live richer now

So, you can see that it really is possible for you to amass a million dollars by the time you retire. But equally important, *Successful Investing & Money Management* will enable you to act *now* to increase your wealth. It will show you how to do this without lowering your standard of living, out of the money you have today. You will see progress immediately—in your very first two lessons. By applying the techniques you'll learn, you can reasonably expect to be on the road to financial security in five years. Ten years from now, you may no longer have to work for a living, for your income from your investment portfolio may well have surpassed the income you earn from your job.

Examples of what you'll learn

Here are a few examples of the powerful money-making techniques you'll learn in the program...

- How to understand and spot high-potential opportunities in every major field of investing—stocks, bonds, commodities, collectibles, franchises, condominiums, raw land, insurance and others.
- How to spot early warning signals that a stock is ready to make a major move, or be a likely takeover target.
- How to make some investment dollars do the work of $5 or $10.
- How to grow wealthy using *other people's money* (the secret behind many great fortunes).
- How your company might pay your medical bills tax free.
- How to borrow the greatest amount of money at the best rates and longest terms.
- Strategies that could double or triple your money within the first three to five years.
- Little-known sources of investment funds—including the favorite of giant corporations—and how to gain access to them.
- ...plus, the biggest mistakes investors make and how to avoid them...how to time your buying and selling to maximize your profits...and how you can legally reduce, postpone, avoid and eliminate many of the taxes you're currently paying.

And remember, these are not textbook theories, but the proven, real-life techniques actually used by self-made investment millionaires. So they can work *for you.*

Most important of all, *Successful Investing & Money Management* will train you to respond to the *everchanging* economic climate. You will know how and when to act as the financial picture changes. You will become equipped to make your own decisions—to be *really* in control of your financial destiny.

Successful Investing & Money Management will teach you to take advantage of the profit opportunities in each major economic development, whether it's a surging stock market, currency devaluation, or rise in interest rates. Successful investors know how to make money systematically from such developments, often with only slight risk. Now you will know how to do the same.

You don't need experience

The lessons in the program assume no prior investment experience. Designed with the help of leading educators, they employ the best advantages of self-paced learning. Each lesson is clear, each principle illustrated with examples. Course assignments and problems give you the chance to test yourself as you move through the program. And if you have any questions about any of the lessons, you can ask for help, as often as you wish, from the staff consultant assigned to you, and at no additional charge.

You don't need a large starter fund. You *do* need money to apply the investment techniques we recommend. But even if you don't have an investment fund saved up yet, the program will show you how to get one quickly. *Right in your first two lessons, which we'll send you free, you'll learn how to increase immediately the amount of money you have to invest.* By following certain surprisingly easy techniques, and without changing your lifestyle, you could have up to an *additional* $2,500 each year in investment funds. This will be your "starter" fund—your investment "acorn" that can grow into a mighty oak. What's more, we'll show you the advantages of setting aside a portion of your income each month for your future. In this way, your investment and savings fund will automatically grow and make you richer each month.

You don't need to take time away from your job. One of the best parts about this program is that you can take it at home, at your own pace, at whatever time is convenient for you. You don't have to take any time away from your job.

You don't have to give up all your free time. All you need to complete the program is approximately two hours per week and the perseverance to keep building your fortune the way we'll show you. These two hours will almost certainly prove to be the most *profitable* two hours in your busy schedule, because they can add many thousands of dollars to your net worth each year.

You don't need to be a financial whiz. The main things you'll be learning are *what to do with your money*, not complicated ways to count it. In those cases where you would like to see the financial implications of a certain investment, the program supplies all the needed charts, graphs, and easy-to-use slide calculators you'll need.

Accept your first two lessons *free*

In your two free lessons, you'll see how to take inventory of your assets, liabilities and financial goals. This will give you the clearest picture you've ever had of where you stand, where you want to go and how to get there. **For the first time, you'll have an actual blueprint for getting rich.**

You'll be given a comprehensive overview of the various investments open to you, so it will be easy to see which ones suit you best, and which ones you've been overlooking. And you'll discover some excellent ideas on how to improve your returns on many of these investments. All this, and much more, in just your first two *free* lessons.

A no-risk opportunity

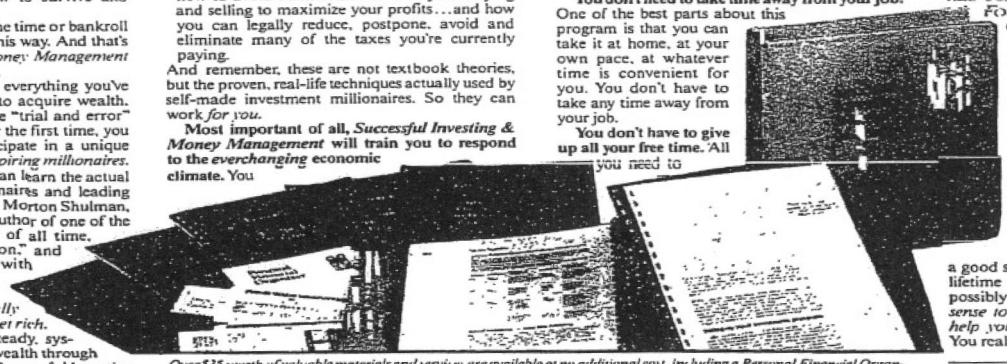

If you still find it hard to accept that you really can become rich—if you think that the exclusive "millionaire's club" will forever be open to others but not to you—all we ask is that you examine the first two lessons of this program to see for yourself how easily you can get started on the path to riches. More than any words we might say, they will demonstrate to you that you really do have the potential to become rich by developing the *skill* of becoming rich.

Find out for yourself now without obligation or risk. Just return the enclosed Trial Enrollment Form with your $5 Registration Fee (or charge it to your VISA, MasterCard, American Express or Diners Club card). (See details in the Trial Enrollment Form below.)

There's never any obligation to continue. You reserve the right to drop out at any time—and that's guaranteed.

A chance to make the most of the 1,700 hours you work each year

One final point. This year and every year of your working life, you'll probably put in over 1,700 hours of hard work. As your reward, you'll earn a good salary which will probably translate into a lifetime income of well over a million dollars, possibly two million or more. *Doesn't it make sense to explore how these two free lessons can help you protect everything you're working for?* You really have nothing to lose.

Over $35 worth of valuable materials and services are available at no additional cost, including a Personal Financial Organizer, two sturdy vinyl binders for your lessons, a mortgage slide calculator, a stock value slide calculator, and any expert personal assistance you may require from a staff consultant, who'll answer any course-related questions you may have.

Tax Deductible

All payments are tax-deductible if the program is used to make investment or business decisions.

This self-made millionaire did it the hard way.

Dr. Morton Shulman made his fortune in the school of hard knocks. He's spent nine years working with the editors of *Successful Investing & Money Management* to present—in this unique self-study format—the astute financial principles he perfected by trial and error.

So did this one—But you won't have to!

Starting with a $500 stake, Andrew Sarlos now oversees a multi-million dollar investment empire. Now his self-taught techniques are laid out step-by-step in *Successful Investing & Money Management.* And Lessons 1 and 2 are *yours Free on request.*

It's easier than you think to make $1,000,000

The secret is not earning more money (you're already earning enough) but managing your money more profitably in bad times and good. Read how investing as little as $1,000 a year can make you a millionaire.

A MILLION DOLLARS may not mean as much as it used to, but it's still not bad. So, the purpose of this message is to demonstrate that it's not only possible, but easier than you think, to make $1,000,000—in spite of "hard times"!

$1,000 will get you $1 million

INVESTING $1,000 a year properly can bring you at *least* $1 million by the time you're ready to retire. This is not "blue-sky" theory but sound mathematics, based on the economic realities of 1982.

We are assuming you can invest a minimum of $88 a month ($1,056 a year) at a return of 15% beginning at age 30. If you are older, you will have to increase that figure slightly or learn how to earn a higher return (the techniques in *Successful Investing & Money Management* will show you how).*

"I can't save a dime"

"BUT WAIT," you're probably thinking. "Between interest rates, inflation, and taxes, I've got all I can do to pay my bills on time, much less find money to invest."

That's where you're wrong. In the past few years we have shown thousands of Americans in your income bracket, how to live better on their present earnings.

We have shown them how to find *up to $2,500 more* to invest each year, through expert money management.

We have shown them (as we'll show you) how to spot unique opportunities as they arise which can sometimes produce returns of as much as 20-30% on that "found money."

By applying our proven money-management techniques to their everyday financial affairs, growing numbers of "ordinary" Americans—business executives, accountants, salespeople, professionals—are starting to pile up small fortunes.

What's the bottom line? Just this. By properly implementing the financial techniques laid out in *Successful Investing & Money Management* you will have the opportunity to increase your net worth *many times over.*

The secret of acquiring wealth

THE SECRET is that earning good money is not enough—and *never has been.* To become wealthy, you must *use* money to make money.

You don't have to be a "financial wizard" to do it. And you most certainly don't need a lot of money to start with.

Andrew Sarlos started with $500. By mastering and applying the tried-and-true techniques of money management, he now oversees a multi-million dollar investment empire.

These techniques are laid out in *Successful Investing & Money Management.* So as you read this, thousands of Americans are profiting from them.

They've learned to shift their income, choose the right tax shelters to reduce their income tax.

They've learned the fine art of using borrowed money to *make* money—thus leveraging their profits on stock, real estate, currencies and stamps. They've also learned how to reduce their interest payments. And how to apply special techniques that make interest rates and inflation work *for* them, not against them.

Who are our students—and what have they in common?

THEY'RE PEOPLE like you—professionals, executives, skilled employees—too busy being successful in their careers to take the time to learn how to be successful with their own money. What do they have in common?

1. They share a strong desire to become "masters of their fate."
2. They all have made a commitment to invest the time necessary to achieve their financial goals. (The time required for *Successful Investing & Money Management* is surprisingly modest. Would you believe 18 minutes a day?)
3. They took the first step by answering an announcement similar to this one.

Three ways you might have profited

1 BY IMPLEMENTING the proven financial principles in *Successful Investing & Money Management* you might have learned to recognize action-reaction situations. Taking advantage of opportunities that occur every few months—using the potential to dramatically increase your money in situations such as the Mexican devaluation of the peso, OPEC raising oil prices or Canada raising interest rates.

2. You might have taken advantage of the rise in interest rates—by knowing how to short Treasury bills to make big profits then making even more money by going long when rates fell.

3. You could have profited from the strong dollar by dealing in currencies such as the German mark or the Japanese yen—using leverage to multiply profits while minimizing risk.

These are not isolated examples. They are representative of periodic adjustments in the global monetary system that occur in today's volatile economy. Once you understand the system and know what to look for, you can *capitalize* on these adjustments—whether in common stocks, Treasury bills, or exotic financial instruments such as Samurai bonds.

How to find $1,500–$3,000 a year

TO INTRODUCE YOU to *Successful Investing & Money Management* (and to prove what we've been saying) we invite you to send for Lessons 1 and 2 absolutely free and without obligation.

In Lesson 1 alone we'll explain how to play the "money game" so well that by following our advice you'll probably be able to save an additional $1,500–$3,000 a year for investment purposes—without scrimping, or denying yourself anything.

Then we'll send you Lessons 3 and 4 to examine for 15 days. If you decide to keep them, we will bill you only $10 per lesson for each lesson you decide to keep. Or, you may return them within 15 days without paying or owing anything. Lessons 1 and 2 are yours to keep whatever you decide.

There's *never* an obligation to continue, although most people do. You never risk a cent—and you may drop out any time.

Make 15 Times Your Money on the Cheapest Stocks in the World

Markets left for dead by Wall Street are making a 'secret comeback' across the globe. Buy now before the herd gets wind of their strength...

We've uncovered a booming Asian industry whose sales are well on their way to blowing the iPod's out the water.

Get in now and watch your $5,000 investment soar to $40,450 in 12 months.

Dear Reader,

It's no secret that the US markets are struggling this year. The Dow has shed 590 points since January, while the NASDAQ has slumped 11%. Suddenly the so-called safest markets in the world aren't looking too profitable.

South Korea is one of many countries that have been forgotten by Wall Street. It wasn't always so. Back in the late 1990's Wall Street firms were jumping all over themselves to get in on the biggest 'Asian Tiger.'

Well South Korea is back. It's growing like a weed in springtime, and its stocks might just be - dollar to growth - the cheapest in the world.

Check out this chart.

www.getwsodo.com

The BOOMING MP3 Industry in South Korea Could Go Up 15-Fold

What you may not know is that South Korea has the most advanced market for cell phones and MP3 players in the world. This country has historically been the first adopter in digital technology and is about three years ahead of the US.

Just look at Apple, a company that went up 309% this year on the back of its iPod - a portable device that plays music files.

We've found the company that makes these products better, faster and cheaper. Apple's iPods have cornered the US market. But Apple, always a first-to-market innovator, has a way of losing market share to competitors.

This South Korean company's iRiver product (Powerful MP3 player that fits on a key chain) has 50% of the Korean market - it also sells at a $50 discount to the iPod.

Furthermore, the financials are stellar. **It currently trades at a price-to-earnings ratio of 6.9,** which is great in any country. **Last year revenues rose 426%. Net income rose 523%.**

This company is the leader in the fastest-growing branch of MP3 players, namely flash-based players, and it's eagerly providing video viewing - a feature that Apple shies away from. Look for this company to steal some market share from Apple starting this summer.

Here's another great South Korean company that Wall Street hasn't heard of - yet!

This Satellite radio company has a price-to-earnings ratio of six and is growing 163% a year.

This company produces the actual satellite radio that receives the Sirius Satellite signal - Sirius is growing subscribers at a 771% annual clip. Japan and South Korea have similar companies with similar numbers.

Up 515%

This South Korean company is increasing its revenue at 163% a year. The share price is up 515% since August of

www.getwsodo.com
2003. It dominates the market. **If you or someone you know listens to Satellite radio - this company made the box.**

But the run is just beginning. Even discounting the growth rate this company is 47% undervalued today. The trend of Satellite radio should continue - with Howard Stern, NASCAR, Major League Baseball and the NFL - all signed up for the next season. In addition, all major car companies are offering Satellite radio in their cars this year.

But you don't want to buy Sirius itself - it trades at 205 times its earnings. You want to buy the box maker which will grow just as fast for only 6.9 times its earnings. It's a no-brainer!

And South Korea's not the only booming market to catch my eye...

The Secret Bull Market Down Under

I won't say that the US stock markets are done - but last year the NASDAQ was up a measly 6%. Over the last two years the **Australian Ordinary Shares were up 47%.**

Since 1990 Australia has beaten all top-tier industrial nations. It has averaged 3.3% GDP growth since 1990 - beating the US, the UK, Canada, Germany and Japan. It ranks in the top seven in the world of IT professionals, finance and engineers.

And yet it's inexpensive. Prime office space is 25% less than Silicon Valley, New York, London, or Tokyo. We live in a global economy and start-ups are seeking out countries with solid laws, intelligent, well-educated, English-speaking work force, a nice quality of life, and most important, low start-up costs.

With these advantages, it is no wonder a stealth Australian bull market has emerged. The bountiful land down under has produced a bumper crop of severely undervalued, high tech companies - companies that can make you an easy 1,060 percent gain - if you get in on the ground floor.

Just look at this chart - Australia hits an all-time high!

Experts from down under are raving about Australia's Bull Market.

'*These are very good times. It's the best it has been for many years,'* ING Australia's Chief Executive, Paul

www.getwsodo.com

Bedbrook.

' The Australian economy has been on a winning streak since the early 1990s. It has enjoyed 13 years of uninterrupted growth. The winning streak is set to continue over the next two years, says the OECD . It expects GDP to increase by 3.8% in 2005 and by 3.6% in 2006.' -The Economist

'Following eight percent growth in exports in 2004 we are on track for a record export performance in 2004-05,' - Australian Trade Minister, Mark Vaile

But no one, I mean, no one, in New York is talking about these incredible opportunities... but they will soon as I'll show you in a minute. Those of you who have the guts to get in early will not only have the opportunity to profit, but make incredible gains!

These companies are so undervalued I'm sure this ground-floor opportunity won't last much longer.

* This $0.49 company is partnered with Dow Chemical and invented a **sex gel that kills HIV on contact.**

* This $0.58 company created a micron-sized capsule containing radioactive material - it **shrinks inoperable liver cancer from 80-100%** without causing damage to surrounding tissue.

* This **$0.11 company created a synthetic nerve cell membrane on a chip,** which can find disease markers with a voltage change. It will vastly **improve the way doctors diagnose disease** - and it will do it faster and cheaper. This tool is so powerful it can determine the presence of a sugar cube in Sydney Harbor.

* This $0.23 company is building a combination **solar/wind tower that will be twice as high as the world's tallest skyscraper**. This tower will produce 200 megawatts, the same amount as an average nuclear power plant, with enough power to light a city the size of Baltimore. It will also **keep 830,000 tons of greenhouse gases out of the atmosphere annually.**

Where you want your money for the next five years

Australian Prime Minister, John Howard, gives away billions for technology

More than five years ago, two years before September 11 restricted the number of scientists coming to the US, John Howard, the Australian Prime Minister, gave $10 billion in government funding for independent initiatives and research and technology centers.

But major Wall Street firms - like Morgan Stanley and Smith Barney don't even know about it. These companies are flying under their radar screen. But that's going to change - and soon. The first of these companies recently got a NASDAQ listing. The PR campaign is about to start.

Allow me to introduce myself. My name is Christian DeHaemer. I am the founder and publisher of a group of products known as the Red Zone of Profits. I have been an investment professional and writer for the better part of a decade.

I have had the good fortune of finding investment segments early and riding them to success. For example, in Red Zone VIP, I had winners like 140% and 112% on Galton Biometrics, 116% on Harris & Harris, 77% on Nanophase, 69% on Bluefly and the list goes on and on.

I make such incredible gains because I go where the investment action will be before the rest of the world even catches on. And I hire smart, tough, professional researchers to help me out. One is Alex Chinn.

9 winners in a row

Alex recently closed 9 positions - all winners. This guy is on fire. Just

www.getwsodo.com

look at a sampling of his portfolio:

*Encore Software (enco.bombay), first half 28.57% in seven weeks.

*Encore Software, second half 42.86%, in seven weeks.

*Symmetricom (SYMM:NASDAQ), 10.44% in two days.

*ADAM (ADAM:NASDAQ), 17.26% in five days and 21.58% in 13 days.

*Singulus (SNG.frankfurt), first half 15.92% in five weeks.

*Competitive Technologies (CTT:AMEX), first time 47.54 % in four days.

*Advantest (ATE:NASDAQ), 10.94% in six weeks.

*Synaptics (SYNA:NASDAQ), 33.78% in two weeks.

*Anik Theraputics (ANIK:NASDAQ), 47.90% in one month.

That's an amazing record.

It isn't a surprise to me that Red Zone's newest prodigy is producing winner after winner like a young John Templeton. Alex is a Mensa Member, a graduate of Johns Hopkins University, twice a finalist for Junior Jeopardy and had the gumption to put his SAT score on his resume. Now he can add his recent nine winners in a row to his resume.

Alex has a knack for uncovering under-valued companies the world over. And readers who followed his recommendations are pulling in the gains with amazing success:

www.getwsodo.com

This kind of performance isn't dumb luck. Alex has applied rigorous due diligence followed by historic back testing to develop a powerful system for picking winners - time and time again.

This system is so easy that if you can count to three you can start making money. Let's count:

Winning Secret #1: Get something for nothing

Buy stocks in countries where the currency is undervalued. You do this because if the currency is undervalued it's likely to rise against the dollar. This means that even if your stock turns out to be a loser and falls in price, it will go up in dollar terms. You get something for nothing.

Winning Stock Secret #2: Go to growth

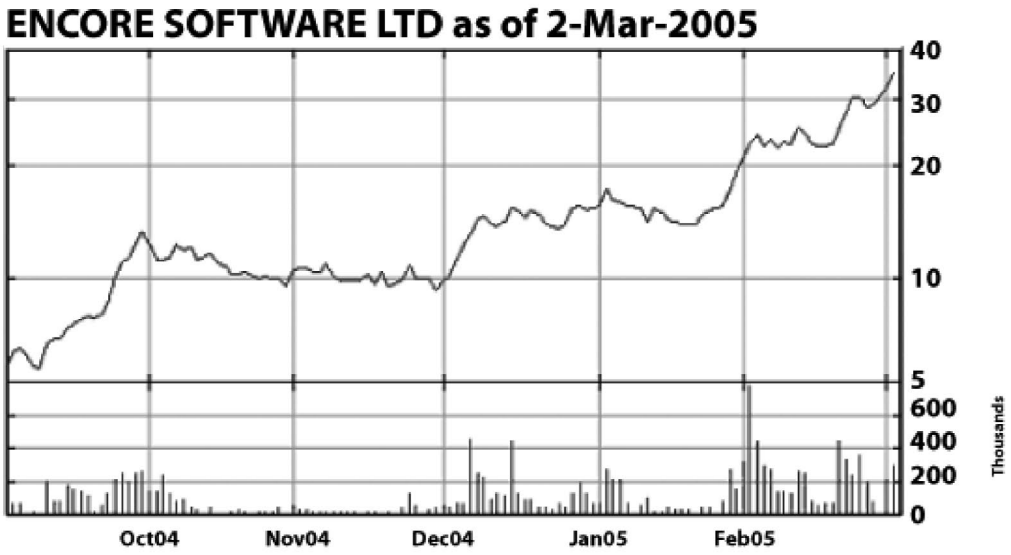

Buy stocks in countries that are experiencing higher than average GDP growth. GDP stands for gross domestic product. It is a fancy way of measuring what the country produces as a whole.

If the country makes and sells more stuff, it's making money, its people are prosperous, and its companies are doing well. Oftentimes the stock isn't priced in and you can get in early and profit when the stock is moving higher and reflects the situation on the ground. Alex calls these stocks the easy riders. Rock solid stocks that take advantage of a strong currency and growth. Over the past few years you could have taken advantage of these easy riders such as ADAM Inc. +17.26, Rostelecom +22.18%, and Competitive Technologies +47.54%.

Winning Stock Secret #3: Buy the BARNBURNERS

These are the stocks that are likely to go higher - much higher. No, I'm not talking about high risk, high reward. I'm talking about low risk, high reward.

Companies like ENCORE - Up 892% in six months!

Alex has recommended this stock three times and logged gains each time. This company has the world's most powerful handheld computer. It costs less than a PC but runs Windows or Linux.

As you can tell by the chart Encore is selling like hotcakes in low-income places like India and China. It is already up 892% in the past year - but it's just getting started. It has a market value of under $10 million! That's absurd.

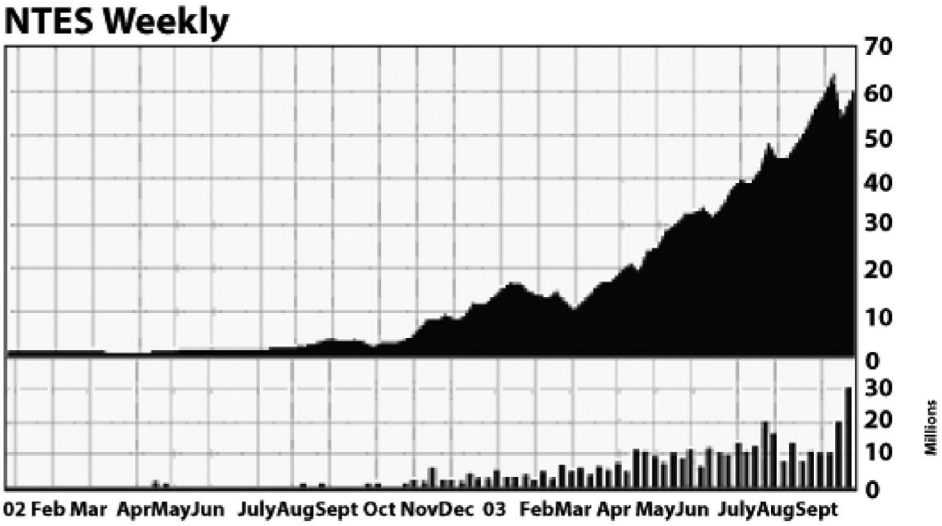

www.getwsodo.com

Wait until Wall Street finds out about this one. It could still go up another 1,000% - heck, it could go up 5,000 % without blinking an eye. It's a BARNBURNER, Baby!

Winning Secret #4: Get in early

It sounds simple, and it is. And yet millions of people don't do it. Here's how it works.

NTES goes from $0.85 to $71.52 in 18 months! A 8,429.41% gain.

Back on February 6, 2002 a little-known Chinese Internet company called NetEase.com (NTES) was trading for $0.85.

In April, 2002 the company announced that it had 'significant improvement in Q1 earnings.' It went on to have strong Q2, announced in August, and Q3 earnings, which it announced on October 30, 2002.

As you can see by the chart, the stock was starting to move...

But not very much - there was enough information to let the serious investor discover the company (three quarters of blockbuster earnings) - but not enough for the Wall Street fat cats to get out of their comfort zones and start digging into Chinese Internet companies.

The Wall Street hype machine hadn't caught on - yet.

Then things started to happen. The Main Street media like Time Magazine wrote about NetEase on Dec. 11, 2002. And the stock moved again - pushing $10. At this point you'd have been up more than 1,000 percent. A fantastic gain.

But still the Wall Street analysts didn't start covering it until June 18, 2003 when USB Piper Jaffray came in with a woeful 'market perform.' At this point the stock reached $33 - a 3,700% gain!

The hype-driven profit ramp

In 2004, the Wall Street analysts started jumping in like lemmings - Lehman Brothers in February '04, ThinkEquity in February '04, Pacific Growth Equities in February '04, Goldman Sachs in March '04, Roth Capital in December

www.getwsodo.com

'04 - and on and on...

If you'd bought the stock at the first 'upgrade' (Piper Jaffray's market perform) on June 18, 2003 and held to the top on $68 in October 2004, you would have made a nice return of 106%.

But if you'd gotten in early, when the company was reporting quarter after quarter of solid earnings... and sold at the first analysts 'upgrade' - you would have made 3,700% and still left with a 4,729% percent gain on the table!

That's the power of getting in early. Now you can put that secret to use with four more potential Barnburners - in the high-tech, ground-floor opportunity down under.

Get in early on Four Secret Aussie Tech Stocks

Barnburner Stock #1: This Gel Stopped HIV in Monkeys

This company with a $0.49 stock just produced the world's first microbicide gel that prevents the contraction of HIV.

We all have heard the horror stories. Five years ago, the UN stated that AIDS/HIV has killed more people than any other disease in history. George Bush made helping out AIDS victims in Africa a point in last year's State of the Union address.

In less-developed countries, whole generations are missing. In Africa HIV has driven the average life expectancy in Zimbabwe down to 34 years of age and stolen 17 years from the average South African. In Asia it is estimated that one in four soldiers of the Thai Army has AIDS/HIV. This gel can dramatically reduce those horrific numbers.

How it works

The gel goes by the name of Vivigel and is a dendrimer-based pharmaceutical. I'm not a doctor, so I'll give you the short version. Dendrimers are molecules that were discovered in the late 70's, when researchers at Dow Chemical first synthesized them. Dendrimers are polyvalent and, due to their odd structure (imagine an octopus with dozens of legs), are able to bind more efficiently and kill target molecules in cells.

Gel makes sex more pleasurable and kills HIV

This gel is discreet (a woman can apply it beforehand) and provides lubrication, meaning it doesn't interfere with intercourse. In some cases, it's been reported that the lubrication actually helped.

This tiny Australian company just created a gel that could save hundreds of millions of lives all over the world. The product has worked flawlessly during testing in monkeys - completely stopping the transmission of Simian HIV. It's the first dendrimer-based drug to reach FDA clinical trials in humans.

The cost of AIDS?

How much would a product like that be worth? In South Africa alone, *Old Mutual Healthcare* has estimated that additional healthcare costs as a result of HIV/AIDS could reach $3.8 billion per year by 2009.

Health Canada predicted the cost of AIDS as $38 billion before 2011 in that country. Globally the costs of this modern plague is in the hundreds of billions of dollars - perhaps even trillions. The total US market for HIV/AIDS drugs was $5.76 billion in sales in 2005.

www.getwsodo.com

Could Save GI's from Mustard gas

But that's not all. The US Army has poured $3 million into this company because their dendrimer-based product can also be used to protect soldiers from bio-warfare.

Despite what some people might think of a $0.87 stock - this company is in excellent financial shape. In 2004 total assets rose 72% and liabilities decreased by around 40%. Cash at year-end nearly doubled, up 98%. It has a market cap of only $77.6 million. Glaxo Smith Kline, has three top HIV/AIDS drugs with total sales of $1,031,598,000.00. It has a market value of $137 billion.

Obviously, my tiny Australian biotech isn't going to become a multi-billion dollar company overnight. Nor, is it likely to have a market value of $15 billion like Gilead Sciences - another company with Viread - a $285,551,000.00 HIV/AIDS drug.

But you can bet that it won't remain a micro-cap for long...

BARNBURNER - up 330% Already

This stock is up 330% over the past three years, but the run is just getting started. They have applied for a NASDAQ listing. Believe me - you want to own it before Wall Street hears about it.

When the US-based biotech investors start buying this stock it will likely hit the low teens... if the HIV gel hits the market, we could be talking about a multi-billion dollar company with a huge upside.

Let me put it another way. This sex gel/HIV-preventive company would have to rise by 1,198% to get a market value that is just 1/15 th of Gilead Sciences. That's absurd! You want to own this stock - and soon.

I'll give you all the information you need to cash in on this company's technological breakthroughs-without changing currency or opening a foreign account in the FREE report - ' BARNBURNER STOCKS, The Secret Aussie Tech Market.'

Barnburner Stock #2: Obliterates Cancer Tumors

This $0.58 company has the first nanotech time-release product ready for human testing - and you've never heard of it. The company's lead product is targeted at the substantial brachytherapy market, expected to exceed $1 billion this year.

This nanotech product will be launched as a simple intratumoral implantable medical device for the selective regression of otherwise inoperable tumors.

If that sounds like mumbo jumbo to you - let me rephrase it. You have a small capsule the size of a grain of rice. You inject it into a tumor that you can't get at with traditional surgery.

The capsule is made of a revolutionary, nanotech-created, silicone material that breaks down at a set rate, letting radioactivity kill the tumor slowly over time.

Because it works from the inside out, it doesn't damage surrounding tissue or otherwise make the patient sick. This is the opposite of being zapped in large doses by traditional chemotherapy, which goes through the skin, the stomach, the intestines, the liver and everything else before hitting the tumor.

Partnered with US Big Pharma

www.getwsodo.com
This company's already got a licensing agreement in the Asian market. Confidence in the capabilities of this technology is so high that a **manufacturing agreement has been struck with a top-tier US pharmaceutical company**.

Phase II trials for this liver cancer treatment application recently tested positively. When the impending FDA approval comes, Wall Street will jump all over this tiny gem, that was recently listed on the NASDAQ.

It has a market value of just $39 million. Buy now before Wall Street 'discovers' this stock. This stock could easily be a $250 million company - a fast gain of 541%. It's a Barnburner, a true ground floor opportunity.

I'll give you all the information you need to cash in on this company's technological breakthroughs, without changing currency or opening a foreign account in the FREE report - ' BARNBURNER STOCKS, The Secret Aussie Tech Market.'

Barnburner Stock #3: Miniature Biosensor

This $0.11 company can determine a disease in a cell, like the FBI can find a criminal from a fingerprint. They have created a synthetic nerve cell membrane on a chip, which can find disease markers with a voltage change.

It will vastly improve the way doctors diagnose disease - and it will do it faster and cheaper. **This tool is so powerful it can determine the presence of a sugar cube in Sydney Harbor.**It can measure the concentration of biologically active things, like bacteria, DNA, proteins and drugs.

Better, faster, cheaper

As a medical diagnostic device, this artificial membrane system promises to be better, faster, and cheaper than anything currently available.

Five minute lab results

It's so simple to use that 'we've even had our secretaries using them.' How much faster? No more than five minutes at the point of care, compared to the four to 24 hours (if you're lucky) it takes to get results from a pathology lab today.

How it works - mimics a nerve cell

Much of medicine's ability to diagnose disease conditions depends on the recognition of particular biomolecules. Diagnostic tests typically use antibodies that recognize particular disease molecules, or sometimes, hormone receptors will interact with particular hormones overproduced in a disease condition.

This company's innovation was to combine the recognition properties of biomolecules with the current transducing properties of a membrane, to create a new type of device that mimics a nerve cell membrane. **The company holds 60 patents granted worldwide, including 16 in the US.**

Point-of-Care Analyzers

The company has come up with **six specific Analyzers that are fast tracked**, and prioritized due to commercial appeal. The Analyzers come complete with an Ethernet connection so the results can be immediately sent to your doctor as well as your insurance company.

The new system will be small, portable, and will feature more tests that can be run concurrently on a sample. This

www.getwsodo.com
company will compete in all point-of-care markets, including hospitals, physician offices, the operating theater, intensive care, and mobile medicine.

Imagine biosensors that continuously monitor the air, drinking water, and the food chain for toxins, bacteria, harmful viruses, and bioweapons.

BioThreat

The company has completed a $3.2 million-dollar project designed to detect bioterror agents in nasal mucus, a study that was funded by the US Defense Advanced Research Projects Agency (DARPA). DARPA is interested in thwarting such potential biowarfare agents as anthrax, plague, Q fever and tularemia.

Big partners, Pregnant possibilities

Genencor, a major biotechnology firm, and Dow Corning, in a joint venture called Silicon Biotechnology, have licensed this company's technology to create their own biosensors for pregnancy tests. The sensor has been proven able to detect human chorionic gonadotropin, a pregnancy marker.

Dow Corning and Genencor have put their money where their mouth is and bought 3.8 million shares. A buyout is always a bullish possibility.

Solid Fundamentals

A new report from NanoMarkets LC predicts that sensors designed and built using nanotechnology will generate global revenues of $2.7 billion in 2008 and reach $17.2 billion in 2012.

This amazing biosensor company has a market value of just $13.6 million! That's ridiculous given the potential growth rate in the sensor market.

But it gets better...the company's cash position is $14.3 million. **That means that the market values this company less than the cash it has on hand.**That's absurd! The patents alone are worth 20 times that.

Someday soon Wall Street will 'discover' this tiny Australian tech company and there will be a massive re-rating of this stock. Those who get in early could easily make a thousand percent return on their investment. This should be a $250 million-dollar company today, but I'm not greedy - my price target is $100 million or an 809% return from current values.

I will tell you all about this company in your FREE Report: ' BARNBURNER STOCKS, The Secret Aussie Tech Market.'

Barnburner Stock #4: Solar tower twice the size of the Empire State Building

This little-known Aussie tech stock is dedicated to bringing cheap, environmentally friendly power to Australians, and its latest project is the Big Kahuna of green power.

This company is building the Solar Tower, a massive combination solar/wind power generator that will stand twice as tall as the world's tallest skyscraper.

This company has bought a colossal sheep farm in New South Wales and will begin construction later this year. It will fill the space with solar panels, which will in turn provide the energy to superheat air. This superheated steam will shoot up the massive tower, turning turbines and producing cheap, efficient, Mama Earth-friendly power.

www.getwsodo.com

Oil Hits $56 per barrel

Given the recent price of oil at $52 a barrel, and the kickoff to the Kyoto Protocol, which limits fossil-fuel emissions, as well as the climbing price of oil, this type of power generator will undoubtedly find a home in countries around the world.

There are already **contracts in place in China**, which has a surging demand for energy. This future Barnburner is using a proven technology, solar towers, which were the rage in Europe in the 80's until the then-low cost of oil drove the towers out of the market.

Expect to see solar towers popping up in Europe and Asia over the next few years. The bonus is that **this company trades for under $0.25 a share.** It has a market value of only $11.35 million!

Keep on reading and I'll tell you how to get your FREE copy of '*Future Barnburners: Australia's Stealth Bull Market.*'

These companies are amazing, but they are just the tip of the iceberg. Alex Chinn has produced a record of nine winners in a row. He has made 47.54% on CTT in four days, 48% on ANIK in four weeks, and 43% on ENCO in a month and a half. And he is finding more winners on a daily basis.

Australia isn't the only country with massive ground floor, Barnburner opportunities. South Korea has the world's most advanced digital market.

Or how about this Barnburner...

The $1.60 stock that will privatize space flight

Six self-made billionaires are convinced that private space flight is the business of tomorrow. Richard Branson's Virgin Galactic has a huge waiting list of people willing to pay $190,000.00 for a ride to the edge of the atmosphere. PayPal founder Elon Musk's SpaceX has several contracts to deliver satellites into space for the US government.

Jeff Bezos, founder of Amazon.com, has set up Blue Origin, a spaceflight company. John Carmack, founder of I.D. Software, has created Armadillo Aerospace. SpaceShip One, built by Burt Rutan, won the Ansari X prize by twice launching into low- Earth orbit and returning. Paul Allen funded the whole project. Rutan heads Scaled Composites, which is currently designing space vehicles in both space plane and rocket form.

One pure play on private space flight

But there is only one publicly-traded company that will profit from all of these efforts - regardless of whether they are successful or not... This company provided critical systems for Space Ship I.

They built the hybrid motor ignition system, electronic controls, fuel casting, main control valve, injectors and fill/dump/vent systems. The company is also looking to produce micro-satellites and improved satellite communications systems.

Over the past 21 months, revenues have more than doubled and earnings turned the positive in 2004. This company trades at just $1.60.

The truth is I can go on and on about fantastic investment opportunities popping up everyday.

Several opportunities a week

Alex Chinn finds several of these stocks a week. He digs in with a traditional top- down approach. He does his homework; he looks at currency trends, market indices and the next wave of technological advancements. He finds the countries and industries that are poised for massive BARNBURNER profits.

He's proven his capabilities by producing a 58% winning record in 2005. Winners like 33.78%, 28.57%, 42.86%, 47.54%, and 47.90%.

I'd like you to join us and start making these kinds of gains for yourself.

The HIV preventative sex gel stock alone could go up a possible 1,198%! Talk about profits! If the stock turns into a BARNBURNER, and I think it will, you could DOUBLE YOUR MONEY every few weeks! In fact, the sky is the limit for this company. There is really no telling where this stock could end up.

I'm not promising another 809% like with Encore - but you never know!

Please remember, in the last few months, Alex Chinn's system has nailed a 58% winning percentage!

And the Four Secret Australian Stocks give you an IMMEDIATE opportunity to grab the kind of profits *Emerging Market Investor* members have been realizing day after day...

CLAIM YOUR SHARE OF MASSIVE GAINS!

Emerging Market Investor readers are on their way to massive wealth... some are already there! And while the Alex Chinn system has been a winner right from the start - it's just now starting to hit full stride.

You see, as I write this, Alex is in South Korea, actively scouring the country for the absolute best investment opportunities. Right now he's busy touring companies, talking to CEO's, CFO's and government big shots. His list of South Korean appointments has over 22 names.

Over the next few weeks, he'll be reporting exclusively to his *Emerging Market Investor* subscribers, detailing all the juicy information he gathered on his journey... and the very best places to put your money NOW.

You'll want to read his South Korean BARNBURNER report when he gets back. These reports are like a license to print money.

As I said before, Alex recently nailed 9 winners in a row! Everyday Encore seems to go up another 10%.

I think you'll agree: This is the perfect time for you to get in on the ground floor!

This service isn't for everybody

But remember: This service isn't for everybody. After all, we are recommending many companies you have never heard of. You must have the will power to get into stocks before the average Joe Schmo investor. You must be comfortable using little-known stocks to your advantage.

And you must not mind making money in foreign companies. After all, the goal of *Emerging Market Investor* is to bring the ground-floor opportunities of global investment to your email.

You see, when your profits start rolling in - like the 47.54% winner Alex called on CTT in four days - you may find

www.getwsodo.com
www.getwsodo.com

yourself feeling a bit guilty. You'll feel you have an unfair advantage. You'll tell your friends at the office, or at the grocery store, about some Australian stock that turned into a triple-digit winner - a real Barnburner - and they won't know what you're talking about.

A time-sensitive opportunity

You are invited to join us... if you feel this service is for you... and if you can answer 'yes' to a few simple questions.

Remember, we want you to be comfortable with the service and we want to be sure that every new member who joins *Emerging Market Investor* is qualified to benefit from it.

Again, this is a very specialized financial service - one that seeks to get out ahead of the Wall Street herd and exploit Barnburner companies for full profit.

What's finding out about these incredible opportunities - and having the opportunity to profit from them - worth to you?

Understand that this research is powerful, these exclusive companies can't be found in the Wall Street Journal or Barrons or any other traditional media source. Alex puts his rump in airplane seats and travels around the globe.

Every month I pay $2,759 to keep his computer systems running. Time, resources and research to make it work do not come cheap.

A service that could routinely double your money in just a few weeks... even days. A $5,000 investment in Encore Technologies, at the right time, would have ballooned to over $14,250. How much would you have been willing to pay for that recommendation alone? Logic would tell you that anything less than $9,250 would be a bargain.

But a membership to *Emerging Market Investor* doesn't cost $9,250. It's not $5,000 either, although, in my opinion it's worth every penny of those amounts combined.

To become a member today - all new members will pay only $1250.

That's a great value, considering that, had you invested just $5,000 in the recommendations I've mentioned in this letter your gains could have exceeded $100,000. That's enough to pay for your subscription 100 times over.

But I don't want to force this arithmetic on you. Either you get it or you don't. There is already so much demand for *Emerging Market Investor* - - that this offer will max out very quickly.

So, we don't want you to join us unless you understand and are serious about this very substantial opportunity.

Be on top of every trade

Let me show you how *Emerging Market Investor* works. The instant an opportunity arises, we'll alert you by email. This is the only way we can deliver this type of service. Because once we discover a potential Barnburner it is absolutely critical you act quickly.

As I've shown you how these companies get 'discovered' - and when they do, they move quickly.

The same situation occurs when it's time to sell. When the stock has run its course - we want you to bank maximum profits. Don't get greedy. We don't have to sell at the very top and squeeze every last dollar out of a play.

www.getwsodo.com
Remember, we'll be watching the stock closely. And when we see evidence of the stock topping out, we want you out. And we'll tell you exactly when to sell and at what price.

Now again, this service isn't for everyone. You must enjoy the thrilling, fast-paced excitement of jumping on a 'marked stock' and riding it for serious profits...

You must show the discipline of a shrewd and successful trader by getting in when we say and getting out when we say. Everything will be clear in the alerts you receive. No guesswork is required on your part. Buy when we say buy... **buy**! And for heaven's sake, **sell when we say sell.**

That said, I have a feeling that Alex Chinn's *Emerging Market Investor* is for you. The fact that you're even reading this right now tells me that you understand how to get in on the ground floor and make massive gains in the fast-moving world of stock profits.

So here's what I propose...

Decide today if you want in on *Emerging Market Investor*. We are accepting new subscribers on a first-come, first-serve basis.

Please don't subscribe if you don't think you can benefit from Emerging Market Investor. Then follow the service for a few months. If you decide at that time that Emerging Market Investor is not for you, we'll be happy to surrender your spot to someone else - and give you a refund for any remaining months on your subscription.

But I don't think that will happen. What will happen, I believe - is that once you get a first-hand look at this very private and very profitable trading system, once you see the recommendations first hand - you will be delighted with the results and you will congratulate yourself over and over again for making the smart decision when the opportunity presented itself.

There is no better time to profit. Sometime soon all of the opportunities listed above will be over. The big-time Wall Street money will get involved and these stocks will rocket to overpriced valuations. The money will have been made. Those who got in early will have made it.

Make a modest, intelligent investment on your future. Join *Emerging Market Investor* today.

Sincerely,

Christian DeHaemer

Founder of the Red Zone Network

P.S. Alex just found t**his $3 stock that imports the *Smart Car* to the US. It got $37 million in orders the first weekend!** This company currently trades for $3 a share. They have a business importing Mercedes-built Smart Cars to the US of A. If you've been to Europe you know the Smart Car is a futuristic-looking, urban car that gets 70 miles to the gallon. Kids and ex-hippies alike love the thing. But you couldn't buy the Smart Car in the US until now...

www.getwsodo.com

Recently, this $3 company set up a tiny, drab booth at the National Automotive Dealers Association show to promote the Smart Car and, over the course of the show, received $37 million in orders!

The company converts the European Smart Car to fit US legal specifications. The total number of orders received is climbing dramatically. And this company is working furiously to convert cars quickly enough to meet the unexpected demand.

Over 9,000 customers have signed up on the waiting list. The company envisions being able to deliver around 250 cars per week. The company auctioned their first converted Smart Cars on eBay... and the top bids reached over $30,000.00.

P.P.S. Almost forgot to tell you about this $1 Italian company that will build President Bush's next helicopter. An Italian aerospace giant has solidified its reputation as one of the premier producers of anything that hovers or flies - and it trades for less than $1 per share. This is Italy's largest technology company. It has projects and products in every field of aerospace, as well as several that are ground based.

The company recently made headlines **when it was awarded a $1 billion contract** from the Italian Space Agency to build four satellites, which would be used for both civil and defense goals.

$1 company to build Marine I

Even more recently the company was chosen to build Marine I - President Bush's personal helicopter. The thing is, Marine I is really a fleet of 23 - a value of over $2 billion. In addition this $1 company is also in the running for the 400-plus no-combat helicopter orders due this year from the Air Force, Navy, Coast Guard and Department of Homeland Security.

Alex is already up 7% in this stock - Government contracts usually come out in April. Volume is picking up. If and when, it gets these new orders, this stock will fly.

The Secret to Getting out of Debt... *Fast!*

by Jennifer Bentley, Special Features Writer
(Incline Village, NV) Have you ever dreamed what it would feel like to be completely debt free? Can you picture your credit cards, school loan, automobile (or mortgage) 100% paid off? Believe it or not, according to a recent CNBC segment, about 24% of Americans are now debt free. But for most of us, we can't imagine the thought of having zero debt.

Wisdom for Wealth

When the Forbes 400 (the 400 wealthiest people in America) were surveyed, 75 percent said "*the best way to build wealth is to get out of debt and stay out of debt.*"

Since the beginning of time wealthy people have always known *certain things* poor people don't or (in many cases) wouldn't take the time time find out. Sometimes *what* you know is more important than who you know.

As children we were always told "money won't buy happiness." But research has proven it does eliminate stress... a lot of stress.

In fact, a Harvard University study, which has been going on since 1937, shows wealthy people not only live longer, but are generally more *happy* in their lives. Not a surprise, but there's another study...

Less Debt = Better Sex

A *Health and Family Life Survey*, conducted at Newcastle University studied 5,000 people. 1,534 of them were women (with husbands or boyfriends). Turns out one of the biggest factors affecting whether or not these women had an orgasm: the income of their partners. "*Women's orgasm frequency increases with the income of their partner*" said Dr. Thomas Pollet, Phd of the Newcastle University study.

Furthermore, this held true even when other factors like age, education, length of relationship, health and happiness were taken into consideration. Hard to believe? Other studies from Germany and the United States have turned up similar findings, according to media sources like *The Daily Mail.*

According to many biologists, this controversial take on the link between sex and money makes sense from an *adaptive* perspective; because women have to take such a risk when carrying a child, they're inclined to select a man who will be best able to *provide* for them. And the fact is, less debt equals less stress; which equals better sex. Not "rocket science" to most of us. But there's more...

Like Being 19 Again

Everyone knows life would be easier (and more fun) being debt free. It would be like being 19 again. Can you imagine? But how do you get out of debt without winning the lottery or living in a van down by the river?

This is the question I asked Jake Tyler, the author of a new consumer guide called "*The Secret to Getting out of Debt Fast*" Jake knows first hand what it's like to be stressed with debt. At one point he couldn't go more than 24hrs without worrying about his debt. Later he developed sleeping problems because of it (insomnia).

A Slave to His Debt

Jake admits the stress used to clench his stomach so bad he had to have a few drinks before meals just to get his appetite back. This went on for years. Then, one day, he realized three things which changed his life forever: 1.) The banks are the "new" slave owners. 2.) He had become a slave without even knowing it. And, 3.) He needed to get out fast.

That was nearly 20 years ago. Today Jake doesn't owe a dime to anyone. No credit cards... no student loans... no auto loans... not even a mortgage. "*The difference between being debt-free and being in debt is like the difference between heaven and hell*" he says. But that's just part of the story.

Over 200 Hours

This is why Jake spent over 200 hours creating his new consumer guide "*The Secret to Getting out of Debt Fast*" It reveals the truth about how to get out of debt fast (using nothing but the money you currently earn).

Reading through the guide, I was shocked and angered by what I discovered. For example: we all see ads for Credit Counseling Companies. But did you know they receive over 66% of their funding from the banking industry? And, studies have shown about 80% of consumers who sign up for their programs never complete them.

Even more disturbing, the programs are set up in a way so the *longer* you remain in debt, the more money the Credit Counseling Companies make. But here's the good news; Jake shares a variety of strategies you can use to get out of debt... *fast.* For example:

Cut Your Payments by up to 50%

If you're struggling with credit card debt, there's a strategy you can use to cut your payments by up to 50%. There's also a way you can pay off your balances up to 985% faster using nothing but the minimum monthly payment. I never would've believed it until the details were explained to me in the guide. Even if you hate to read, when you receive "*The Secret to Getting out of Debt Fast*" you'll find yourself eating it up like a bookworm on steroids. Here's a few reasons why...

Unadvertised Programs

It turns out, many banks have *unadvertised* programs in place where you can get your interest rates reduced to as little as 0% interest. Yes, I said 0%. This in turn cuts your payments and can allow you to get out of debt over 550% faster. But that's not all. Are you struggling with Student Loans? Almost no one knows there are 12 different ways to get your student loan cancelled by the government. Again, these programs are *unadvertised* so don't expect to receive a notice about them with your monthly billing statement.

More Secrets than a "Congressional" Call Girl

When was the last time you read something so good you couldn't put it down? It had been a while for me too, until I received "*The Secret to Getting out of Debt Fast*" This little guide holds more secrets than a congressional call girl. Here's what else you'll discover when you receive it:

☑ Two dirty secrets banks **don't** want you to know about debt consolidation.
☑ What a bankruptcy Attorney will **never** tell you about bankruptcy.
☑ The secret strategy to paying off a $10,000 credit card in 40 months using nothing but the **minimum** monthly payment.
☑ How to sell your credit card reward miles for **twice** the cash value the bank will give you for them.
☑ Three **secrets** debt settlement companies don't want you to know.
☑ How to use the **IRS Tax Code** to get out of debt even faster.
☑ Why most "get out of debt" plans **fail** and what to do about it.
☑ The insider secret banking professionals use to get out of debt up to **985**% faster.
☑ The secret **benefit** hidden within your debt which can make you wealthy.
☑ *And much,* ***much*** *more.*

Research has shown money problems are at the root of more marriage problems than anything else. We've all seen the horrible burden debt creates in our lives, our spouses and even our children. If you're ready to start a new chapter in your life by eliminating debt once and for all, then "*The Secret to Getting out of Debt Fast*" will change your life... the same day you read it. Secret "$50 Marijuana Stock Blueprint"...

... Turn a Single $50 Bill Into a **Massive Fortune**

"Now is the right time to **bet big on marijuana**...
[as] the industry is poised to be *gigantic*."
—CNBC

Dear Reader,

Today, I'm going to show you how to use America's budding Marijuana market to potentially amass a quick fortune…

Starting with just two simple things:

#1: A little $50 bill.

#2: The fact that a record-breaking 8 states just approved legalized weed and medicinal marijuana (like California, Maine, Massachusetts, and Florida).

And all you have to do is copy this “secret weed stock blueprint” and you could retire incredibly wealthy in less than a year.

www.getwsodb.com

Sound impossible? It’s not!

To make it work…

> You do NOT need to know anything about marijuana (in fact, the less you know, the better… since you won’t be biased)...
>
> You do NOT need to know anything about investing...
>
> You do NOT need a lot of money (only $50 to start)...
>
> And you do NOT need a lot of free time.

But, you DO need to know how to get rich (including what pot stocks to buy, when to buy them, and how much to pay for them)…

This is where I can help.

But if you’d rather watch your dreams about becoming a millionaire dissolve before your eyes like a puff of smoke…

Then stop reading right now.

Still with me? Great!

Let me explain how easy it is…

What you’re about to see is a little-known stock market investing secret.

Don’t worry if you’ve never bought a stock before. It’s as easy as checking your email (or making a quick phone call). Anyone can do it…

But here’s the catch…

This will only work if you’re willing to stake a claim in the marijuana industry…

And it will only work if you take action BEFORE July 1st

...while the majority of marijuana related stocks still trade for “pennies” a share.

www.getwsodo.com

Once the July 1st date passes, when Nevada’s first marijuana shops could begin opening and the West Coast officially becomes America’s legal marijuana mecca, today’s marijuana penny stocks could easily turn into big, expensive stocks like Wal-Mart or Coca-Cola…

Then it will be too late to make any money.

See, the “Secret $50 Marijuana Stock Blueprint” doesn’t work with big stocks.

It only works when these pot stocks trade for “pennies.”

Why Penny Pot Stocks?

There are thousands of penny stocks across all sectors of the markets…

Technology, commodities, health, agriculture, energy… you name it.

And what makes penny stocks different from other “brand-name” stocks is that they’re little-known and cheap.

Extremely cheap!

And right now, in the marijuana industry, there are literally dozens and dozens of cheap, penny stocks.

> Like Cannabis Science Inc, (CBIS) *which trades for 8 cents per share…*
>
> Medical Marijuana Inc. (MJNA), which trades for 12 cents per share…
>
> Hemp Inc. (HEMP), which you can buy right now for just 3 cents per share…
>
> *And many, many others*

I could go on and on and on...

But here's what you need to know right now…

www.getwsodo.com

***** These pot stocks won't stay cheap for long.**

See, because these penny pot stocks can go for as little as a few cents to a few dollars...

That means even first time investors can afford to do this.

The best part?

Penny pot stocks have a proven history of handing out truly explosive gains.

In fact, more often than not, they're the most profitable stocks on Wall Street.

It's easy to understand why, when you think about it.

With a big "blue chip" stock, it can take years… even decades for a $50 share to double… and turn into $100.

But with a penny stock, a 25-cent share can become a 50-cent share… or even a $2 share overnight.

In fact, it happens all the time.

Just look at this snapshot I took from today's biggest percentage gains in the markets:

Biggest Percentage Gains in the Markets

Alchemy Creative, Inc.	19900.0%	Rainbow Coral Corp.	9542.9%
Oak River Technologies LLC	9900.0%	China GengSheng Minerals, Inc.	7900.0%
Garb Oil & Power Corp.	9900.0%	Cybergy Holdings Inc.	1566.7%
Electric Car Company, Inc.	9900.0%	Iron South Mining Corp.	1076.0%

As you can see, there were eight different penny stocks that rocketed up over 1,000% in just the past 24 hours.

Eight different chances to change your life…

www.getwsodo.com

Eight different chances to grow rich…

In just a single day!

Now compare that to the biggest gainers from much bigger stocks.

Stock Market's Biggest Gainers

VirnetX Holding Corp	34.79%	Dynavax Technologies Corporation	19.26%
Five Star Quality Care	31.41%	Payment Data Systems, Inc.	19.79%
ITUS Corporation	20.83%	NUTANIX, INC.	16.22%
Nova Lifestyle, Inc.	24.50%	Altisource Asset Management	17.99%
Winnebago Industries, Inc.	24.02%	Concordia International Crop.	15.62%

The biggest gains for the larger, "blue chip" companies was 34.79%.

The biggest percentage gain from penny stocks was an incredible 19,900%.

It's not even close.

And that was just from today's data.

It's the same scenario day after day.

Here's the bottom line:

> ***** Penny stocks are the last legal way for the little guy to grow rich… starting with just a few dollars in your pocket.**

Now, as good as that is…

There IS one problem…

It can be difficult to pinpoint the *exact moment* to invest in penny stocks.

But that's what makes today's situation with the marijuana markets so exciting!

www.getwsodo.com

It's all happening right now!

Back in November, A record-breaking eight States passed new marijuana legalization.

States like Arkansas, Massachusetts, Maine, Nevada and of course, California – the most populated state in the country – just changed the future of legalized marijuana.

And Canada has announced the entire country will legalize marijuana around this time next year.

hey would be the first major nation to fully legalize the plant!

I can tell you with 100% conviction that it's just a matter of time before the same exact thing happens here in the United States.

Already, these penny pot stocks have started an incredible run.

Some have doubled and even tripled in price.

If history is any guide, this is just the beginning.

How can I be so sure?

Well, just look at what happened back in 2014…

When an almost identical situation took place.

Dozens and dozens of marijuana penny stocks simply exploded like gangbusters after Colorado passed similar legislation.

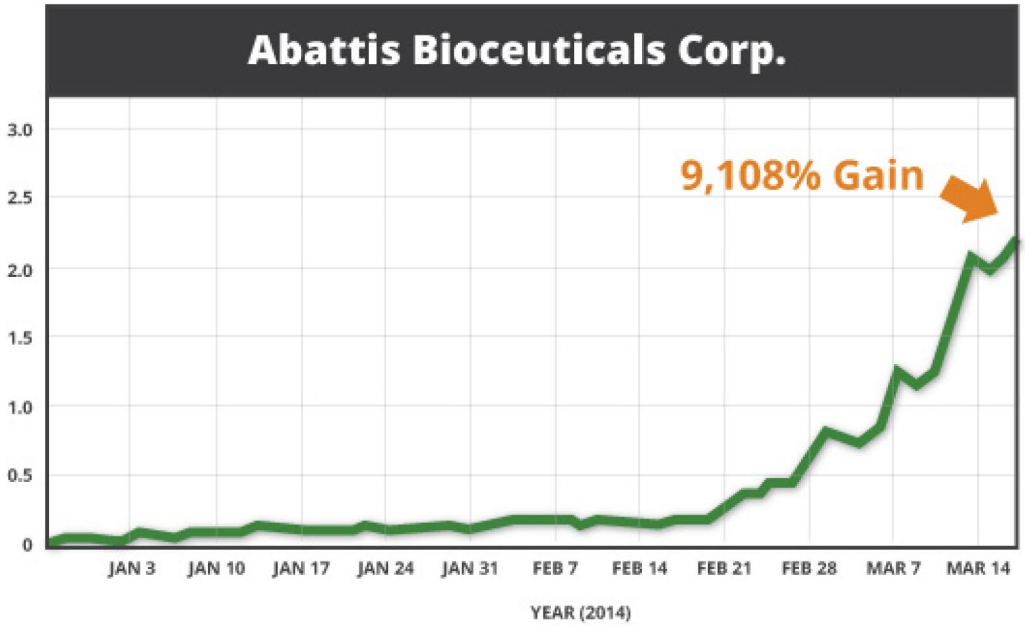

9,108% Gains in Just Three Months with a Tiny Marijuana Penny Stock

Now, you've probably *never* heard of a company called Abattis Bioceuticals Corp…

Back before January 1, 2014, practically no one had.

www.getwsodo.com

They were an obscure marijuana biotech stock - trading for just 2.5 cents per share…

But immediately following full legalization in Colorado, share prices took off.

*** Within the first week, ***prices more than doubled…***

*** Within the first month… ***they were up over 379%.***

*** Within two months — ***by the end of February — share prices had surged 1,358%.***

*** And by the tail end of March — not even a full 3 months later — ***share prices got higher than Cheech and Chong at Woodstock...***

And… topped at a massive gain of 9,108%.

By comparison, it took Apple (one of the greatest stock success stories of the 21st Century) over 15 YEARS to produce those kinds of returns…

But Abattis Bioceuticals was able to do it in less than three months…

That's the power of penny stocks.

And here's the thing…

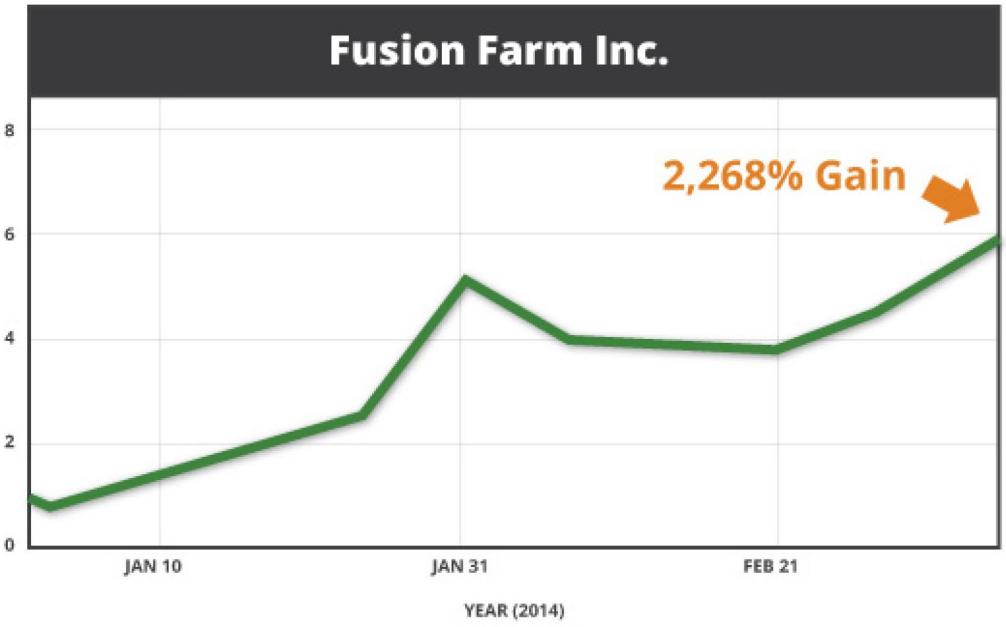

www.getwsodo.com

This didn't happen just once or twice… or even three times…

There were literally dozens more opportunities just like Abattis Bioceuticals…

Take Fusion Pharm, Inc., for example…

Again, this company was completely off most people's radar… they were trading for just over 38 cents per share on January 1st, 2014.

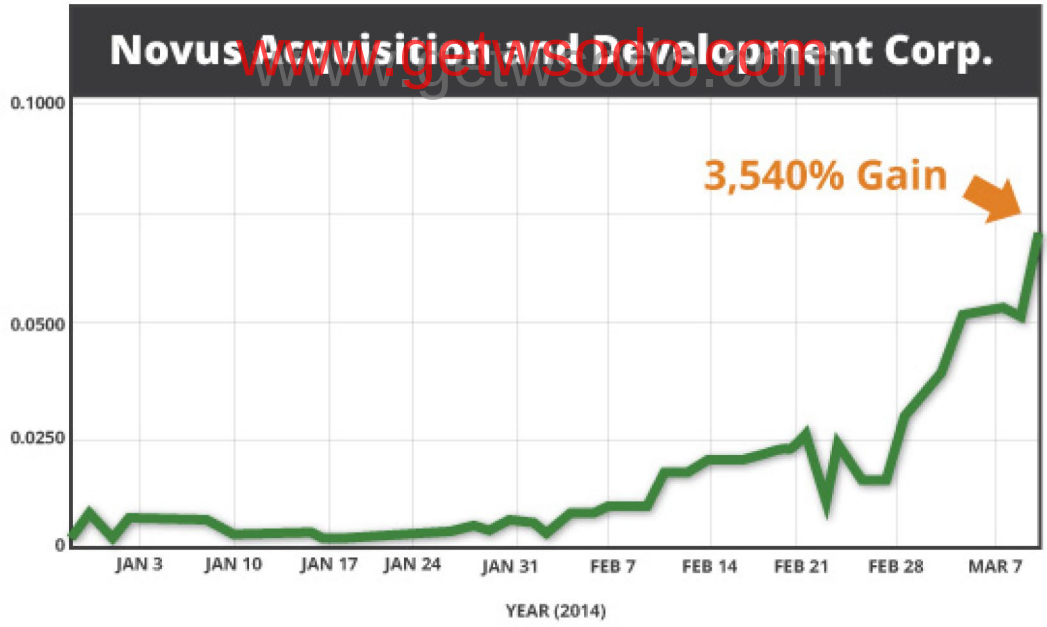

But immediately following Colorado's historic shift in marijuana legalization, share prices exploded.

Within one month, the stock hit a gain of 1,678%.

But it wasn't done…

By March 11th, just over two months later, it hit a total gain of 2,268%.

Or take a company called Novus Acquisition and Development Corp… their stock price exploded for a 3,540% gain from early January through late March…

There were dozens…

- ✓ LXRP jumped 1,120%
- ✓ EAPH jumped 4,631%
- ✓ ERBB jumped 3,327%
- ✓ CBGI jumped 5,100%

So let me put that into perspective for you…

Just a single $1 bill invested in CBGI before its move…

Turned into $51.

Not bad, right?

But a $5 bill would have turned into $255…

A $50 bill into $2,550…

And $500 would have turned into more than $25,000.

That's just with one penny pot play!

A single move would have made you rich.

Again, these rare lightning-fast gains were incredible.

www.getwsodo.com

Can I promise that you're going to book these whopping gains in as little time? Of course not, no one can promise anything in the investment world.

But the point remains:

Penny stocks are the best ways to get rich in the stock market…

And now that eight more states are on board, as well as Canada, the publicly traded "penny pot stocks" should skyrocket in price.

To make the most money possible, you need to get in BEFORE July 1st…

So how much money can you make by investing just $50 in these penny pot stocks?

And why isn't everyone else doing this?

Allow me to show you…

Why Isn't Everyone Doing This?

If penny stocks are so great, you'd expect everyone to harness their amazing profit building potential and get rich.

Especially for the chance to turn $50 into more than $2.7 million (I'll show you undeniable proof that you could make this much in just a moment!).

But that's not the case at all!

You see, penny stocks are so small, the "*big boys*" on Wall Street can't trade them.

This is because big investment firms can buy up millions of shares at a time…

But if the company they buy into is a penny stock, then share prices fly through the roof with a big order.

This immediately cuts into their potential profits, so a penny stock just isn't a sensible way to play the market, when you're a "*big boy*."

However, they're great for the little guy and first time investors.

www.getwsodb.com

But because the "big boys" ignore them, the mainstream media typically does too.

This is why most people don't know much about penny stocks…

But just because penny stocks aren't mentioned on the news doesn't mean there's anything wrong with them.

The truth is, its better this way…

Like I said, they're PROVEN to have outperformed the bigger stocks…

So let's keep this secret to ourselves.

Now, back to the question of, "How much money can I make investing just $50 with these marijuana penny stocks?"

Well, breathe deep… inhale… pay close attention… and I'll show you…

Real Life Example: "Secret $50 Marijuana Stock Blueprint" Generates $2.7 MILLION

Let me show you just how explosive the upcoming opportunity in marijuana investing can be when you follow the "Secret $50 Weed Stock Blueprint."

Step by step, I'll show you how $50 could have turned into more than $2.7 million.

Yes, this strategy is risky and requires a bit of luck.

I would never recommend it to my readers…

This is simply an "accelerated" example of how potent these marijuana penny stocks really can be.

That said…

These penny stock share price explosions actually happened (and have already begun happening again today).

www.getwsodo.com

So although it's highly improbable you'd be *this* lucky, it's **NOT impossible**. That's important to remember.

All right, here we go…

Weed Stock Blueprint Step #1

$50 Turns Into $1,316 in 10 Months

CV Sciences Inc. (CVSI) is a marijuana therapeutic company based out of Nevada.

If you haven't heard of them before, then you're not alone.

Remember, the best profit opportunities (especially in penny marijuana stocks) are rarely featured on TV or covered by the financial newspapers.

At the start of marijuana's last big run, shares traded for a tiny $1.50.

That's cheap enough for anyone to buy...

And cheap enough for you to load up on dozens of shares with just $50.

But then it got really exciting…

Word of Colorado's new legislation to legalize pot began to spread, and shares rocketed!

By the middle of October 2013, a buying frenzy pushed shares of CV Sciences up to $41.

That's an incredible gain of 2,633% (in just over six months)!

If you bought shares at the very start and held on…

You could have quickly turned a $50 grubstake in CV Sciences into $1,316.

The best part?

Well, truth is there were many other companies like CV Sciences I could have chosen as an example…

www.getwsodo.com

Now…

That's a nice start…

But it's chump change compared to what's next.

Before we move on, though, let's suppose you put your original $50 back into your savings account.

Now you have 0% risk.

As in Z-E-R-O risk.

You're using nothing but "house money," as we say in the investing world.

So you're going to roll that $1,266 of pure profit into the next step.

At this point, you really can't lose!

Weed Stock Blueprint Step #2

Collect $39,879 After 3,150% Mega Gain!

This is an excellent example of how powerful penny marijuana stocks can be when the timing is perfect (like what we can expect to start playing out right now!) …

You could have bought Easton Pharmaceuticals Inc. (EAPH) for less than a penny per share at the start of January 2014…

By February 7 — just over a month later — share prices had risen to 6.5 cents.

Now, Easton Pharmaceuticals didn't develop a new drug...

There was NO news of a "buyout" from a larger drug manufacturer.

Nope.

Just one simple thing pushed those shares higher…

www.getwsodo.com

***** Marijuana legalization had become front-page news. (Again, this is EXACTLY what we are seeing right now!)**

This penny marijuana stock shot higher by an incredible 3,150%.

And had you invested your $1,266 profit from Step #1, the resulting mega-gain would have put a staggering $39,879 right in your pocket!

Not bad for a handful of "mouse clicks" and a few weeks of "*work*."

Compare that with a big stock like Apple.

When they launched the revolutionary iPhone, shares jumped a whopping $21.

That's impressive… for a huge company.

BUT, before the jump…

Apple shares were already changing hands at $122.

So the biggest breakthrough in cellphone technology — heck, it was the biggest breakthrough in ANY technology — and you would have only bagged a measly 17% gain.

Now look at the marijuana stock Easton Pharmaceuticals again… it jumped a mouthwatering 3,150%...

In just over a month!

Now can you see the power of penny stocks?

And when you have the perfect investment scenario — like with these marijuana penny stocks — you'd be hard pressed to find an easier way to get rich quickly.

To summarize…

Your $50 turned into $1,266 in pure profits with Step #1…

And then that $1,266 turned into $39,879 with Step #2...

www.getwsodo.com

But we're still not done.

I promised to show you how to turn $50 into $2.7 million.

And that takes one final step...

Marijuana Stock Blueprint Step #3

More than $2.7 Million in Just Over One Month!

It's hard to imagine that you could have become a multimillionaire simply by making just three moves...

But if you had rolled your profits from Step #1 and Step #2 into a marijuana company called CannaBusiness Group Inc. (CBGI), that's exactly what would have happened.

CannaBusiness Group's primary focus is on zoning issues regarding marijuana growing operations.

And in early 2014, business was good.

In fact, from February 7 to March 14… just over one month's time… share prices soared for a massive gain of 6,833%.

In other words, you'd be a multimillionaire.

Incredible, right?

Just three simple moves…

So easy a fifth grader could have made them...

And all in all…

You'd have just turned a tiny $50 grubstake into more than $2.7 million in around two years' time.

Remember, this explosion in marijuana penny stocks actually happened...

www.getwsodo.com

That's the truth…

Go ahead, look it up for yourself when you're done reading this message today!

Listen, the bottom line is this…

Although it's improbable you'd ever ride a profit wave just like this, ***it's NOT impossible.***

That's why I've given you this example, because I want you to see for yourself the amazing potential of marijuana penny stocks.

Now the clock's ticking…

The next wave of marijuana wealth is taking place right now!

And remember…

The above examples are marijuana stocks that skyrocketed when Colorado legalized marijuana…

That was just one state.

> ***** This time around, eight more states have approved legalized pot laws**
>
> **The entire West Coast has become a recreational pot mecca… and it's spreading to the East Coast.**
>
> **Not only that, but Canada has vowed to become the first major country to legalize on the national level (and we could see the U.S. do the same thing).**

This is huge…

You've already seen the proof of what happened to these small penny pot plays after Colorado legalized weed…

So imagine…

What happens when those gains are multiplied eight times over! Or one hundred times over?!

www.getwsodo.com

The amount of money you could make…

The profits…

Are simply staggering.

Need more proof?

As research firm ALG Financial put it, *"The second revolution in the cannabis market is here... there is hardly anyone on Wall Street who doesn't see the huge potential windfalls that are on their way."*

ArcView — a data and analytical research firm — is touting that we're about to witness the true birth of *"the next great American industry ."*

John Ingold at *The Denver Post* reported that one business mogul in the markets believes the marijuana industry could *"mint multiple billionaires…"*

And *Forbes* contributor Mark Fidelman adds that it *"will make investors extremely wealthy ."*

"An Economic BOOM That Has Never Been Seen Before"

—TV Host, A. Zendehnam

Look, this could be your best chance at pot profits...

Think about what you could do with $2.7 million.

You could look after your family and friends, pay off your mortgage and put your kids through college.

Or perhaps you're looking to do something a bit more extravagant…

Like drink Dom Perignon, eat caviar, drive exotic cars and mingle with high society on million-dollar yachts.

www.getwsodo.com

The point is we are about to witness the birth of a brand-new industry in this country.

An industry that has already proven to be incredibly successful and incredibly lucrative.

This is your chance to get in on the action.

And by utilizing the "$50 Weed Stock Blueprint," you could become incredibly wealthy in less than two years' time.

But remember, you need to take action before July 1st… while these stocks still trade for pennies.

So let me tell you who I am and how I can help you kick-start your new multimillion-dollar lifestyle…

A $100 Billion Industry… Dominated by True Penny Stocks!

My name is Ray Blanco…

I'm the chief technology officer for Agora Financial.

We're one of the largest fully independent market research organizations in the world today.

More people read our information each week, for example, than receive newspapers like *The Washington Post* or the *Los Angeles Times*.

What I do is simple…

I research the best new scientific ideas you can invest in… looking for incredible market catalysts that have the power to reward early investors with triple- and quadruple-digit gains.

And every month, I publish these incredible opportunities for my private readers through my investing research advisory called *Technology Profits*

Confidential…

www.getwsodb.com

Technology Profits Confidential is the only place in the entire world where I recommend tiny stocks that my research indicates could soar 500–1,000% or higher.

Granted, not all of my picks are guaranteed to go this high. My readers have still had the chance to see many impressive triple-digit gains.

And I can tell you — with 100% conviction — that the opportunity for early investors in the legalized marijuana markets is truly unprecedented.

We're talking about an entire industry dominated by small companies.

…dozens and dozens of TRUE penny pot stocks.

Now, I'll be the first to concede that most penny stocks are garbage.

But if you're avoiding ALL penny stocks, well…

You're costing yourself tens of thousands... even millions of dollars!

Penny stocks are infinitely important to the global economic engine.

The world *needs* these small companies.

See, small companies are the foremost breeding ground for innovation.

Heck, some of the biggest companies on Earth originated as tiny penny stocks.

Microsoft. Apple. Budweiser. Cisco.

All once penny stocks…

And now they now add hundreds of billions of dollars to our economy.

They provide jobs to over a million people.

And believe me, tomorrow's leaders in the weed industry are companies that you can purchase today for just pocket change.

I've been carefully watching the marijuana industry develop…

I've been waiting for the exact right time to get in.

www.getwsodo.com

And that time is NOW!

I've already done my research…

And I've already identified a number of penny pot stocks that have the capabilities of producing life-changing gains in the months ahead.

I'll give you my exclusive list in just a second…

But first, let me show you the stringent appraisal system I've developed over the years for accurately predicting which penny stocks will be winners…

And which penny stocks you should avoid like a dime bag of Mexican oregano...

Only the Very Best Stocks Get Past my Filtering System

My appraisal system is modeled after the world-class auction house Sotheby's.

Companies are treated exactly like they're precious artifacts up for auction.

It's the only means to truly keep your portfolio safe.

Every product launch is tracked for widespread consumer appeal.

Every dollar of revenue is cross-referenced for authenticity.

I treat every company no differently than, say... Leonardo da Vinci's Codex Hammer, which Bill Gates recently bought for $30.8 million.

Or a 300-year-old Stradivarius violin, which sold for $3.9 million.

Can you imagine sending these priceless assets to auction without verifying their authenticity?

So why should your investments be treated differently?

To date, however, of the more than 4,000 stocks out there…

www.getwsodb.com

Only a few dozen companies have met all five criteria points.

Said a different way, only about one in every 166 stocks that pass through my filtering system will be safe enough to recommend to my readers…

Which speaks to the rigors of my appraisal process.

Here, I don't mind sharing my five-point appraisal checklist with you.

I'll even include a few details about the first five criteria…

REQUIREMENT #1: Must Be Innovative.

It's not enough for companies to solely rely on superior products that compete in existing markets.

They must offer a unique form of innovation… with a true visionary at the helm (like Steve Jobs or Lee Iacocca).

And force the rest of the industry to play "catch-up."

REQUIREMENT #2: Must Defy the Industry Norm.

Companies concerned with conventional wisdom or the standard ways of conducting business need not apply.

And if they're worried about competition?

They need not apply, either.

Only genuine innovators will pass and ultimately trigger a recommendation on my end.

Such companies reject the status quo — almost defiantly — in every instance.

This helps them passionately forge new ideas, innovations and business parameters in which to flourish.

REQUIREMENT #3: Must Offer a BETTER Product… at a CHEAPER Price!

www.getwsodb.com

The companies I recommend exclusively to *Technology Profits Confidential* readers almost always demonstrate an innate ability to deliver a better product than their competitors… and sell that product for much less money.

This is exactly how companies like Wal-Mart, Amazon, Uber and Intel dominated their respective industries.

Would you like a bag of the finest marijuana... for half the price? Would you like a brand-new smartphone… for half the price?

Of course you would… so would I and everyone else in the entire marketplace. This is a principle called Moore's law, and if a company plans to dominate their niche of the markets, this is an absolute "no-brainer."

If a company can't offer a top-quality product, at the lowest price possible, I can't make a buy recommendation in good faith.

Most companies fail miserably here.

REQUIREMENT #4: Must Have Strong Financial Backing.

The amount of money a company was able to attract from private investors, pre-IPO, is infinitely important. The more money, the better.

Tons of financial backing from private investors is a surefire signal that the company is doing something extraordinary.

Think about it. Would venture capitalists put their faith (and capital) behind a mediocre idea? Never.

REQUIREMENT #5: Must Have an Urgent Catalyst.

A coming event or announcement can send a tiny stock through the roof.

Especially ones trading for pennies a share.

Imagine owning a tiny pharmaceutical ahead of FDA drug approval.

www.getwsodo.com

Or a little software company before a major takeover.

Overnight gains on such news can far exceed a simple price double.

And that's why the opportunity in the marijuana industry is so compelling...

The ultimate catalyst is brewing right now…

And I fully expect many of these stocks to soar once legalization is implemented in these new states… and once "pot shops" begin opening their doors in states like Nevada, California and Massachusetts… as well as entire countries like Canada, Jamaica and Israel (not to mention the entire U.S.).

Get in RIGHT NOW!

Remember this — to make the most money possible, it's crucial to invest NOW… before the first of these tiny little penny stocks begin announcing first-quarter earnings.

Already, in just the past few months, more than two dozen marijuana penny stocks have seen their share prices surge by up to 20%, 50% even 100%.

Stocks like:

www.getwsodo.com

Tauriga Sciences Inc. (TAUG)	32% gains
TerraTech Corp. (TRTC)	61% gains
Growlife Inc. (PHOT)	27% gains
United Cannabis Corp. (CNAB	107% gains
Cannabis Science Inc. (CBIS)	37% gains
General Cannabis Corp. (CANN)	27% gains
GreenGro Technologies (GRNH)	26% gains
Mentor Capital Inc. (MNTR)	101% gains
Mountain High Acquisition Corp. (MYHI)	71% gains
Northsight Capital Inc. (NCAP)	37% gains
Cannagrow Holdings (CGRW)	44% gains
Omnicanna Health Solutions Inc. (ENDO)	112% gains
CV Sciences Inc. (CANV)	61% gains

And many, many more…

But make no mistake, this is just the beginning.

Every stock I've just mentioned still trades for PENNIES A SHARE.

If you take action right now, you can easily turn a tiny grubstake of $50 into an absolute windfall fortune.

Remember, it's happened before.

Why not have it happen to you?

Now here's the thing…

DO NOT Rush to Buy Every Penny Pot Play Out There...

www.getwsodo.com

Sure, you could go and buy every single company I just listed…

And you'd probably do better than the overall market.

But when it comes to growing rich in the markets, specific stock selection is KEY!

So here's the deal…

I told you before that there are over 4,000 companies that trade on the stock market…

Exactly 350 of them are pot plays…

And I've run every single one of those 350 companies through my five-part filtering system…

And based on my stringent five-part assessment of the companies in the marijuana industry, I've pinpointed exactly four penny pot stocks…

That can eventually make you a millionaire.

Said a different way…

I've boiled down 4,000 plays…

Into 350 plays…

Then down to just four plays that are the very, very best ones that could make you money.

In other words, I've done all the research…

I've done all the grunt work…

And I've created a list of the top marijuana stocks you need to own right now.

I'll show you how to buy them…

When to buy them…

www.getwsodo.com

And what price to pay for them.

Everything has been made as easy as possible for you to maximize the profit potential.

And because these stocks are so small and unpredictable, I'll often recommend a buy-up-to price, so my readers know not to chase these plays.

And let me tell you, the profits from this situation will be "off the hinges."

To my knowledge, there's no list of companies like this anywhere in the world.

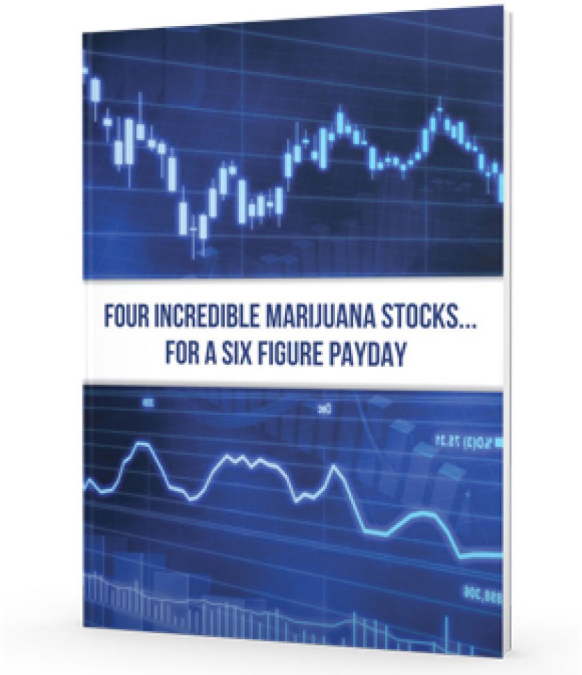

You can't buy a copy of this list, even if you tried to.

Instead…

I've made the entire list available for immediate download, absolutely free of charge.

And I've gone one step further...

I've detailed each stock recommendation in a special report I'm calling ***Four Incredible Marijuana Stocks… for a Six-Figure Payday.***

When you download your copy, I want you to immediately flip open to Page 2, where you'll find…

- ✓ My complete breakdown of a penny pot company that is currently working on a multibillion-dollar medical breakthrough…

Now, I'm sure you've heard of pain drugs like OxyContin, hydrocodone and Percocet.

Chances are good you've even been prescribed these drugs by your doctor following a major (and even minor) surgery.

www.getwsodo.com

In 2012 alone, 259 million prescriptions for painkillers were filled. That is more than enough for every adult in the United States to take them for at least a month.

And those numbers have built incredible wealth for the companies manufacturing these drugs.

The Sackler family, which owned and controlled Purdue Pharma, became one of the richest families in America after introducing OxyContin in 1996.

Net sales of OxyContin alone average around $3.1 billion per year. And Endo Pharmaceuticals — the company that makes the painkiller Percocet — generate profits of about $122 million per year.

In other words, these types of drugs can be VERY profitable.

Of course, today's painkillers are derived from drugs like opium… and morphine.

Which make them very dangerous, too.

According to the Centers for Disease Control, the United States is in the midst of an opioid overdose epidemic.

The truth is opioids killed more than 28,000 people in 2014, more than any year on record.

You see, serious pain drugs are a horrible trade-off — a deal with the devil, if you will.

You take the drug and your unbearable pain goes away… but you may end up addicted (just ask Rush Limbaugh or Brett Favre), homeless or even dead from an overdose.

And that's exactly why this tiny, publicly traded marijuana biotech firm is so exciting.

You see, they've already developed the "next generation" painkiller medication.

I'm talking about a medication that could be just as effective as opioid-based pain drugs… but without all of the nasty side effects.

www.getwsodb.com

A pain medication that you aren't likely to become addicted to… and a pain medication that is much, much safer.

Not only that… but this next-generation painkiller has already cleared Phase 1 and Phase 2 testing with the FDA.

And as you can imagine, in the case of prescription medicines, it's the first company to market that will hit the largest jackpot.

As I've shown you, this is a market that's worth billions and billions of dollars… and this microcap company could easily dominate the entire market.

And it gets even better…

Because this same company has three other drugs in the pipeline… which are being tested as we speak.

You see, what this company has discovered — through new research — is something called the endogenous system… which is directly linked to a number of physiological processes including pain and inflammation. And a special chemical found in marijuana can regulate the effects of acute and chronic pain.

In fact, according to Roger Pertwee, a pharmacologist at the University of Aberdeen in Scotland, we're talking about "a potential wonder drug."

I fully expect shares of this penny pot company to start to skyrocket by 500% or more following the as marijuana moves into the mainstream.

And I'll tell you everything you need to know in my comprehensive report.

But there's more… much, much more.

You'll also find:

- ✓ The complete details of a company that was recently voted one of the fastest-growing companies in

America…

www.getwsodo.com

They're based in California, and they've quickly become America's premier supplier of packaging, accessories and branding solutions for the legal cannabis industry.

In just the past year, share prices have climbed as high as 212%... but now that California has voted in favor of legalized recreational marijuana… this is just the beginning.

This company is still in the infancy stage of growth. I wouldn't be shocked to see share prices surge by 500% or more beginning July 1st.

✓ There is another tiny, marijuana biotech firm that recently crossed my radar…

Because of the small size of this company… and the unique angle they've taken with medical marijuana, I can't go into much detail right now.

However, I can tell you that they were just awarded a medical marijuana sublicense to a patent from the U.S. government… and they have 20 more marijuana patents currently under review.

This small firm — that currently trades for around $1 per share — could easily become a global leader in marijuana biotech.

And I'm not the only one who thinks so…

Some of the largest investment groups on Wall Street are buying huge swaths of shares.

Because of their unique medical marijuana patent, shares of this tiny biotech firm could jump 1,022% in as little as three months.

And you'll get a firsthand look in my newest report…

✓ You'll also discover the details of a penny pot company that specializes in "indoor marijuana growing."

www.getwsodc.com

You see, as any marijuana aficionado will tell you, growing marijuana indoors offers a number of key benefits. It allows you to closely regulate light, temperature and humidity. It also offers an element of privacy and protection.

As marijuana becomes legalized across the country, the market for indoor growing accessories will explode… and this penny pot company is the industry leader.

This company is the smallest of the four penny pot stocks I'm profiling in my newest report.

In fact, they're one of the smallest stocks I've ever recommended, PERIOD!

This is truly a ground-floor opportunity… the kind that can turn pocket change into an incredible fortune.

All the details…

The company names…

The ticker symbols…

How to buy… when to buy… and what price to pay…

BONUS #1:
Everyone's Hot on Drones Right Now…

You've no doubt heard about drones...

From Amazon's rumored package delivery with drone technology...

To the use of drones to keep our soldiers safe on the battlefield...

Even to your own street — where teenagers can now fly drones over your neighborhood to take pictures.

Bottom line...

The core tech behind drones will certainly also make fortunes for fast movers like you.

I'd be out of my mind if I didn't share the best details with you.

That's why I'll also send you my complete report on what my research shows is hands-down the best drone tech company on the planet.

www.getwsodb.com

I reviewed all the financials and business plans. And I projected what the company's capable of in the future.

This report's called ***Airdropped Profits: On Time and Remote Controlled***.

One interesting thing about drone technology is, though it may have been developed for military uses, the consumer angles to profit from unmanned flight are incredible.

To give you one example, you know how forest fires sometimes get quickly out of control before anyone knows what's going on?

Imagine if park service rangers had access to sturdy, reliable, efficient drones that could scan forests quickly.

The ranger would never have to leave his or her vehicle.

And fires could be spotted more quickly, saving billions per year in damage and loss of property.

That's just one example. Good, safe, reliable drones are going to save lives and make fast-moving investors a mint. You get the full story in your copy of your bonus report, ***Airdropped Profits***.

I'll send you this report for free. Take a risk-free look and see what you think.

And there's more…

BONUS #2:
"Invisible Power" Is Going to Mint Millionaires

“Invisible power” isn’t sci-fi.

www.getwsodo.com

It’s very real…

And it’s also going to prove super lucrative if you know the right move to make.

Here’s the deal...

Famous scientist, engineer and inventor Nikola Tesla pioneered the idea of “invisible power,” but it wasn’t technologically possible during his lifetime.

Now, however, it’s poised to change everything about how we use, transmit and think about power.

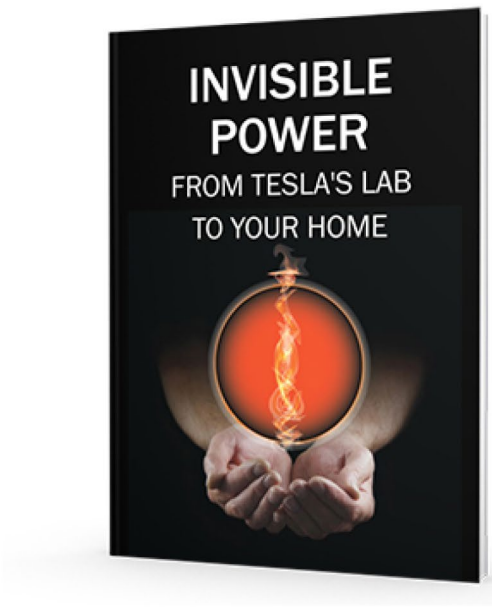

And while I call it “invisible power,” you may know it as “wireless charging…”

Already all the big tech names are racing to make their electronics charge wirelessly…

Apple, Sony, Samsung…

They’re all in.

The fastest movers on “invisible power” will get seriously rich, and my report shows you all the details and gives you complete instructions for what to do if you want to jump in.

That’s why I’d also like you to have (for free, of course) my report called ***Invisible Power: From Tesla’s Lab to Your Home***.

There’s 100% absolutely no bones about it…

If you want to get rich from budding technology, you must simply have your copy of ***Invisible Power: From Tesla’s Lab to Your Home***.

BONUS #3:
Maybe You've Heard All the Hullabaloo Lately About "Virtual Reality"

It goes without saying, you've never experienced anything quite like it.

In a digital world as real as day, you're surrounded by a Cretaceous forest — face to face with a Tyrannosaurus rex — and an instant later, standing on an Everest peak.

Time magazine, the *Financial Times*, *Fortune*… they've all written and raved about the possibilities once we can interact inside of virtual worlds.

Samsung and Facebook have already invested billions.

Google's already made a big move into this technology.

Even NASA's lining up to gain an advantage.

What's got me and my readers excited, though, is the 81,000% growth we could see in the market for virtual reality products and technology.

This could be a $30 billion-a-year business inside of four years from today.

And we don't intend to miss it.

I've helped my ***Technology Profits Confidential*** readers nail down THREE companies that could absolutely soar as the virtual reality boom unfolds, including…

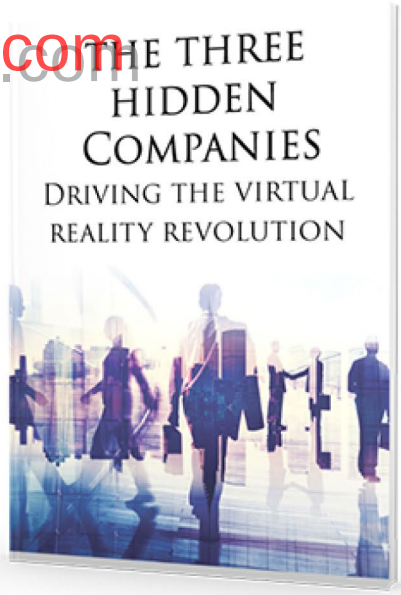

The company that's responsible for building the powerful visual "guts" of the now-famous and highly sought-after Oculus virtual reality device from Facebook.

A second company with cutting-edge motion sensor technology, designed to make every virtual world experience as smooth and lifelike as reality.

Our third power pick for VR, the California maker of hidden "stacked circuits" that have become a go-to technology for use inside top-line virtual reality headsets.

www.getwsodo.com

Any one of these could deliver staggering tech wealth to early investors. All three together could literally change your financial prospects for life.

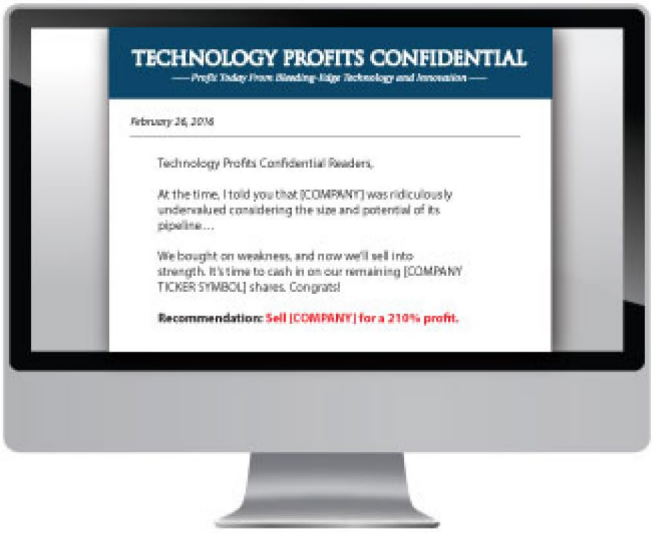

You can read all about them in this next gift report I want to send, called ***The Three Hidden Companies Driving the Virtual Reality Revolution***.

Here's something else you'll find exciting…

Bonus #4:

Outlawed for 41 years, now legal again

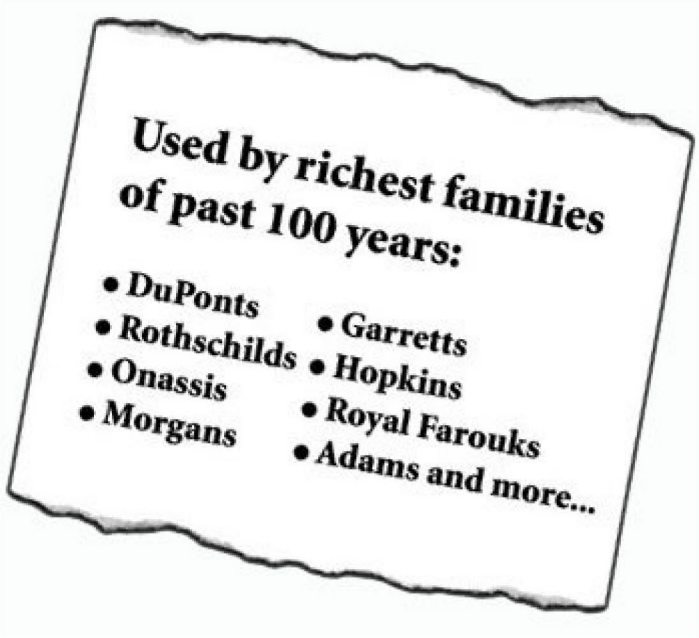

This investment launched the largest family fortune the world has ever seen... and could return 665% in the next 12 months

Dear Reader,

One investment -- which most Americans know almost nothing about -- is the secret behind some of the world's richest families.

I'm going to show you how to take advantage of it personally... and very soon... with amazing results.

We call this investment the "Secret Currency" because it is beyond the reach of any government or corporation.

It is particularly lucrative when (like right now) stocks, bonds, and even real estate are very, very risky.

That's why many of the world's wealthiest families have used this "secret currency" for generations to grow dynasties.

Let me show you just one example...

A man named Mayer Amschel Rothschild used his knowledge of this investment to launch the largest family fortune the world has ever seen.

Mayer was born in Germany in the middle of the 18th century, and was raised in Frankfurt's ghetto, where the average house held 15 people.

> When the boy was 11, a smallpox epidemic swept through the city. It killed both his parents.
>
> This tragedy set up young Mayer to learn the **greatest secret of his life**.

www.getwsodb.com

He was sent to nearby Hanover for a banking apprenticeship. There, he entered the homes of Germany's wealthy and powerful men: Princes, Grand Dukes, and Archbishops.

And, listening carefully, he learned about the secret money of the very rich -- the currency of the world's controlling elite.

When Rothschild grew up and returned to Frankfurt, the area's wealthiest families (including the **Duke of Weimer** and **Prince William of Hesse-Kassel**) hired him for his rare financial expertise.

In return, Rothschild helped the wealthy grow their fortunes, and thanks to his knowledge, became the most powerful man in the city.

Rothschild married and had ten children -- five sons and five daughters. In time, the sons were sent to Europe's major financial centers (London, Paris, Vienna, Frankfurt and Naples) to open banking businesses similar to their father's. Their network and knowledge of the secret currency helped.

In a matter of years, the Rothschilds became the wealthiest family in the world...

In fact, even today's biggest international banking conglomerates are not as powerful as the Rothschild's were in their heyday (the 1800s and early 1900s).

And no family today (not even **Bill Gates** or the **Saudi Royals**) owns as large a share of the world's wealth as the Rothschild boys owned back then:

> Over the years, the Rothschild family built eight of Europe's grandest estates. Mayer's son James, for example, built a French mansion big enough to house dozens of guests, 100 servants, and stables for 80 horses.

The walls were covered with paintings by the Old Masters: Van Eyck, Rubens, Velazquez, and Rembrandt.

The house had marble busts and gold-plated ceilings... even an underground railway that sent hot food from the separately-housed kitchen to the dining room.

The Rothschilds could buy anything they wanted:

- They hired the best musicians in the world (such as Chopin, Liszt, and Paganni) to play at their parties.
- They hired Europe's best chefs to cook in their kitchens.
- When one of the Rothschild boys found a favorite Bordeaux wine, he didn't stock up on several cases. Instead, he bought the whole Chateau Lafite vineyard.

www.getwsodp.com

- The family built hospitals, orphanages and schools. They financed giant projects of the day, like Austria's first railroad and the Crimean War. They even bought shares of the Suez Canal for Britain.

  And it all started with a Secret Currency -- **a form of money prized for its safety, anonymity, and profit potential.**

It's the exact same investment I'm going to show you how to capitalize on in the following pages.

Like gold ... only better

Without giving away the secret, I can tell you the secret currency is -- as you might suspect -- a form of gold.

But it's not your typical gold investment.

It has nothing to do with mining stocks, mutual funds, options, futures, or bullion.

Instead, this is a kind of currency used for centuries by the richest families to profit on financial windfalls created by governments around the world.

This secret currency is not old-fashioned or obsolete.

In fact, look through the rolls of the "Forbes 400" -- the 400 richest Americans -- and you find dozens of families using this investment to both grow and safeguard their wealth. For example, *The New York Times* reported recently that one of the current owners of the Boston Red Sox baseball team used the exact same Secret Currency investment I'm going to tell you about, to amass a fortune worth more than $15 million.

2 people who got rich with the Secret Currency

#1. How to build a $200 Million Empire

Even before Bruce McNall began graduate studies in ancient history at the University of California at Los Angeles, he and a friend were earning up to $300,000 a year by investing in the secret currency in their spare time, according to *Time* magazine.

McNall built a $200 million empire, including a $50 million business, a 150 thoroughbred racing stable (worth $40 million), and several pro sports teams. McNall got into trouble when these businesses didn't work out as well as the secret currency.

#2. An investment that earned 91,300%

Walter H. Childes grew up in Vermont and was one of the early investors in Bell Telephone, in the late 1800s. In 1945, he made a $5,000 investment in the secret currency of the world's wealthiest people. This single investment, according to *Barron's*, went up 91,300% over the next 54 years.

This investment is like gold, only better -- with the potential for much higher returns.

In fact, look at some of the wealthiest families who capitalized on the Secret Currency after the Rothschilds...

www.getwsodo.com

** The **Garretts** of Baltimore built the first railroad in America. And they also built a $25 million portfolio with the Secret Currency alone, in the early 1900s.

** The **Brand** family made their money brewing beer in Chicago. They put a lot of their profits into this Secret Currency. It grew to a portfolio worth more than $10 million.

** **JP Morgan** used this investment vehicle too. He was one of the richest men in the world in the early 1900s, having helped start the **United States Steel Corporation, International Harvester, AT&T,** and **General Electric**. The Secret Currency was one of his favorite investments.

But you and I almost never got the chance to take advantage of this investment.

Why?

Because when the U.S. government saw how good it was at creating wealth for the country's richest people, President Franklin Roosevelt outlawed it in many of its forms on March 9th, 1933.

Americans who failed to turn over their investments faced a 10 year jail term, a $10,000 fine, plus a penalty of twice their investment's value.

The *New York Times* reported on October 16th, 2005:

Phillip Morse, one of the owners of the Boston Red Sox (who made his fortune developing cardiac catheters) invested a large stake of his earnings into the Secret Currency -- which climbed in value to more than $15 million.

This ban lasted 41 years. Americans were not allowed to invest in the Secret Currency again until December 31st, 1974, when President Ford finally re-legalized it.

Since then, it has been MAKING THE RICH EVEN RICHER ...

- From 1972 to 1974, this investment **rose 348%**, according to an index that keeps track of its market as a whole. At the same time, stocks dropped 34% according to the S&P 500 Stock market index.
- From 1976 to 1980, while the stock market plummeted 35% according to the S&P 500 Index, the investment I want to tell you about realized **1,195% profits**.
- Then, more recently, between 1987 and 1989, investors who took advantage of the secret currency saw **profits of 665%**. Stocks, meanwhile, went on a roller coaster ride -- up and down dozens of times during this period.
- In the past three years, the Secret Currency **gained about 89%**, which is more than twice the return of stocks during the same period. In other words, we are at the beginning of another really big rise for the Secret Currency.

www.getwsodb.com

In fact, the last time the Salomon Brothers brokerage firm included this vehicle in its annual investment survey...

> THE SECRET CURRENCY RANKED #1 OVER THE PRIOR 20 YEAR-SPAN with an annual return of 17.3%. In other words, it was the single most profitable thing you could do with your money.
>
> It beat stocks, bonds, gold, silver, artwork, diamonds, U.S. Treasury bills, real estate, and oil, according to an article in the Chicago Tribune. I can understand why you may believe I'm exaggerating the power of this secret currency to safeguard and grow your wealth.

After all, you may have never heard of the Secret Currency before. Most investors haven't.

But the truth is, you can use the Secret Currency to make as much money as you want. The problem is, no one else is likely to tell you about it.

Why should they?

Today, the world's richest families still keep this Secret Currency at the heart of their financial plan. You'll certainly recognize some of these people who have used it over the years...

> The **ONASSIS** family (Greek shipping magnate Aristotle, married Jackie Kennedy after JFK died)... The **HUNT** family of Texas (H.L. Hunt made his billions as an oil wildcatter)... The **DUPONTS** (whose descendants today run the 2nd biggest chemical company in the United States)... The **MORGANS** (JP was one of the richest railroad men of the last 100 years)...
>
> The **ADAMS** family (famous for producing two U.S. Presidents)... The **HOPKINS** family (Johns gave money to build the university and the world-famous hospital which both bear his name in Baltimore)... The **GREEN** family (Hetty Green was once the wealthiest person in the world - wealthier than Bill Gates today)... The **ROYAL FAROUK** family (which produced the last two Kings of Egypt)

If this investment is good enough for these folks -- the **Rothschilds, DuPonts, Morgans, Adams, Hunts,** etc. -- it's good enough for you and me.

I want to show you how to make as much money as these folks -- at least on a percentage basis. You don't have to be wealthy or famous.

In fact, I'll show you how to capitalize on the Secret Currency very soon with as little as a few hundred dollars. I believe you could double your money in the next six months with this investment. A 5-times or 10 times return wouldn't be surprising.

The last time the conditions were even close to this good (in 1987), investors made **665% profits**. Of course, nothing in the investment world can be guaranteed, but

we believe the Secret Currency is the single best investment in the world right now.

www.getwsodo.com

And we believe now is the perfect time to buy the Secret Currency of the world's wealthiest people. Even though it has started it's move up, it still has a long, long way to go.

In fact, we even went to Switzerland recently, where we met privately with several bankers who are experts on this investment. The Secret Currency is our top recommendation in the world right now, and it could very well be our most profitable recommendation ever.

> This Secret Currency gives you a way to invest in gold -- only it's better than gold.

We have put all of our recent research and recommendations into a Research Report called ***The Secret Currency -- How the World's Wealthiest Families Make Money Even When Stocks, Bonds and Real Estate Lose Value.***

Here you'll find the full details on this investment vehicle: What it is, what kind of return it's had in recent years, whom to call and how to buy it at the best possible price.

You can get a copy of our Secret Currency report free of charge.

Here's how...

How to make money... no matter what happens in the stock market

I learned about this investment recently from the most knowledgeable analyst I've ever known, **Dr. Steve Sjuggerud** (pronounced sugar-rude).

And I can show you exactly how to take advantage of this extraordinary opportunity, with Dr. Sjuggerud's help.

You see, I am the Director of a group called Stansberry & Associates Investment Research. I employ a dozen independent investment analysts -- Dr. Sjuggerud is one of them -- who help me and about 400,000 other individual investors worldwide. I can say without hesitation that no one I've ever met knows more about money -- how to make it, keep it, and protect it -- than Dr. Sjuggerud.

How Stephen Fenton made 3,354%

A British investor named Stephen Fenton made a single investment in the Secret Currency in 1995. It gave him 3,354% profits by 2002, according to *The Wall Street Journal*.

Dr. Sjuggerud's recommendations do so well, in such volatile market conditions, that I follow his recommendations with my own money. So do many other people who work for me... so do Dr. Sjuggerud's own parents ... even his in-laws... plus hundreds of thousands of individual American investors.

The amazing thing is that Dr. Sjuggerud's recommendations make so much money... without taking big risks.

www.getwsodb.com

If you would like to get a free copy of Dr. Sjuggerud's Secret Currency Report, what I ask in exchange is that you take a trial subscription to Dr. Sjuggerud's monthly investment advisory service, called *True Wealth*.

True Wealth, I promise you, is unlike any other investment advisory you've ever seen before. I guarantee Dr. Sjuggerud will fill you in on unique investment opportunities you'll never hear about anywhere else.

For example, look at another super low-risk investment idea Dr. Sjuggerud is excited about right now...

Another secret way to have more money for retirement

Have you ever heard of BDCs? If not, you are not alone. In fact, most Americans haven't...

So what are they?

BDC stands for Business Development Company. And it offers you a backdoor way to collect extraordinary payouts from companies that aren't traded on the public stock exchange.

Don't worry... thanks to the U.S. Congress passing the Small Business Investment Incentive Act, making these investments is really easy through any ordinary broker.

Kiplinger's Personal Finance recently described the situation:

> "The world of private equity – securities of companies that are not listed on a public exchange – has essentially been off-limits to regular folks... [available only to] the seriously rich or institutional investors, such as pension funds... But there's another way to get into the game – and receive enticing dividends – for no more than the $20 price of a liquid, publicly traded stock."

In short, there's now a unique way to get in on the huge dividends paid by privately held companies... with a simple investment you can make through your regular broker.

Why would you want to get in on these "private" investments? Because they can pay you an absolute fortune...

- Dr. Sjuggerud will tell you about a BDC that first went public in 1997 and has paid investors 513% gains since then. It has paid out huge dividends every single year... and has increased these payouts 33 times.

These investments are a heck of a lot more profitable... and will pay you much more in dividends, than ordinary, stocks, bonds, and mutual funds. Right now, the best BDCs are paying dividends around 12% per year!

www.getwsodb.com

As 20-year Wall Street veteran and financial author Bryan Perry said in his recent book:

> "[This] is just an amazing way for us to cash in on big dividend yields and excellent growth potential. It's a sector of the market that has emerged as a truly excellent opportunity, thanks to a shift in how these once very exclusive entities, known as private equity firms, now operate."

Dr. Sjuggerud has written a report recently that details exactly how this opportunity works. It's called, **"BDCS – How to Collect Huge Dividends on Private Companies."**

In it, Dr. Sjuggerud will show you what he believes to be the best way to take advantage of these massive payouts, immediately. And it all takes place easily through any ordinary broker.

Is this type of unique investment right for you? Well, if you are looking for more money for retirement... Or if you simply want more income, this could be the perfect fit.

And I promise this about *True Wealth* monthly advisory: It is like no other investment newsletter you have seen before. I guarantee you will learn about unique opportunities that you won't hear about anywhere else.

Again, this research comes free with your no-risk trial subscription to *True Wealth*...

But is *True Wealth* for you?

How to know if Dr. Sjuggerud's work is right for you

The answer depends on the type of investor you are.

If you want to get in on the "next big thing," True Wealth is probably not for you. If instead, you'd like to learn about unique and super-safe ways to make lot of money, without taking big risks, then I would definitely give True Wealth a look.

Dr. Sjuggerud has a proven record for finding giant profits, even while most investors were losing a fortune. For example, during the most recent bear market...

- Dr. Sjuggerud recommended an investment to members of his trading service on a retail business with operations in all 50 states, plus Puerto Rico and the U.S. Virgin Islands. In 7 days, traders who followed Dr. Sjuggerud's advice made **300% PROFITS**.
- Two days later, Dr. Sjuggerud recommended a trade in one of the biggest electronics firms in the world. 19 days later, his recommendation realized a **PROFIT OF 341%**.

www.getwsodo.com

- Then, Dr. Sjuggerud recommended a trade on one of America's most important telephone and Internet service companies. In 22 days investors who took his advice made **111% PROFITS**.

In the past year, Dr. Sjuggerud found opportunities that have returned 123%... 118%... and 11 recommendations that have returned double-digit gains.

I know... anyone can cherry-pick a few winners. But his overall track record is unmatched as far as I know. As of the publication of the December 2007 issue, for example, he had 22 recommendations in our portfolio... only four of them had gone down in value.

If you can find someone who can do better than this, and is as conservative as Steve, I encourage you to take their advice immediately. *And let me know about it too.*

What would you expect to pay for research that consistently makes subscribers solid profits -- and that could make **you 665% in just a year or less?**

Well, Dr. Sjuggerud earns hundreds of thousands of dollars a year for advice like this -- and for good reason. He's been a highly paid hedge fund manager, Vice President of an international mutual fund, a stockbroker, and director of several of the world's best equity research organizations.

So... no, his time and research do not come cheap.

But, if you'll join us for a trial subscription (first 6 months are free) to Dr. Sjuggerud's *True Wealth* newsletter , you can get his report on the Secret Currency, and BDCs – How to Collect Huge Dividends on Private Companies, absolutely free.

I realize these investment ideas might sound unconventional. They are. They may or may not be for you. I can't say for sure because I don't know anything about your situation.

That's why -- even though both of these ideas are among the safest, most profitable, and easiest investments you can make right now -- I want to make sure you are completely comfortable with them.

I can't say for sure if *True Wealth* is right for you, but I believe the research Dr. Sjuggerud's work is better than anything else out there.

In fact, Dr. Sjggerud's *True Wealth* research has done so well that many investment professionals have started following our recommendations for themselves and their clients...

> **Subscriber Gary Munson, who's a Certified Financial Planner** and a Senior VP at one of the world's biggest investment firms, told us:

www.getwsodo.com

"After being in the investment business for almost 24 years, I feel I'm fairly qualified to evaluate investment recommendations as I am a financial advisor and portfolio manager. Steve's recommendations and the way he thinks are absolutely top-notch. His newsletter recommendations have become a major arrow in my quiver that I am able to utilize in my own clients' accounts. I read a lot of newsletters and other literature constantly looking for investment ideas, and Steve's *TRUE WEALTH* ranks at the very top."

Subscriber Brian Rose, a full-time equity trader from San Francisco, wrote to say: "I KNOW I will have much more money for retirement because of Dr. Sjuggerud's *True Wealth*. It is comforting to know that Steve has no agenda other than to make me money."

Andrew Lawson, from Charleston, SC, said: "I was a stockbroker for 19 years. I trained with the 4th largest NYSE member firm at that time. I learned more from Dr. Sjuggerud in the last 8 months about the wide universe of investments than I learned in 19 years as a broker... Steve's recommendations are conservative, they make sense, and they regularly make large profits - much more than one would expect from safe investments."

How much does Dr. Sjuggerud's research cost? I think it's the single best deal in the investment world.

Analysts who have the education and experience similar to Dr. Sjuggerud's charge $10,000 a year or more. That's a lot of money. But when you see how much Dr. Sjuggerud's research is worth, I think you'll agree that $10,000 would not be too much to pay.

Another alternative would be for you to do this work on your own. Of course, to do it as well as Dr. Sjuggerud, you'd have to get degrees in Finance and Economics, an MBA, and a PhD.

You'd have to work for years in the financial industry: as a stock broker, mutual fund vice president, hedge fund manager, and chief analyst of several independent investment groups.

You'd also have to spend 8-10 hours a day -- every single day - traveling, researching, and investigating opportunities.

Why am I doing this?

by Steve Sjuggerud, PhD

People often ask me why I left the world of institutional investing to work as an independent analyst.

Did I do it for the money?

Yes... and no.

One thing's for sure. I could certainly make more money if I went back to the world of professional money management.

But to tell you the truth, even though I was pretty good at it, and made a very good living, I didn't enjoy that world very much.

What most people don't understand is that stockbrokers are essentially sales people. I learned that very quickly on the job. Contrary to what you might think, your broker's primary job is not to look out for you, but to make his firm as much as possible.

It's the same when you run a

I don't know about you, but I'd much rather pay Dr. Sjuggerud to do all of this work for me.

www.getwsodo.com

But before I give you all of the details, there's one more important thing I'd like to tell you about...

A stock that's guaranteed to never drop below $10

Did you know there's a unique investment that gives you all the upside of stocks... but when bought at or below $10 a share, guarantees you won't lose money if stocks go down?

In a market like the one we're in right now, this may be THE perfect investment.

It was created by one of the top 3 investment banks in America. It's called a MITTS (Market Index Target Term Security). Sounds confusing, I know, but it's really simple.

You can buy and sell MITTS just like ordinary stocks, for around $10 a share. When the stocks connected to your MITTS go up, you get all the gains. But when stocks connected to your MITTS drop, the worst you can do is get back your original $10 per share.

MITTS are perfect for money you want to invest in stocks... but simply can't afford to lose. You'll find MITTS listed every day in the *Wall Street Journal*.

> As *Business Week* said: "The stock market has no sure things, but MITTS are about as close as you can get... Think of MITTS as stock market plays for chickens."

Dr. Sjuggerud's Investment Report called ***MITTS — The Upside of Stocks without the Downside Risks***, comes free with your *True Wealth* subscription. It shows you exactly how to buy and sell MITTS, and which ones offer you the best deal right now.

Like everything else I've mentioned in this letter, this original research comes free with your subscription to *True Wealth*.

mutual fund or hedge fund. Sure, as an advisor you want to make money for the individuals who put money into your fund... but even more important is to make money for the guys who are backing you - the company you work for.

My point is, in the world of institutional investing, your #1 job is to make sure your firm makes money.

Now that I publish my own research and advisory service, called *True Wealth*, I have no one to look out for but the people who read my advice. I can recommend all kinds of investments -- stocks, bonds, funds, and other alternatives. And I'm never afraid to tell you when to sell.

Now, I spend all of my time doing research. That's what I enjoy... and what I'm good at. I can travel around the world to look at opportunities first-hand. That's what my readers expect me to do -- that's what they pay me for.

I don't have to sit in board meetings that waste everyone's time. I don't have to schmooze with company big wigs. And I don't have to worry about being a salesman.

If I help you make good money, you'll most likely keep reading my research. That's the way it should be. No hidden interests... or secret agendas.

I hope you'll give my recommendations and research a look.

Sincerely,

Dr. Steve Sjuggerud, PhD.

** R. C. Beck, 80, who's a retired cardiac surgeon told us: "I have been reading Dr. Sjuggerud's reports for over five years. I took my wife's portfolio from her advisor and quadrupled it."

** Raymond Martin, 53, a former news producer at CBS told us: "Of all the people I follow... Dr. Sjuggerud is, by far, the best at what he does...make me money! I have a 7-figure portfolio with many years of investing acumen. I'm up over 100K on his recommendations (in less than a year). No one else comes close."

I guarantee you won't be disappointed with Dr. Sjuggerud's work--but I have no problem giving you back all of the money you paid to subscribe if I'm wrong. Because the truth is, you have to decide for yourself.

But, you DO need to know how to get rich...

This is where I can help, but if you don't have the will to learn this then you can stop reading right now.

Still with me? Great!

Then let me tell you how this works…

It's a little-known stock market investing secret.

Don't worry if you've never bought a stock before, it's as easy as checking your email (or making a quick phone call). Anyone can do it!

But these aren't big, expensive stocks like Wal-Mart or Exxon.

The "Secret $200 Retirement Blueprint" doesn't work with big stocks.

You need to use something called a "penny stock…"

Why Penny Stocks?

There are thousands of penny stocks on the market in all types of industry. Such as technology, commodities, health, agriculture, energy and more.

But what makes penny stocks different from other "normal" stocks is that they're cheap.

Dirt-cheap!

Shares can go for as little as a few cents to a few dollars. So even small (or first time) investors can afford to play the market.

Better still, penny stocks can deliver truly explosive gains.

In fact, they're potentially the most profitable stocks on Wall Street.

Let me show you what I mean…

You've got to take some constructive action right away, or the very thing you fear most *will* come true, and your situation *will* be hopeless!

www.getwsodo.com

Remember, everything you do right now is either helpful or harmful, and the most "natural" attitudes and actions often push yourself into situations that only make things worse.

➔ *"Hair Pulling Secrets!"* will give you the specific step-by-step information, techniques, and strategies you need to forever, stop compulsive hair pulling.

These methods work no matter what your situation is including the pulling of hair, eye lids, eye brows, body hair, and even pubic hair... because they are all based on your mind and how you control your thoughts.

The things you say to yourself and emotions you feel as a result of that conversation are more powerful than you may realize. In fact, you are very likely sabotaging yourself right now and not even know it

The bottom line is this... if you can control your thoughts, then you can control whether or not you continue pulling you hair... and this is where I come in because I know how to give you the power to control your own thoughts.

Once you go through the course you will learn to control your thoughts... then it is up to YOU to change your life. Everything you need to do it—is inside you because if it wasn't you would NOT have read this far (so congratulations).

I actually know more about you than you probably realize. For instance, I know you will make the right decision today—to **give my strategies a try** from the *safety* and *comfort* of your own home.

Ordering is easy for anyone, *even* if you're new to computers, email or using the internet. You can **discreetly download the course RIGHT NOW** for *only* $79.

Look, for many people $79 is a LOT. I totally understand that. BUT I would like you to do me a favor and put this in to perspective...

Which Doctor Would YOU WANT?
A Cheap Doctor or George Clooney's Doctor?

If you're father or your mother had to have open-heart surgeory...would you want the cheapest or the most expensive doctor you could find - to save your loved ones life?

I'm guessing you'd want the one that cost more because that likely means they are more qualified to help your family member get through tough times.

Why should it be any different when you're trying to quit pulling?

Do you want strategies that are cheap or expensive (and when I say expensive I don't mean expensive compared to A SINGLE Doctor's visit)?

The ball is in your court, but truth be told we price ***Hair Pulling Secrets*** at under a hundred bucks so the vast majority of pullers can afford it...and frankly anyone who isn't willing to

spend at least a measily hundred bucks to change their life forever... DESERVES to live in pain and fear.

Tough words? Yep, but absolutely true.

And since we make occasioanl FREE Trial offers... you have NO excuse now.

Real Life Example: Secret $200 Retirement Blueprint

Let me show you just how potent penny stocks can be when you follow the "Secret $200 Retirement Blueprint."

Step-by-step I'll show you how $200 could have turned into more than $10.1 million.

This strategy is risky and requires a lot of luck. I would never recommend it to my readers. This is simply an "accelerated" example of how potent penny stocks really can be.

That said…

These penny stock share price explosions actually happened.

So although it's highly improbable you'd be *this* lucky, it's **NOT impossible**. That's important to remember.

All right, here we go…

Retirement Blueprint Step #1:

$200 Turns Into $2,736 in 28 Days!

Vanda Pharmaceuticals Inc (VNDA) is a drug developer from Maryland.

If you haven't heard of them before then you're not alone.

Remember, the best profit opportunities are rarely featured on T.V. or covered by the financial newspapers.

At the start of May last year, shares traded for a tiny $1.07.

But then one of their drugs got FDA approval… and shares rocketed!

After a 28 day buying frenzy by investors, Vanda was then trading at $14.64.

That's a 1,268% gain in less than a month!

www.getwsodo.com

If you bought shares at the very start and held on… you could have quickly turned $200 into $2,736.

That's a nice start but chump change compared to what's next.

Before we move on though, let's suppose you put your original $200 back into your savings account to cut your risk.

So you're going to roll $2,536 profit into the next step.

This way you're playing with house money now, so you can't lose!

Retirement Blueprint Step #2:

Collect $24,168 After 853% Mega Gain!

This is an excellent example of penny stocks unmatched profitability…

You could buy Opexa Therapeutics Inc (OPXA) for a meager 43 cents per share in the summer of 2009.

Then industry giant Novartis AG acquired their stem cell technology. Shortly after, clinical trials for Opexa's multiple sclerosis drug showed 83% of patient's remained relapse free after a year.

Predictably, this good news double whammy sent stock soaring!

If you had invested your $2,536 profit from Step #1, the resulting mega-gain would have put a staggering $24,168 in your pocket!

Not bad for a handful of mouse clicks and few months *"work."*

Now, compare that with a big stock like Apple Inc.

When they launched the revolutionary iPhone, shares jumped a whopping $21.

That's impressive… for a big company.

BUT, before the jump Apple shares were already changing hands at $122. So the biggest breakthrough in cell phone technology, and you would have only bagged a 17% gain.

Now look at penny stock Opexa again, it jumped a mouth watering 853%!

Like I said, penny stock gains are unrivaled.

www.getwsodo.com

Here's even more proof…

Retirement Blueprint Step #3:

Bank $297,750… Now You're Cookin' With Gas!

You've already seen how you could have made $24,168 starting out with a tiny $200 initial investment.

But now things are really going to heat up…

Right after Opexa's run up, you could have rolled your $24,168 into a little-known tech company called Netlist Inc (NLST).

They were trading for just 59 cents a share in September 2009.

But by November, shares were trading for $7.27!

That's enough to turn your $24,168 into $297,750!

Or looking at it another way, you'd be banking an average of $4,253 every day!

Only penny stocks are this potent.

Retirement Blueprint Step #4:

Breaking Through ONE MILLION DOLLARS!

Compared to the explosive penny stocks already covered in this profit chain, Somaxon Pharmaceuticals Inc (SOMX) is a real snail.

From December 2009 to March 2010 you could have bagged a 320% gain.

That's right, a pitiful 320%…

But it would have been enough to make you a millionaire!

Does This Sound Impossible? Please Remember, It's Not!

I understand if this seems impossible to you. After all it's probably the first time you're seeing something like this.

But let me remind you that these gains actually happened, and in this order. So you really could have played this penny stock profit string… with a lot of luck and expert timing I might add.

Fact is there's always opportunity for those with the will to get rich.

Remember, it's improbable you'd play something just like this… But NOT impossible. So quit thinking it will never happen to you.

www.getwsodo.com

In fact you could be $1,250,550 richer now, to be precise.

Imagine it, you a millionaire from just four, quick-fire trades!

Simple trades you can make from a computer with an internet connection, or your telephone.

What an amazing feeling it would be to see one million dollars in your bank account, and it's all YOURS!

But keep your hands off because we're not done yet, there's one last step…

Retirement Blueprint Step #5:

More Than $10.1 Million in Only Four Days!

In this day and age, a million dollars isn't *"retirement money."*

However $10.2 million might just be, here's how you'd get it…

Zanett Inc (ZANE) is a small information technology company. Their business is providing customized IT solutions to corporations and mid-market companies… and in March of 2010, business was very good!

In fact, in the first four days of March share price soared from $0.26 to $2.12.

That's a 715% gain!

Rolling your $1.25m into this run-up, you'd collect $10,191,982…

In other words, you'd be a **retirement millionaire!**

That's $200 into more than $10.1 million in less than a year!

Remember, these penny stock explosions happened. That's the truth. So although it's improbable you'd ever ride a profit wave just like this, it's NOT impossible.

That's why I've given you this example, because I want you to see for yourself the amazing potential of penny stocks.

When you do, you're one step closer to…

www.getwsodo.com

Ultimate Freedom!

You can do a lot with ten million dollars these days.

Look after your family and friends, pay off your mortgage, and put your sister's kids through college. Or perhaps you're a little more extravagant?

Then drink Dom Perignon, eat caviar, drive exotic cars and mingle with high-society on million-dollar yachts.

Or how about this…

Bank your $10 million into a savings account with 2.5% interest and it's like you're getting paid $250,000 a year for doing zip!

Talk about the rich getting richer!

Only this time, YOU are "the rich!"

The point is penny stocks could help you get here.

And a heck of a lot faster if you're lucky enough to successfully implement your own "Secret $200 Retirement Blueprint!"

Life on YOUR terms.

Frankly, it's what you deserve, right?

So isn't it about time you take the first step?

What would you do with $10 million? You'd be your own boss! I would hit the green as often as I can.

Then let me tell you who I am, and how I can help you kick-start your own millionaire's retirement…

Yours for Penny Stock Profits

Hi, my name's Greg Guenthner.

I'm the editor of ***Penny Stock Fortunes*** and I believe it to be the best penny stock newsletter in the

www.getwsodo.com

world.

Here's why.

Before ***Penny Stock Fortunes***, I was a business and politics reporter.

Man did that job suck! But it helped me master the most important skill of all when it comes to picking potentially profitable stocks…

RESEARCH!

With thousands of stocks out there it's dog-gone difficult to pick a winner. So you need to sift and filter for weeks on end!

That's work you won't have to do, if you subscribe to ***Penny Stock Fortunes***.

Let me do the grunt work.

I bring a reporter's eye and skepticism to every company I look at. I won't make a stock recommendation until I'm absolutely convinced I'd recommend it to my own mother!

10 Years of Excellence

My publisher, **Agora Financial** has been in this business for more than 10 years!

I work shoulder-to-shoulder with some of the best financial analysts in the world including best-selling authors Bill Bonner and Addison Wiggin.

We offer independent, no nonsense, no holds barred research and commentary on what's really going on with Wall Street and the economy. You definitely won't hear about this on CNBC or FOX!

It's no wonder we have hundreds of thousands of readers… you join a very savvy group when you subscribe to ***Penny Stock Fortunes*** today.

Perhaps more importantly, my research is 100% independent.

Companies don't pay me to *"pump"* their stock. I'm not a member of any *"old boys"* club and I'm in no one's back pocket.

I answer to you. That's it!

Few in my industry can say the same.

My only goal is to deliver my readers results because that's the only way I stay in business, and so only the very best stock picks get by me and into my readers inbox.

Picks I believe could put you on the fast track to ultimate freedom and happiness.

I have one more ace up my sleeve to make sure this is absolutely always the case…

CXS Money Multiplier: Scientifically Selects the Best Penny Stocks...

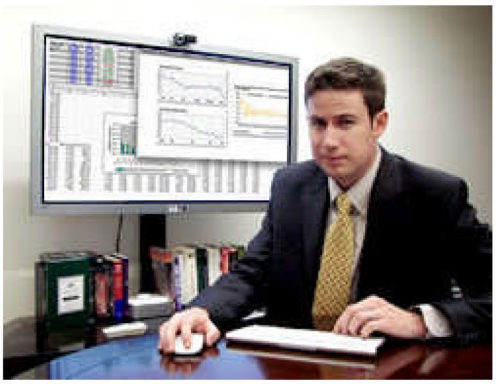

The CXS Money Multiplier is a scientific strategy for uncovering Wall Street's most explosive stocks.

It's been developed over 11 years by several stock market experts and exclusively for ***Penny Stock Fortunes***!

Here's how it works…

First the CXS Money Multiplier automatically analyzes thousands of stocks, looking for proven tell tale signs of a potential penny stock profit explosion.

Out of many thousands of penny stocks, CXS locks onto a select few that show tremendous potential for profit.

Using the CXS Money Multiplier to uncover Wall Street's most potentially profitable penny stocks, I harness 11 years of scientific, data, research and development. CXS is time tested and proven.

Next, the ***Penny Stock Fortunes*** team and I painstakingly research each of these stocks the CXS Money Multiplier has highlighted, looking specifically at five crucial factors common with some of the most profitable penny stocks in history…

CXS Filter #1: Sales Growth

In any business, sales are #1.

That's why I closely watch penny stocks that consistently grow their revenue year after year. It's a tell tale sign of a company on the up… usually share price goes the same way.

In a FREE report I have for you called — ***Two Penny Stocks to Own in 2010*** — one of the companies scores full marks for sales growth.

They're growing revenue at a remarkable rate, and the market they serve is exploding! Share price is a bargain right now, but I fully expect it to jump quickly, so hurry.

You'll get this company's ticker, and my full analysis of it FREE, when you give ***Penny Stock***

www.getwsodo.com

Fortunes a try today.

CXS Filter #2: Profit Fortress

Examples of a Profit Fortress would be a patent, superior brand or exclusive market access….

Something that makes the marketplace more competition-free. This makes it easier for a company to make more money.

And of course that's great news for shareholders!

If a company doesn't hold a Profit Fortress, then it's got to be pretty darn impressive in other areas before it gets by me.

CXS Filter #3: Profit Catapult

5 Ways We Scientifically Select Penny Stocks…

After complex computer algorithms pick out potential winners from the thousands of penny stocks on the market, my team and I put each through this proven, five step filtration process…

#1. Sales Growth — Is this company consistently growing?

#2. Profit Fortress — Will this company easily beat off market competition?

#3. Profit Catapult — Is there an ace in the hole that could send this penny stock soaring?

#4. Business Shock Factor — Can this company revolutionize an industry and create decades of wealth?

#5. Black Cloud Factor — Is there

www.getwsodo.com

When I was researching Dendreon (DNDN), their prostate cancer vaccine was within a year of taking the drug market by storm…

They just had to prove their vaccine worked.

After months of speculation and clinical trials Dendreon released data showing its revolutionary drug significantly improves patient survival.

Share price catapulted on the news!

Penny Stock Fortunes readers who bought Dendreon when I first recommended it are sitting on a very tidy 279% gain.

This is just one example of amazing gains I've delivered my readers over the years.

something holding this company back that means we can get in cheap and enjoy even more explosive profits?

After **11 years of study**, we've discovered these five factors are key elements in some of the world's greatest penny stock profit explosions!

CXS Filter #4: Business Shock Factor

When I'm assessing the business shock factor of a company, I'm looking for innovations or products that can shake up an entire industry…

Like how the Ford Model T turned the auto-industry on it's head.

Or how the iPod transformed the MP3 player market.

Companies that have fresh, new ideas that appeal to a market are bound to see the sales curve go only one way — UP!

Usually, the same thing happens to shareholders profits.

CXS Filter #5: Black Cloud Factor

A *"black cloud"* might be a lawsuit, regulatory issue, or even just bad press… something that can temporarily hold back share price.

But when the Black Clouds clear, share price rockets right back up!

Let's look at the auto industry debacle of 2008/2009 for a good example.

By February 2009 Ford (F) had been beaten down to just $1.58 with all the bad press. Imagine it, last year you could buy the automaker that literally invented an industry, as a penny stock!

www.getwsodo.com

Many investors did exactly that, because despite its problems Ford is still a huge player in the market.

As the black clouds clear, stock is up nearly 700%!

After I filter stocks through these five crucial steps, I'm left with the very best, the top of the pile penny stocks!

That's what I then share with my readers.

But how effective is the CXS Money Multiplier at picking winning penny stocks?

Americans Now *Legally* "Piggybacking"

"Canadian Social Security"

… And Collecting Extra Monthly Checks From $400 to $4,700

"It paid for a new roof on our house… and I can honestly say I live comfortably, without any debt hanging around!"

~ Ellis P. from Seattle, Washington

Dear Reader,

I recently heard some fascinating claims about a potential loophole in the Canada Pension Plan…

A loophole that allows Americans of any location, age or income level to begin collecting "work-free" income checks running from $400 to $4,700 per month.

www.getwsodc.com

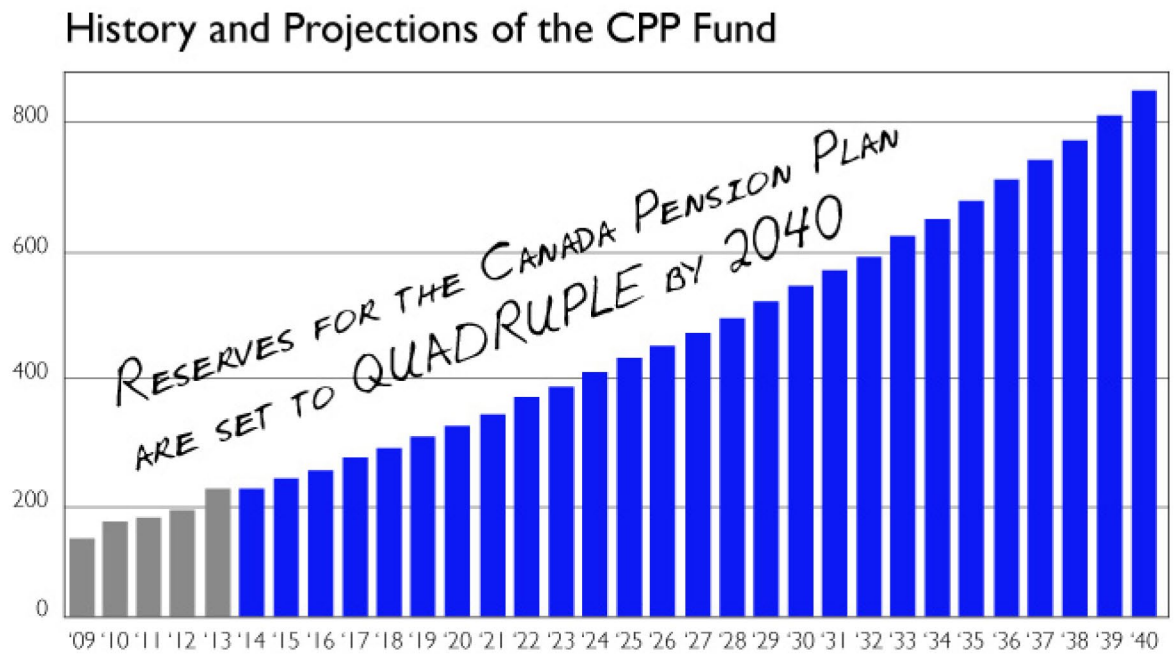

The Canada Pension Plan — in case you didn't already know — is the Canadian equivalent of the Social Security system we have here in the States…

…except for a few key differences.

Unlike American Social Security (which is run by overpaid government bureaucrats), the Canadian variety is managed by a highly skilled team of professional investors.

Also, unlike American Social Security (which you and I both know is a system that's running on fumes), the Canadians have managed to more than DOUBLE their reserves since 2004.

In fact, from the projections I've seen… reserves for the Canada Pension Plan are set to QUADRUPLE by 2040 (which, ironically, is the same time when most experts believe American Social Security will be completely bankrupt).

As a proud American, it's tough to admit… but the Canadians have seemingly devised a much more sustainable program to take care of their 18 million retired seniors, who now enjoy one of the lowest rates of poverty in the entire world.

Now, you would think access to paychecks from this program would only be available to Canadian citizens…

Right?

www.getwsodo.com

But recently, through my work as the chief income analyst here at Agora Financial — one of America's largest independent financial research institutions — I began hearing wild rumors about a savvy group of Americans who've figured out a way to legally piggyback the Canada Pension Plan…

And collect an additional $400 to $4,700 per month as a result.

From what I could gather, these folks were able to do this without living… working… or even traveling to Canada.

I admit — I was skeptical of the rumors.

So here's what I did…

I decided to conduct a full investigation into these claims. I reached out to hundreds of thousands of Americans and spent months researching the situation.

I talked with folks from all over the country… from Seattle, Washington, to Dallas, Texas, and Bangor, Maine.

What I discovered was completely unexpected… thousands of Americans have managed to "sneak into" the Canadian program — and are collecting checks right now as a result...

I recently came across a small group of about 40 or so folks who are seeing amazing results.

Folks like:

- Larry Hopple, 72, for example, who is a retired businessman living in the Chicago area. He collects as much as $2,230 per month by piggybacking the Canada Pension Plan. He told me that this is his "primary means of financial security"… and there is no way he could have
retired without it.

- Hal Drake, 76, retired after working for decades in the medical community and moved to Massachusetts. He's been piggybacking "The Plan" for years… and now collects
over $4,700 per month.

- Stephen Gallicchio, 84, was living a comfortable retirement until his wife passed away eight years ago. His own health took a turn for the worse, and he realized he couldn't manage on regular U.S. Social Security alone. Luckily for Stephen, he discovered how to piggyback onto the Canada Pension Plan and now collects a modest $500 per month while living
in Boca Raton, Florida.

  As Stephen told me, "Friend… the U.S. Social Security was never intended to be your sole source of retirement income. It does not provide sufficient income to support your lifestyle." Instead, he suggests, collecting benefits thanks to the Canada Pension Plan offers a way to supplement your regular Social Security. "You will be amazed at the additional
income that's available."

www.getwsodb.com

And here's what's so incredible about the whole thing…

According to those involved, it doesn't affect your regular Social Security in any way, shape or form.

In other words, these folks are not swapping one for the other… and they are not forced to take some kind of reduced rate on their current benefits.

This is simply investment income ON TOP of what these Americans already collect from U.S. Social Security.

Believe it or not, this is super easy to do. No messy paperwork to file. You don't have to move or change your citizenship. And you can start earning it whatever your age, whether you're 29 or 97.

Even better - as I discovered during my investigation – the money available through piggybacking DOESN'T come from the Canadian Government… or any other government bureaucracy. Instead, the money available for you comes directly from the private sector… through a portfolio of REAL, INCOME-PRODUCING ASSETS.

I've created this special letter (which won't be online forever) to show you everything I've uncovered…

Like how they've been able to do it… how much money they receive… how long they've been earning it… and how long it should last.

Let's start from the beginning…

www.getwsodo.com

America's Retirement Crisis

My name, by the way, is Zachary Scheidt.

I started my career at a hedge fund in Atlanta, helping "high net worth" clients generate income from their multimillion-dollar accounts.

This type of work is lucrative, but believe me, helping the rich get richer is not very gratifying.

So about four years back, I decided to change gears a bit… and took a position with an independent financial research firm.

Ever since I've been helping regular Americans prepare for retirement and live out their "golden years" the way they always envisioned.

Through my years of experience, I can tell you one thing with 100% conviction:

Income is the absolute key to a successful retirement.

If you plan well and lock up multiple sources of income, you can spend your retirement traveling the world, staying in luxurious hotels and eating at fancy restaurants.

If you don't plan well — or even worse, never make a plan — you could spend your retirement cooped up in your house, watching reruns on the television and scrounging for change to buy your grandkids birthday presents.

Nobody wants that…

But according to a 2013 issue of *Time* magazine, the average American will need $1 million to secure a lasting retirement nest egg these days.

One million dollars just to retire…

Of course, most Americans probably haven't saved anything *close* to that…

And they'll be forced to "get by" on U.S. Social Security alone — which is practically *impossible* these days.

www.getwsodo.com

I mean the average Social Security payment — before taxes and Medicare fees — is a pathetic $1,162 per month…

That's just a few "clicks" above the poverty line... barely enough to survive on.

Meanwhile, the cost of just about everything keeps getting more and more expensive…

And THAT, my friend, is why I want to show you today what I discovered about claiming "Canadian Social Security."

As I mentioned, I was skeptical when I first began hearing stories of Americans tapping into a loophole in Canada's national retirement plan…

But after meeting dozens of these folks… hearing their stories… and seeing some of the income checks (and tax returns) with my own eyes…

I began to wonder why more folks aren't doing the exact same thing.

THREE TIMES Larger Than the Average Social Security Check

To illustrate what you could expect to see… I'd like to introduce you to a woman named Anne Monahan.

She's not a celebrity or a politician or anybody you've likely heard of before.

Instead, she's a 65-year-old retired school teacher with a thick New England accent.

She lives on the sixth floor of a newer building, in a quaint two-bedroom condo… just a few miles from downtown Baltimore.

Anne receives a nice $1,295 pension from the 25 years she spent teaching special education… and she collects $1,393 in her regular U.S. Social Security benefits.

On the surface, she appears to be just like most folks in her situation. She has three children and four grandchildren. She enjoys dancing and *loves* to travel.

Here is a picture she gave me from a recent trip to the British Virgin Islands (a trip she's always wanted to take).

www.getwsodo.com

But Anne Monahan has a bit of a secret.

You see, for over 15 years now she's been piggybacking the Canada Pension Plan… and she now collects an average of $4,891 per year. That's just over $407 per month ON TOP of what she receives in regular U.S. Social Security and her teacher's pension.

Incredibly, she began collecting this money while she was in her early 50s. She was still working at the time… years before she became eligible for regular U.S. Social Security.

She was even kind enough to show me a copy of her most recent tax return…

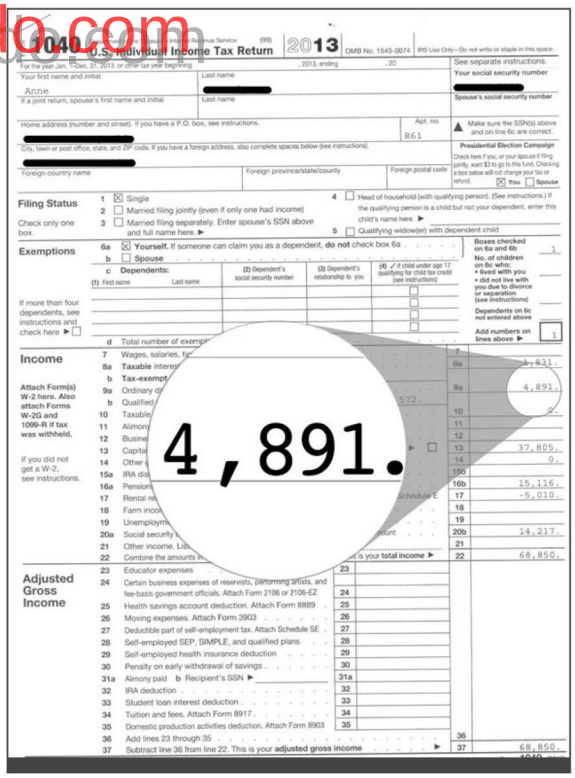

See line number 9(A) — that's Anne's Canadian Social Security collection for the year.

As Anne explained, she first discovered about the Canada Pension Plan while living with her husband in Nashua, New Hampshire.

Her house was, as she put it, "just a stone's throw from the Canadian border"… and her backyard actually ended at the provincial boundary.

But make no mistake about it… Anne has never lived or worked in Canada. She barely even visited our "neighbor to the north."

www.getwsodo.com

So how was she able to piggyback the system?

Well, according to Anne, it all has to do with a major change that took place with the Canada Pension Plan back in 1997.

***** A change that completely altered the structure of the program… taking control away from a highly inefficient government bureaucracy and placing it in the hands of a specialized management team.**

I'll go into more detail about this critical change in just a minute, but what's incredible is that through piggybacking the program, you're not going to be collecting money through the Canadian Government or any other government bureaucracy. Instead, the money available for you comes directly from the private sector.

Now…

Anne didn't invent the loophole, or even discover it for herself. She simply heard about it from a close friend (sort of like how I'm telling you today).

And since it seemed relatively low-risk and only required a few hundred dollars (and a couple hours of her time) to get started, she figured it was something worth trying.

As Anne explained during my interview with her:

> *"It couldn't have been easier to get started. I simply found the right phone number and placed a call. The gentleman I spoke with walked me through the process… took my information… and set me up with an account. I mailed in a check for the appropriate amount. That's basically all there was to it. This was before the advent of the internet, when everything was done by phone and through the mail. Today, it's even easier to get started. Nowadays, everything is done online."*

Anne then explained how the “benefit” checks started arriving within a few months… and started growing over time.

www.getwsodo.com

Of course, Anne continued to make “contributions” to the account… which can be done in some cases for what amounts to as little as 50 cents per day. Less than the price of a cheap cup of coffee at the store.

She didn’t have to “renounce” her citizenship… or visit a Canadian embassy …or do anything drastic.

Today, she collects enough in “benefits” ” (i.e., returns on her investments that mimic the Canadian Pension Plan) to do all the extra things she wants… without putting any additional strain on her budget.

And the $407 she collects every month from “piggybacking” — barring any unforeseen disaster — should continue to “roll in” for the rest of her life.

She loves talking about it… and considers it one of the best things she’s ever done.

Using the extra money, she’s now taken trips to Ireland (twice), Italy, Paris, Sweden, Mexico, Latin America, Brazil… you name idt, she’s been there.

In fact, if it weren’t for the money she makes “piggybacking” the Canada Pension Plan, she never would have been able to visit her daughter, who lives all the way in Queensland, Australia, or her relatives, who live clear across the country in Coos Bay, Oregon.

Heck, she might still be teaching history to high school freshman.

But here’s what’s incredible…

Anne Monahan is just one of the folks I’ve met who have done the exact same thing…

There are roughly 40 more Americans I’ve talked to in the last six months who rake in anywhere from $400… all the way up to $4,400.

Like:

- Nigel Ballard, from Maine, who retired from his career as an oncologist back in September 2013. He began piggybacking back in 2001… and now averages more than $4,400 per month.

www.getwsodb.com

- Paul Hanworth, from Prescott, Arizona, who retired from a career in sales just over a year ago. He realized there was NO WAY he could have retired on regular U.S. Social Security alone. That's why he began piggybacking before he decided to retire. He collects upwards of $3,800 on average… more than three times the average U.S. Social Security payment.

- Aaron Parks is a retired truck driver from Casper, Wyoming. After realizing that Social Security wasn't the answer, he opened a passbook savings account… and then began investing in bonds to help provide the income he would need. But his big breakthrough came from piggybacking on the Canada Pension Plan… and he now rakes in an average of $3,650 per month.

  His advice: "Get started as soon as possible."

As you can see, this opportunity is available to just about anyone. There are no restrictions based on age, income or job status.

Some of the folks I discovered during my investigation were doctors and bankers… who retired with a sizeable 401(k) or Roth IRA. Others were teachers, truck drivers and machinists.

But from what I can gather, none of that matters.

This loophole is available to anyone who wants to take part…

And as I already mentioned, it was all made possible by a major change in the Canada Pension Plan. A change that occurred back in 1997.

Here's what happened…

The Canadians Removed "The Government" From the Equation

The Canada Pension Plan first began back in 1965 and was designed to work just like regular U.S. Social Security.

It was a “pay-as-you-go” system… run by government bureaucrats and funded almost entirely through payroll taxes.

www.getwsodo.com

But by 1996, the Canadians realized the whole system was unsustainable… and the entire plan would “slowly run dry” and be completely bankrupt by 2015.

What happened next is incredible…

The Canadian federal government actually did something about the problem!

It began conducting consultations with the Canadian public looking for suggestions, recommendations and possible solutions on how the Canada Pension Plan could be fixed. (I just can’t imagine the U.S. government doing something like that.)

And it worked!

Just one year later — in 1997 — NEW legislation was passed replacing the old “pay-as-you-go” system with something revolutionary…

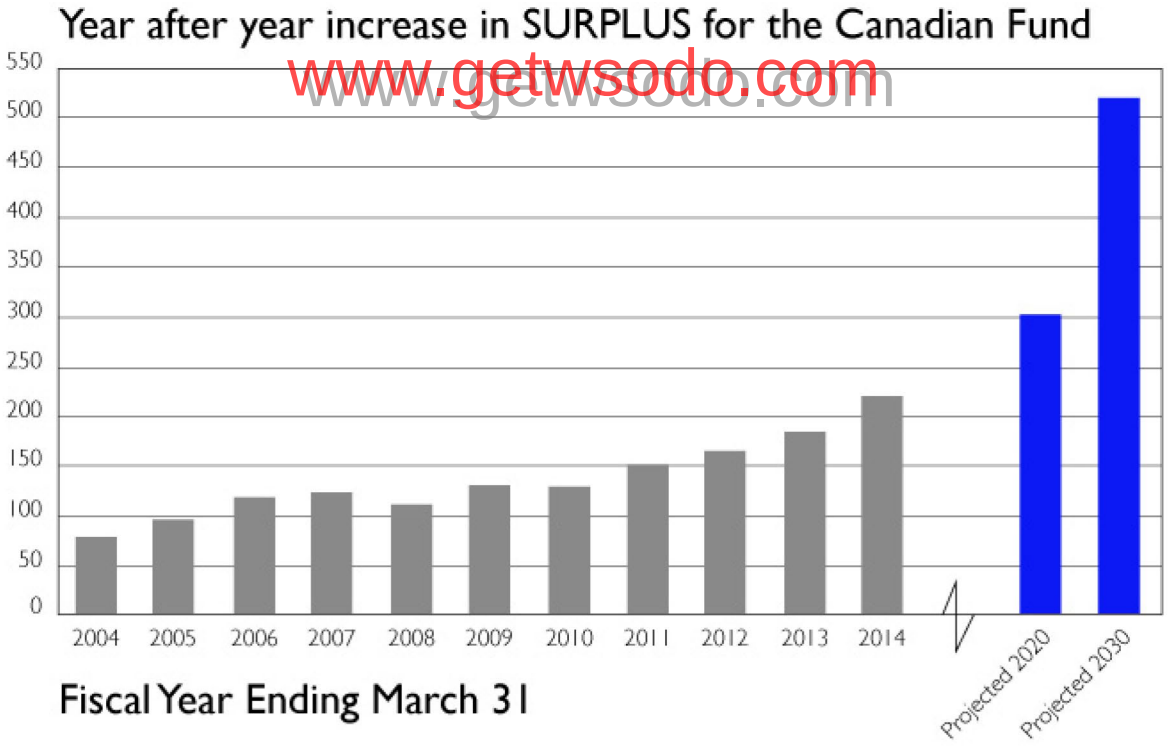

And almost immediately, the new Canada Pension Plan took off like gangbusters.

The program started with cash reserves of around $36 billion.

By 2004, the program had a pool of resources totaling around $77 billion.

Today, that number has grown to over $219 billion. That’s more than a SIX-FOLD increase.

Just take a look at this chart, and you’ll see that they’ve managed to steadily boost funding for the program year after year.

www.getwsodo.com

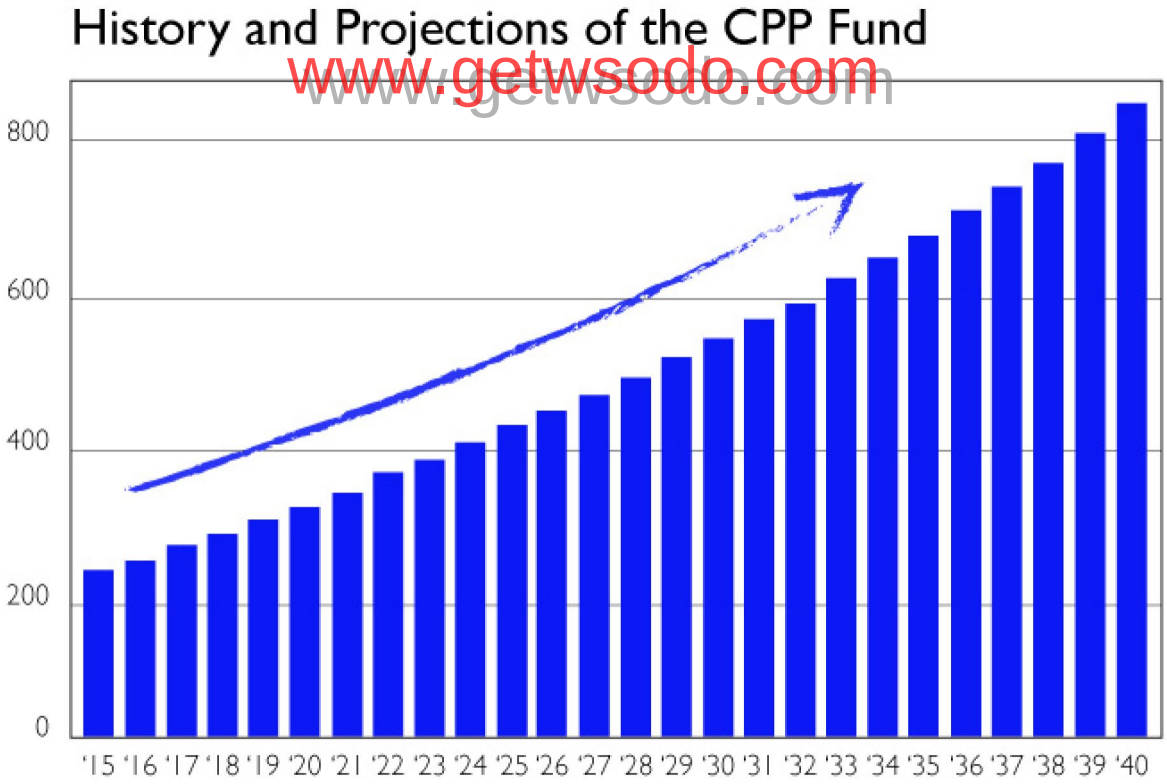

And keep in mind this is just the surplus money for the program — the cash that's left over AFTER you factor in the billions it's paid out in the form of benefits to the retired community.

Incredible, right?

And this trend isn't expected to slow down anytime soon. In fact, from the projections I've seen, funding for the Canada Pension Plan is expected to reach $300 billion by 2020… $518 billion by 2030 and over $800 billion by 2040.

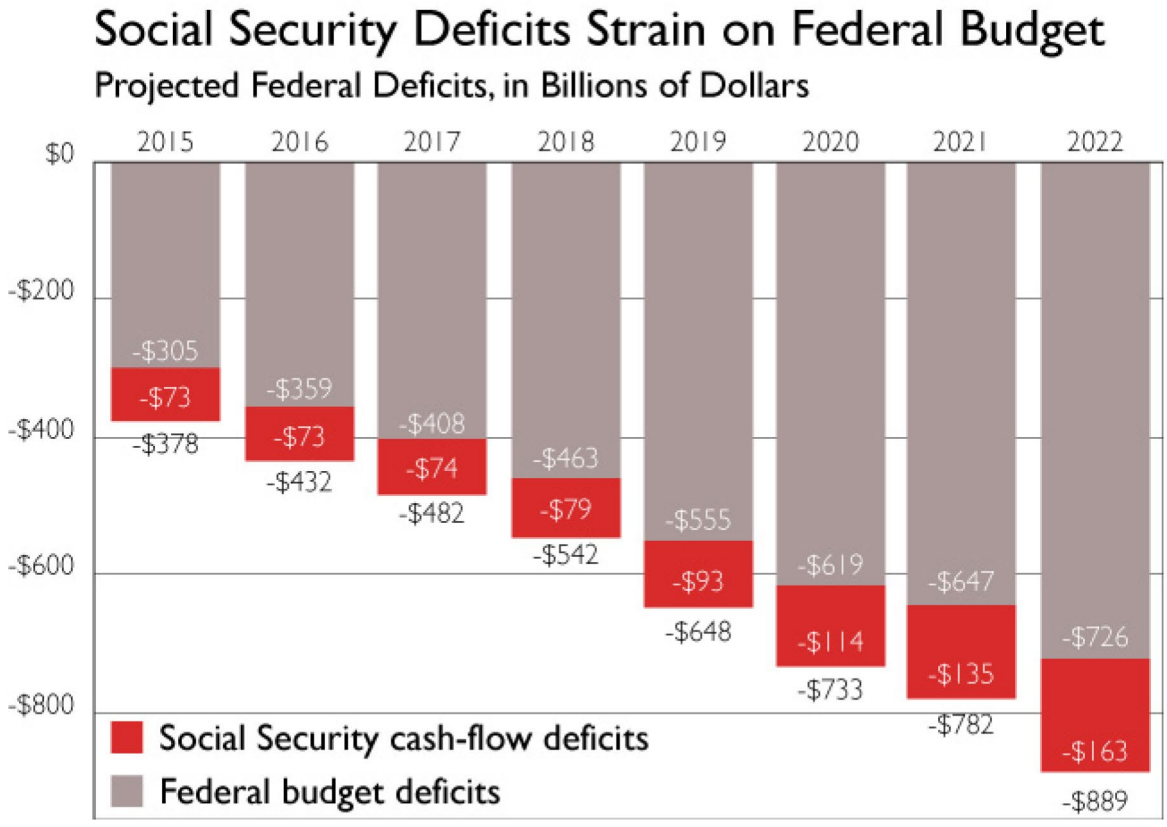

In other words, the money should continue to grow and grow… for decades to come.

Here is another chart, showing the future projections for the plan…

www.getwsodo.com

Now compare that to the projections for U.S. Social Security… which is expected to run increasing deficits that get worse with each passing year.

It's quite a difference, right?

www.getwsodo.com

So the question is, "What happened back in 1997?"

What did the Canadians do to revolutionize their retirement program in such a profound way?

Well, according to *The New York Times*, the program's success can be attributed to "lower management costs and freedom from political meddling."

But to me, the real reason the Canada Pension Plan has exploded comes from the unique structure in which it's set up.

As I mentioned earlier, the new program is *no longer* run by a bunch of government "paper pushers," like what we have here in the States.

And obviously, they didn't see a six-fold increase in reserves buying worthless government IOUs…

Instead, the Canadians turned the program over to a highly specialized team of investors… a hand-picked management team comprised of professionals with an expertise in investing, business principles and finance.

In other words, Canada finally found a way for a social welfare program to work… using private industry and the free market.

For example, the plan's management team operates under an "investment-only mandate… unencumbered by political agendas and insulated from political interference in investment decision-making" (taken directly from its official webpage).

In other words, it's not hindered by the government in any way shape or form. It has no interest in "winning votes" or "making friends."

Their only goal is to make lots of money for the Canada Pension Plan... and to help provide a foundation on which Canadians can build financial security in retirement.

And they've done just that by investing in REAL ASSETS from all over the world. They're buying things like public equities, private equities, commercial real estate, infrastructure, agriculture, gold and silver mines… you name it.

As *The New York Times* declared in a 2014 article, they've been on "a shopping spree of

global corporate buyouts, infrastructure and real estate."

www.getwsodo.com

As a result, many of the world's top assets and businesses are now either fully or partly owned by the Canadians…

And here's the thing I want you to keep in mind…

You see, what I discovered is that the same legislation making all of this possible *also created a loophole* that allows Americans backdoor access.

In just a few minutes I'm going to show you how to use that loophole to piggyback the system. And as a "piggybacker" you'll also become part-owner in some of these same cash gushing assets.

But before I do that, let's take a look at some of these incredible assets…

Backed by the Most Valuable Assets on the Face of the Earth

The Canada Pension Plan now has 197 global investment partners and private holdings in 33 separate countries.

They've established offices in five of the most economically important cities in the world… I'm talking about London, Hong Kong, New York, Toronto and Sao Paulo, Brazil.

This allows management to secure the best investments across the globe and closely monitor its growing global portfolio.

They look for great assets… at great prices… and have the funding to acquire just about anything they want.

They had 103 major global transactions in 2014 alone…

- They acquired luxury U.S. retailer Neiman Marcus Group for $6 billion…
- Purchased a one-third share of Peru's largest transporter of natural gas and gas liquids for $807 million…
- Bought valuable farmland in Saskatchewan for C$128 million…

- Acquired a 15% stake in Paris-based Orpea S.A. — one of Europe's leading nursing care providers — for €354.7 million…
- Added commercial real estate in Mumbai, India, for $200 million…

www.getwsodb.com

And the list goes on and on…

- $1.5 billion for high-quality office buildings in Australia…
- A 50% interest in South Korea's Samsung for C$118.6 million…
- They acquired Connecticut-based Wilton Re — a leading life insurance provider — for $1.8 billion…

These major transactions have paid off BIG TIME and added another $30.1 billion to the plan in just this past year… money that can be used to increase benefit payouts.

They've also invested close to $49 billion in over 600 of the most profitable companies in the world…

Some you've heard of… like Proctor & Gamble, Toyota, Honda, Exxon-Mobil and AT&T.

Others you haven't…

But most of these companies have one thing in common: They pay some of the highest dividends you can find.

And really, that's why the folks managing the Canada Pension Plan are investing so heavily in these types of businesses.

Big dividends equal big amounts of cash flowing into the plan.

For example… in 2014, it collected $14,877,730 in dividends from Proctor & Gamble, $11,655,480 from Exxon-Mobil, $15,735,600 from AT&T, over $13,621,500 from Toyota and an unbelievable $36,447,000 from the Royal Bank of Canada.

That's just shy of $100 MILLION in cash dividends… money that goes right into the reserves for the fund… and ultimately gets re-distributed in the form of benefits to folks in the Canada Pension Plan.

And that's only for five of the 600-some businesses it has in its portfolio.

Again… they strategically invest in companies that are highly profitable… companies that gush large amounts of cash.

www.getwsodo.com

Like one of my favorite businesses… a company you've probably never heard of before… a company called Realty Income Corp.

Realty Income Corp. specializes in commercial real estate. It owns 4,300 properties in 49 states and rents out these properties to businesses like Walgreens, Taco Bell and Fed-Ex.

And here's why I like it so much: Its main goal is to make ever-increasing dividend payments to shareholders.

In fact, its mission statement reads, "Since 1969 our mission has been the same… to generate dependable monthly dividends."

And that's the key: ***dependable monthly dividends.***

It's now paid out 535 consecutive monthly dividends. And it's increased those payments 79 times.

And when you begin piggybacking the Canada Pension Plan — in the way I'll show you in just a minute — you essentially become a part-owner in incredible income-producing assets like Realty Income Corp.

This is exactly how Americans like Sara Yaeger — a secretary from Texas — can collect $2,900 per month… and how Carol Alderman, a widow with two children, gets more than $1,200 in "benefits."

You're probably starting to understand how it's possible for you to collect MORE in "benefits" by piggybacking the Canada Pension Plan than you can from regular U.S. Social Security.

In short, it's all about growing your money through a portfolio of REAL, INCOME-PRODUCING ASSETS… the very same way that the financial geniuses at the Canada Pension Plan figured out. **And that's what I mean by "piggybacking Canadian Social Security." You follow the Canada Pension Plan's lead by investing in the same type of assets in your own private account**.

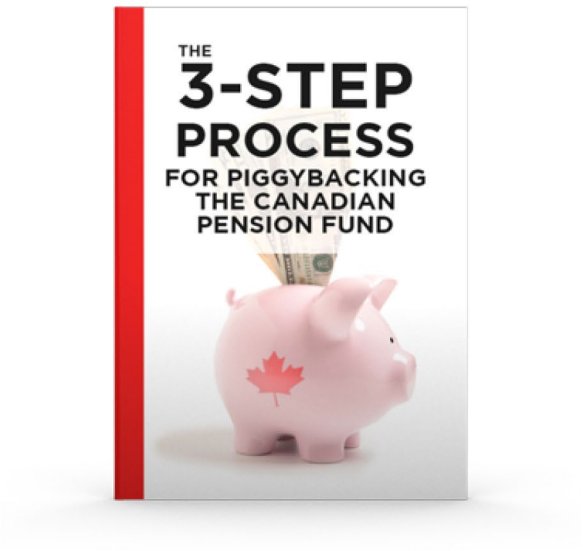

In fact, you can begin piggybacking with just a few hundred dollars. And if you contribute just 50 cents per day (less than the price of a candy bar), your "benefits" will continue to grow and grow. To me, it's a no-brainer opportunity.

Let me show you how easy it is to get started…

www.getwsodo.com

Just Three Steps to Piggybacking "Canadian Social Security"

Over the past six months, I've logged close to 900 man hours reading countless books, obscure newspaper articles and business publications… everything I could get my hands on.

I met dozens of Americans currently earning this monthly income, and I've even placed phone calls with important Canadian officials.

But most importantly, I obtained the necessary forms and documents required for you to set up the type of account that's needed to piggyback "Canadian Social Security."

It wasn't easy to find all of this information… believe me. Even though it's perfectly legal, the Canadian government isn't exactly advertising this loophole to the American public. It took a ton of detective work to get everything together in one place.

But for me, it was truly a labor of love.

And now, I'd like to show you how you can begin receiving "benefits."

Remember… as a retirement income specialist, it's my job to help Americans secure a sustainable and worry-free retirement. I want to make sure that anyone willing to take the initiative can set themselves up with a reliable alternative source of income.

I want to make the process of piggybacking "Canadian Social Security" as simple and easy as possible…

And that's why I decided to do something radical…

You see, I took everything I've uncovered during my investigation and built a simple-to-use **website** that will show you EXACTLY how to piggyback the Canada Pension Plan.

There isn't another website like it anywhere on the internet.

www.getwsodo.com

It's designed to walk you through the entire process — from start to finish.

All you have to do is go to the website… log in (with a secure username and password I'll provide you)… and follow a simple three-step process designed to help you have the opportunity to get the most money possible.

That's it. As soon as you complete all three steps… you can begin collecting checks.

Step #1 — Setting Up Your Account

First, you'll need to set up an account…

Keep in mind – this is not an account with the Canadian government, or any other government agency for that matter.

But don't worry… it's extremely simple to do and takes less than 15 minutes.

There will be a link on my website that will take you directly to the correct forms you'll need to fill out.

All you have to do is enter your information and click the "submit" button, and you'll receive an instant email confirmation to let you know you've been successfully signed up.

I've taken all the guesswork out of the process… I've even included a 1-800 number for you to use just in case you would rather talk to a live person.

I'd also like to mention that there is absolutely no fee to set up an account. It is completely FREE of charge.

Once your account is set up, you can move on to step 2…

Step #2 — Calculate How Much Money You Want in Retirement

Next, you'll want to figure out how much money you want to receive…

And I've designed a proprietary *income calculator* that does all the work for you.

You start by entering in your income.

www.getwsodo.com

Then, you enter the total amount of fixed expenses you currently have… like your mortgage, insurance costs, medications, car payments and so on.

Then, you figure out how much it would cost you to do all the things you *want* to do in retirement…

Play around with the numbers. Whatever you enter is completely private. Let yourself dream…

Perhaps you'd like to do more traveling. Maybe you want to replace that worn-out car with something newer… buy a boat, play more golf, or simply have the money to visit your relatives.

You just fill in the blanks. It couldn't be easier.

And when you enter all your information into the calculator, it will tell you exactly how much additional income you'll need. Maybe you'll need an extra $500, $2,000 or $4,000 to enjoy the retirement you desire.

Once you know how much additional income you want… you'll know how much money you'll need to contribute to your account to make it possible.

And like I mentioned already… it might take just a few hundred dollars to start.

But obviously, if you want to live a lavish lifestyle during retirement, it will probably require more. And like anything in the investment world, your returns aren't guaranteed.

But you'll certainly be amazed at how inexpensive it is… especially when you compare it to U.S. Social Security.

Remember: Unlike U.S. Social Security (where you're essentially investing in government debt), the money you use to start piggybacking the Canada Pension Plan is money that you will invest in highly profitable businesses that gush huge amounts of cash.

That's how it's possible to turn a little extra cash into a steady stream of large "benefit" checks.

And the proprietary calculator I designed will break everything down for you… it will tell

you exactly how much additional income you'll want and exactly how much you need to start with.

www.getwsodo.com

As soon as you decide how much additional income you want… and contribute the appropriate amount of money required to meet your goal… you can sit back, relax and begin collecting your checks…

Step #3 — Collecting Your Income Checks

Once you make the moves I'll show you…

Your checks should start arriving in your mailbox within 2–3 months.

And they could continue to roll in — like clockwork — potentially for the rest of your life.

Even better, you could pass your account on to a family member… and they can collect the money long after you're gone.

Like I mentioned earlier, there are absolutely no age restrictions to collecting this money. Whether you're 25 years old or 105. It doesn't matter.

In fact, as I'll show you on my website, there is a simple way to ensure that the money continues to grow and grow for decades. And the checks will get bigger and bigger.

And all you have to do to grow your account is add as little as 50 cents per day. This is something you can set up automatically… and I'll show you how to do it as well.

It's all on the website I've set up for you. And you can gain access in the next 10 minutes.

Here's how…

Let's Revolutionize Retirement

Through my unique new website, I'm not only going to show you how to piggyback on the "Canadian Social Security" system…

But I'll also show you *all* the "insider" secrets and financial loopholes I've discovered through my career as a multimillion-dollar hedge fund manager in Atlanta… and the time I've spent as a financial analyst at Agora Financial.

These are the kinds of opportunities you'll never hear about from the mainstream press… and the kinds of moneymaking secrets a broker will never tell you about (usually because they'll cut into their profits).

www.getwsodc.com

I've organized all of my little-known income-generating secrets… including the three-step plan for benefitting from the "Canadian Social Security" program… onto an easy-to-follow website, which I've called

www.PiggybackRetirement.com

It's really a "one-stop shop" designed to show you how to gain all the financial security you'll probably ever need.

Once you log in, you'll also see a simple way to collect up to $7,500 a month "renting" empty spaces in your house…

And you'll find out how to use the "Rockefeller Law" tax loophole to claim up to $10,000 on your taxes.

My goal is to revolutionize the way Americans approach retirement…

Which is why I'd like to make you a special offer: a 100% RISK-FREE trial membership to my new website.

Honestly, I don't know how long this special offer will last.

Because here's the thing…

I'd love to show every single person in America how to collect "benefits" thanks to "Canadian Social Security."

But realistically, if everyone were to tap the system… the Canadians could close the loophole and shut the opportunity down for all of us.

And I just can't let that happen.

That's why I can only create a limited number of passwords for the website.

Frankly, **just 1% of Americans will ever receive access**. And that doesn't leave very many openings for new members.

www.getwsodo.com

But here's the good news…

If you're watching this message, that means there are a few spaces still available.

Act now, and I'll give you unlimited access and a secure passcode you can use to read and even download any of the information you would like.

Then, just three simple steps and a few months later you could begin receiving checks to spend as you please.

But before you send for your password…

Let me quickly show you some of the other income-generating tips and strategies you'll get instant access to through this one-of-a-kind website…

How to "Juice" the Dividend Payments on Your Favorite Blue Chip Stocks by up to 500%

Most "small-time" investors don't know this… but there's a stock market "loophole" that allows you to collect $5,000, $15,000 even $50,000 or more in extra income… starting with only $50.

You'll never see this advertised in the mainstream news, and your broker will probably NEVER tell you about it, either.

In fact, once you know how this loophole works, you will probably never want to use a broker ever again.

On my website, I'll show you a group of elite U.S. businesses that could pay you up to FIVE TIMES larger dividends than normal — over a certain period of time.

And all you have to do is bypass your broker… and buy shares of your favorite companies using a route completely outside of the traditional exchanges.

www.getwsodb.com

It sounds a bit complicated, but really, it's quite simple and completely safe.

There's an application you have to fill out (which you can access directly on my subscriber website.) You enter your name on the top line, enter your address and phone number on the middle lines, and sign at the bottom. That's basically all there is to it.

Using this little-known loophole, you'll begin "juicing" your shares directly through the company… and over time, your dividends can grow anywhere from 400–500% larger than normal dividends.

Just check out this table…

Company	Current Yield	NEW YIELD AFTER "JUICING"
Walgreens	1.6%	12% 10.4% INCREASE!
Diebold	3.4%	28% 24.6% INCREASE!
Wal-Mart, Inc.	2.4%	43% 41.6% INCREASE!
Hershey	2.1%	40% 47.9% INCREASE!
The Sherwin-Williams Co.	0.9%	14% 13.1% INCREASE!
Intel	3.1%	114% 110.9% INCREASE!
Exxon-Mobil	3.3%	46% 42.7% INCREASE!

Not only can you drastically increase your yield by five-fold, but when you "juice" your shares, you can make an absolute fortune in capital gains as well, starting with very little money…

For example…

- **$180 investment "juiced" into over $1 million**: Consider the case of Linda Kroner, a resident of Lake Forest, Michigan. She was able to transform a tiny grubstake of $180 into an incredible $1.2 million fortune. That's a return of over 39,000 times her original investment. Currently, it rakes in an estimated $300,000 — every single year — in dividends alone.

- **$122 "juiced" to over $90,000**: Or how about Bill and Melinda Teppers of Newport, Rhode Island. Starting with an investment of just

$122, they managed to create a portfolio worth over $90,000 in just eight years.

www.getwsodo.com

Incredible, right?

All you need to do is bypass your broker, buy shares directly from the company, and fill out a special form to begin "juicing" your shares.

Naturally I can't promise a 500% yield increase on every "juiced" company. Not every recommendation will be a winner. The results you experience may depend in large part on how well you follow the information and picks you receive. But this strategy is one of the best ways to supercharge your gains.

And on my website, **www.PiggybackRetirement.com**, I'll show you everything you need to get started…

And here's another little-known income move you'll discover when you log on…

Make an Extra $12,000 Renting Unused Items Around Your House

Did you know you can make extra income from equipment stored in your shed?

For example, you can make as much as an extra $375 a month by renting out that power drill you haven't used in years… or up to $50 a month from that saxophone your kid stopped playing after the sixth grade.

Rollerblades, camcorders, TVs and even lawnmowers. There's a market for everything.

And on my new website, I'll show you how to sign up, find the most profitable rental items (items you haven't used in years), post your unused items and begin collecting hundreds, even thousands of dollars per month

You don't have to worry about loss or damage, either. There is a special rental agreement that will protect you.

Once a renter contacts you about an item you've posted, you can work out the details of the reservation, including price. It's super simple to do.

www.getwsodb.com

In fact, the agency in charge recently concluded it's easy for a person to make an extra $41,000 a year simply by renting out unused items.

And depending on your situation, you could make a lot more. Some folks (those with more "stuff") have even reported earning a six-figure salary.

The best thing is it requires little work on your end. You can generate thousands of dollars… with no out-of-pocket expenses… from the comfort of your own home.

And I'll provide you with everything you need to get started.

There are dozens of other strategies, tips and loopholes I've added to the website…

Like…

- ✓ A powerful home ownership tax-deductible trick that could be worth up to $500,000 in tax savings to you.
- ✓ If you love dogs, I'll show you a unique way to get extra income from any empty space in your house. Using this technique, Sabrina H., a student at San Francisco State University, reported to one financial site she made an average of $1,200 per month last fall.
- ✓ The "Rockefeller Law Loophole," which could provide you $2,000 to $10,000 in extra tax deductions — it's an instant tax slasher many people may overlook.
- ✓ The fastest and easiest online business you can start without competing against giants like Amazon.
- ✓ And many, many more…

And right now, in the next 24 hours, I'm offering you complete access to my website.

I'll provide you with everything you need to know how to take advantage of these opportunities…

So by now, you're probably wondering how to claim access. Let me show you…

Oh, still here?

Well, that probably means you have some questions. So let me try to anticipate what questions you have… and go through the answers.

That way you're completely comfortable with this amazing way to generate thousands of dollars in additional income each and every month…

Is there a lot of "messy paperwork" that I'll need to file to begin piggybacking "Canadian Social Security"?

Answer: There will be a few forms you'll need to fill out. It should take you less than 15 minutes to get started. I've arranged my Lifetime Income website to make everything as simple as possible. It really is as easy as 1-2-3.

How long will I receive “benefit” checks’ from this piggybacking?

www.getwsodo.com

Once you begin receiving checks, you can collect this income (barring any unforeseen events) for the rest of your life. In fact, you can even pass along your account to your children and grandchildren.

Will the “benefit” checks increase over time?

There is a very strong likelihood that the “benefit” checks you’ll soon be receiving will increase over the long term. Especially when you make regular contributions to your account… which can be done for as little as 50 cents per day.

The trick, however, is to get started as soon as possible. As the saying goes, “Time waits for no one.” That’s why I urge you to get started today by clicking the Subscribe Now button below this letter.

How long does it take to start receiving “benefit” checks?

You can expect to receive your first check within two to three months after your account is set up and funded.

What happens if the Canadian government closes the loophole allowing American citizens legal access to piggybacking the Canada Pension Plan?

The Canada Pension Plan is protected by legislation that makes it very difficult to alter. In fact, any changes require agreement by the federal government, plus two-thirds of the provinces representing two-thirds of the population. In other words, it’s a higher requirement than changes to the Canadian constitution. Therefore, I personally feel that this loophole should remain available to Americans into the foreseeable future. And once you gain access, you are “grandfathered in.” That’s why it’s imperative that you set up an account immediately.

Do I need to change or renounce my U.S. citizenship to collect

Are there any age limitations?

No, there are absolutely no age restrictions. That's one of the things that makes piggybacking the Canada Pension Plan so beneficial. You can begin collecting at any age — whether you're 21 or 101.

Is this a "scam" or "get-rich-quick" scheme?

I can assure you — with 100% conviction — that the opportunity I've presented to you today is very real. And I anticipate that over time, more and more Americans will begin piggybacking the Canada Pension Plan in the same manner I've shown you today.

Are you a broker for these plans? Do I have to pay you a commission?

No, I am not a broker for these plans and I make absolutely no fees or commissions on the money you could soon be collecting. I am simply offering you the research I've spent the past six months compiling.

The only fee I'll ever make is the subscription charge from my research service.

Is the low subscription cost you see today really going to prevent you from learning how to create monthly income streams of as much as $400–4,700?

What are the minimum amounts I need to open an account?

Typically, you can get started — and open up an account — for less than $500. I also recommend you add a small amount of money to the plan — as little as 50 cents a day — in order to increase the amount of money you'll receive over the long term. I cover this topic more in depth on my Lifetime Income website.

How quickly will I get my password and special reports?

You will receive a password to the Lifetime Income website… and you'll gain access to all of the special reports I've mentioned (and a few I haven't yet) within the next five minutes when you accept the trial subscription offer I'm making today.

Is this website encrypted so I can be secure in sharing my data and credit card information?

And it's easy…

All you need to is a small amount of start-up money — as little as $250 — and some of the knowledge I'm about to share with you. Then you'll be ready to hit home runs with these penny stock picks right away…

Your "30-Day Retirement Plan"

- ***One Month and...***
- ***Three "Flash Action" Market Moves Could Be...***
- ***Your Chance to Turn $500 into $14 Million***

It's happened before. It could happen again — starting as early as ***next week...***

So will it happen to you...?

Dear Friend,

www.getwsodo.com
www.getwsodo.com

If you chose to retire just 30 days from right now, how much money would you need?

$5 million?

$15 million?

Or maybe just $1 million?

Whatever your answer is, I'll show you how you could get there.

Imagine reaching your retirement money goal in as little as one month. Starting with just $500.

That's right. I'll show you below how in only 30 days — you could have retired *rich* by any measure you can imagine.

Heck, you could have even started with $250, instead of $500.

It might have just meant you ended up with $4 million, instead of $8 million. Or $6.5 million, instead of $13 million.

It doesn't matter how much money you need to retire. You can get there in less time than you ever imagined with "Flash Action" market moves.

And it's very easy to pull off.

Unbelievable wealth could be yours with a simple, yet unknown investment strategy that's not much different than buying common, big-name stocks.

I'll explain exactly how it works in a few moments. For now, I assure you this:

What I'm about to show you is 100% legal. It's safe. It's cheap.

And it's easy.

You need only three small things to get started.

Three Simple Steps to a "30-Day Retirement"

- First, you need a tiny amount of cash
- Second, you need a bit of knowledge — which is what I will share with you today

www.getwsodo.com

- Third, you need excellent timing — and a fair amount of luck.

First, I should warn you that what I'm about to show you is not for everyone. No one can predict the future, and every string of success ends with a loser. So there is significant risk involved, but the *potential for profits is limitless*. And I would never recommend rolling all money invested from one play to another — as you'll see in just a moment.

The best thing is to take out part of your winnings as you go and continue with only some of the profits. That way, you keep most of your gains safe and play with the rest.

To show you how this could be possible, **here's a recent example of how $500 could have turned into *millions in under one month*...**

How 3 Simple "Flash Action" Moves Could Have Funded the "30-Day Retirement Plan"

When the markets opened Friday, Sept. 5, 2008, just $500 would've bought you 2,500 shares of Paradigm.

At the open, Paradigm traded at 20 cents per share.

By 11:22 a.m. that morning, Paradigm traded at 70 cents per share.

- Had you sold at 70 cents — **you would've been sitting on a 250% gain before lunchtime.**

That 250% turned your $500 into $1,750...**that's $875 per hour!**

Not a bad two hours, right?

You make one easy move in the morning, and then sell before lunch and grab $1,750 in profits!

It's the first "flash action" step to turning $500 into millions.

Yes, this is real — and in just two more stock moves, I'll show you how you could've turned $500 into millions with the "30-Day Retirement Plan"!

"30-Day Retirement Plan" Step 2

www.getwsodo.com

On Thursday morning, Sept. 11, 2008, let's say you put your $1,750 in gains from Friday back into the market.

Concord Ventures had such a great morning that it could've **turned your $1,750 into $175,000.** All by 12:27 p.m.

- **That's a gain of 9,900%!**

Just like with Paradigm, the move with Concord Ventures started first thing in the morning and ended by lunchtime.

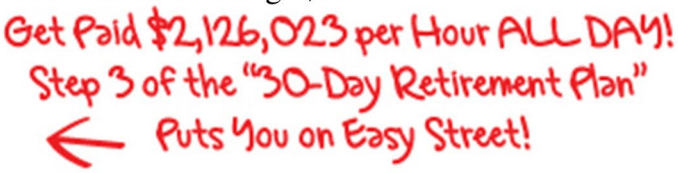

And in just two simple market moves, **$500 could've turned into $175,000** — in less than a week.

Now, I know what you're thinking — $175,000 is great, but it's not millions.

But just wait until you see what happens in step three of this amazing "flash action" path to easy riches!

Success! Here's How $500 Explodes Into MILLIONS for the "30-Day Retirement Plan"...

On Friday, Sept. 12, 2008, shares of Abviva rose an astounding 7,900%.

- If you got in and out at the right time, the $175,000 from your earlier "30-Day Retirement" play could've **exploded into $14,000,000.**

Here's how this recent "30-Day Retirement Plan" worked...

- **PDGO on Friday, Sept. 5**
- **CCVR on Thursday, the 11th**
- **And ABVV on Friday, the 12th.**

www.getwsodo.com

Yes, with timing and the right moves, it is possible to turn just $500 into millions.

In this example, all the action took place in one week with three simple "flash action" moves.

A week could change your life forever.

What Would You Do With $14 Million?

Maybe you'd quit your job and retire right away.

Or maybe you'd keep working.

You could do whatever you wanted.

Buy a house. Or pay off your current home.

Buy a fancy car. Or three. Or seven.

Travel the world. Dine in all the best restaurants.

After you were done with all that, you could even give money to family members in need — or to your favorite charities.

Sock away a ton of money for retirement or unforeseen future medical expenses.

It would be completely up to you. Because with a huge influx of cash would come something even more valuable.

Freedom.

Freedom from worry about what might happen tomorrow or next year. Freedom from ever running out of money. Freedom from whatever shackled you to a lifestyle you might not like.

Freedom to do exactly what you want, whenever you wanted to.

www.getwsodo.com

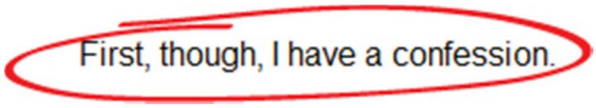

Now imagine the chance to start putting all your grandest plans, all your biggest dreams, into motion beginning with as little as just $500.

Moves like these can happen. They have happened.

They'll happen again. **The question is — will this happen to you?**

I've already shown how just three of what I call "flash action" market moves could change your life.

But I'm just getting started! Here are some more examples...

You really **don't even need $500 to become rich with these amazing little stocks.**

Heck, you could start with just $250 if you wanted to.

The key is you have to look in the right place.

Now, the gains I'm showing you don't come from the NYSE or the Nasdaq.

But that doesn't mean you have to miss out on the profit potential of these "flash action" gainers!

In about five minutes, you could get started working toward your own version of the "30-Day Retirement"!

Yep, just $250 could start you on the path to retirement riches. Simply, legally and very, very quickly.

Here's what I mean.

Your Investment of $250 Plus One Move = The "30-Day Retirement Plan" Pays You $21,871 in Just 4 Hours

On Thursday, Sept. 4, 2008, Genesis Pharma went from 24 cents per share all the way up to $21 by 1:24 p.m.

Had you grabbed shares at the open, just $500 would've bought 2,083 shares of GNPH.

www.getwsodo.com

- At $21 per share on Thursday afternoon — you would've been sitting on $43,243 in total profits.

Possible Gains With GNPH in Just 4 Hours!

Starting Amount	Total Gain	Hourly Flash-Action Wage
$250	$21,621.50	$5,405
$500	$43,243	$10,810
$1,000	$86,486	$21,620
$2,000	$172,972	$43,240

It could've made up to $43,240 per Hour!

This is less than 24 hours — heck, it's less than half a work day, and over $21,600 in easy possible "flash action" profits with just $250 to start!

Gains like this one happen *every single day*. But you have to look in the right place.

As I mentioned earlier, you'll never find these gains on the big exchanges.

The reason gains like GNPH go missed day after day might make you scratch your head.

See, most stock watchers would rather put money in blue chip stocks and hope for small gains year over year that barely beat inflation.

These people are working on a *50-year retirement plan*.

Good for them. History has shown it works.

But those people are losing out big-time!

Because they're missing all the best gains — quick, aggressive gains that are right under their nose every single trading day.

And once you start grabbing these hidden gains, you could be well on your way to "30-Day Retirement."

The 50-Year Retirement Plan vs. the "30-Day Retirement Plan"

www.getwsodo.com

Which would you choose? In as little as 30 days, "flash action" stocks like the ones I'm showing you could put you on easy street for the rest of your life.

You can forget waiting. Hoping. Trying to beat inflation.

Because the smallest, most hidden stocks out there can also be the most lucrative.

Here's why...

"Flash Action" Stocks = "30-Day Retirement" Stocks

All the amazing "flash action" gains you've seen so far come from Bulletin Board stocks.

They're the smallest of the small.

They're even smaller than your normal penny stock.

That's TINY.

But some of the companies trading on the Bulletin Board listing services are the Microsofts, IBMs, Intels and Amgens of tomorrow.

Bulletin Board stocks are the household-name stocks of the next decade.

These are the kinds of stocks that could fund an entire retirement in just 30 days. Stocks that can make an incredible $10,000 or more per hour.

And you can begin chasing your own "30-Day Retirement" with these tiny stocks today.

To get you started, I want you to accept an exclusive "flash action" trading alert I'm set to send right to you.

Inside, I'll tell you the name of my latest "30-Day Retirement Plan" target.

You need this alert so you can start on the road to "flash action" profits as soon as the markets open tomorrow.

I'll tell you all about this e-mail alert in just a minute.

But before I jump into how I hunt for huge gains from these small stocks, there are a few things I need to point out.

www.getwsodo.com
www.getwsodo.com

Bulletin Board stocks sometimes trade only a few thousand shares per day.

Big companies like Microsoft, for example, trade around 84 million shares per day.

And Intel usually trades around 70 million shares per day.

All that trading and all those available shares mean share prices really don't move very much in a given day.

But a ton of activity in a tiny stock can sometimes send the share price jumping all over the place — up and down. That's why...

- **I will teach you exactly how to safely build and monitor positions in "flash action" stocks.**

You also need to sort out which companies are real and which ones are lame and empty.

You need to dig around. Find out all there is to know. Get the inside scoop on profit margins, costs and growth.

- This is exactly what I do. I scour the Bulletin Boards for potential "flash action" companies — the strong, solid, growing companies. **I'll even give you all my information on some of the best Bulletin Board stocks today**
- **I'll tell you exactly what potential "flash action" shares I think you should buy, when and for how much. And when the time comes, I'll tell you exactly when to sell...**
- **Using my recommendations, you could profit from "flash action" moves**
- **Simply agree to receive my next alert and you'll be ready to hit the ground running the next morning when the markets open!**

I break these potential "flash action" stocks down to their atoms, show you how they work and how you could potentially make them pay for your own "30-Day Retirement."

Along the way, **you could make huge amounts of easy money, sometimes overnight.**

You've probably already figured it out — but that's why I call these amazing little stocks "flash action" movers.

Before you know it, just a tiny bit of cash could jump up to hundreds of thousands, even millions of dollars!

Sometimes, huge "flash action" gains pile up in the markets one day to the next!

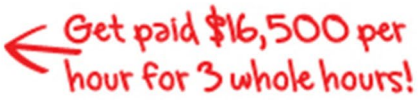

www.getwsodo.com

For example, here's an even FASTER "flash action" bonanza that occurred in the markets recently...

Turn $500 Into $336,500 in 2 Days — Faster "Flash Action" Gains!

On the morning of Sept. 15, 2008, shares of China Biopharma rose an astounding 9,900% — in just three hours!

- **That's enough to turn $500 into $50,000!**

Then — the next day — First Quantum Ventures shot up 573%.

- **That's enough to have turned $50,000 into $336,500!**

Imagine that... Starting with just $500 one morning and sitting on up to $336,500 the next afternoon!

That's FAST "flash action" market moves at work.

See how easy it could be to fund your entire retirement off just 30 days of playing the right "flash action" market moves at the right time?

These moves happen all the time. Every day!

So are you ready to start grabbing your share of these incredible gains?

It's so cheap to get started, as I've shown, that it's a shame everyone who ever bought a share of stock isn't grabbing these impressive "flash action" movers!

That begs the question...so why isn't everyone doing this?

It all boils down to Home runs versus strikeouts.

Here's what I mean...

"Flash Action" Home Runs Are So Massive, They Easily Make up for the Strikeouts

www.getwsodo.com

Famous baseball star Hank Aaron hit 755 home runs during his illustrious 23-year career.

But do you know how many times he struck out? 1,383 times.

That's almost two strikeouts for every single home run.

For every major success, he averaged two failures.

And that's pretty much how the stocks I'm writing about to you today work too.

You should expect some strikeouts. The best investors expect them.

This means you should never put money down on these impressive little stocks that you need to pay the mortgage or keep the lights on.

I'm not trying to steal my own thunder here — I'm simply talking reality.

But when just $500 could start you on the path to incredible wealth, the risk is limited.

And the home runs could *more than make up for the strikeouts*. Many, many times over.

Yes, it's true that you need precisely targeted moves to take advantage of the right three "flash action" moves to make millions.

And it's also true that amazing timing is a factor too.

It's my job to alert you to the best "flash action" opportunities — exactly the ones that could put you on your way to your own "30-Day Retirement."

See, even with all the caveats about "flash action" stocks taken into account, I cannot ignore the fact that there's money out there — money literally floating around the markets each day — that with the right information and a little determination you could grab and use to fund your dreams — maybe even use to fund a $10,000 per hour 30-Day Retirement!

Simply agree to receive my next alert, and you could start making some serious gains...FAST!

How much you could make is really up to you.

Because "30-Day Retirement" money is there for the taking!

You just have to know how to grab it!

Here's another example of the kind of money I'm talking about — and this one's the fastest

gain yet!

So far, I've shown you how a savvy investor could have made $14,000,000 in a week. Then I showed how an investor could have made $336,500 in two days!

If you thought those gains were great — this one will knock you out! It's just another example of HUGE cash that can be made from hidden, "flash action" moves in the market.

1,400% Gain in 30 Minutes — *Lightning Quick* "Flash Action" Profit

By 10:00 a.m. Thursday, Sept. 18, 2008 — shares of USR Technology Inc. had risen 1,400% since the 9:30 open.

1,400% in half an hour — easy as pie.

- **That's $500 into $7,500 all before mid-morning coffee time.**

It's safe. It's easy. It's cheap.

All you need is the right stocks at the right time.

And I'll tell you how to start today.

But before I tell you how to get my next alert and start your own "flash action" gains, I should introduce myself.

54,900 Members Read My Profit Alerts — But Here's Why They Can't Act On What I'm Offering Today

My name is Greg Guenthner.

I began my career years ago as a government reporter.

After years of traveling the east coast of the U.S. and spending time in dozens of newsrooms, I started to read the investment classics.

I quickly learned that I had a real knack for picking winning stock ideas.

It wasn't long before I ended up working for a respected financial publishing firm in

www.getwsodo.com
www.getwsodo.com

downtown Baltimore, Maryland.

Today, I lead the revolutionary small stocks newsletter, ***Penny Stock Fortunes.***

With over 54,900 monthly readers, I've pointed the way to gains like 45% in just one day and 100% in just a few months so far in 2008.

Now I don't mean to brag, I'm just telling you so you know I know what I'm doing.

I also know you're probably a market-watcher who demands gains even bigger than the comparatively small profits possible with penny stocks — even though they can sometimes rise 250% or more in days.

I know there are people out there who want to swing for the fences.

I know you exist. I know what you want.

And for too long, because I have so many readers, I had to let the "flash action" stock ideas that cross my desk slip away.

Like I mentioned before, these tiny "flash action" stocks sometimes trade very few shares per day.

If I released a "flash action" stock ticker to my 54,900 readers — the stock could go nuts. All heck could break loose. The price might even go up artificially.

And that's no good. Still, I couldn't possibly let lucrative "30-Day Retirement Plan" ideas get away.

So I recently started an elite, for-serious-readers-only letter called ***Bulletin Board Elite***.

So far in 2008, *Bulletin Board Elite* Has Returned Gains of...

- 100% in just four months
- And 45% in just ONE DAY

And as of Dec. 10, Open Positions Include...

- 243% gains on an alternative energy company in a little over three months

Now, those gains aren't bad. I'm proud of them — especially in our current market environment.

www.getwsodo.com
www.getwsodo.com

But these in-the-books gains pale in comparison to the "30-Day Retirement" opportunities I'm ready to release to you.

I want you to receive my latest alert.

In fact, you simply MUST HAVE IT to start building your own "flash action" wealth.

I'll even show you an example of how my alerts work...so you can charge right into your own "flash action" plays with all the ammunition you need.

The Countdown to My Next Flash Action Alert — Your First Step in the "30-Day Retirement Plan"

As soon as you sign up for ***Bulletin Board Elite*** you'll receive an urgent "flash action" trading alert straight from my desk.

It'll look very similar to this — a recent alert — which out of fairness to current subscribers, I have cut down to not reveal the name of the recommended company.

"Flash Action" Hall of Fame: $4,760 Turned Into $639,500. . . Then $1.52 MILLION

Hansen Natural's a giant in fruit and energy drinks.

www.getwsodo.com

4,000 shares of HANS on Aug. 18, 1995 meant a total outlay of $4,760.

By July 2005, HANS traded at $92.40 a share.

Had you sold at $92.40, your $4,760 would've been worth $369,600! That's good for a gain of 7,650%!

Then, by June 2006, HANS traded at $190.37 a share after a 2-for-1 split.

- 8,000 shares were now worth $1,522,010.
- That's more than $1.5 million from $4,760, or a lifetime gain of an absolutely staggering 31,875%.

Lifetime gains of 31,875%! $4,760 turned into $1.5 million!

You've now seen "flash action" moves at work. You've seen how just a few hundred dollars to start could turn into incredible sums.

I've shown you how to make $14 million in a week, $336,500 in two days, even 1,400% gains in 30 minutes!

So you know the stocks I target. You know the blueprint for gains.

Now it's time for you to cash in on these little "30-Day Retirement" gems for yourself...**starting with my next elite, members-only alert.**

After all, with "30-Day Retirement Plan" potential like you saw from Paradigm, Concord Ventures, Abviva and Genesis Pharma — which could have made savvy investors as much as $875, $57,750, $43,240, EVEN $2,126,023 PER HOUR!

Now, I've seen services like ***Bulletin Board Elite*** sell for $10,000 or more. There are "analysts" on Wall Street who pay thousands for these limited-audience alerts.

Some of these analysts work in hidden niches of the market, making millions per year to research tiny stocks. To them, services like mine are a leg up on the competition.

$1,750 is a fraction of the cost some "professionals" pay for potential like this.
