### ☰ The autoresponder I recommend

**Over the years, I've tested (almost) all autoresponders out there.**

The one that stands out in terms of features/pricing is **MailerLite**.

If you want to switch to MailerLite you can use **my affiliate link right here** at no extra cost.

If you do, then send the receipt and I'll unlock a 60-minute crash course to effectively walk you through the platform and show you exactly how to use all the features you'll ever need.
